Dr. Judd Tells Local Anglicans Of What Their Church is Doing In Social Field

In the course of an address Thursday night at a meeting in St. Andrew's Anglican Cathedral. Rev. Dr. W. W. Judd, Toronto, secretary for social service of the Church of England in Canada, expressed the belief that there would be a great wave of immigration to Canada during the next few years. This was a matter in which great interest was being taken Dr. Judd told of the social service being carried out by the church for new immigