British Officials Taking Families Away From Jaffa—Pitched Battle Between Arabs And Jews

Reinforcements

Forty-Eight Have Been Killed Since Disorders Commenced

JERUSALEM, May 28: (CP)—Rising Arab anti-Jewish terrorism, amounting to rebellion, caused British officials to evacuate their families from Jaffa yesterday.

A pitched battle has been in progress between military police and terrorists in the vicinity of Nablus and Tulkarem, Arab strongholds.

Great Britain has substantially reinforced her military garrison in Palestine in the effort to curb the outbreaks and prevent a major uprising.

British troops returned the fire of rioters at Kubatiah today, killing two. Officers in command reported they had suffered no casualties.

The shooting brought the death list today to four as a British policeman was wounded fatally in the stomach by terrorists here.

The Arabs are indulging in intermittent bombings. The death toll since the disorders started has amounted to 48.

FINIS FOR DA PREEM

Lost to Leroy Haynes by Technical Knockout in Ninth Round Last Night

NEW YORK, May 28: (CP)—Leroy Haynes, Philadelphia negro, scored a technical knockout over Primo Carnera, veteran Italian heavyweight, in the ninth round of their scheduled ten-round bout here last night.

Carnera was forced to quit when he was seized after ninety seconds of the ninth round with what was at first thought to be a sprained ankle but which turned out to be a paralyzed muscle of the left leg.

The fight took place at Ebbetts Field in Brooklyn and there were 22,000 spectators. Carnera weighed 265 pounds and Haynes, 200 1/2 pounds.

Miss Edith Wilkinson, who went to Vancouver as a delegate to the recent United Church conference, returned home from the south on the Prince George yesterday morning.

SULPHITE PRODUCTS

McGill Professor Highly Interesting Speaker at Gyo Luncheon

Some of the latest developments in the way of commercial by-products in the pulp and paper industry were revealed before the Prince Rupert Gyo Club in an interesting address at the regular weekly luncheon yesterday by Dr. Harold Hibbert, professor of industrial chemistry at McGill University, Montreal.

Dr. Hibbert's discourse was confined largely to the possibilities of more complete utilization of the products of sulphite pulp mills. Some forty to fifty percent of the products of the sulphite mill was in the form of cellulose such as paper, rayon and cloth.

Turning briefly to the subject of reforestation which he considered a question of vital importance in view of the way in which Canada's forests were being depleted of trees which had taken hundreds of years to grow, Dr. Hibbert made suggestions as to how slow growing trees such as Douglas fir might be inoculated from the faster growing types such as pine and the growth speeded up.

Dr. Hibbert's address, delivered in scholarly fashion, was listened to by the service club members, and guests with much appreciation and the speaker was duly thanked at the close by the president, Dr. R. G. Large. Guests included Dr. Neal Carter, Dr. W. A. Riddell, B. E. Bailey and Orme Stewart.

PROGRAM OF GYROS

Over \$600 to be Expended This Year on Playgrounds and Supervision

On recommendation of its playground committee, the Rupert Gyo Club, at its regular weekly luncheon yesterday, decided to proceed with a playground program for the season entailing an estimated expenditure of \$608.

Considerable repair work is necessary at all four playgrounds. At the Westview playground repairs will be made to fence, steps, walk and swings and a sand box will be installed. At Acropolis Hill playground merry-go-round and swings are to be repaired and a sand box put in.

City Commissioner W. J. Alder, while declining to undertake anything in the way of actual repair work, has agreed to have the city engineer co-operate with the use of relief labor in cleaning up the four playgrounds and restoring the ball ground at the corner of Sixth Avenue and McBride Street with the exception of surfacing it.

Arrangements will be completed at once with Ian Eisenhardt, director of physical and recreational education for the provincial government, for the supplying of a supervisor and assistant supervisor during July and August. Co-operation of the school teachers will also be sought with the idea of having the equipment used to better advantage and vandalism prevented.

RAILWAY BUILDING AGAIN

Evidently there is to be a new start on major railway building. A branch 100 miles in length is planned by the Canadian National Railways and the Canadian Pacific Railway also is taking steps to try to serve the same part of Quebec province. It is a sign of the times that railway extension is being seriously considered and it will be interesting to watch the moves made and see which railway wins out in the effort to serve the country. Possibly one or both of the railways may soon decide that a western outlet to the Peace country would be a profitable venture.

COMPLETE NATIONALIZATION

Complete nationalization of radio is set forth as the ultimate objective of the government in reorganizing the radio service of Canada. While that is set as the ultimate, the present plans are to improve the radio services. That is what may be gathered from the despatch telling about the report of the committee which has been dealing with the matter.

We are strongly in favor of the ultimate objective but do not like the suggestion that private stations will continue for the present, evidently much as before. However, the legislation is not yet before Parliament and we are quite ready to await developments.

What we would like to see is a system similar to that of Great Britain where all the radio is owned by a national broadcasting company owned by the state, and where the stations are kept up from the proceeds of the radio licences. We do not think the radio licences should go into the general funds of the government but should be applied direct to defraying the expense of providing good programs and broadcasting them to the people of Canada.

The bad weather of last week delayed work in the garden so there is now a good deal to do. Following a series of rains the surface soil of the whole garden should be broken up by hoeing or raking in order to prevent capillary evaporation. Those who have not yet planted out their seedlings would do well to consider doing so very soon. A number of people make it a rule not to do this until after June 1

WITHOUT A GARDEN?

when the Darwins are in bloom we get heavy rains and many of them are broken down. The long stems make staking desirable but most people consider it too much work to stake tulips.

A good many gardens have had nothing to show yet. People who miss the early gardens lose a good deal of the year. And yet there is something to be said for making

Medals Given Free

We are authorized by the National Garden Bureau of America to offer to any garden club or any other organization holding an annual flower show a bronze medal, both sides of which are pictured above, for the best collection of vegetables grown in a home garden. The object of this is to encourage competition among vegetable growers. Applications sent to the editor of this column will be forwarded to the bureau.

but most people like to have them in the ground on or about the Victoria Day holiday.

Very soon it will be time to sow perennials or biennials for next year. Among those that do well in Prince Rupert are Siberian Wallflower, pinks, delphiniums, pyrethrum, foxgloves and columbines. Some people will want to grow hollyhocks. If they are given a good start with strong plants in the early spring, they may bloom here but many have failed to grow these flowers successfully. Doubtless many other perennials will do well here but they are not generally known. We should like to know of any that are worth growing so that we may pass the information on.

The early tulips are about over but the Darwins are now at their best or very nearly so. Every year

just one garden a year. Forget the early bulbs, the arabis, the Alysium Saxatile, the Siberian Wallflowers, the doricum, the primroses and polyanthus and aricula and bend all the energies on raising annuals and late perennials. Then when the climax comes in July and August, there should be something worth looking at. For the "small formal garden" that may be the best plan but for me, I like the continuous garden from March to October, even if it is not quite as spectacular in July and August as others. But everyone to his taste, as the girl said when she kissed the cow. That is one of the enjoyable things about gardening. We can please ourselves and get a lot of fun out of it whether we succeed or fail.

I like the lofty way in which some of my semi-professional

friends look down at my humble gardening efforts. I enjoy having them criticize or damn with faint praise. It does not worry me, what they think I carry on but at the same time I am quite willing to learn, if suggestions suit me. It is only by getting information from friends that I have been able to do anything. Also I get help by swapping plants.

What I mean by swapping is not necessarily giving plants or seeds in return for other plants or seeds. If someone gives me a bunch of seedlings that I need, or a clump of perennials, I do not have to hand that person back something out of my garden. It rather spoils the effect of the gift to give something back. Often the best plan is to pass something on to some other person who needs it. In that way the garden idea is gradually extended.

It is rather difficult for some people to keep up their enthusiasm in gardening. I find it advantageous to make more or less frequent changes in the layout of beds and in the flowers grown. One season I feature one flower, another, quite a different flower, but the perennials cannot be quickly changed and such plants as begonias are always correct, no matter what the season or the conditions.

I forgot to mention peonies and iris among the plants to grow here. I like the English or Spanish Iris or any of the bulb iris in preference to the other kinds. They oc-

Sow Pinks Now

Pinks come in many varieties and colors except blue. The seeds are quick to germinate and the annual varieties will bloom this season. Perennials may also be sown now for next year's blooming.

cupy less space, make less mess after blooming and can be transplanted to new locations more easily. Peonies often take some time to get down to blooming. I am told they do better on the prairies than here. But I have seen some excellent blooms in Prince Rupert. Jack Fuller has had a fine showing of them for several years in succession.—H. F. P.

NOTES ON THE QUINTUPLETS' STEADY PROGRESS

Eighteen months ago the Dionne Quintuplets were given their first Carnation Milk. And by now the five have consumed over twenty-five hundred large tins—five hundred apiece! Just passing their second birthday, these sturdy toddlers are continuing on the milk that has nourished them so well. Pure, wholesome, super-digestible—there's no better milk for children to grow up on. . . . The Quintuplets have more than doubled their weight

since their first Carnation feedings—have developed into hearty, adorable, contented babies. Their milk, by the way, is exactly the same as that which your grocer sells. It is irradiated—adding bone-building "sunshine" vitamin D. . . . An ideal milk for babies and children—and very fine for cooking and creaming. . . . TERRACE

Arriving from Prince Rupert Friday night, W. P. Armour, W. O. Fulton, and M. P. McCaffery joined E. T. Kenney and George Little of Terrace to enjoy a weekend of fishing at Lakelse Lake, making their headquarters at the lakeside camp of Mr. Little.

Mrs. C. V. Evelt and Mrs. M. A. Burbank of Prince Rupert are spending a holiday visiting with Mrs. McIntosh at her summer home at Terrace.

Miss Mary Welch had the misfortune to break her leg. The accident was due to a slippery board out at the lake. She will likely be kept from her work as one of the teachers at the public school for some considerable time.

A steady downpour on Victoria Day completely spoiled the holiday so far as outdoor events were concerned but there was a dance in the Orange Hall which was well attended.

Mrs. John McRae, formerly of Prince Rupert and for the past few years residing near Terrace, is preparing to leave Terrace shortly for the south. She will pay a visit at Field with her brother, Thomas Oxley, formerly of Anyox, before deciding on her permanent future location.

WHIFFLETS From the Waterfront

The British Columbia coast fishermen's joint committee has proposed a price of 60c each for sockeye in this district this season. For gill net and seine caught red springs, over twelve pounds, the proposed price is 60c; under twelve pounds, 30c, and for jack springs, 5c each. For gill net caught coho the suggested price of the fishermen is 30c during July and 60c thereafter and for seine caught coho 35c until August 15 and 55c thereafter. For troll caught coho the proposed price is 7c and 8c. For mainland pinks the fishermen are asking 6c during the sockeye season and at Massett 4c. The price proposals have yet to be dealt with by the canners.

An improvement in the spring salmon run at North Island is reported. Some of the fish is coming to Prince Rupert and some is going to Vancouver and Seattle. The co-operative movement is strong at North Island.

With a total of eighty-one passengers on board, C. P. R. steamer Princess Louise, Capt. S. K. Gray, arrived in port at 8:30 this morning from Vancouver and sailed at 10 a.m. for Skagway and other Alaska points whence she is due back here next Monday afternoon southbound. Six passengers disembarked from the Princess Louise here while twelve went north from Prince Rupert aboard her. The vessel had a heavy freight cargo of about six hundred tons for Skagway. On her next voyage north, the Princess Louise will be opening the company's summer tourist schedule.

Sherry Frizzell, son of Mr. and Mrs. Bob Frizzell, has signed on the British freighter Hartington, which is to sail from here about tomorrow for the Orient via Vancouver and the West Coast of Vancouver Island with log cargo.

GREAT SEA TALE HERE

"Captain Blood," Rafael Sabitina's Immortal Story, On Capitol Theatre Screen

Rafael Sabitina's immortal tale of piracy on the high seas, "Captain Blood," comes to the screen of the Capitol Theatre here for a

three-day engagement opening tonight. Thrilling action and absorbing romance of the classic story are said to be transferred with all color and vividness to the screen version.

The picture has been produced on a lavish scale. Sixteenth century cities and villages have been reconstructed for the sets. Pirate galleons, slave ships and English and French war vessels, complete in detail, are shown in battle action. Costuming of thousands of

players has been carried out with accuracy.

Heading the cast are two young film players whose work is said to be excellent. One is Errol Flynn, English actor-adventurer, as Captain Blood, and Olivia de Havilland in the role of the noblewoman who first buys the slave and then loves him. Other prominent members of the cast of the spectacular film include Lionel Atwill, Basil Rathbone, Guy Kibbee, Ross Alexander, Robert Barrat and David Torrence.

SLASHING ITS WAY TO SENSATIONAL NEW RECORDS!

The thousands who've seen it say this great picture is worth every dollar of the million Warner Bros. spent to bring you Rafael Sabatini's amazing romance of the lovable rogue who made his name the terror of kings!

With a Lovely Woman as the Victor's Spoils! "Captain Blood" battles the deadliest swordsmen of the pirate main for possession of the beauty whose love once sent him to the torture rack!

CARELESSNESS—

that often brings UNHAPPINESS

YOU may know girls like the one on the left — at home, unhappy, while others are out enjoying life.

Often they are victims of ill health that results from unwise dieting — from eating meals that lack sufficient "bulk" to provide needed internal exercise.

Common constipation results. Too often it isn't regarded as serious. Yet doctors will tell you that common constipation can slowly undermine your health, leading to discomfort, lowering of bodily resistance, and disease.

Don't neglect common constipation.

Usually it is due to lack of sufficient "bulk" in the foods you eat. When it is, Kellogg's ALL-BRAN is a safe and pleasant corrective. Scientific tests in leading universities have shown that this delicious ready-to-eat cereal supplies the "bulk" needed to provide regular elimination.

Kellogg's ALL-BRAN absorbs moisture in the body, forming a soft mass that gently cleanses the intestinal walls. It does not break down in the system as does the "bulk" in many fruits and vegetables. So it is often more effective.

Isn't it better to use this natural laxative food in place of patent medicines? Two tablespoonfuls of ALL-BRAN daily, served with milk or cream, are usually sufficient. Stubborn cases may require ALL-BRAN oftener.

Kellogg's ALL-BRAN is not a "cure-all" — but it does correct common constipation. It is guaranteed by the Kellogg Company. Enjoy ALL-BRAN as a cereal, or cook into appetizing muffins, breads, waffles, etc. ALL-BRAN has a tempting nut-sweet flavor. Eat it regularly for regularity. Sold by all grocers. Made by Kellogg in London, Ont.

Booth Beats Borden Eight to Nil In Junior Football

With each member of the team playing well and the whole aggregation combining effectively, Booth Memorial School had a decisive Junior League football victory over Borden Street School last evening, winning by eight goals to nil.

Playing up-hill in the first half Borden put up a good defensive game and, after Ritchie had shot just past Schubert, Kihara and Currie made a neat run that forced Dybhavn to run out to clear. McLean opened the score from a free kick. Schubert crossed a fine centre but there was no forward up to convert. Cameron added a second after Ritchie had crossed a well-judged centre. Scherk headed away but Ritchie added a third. Schubert shot well after good combination with Kihara but Dybhavn caught and cleared.

Currie had a hard drive blocked by McKay. Mah saved well from Ritchie and from Hougan. From a penalty Ritchie added a fourth. Beynon and McKay stopped Currie who later shot just over. Cameron added a fifth with a fine shot. Cook and Nelson showed good form and Baker was very effective. Cameron added a sixth and seventh and, though McLeod and Scherk defended well the Borden goal fell again when a long shot from McLean beat Long who had changed.

For Borden, Mah played well in spite of the heavy score registered. Scherk, McLeod, Bill and Cook tried hard but were unable to hold Booth forwards. The Booth defence was very sound and held the Borden forwards safely while everyone of the forwards played on the top of his form. Borden forwards were unable to break through.

Borden Street—Mah; Scherk, McLeod; Cook, Long, Bill; Nelson, Kihara, Currie, Judge, Schubert.

Booth Memorial—Dybhavn; Beynon, McKay; Franks, McLean, Flewin; Cameron, Hougan, Ritchie, Baker, Gomez.

J. Carroll refereed.

Saturday's game between High School and Booth promises to be an exciting affair. Booth must win to stay in the running for the league championship.

BALL PLAY AT SIMPSON

Metlakatla Again Wins Softball Cup—Baseball Also Played

The Metlakatla ball teams both soft and hard ball, visited Port Simpson on Victoria Day to defend the Hudson Bay Centennial Celebration Softball Trophy (1934) which they won last year from the Port Simpson Athletic Club. Metlakatla was again successful and firmed the Port Simpson All Stars to the tune of 12-7.

The line-ups were: Metlakatla—W. Leighton, P. Robinson, J. O. Ryan, H. Ryan, Johnny Auckland, G. Ryan, D. Leighton and Art Mason (pitchers), Jimmy Ryan (catcher).

Port Simpson—Mather, G. White, P. Brentzen, Moody, Dr. Armstrong, MacKay (pitcher) and Wesley (catcher).

The Baseball Games

In the elimination base ball games, Metlakatla took on the Alyansh team from the Naas and won a decisive game which went seven innings to the tune of 15-6. Batteries for Metlakatla were Prebost, pitcher, W. Leighton, catcher, and for Alyansh Clayton and Guno pitchers and Morven catcher.

Port Simpson Y. P. E. A. took on the Port Simpson Athletics and Y. P. E. A. won.

In the finals Metlakatla led Port Simpson Y. P. E. A. 5 to 4 when the game was called off at the end of the third inning. Batteries for Metlakatla were H. Ryan, pitcher, W. Leighton, catcher and for Port Simpson, P. Brentzen, pitcher and J. Armstrong, catcher. What promised to be a real battle between the two teams was called off by umpire A. Reid (Port Simpson) on account of darkness after three even innings were played when Metlakatla was leading with a 5-4 score.

Tonight's train, due from the east at 10:20, was reported this morning to be on time.

SPORT CHAT

Junior Elks, Canadian National Recreational Association, Moose and a fourth team are expected to comprise the entry list in the Senior Softball League here this season. Entries will be received up to Saturday night when another meeting of the league will be held. Mondays and Wednesdays will be softball nights. The annual meeting of the league was held on Tuesday night when satisfactory reports covering the last year's activities were presented.

Trophies worth \$4500 won by Miss Betty Carstairs, British woman motorboat racer, were stolen from her Chelsea home. Miss Carstairs is now living in the Bahamas.

W. G. R. M. Laurie (Monkton Combe and Selwyn) has been elected president of the Cambridge University Boat Club in England.

Wally Hammond, Gloucestershire and England cricketer, underwent a tonsillitis operation recently in Bristol.
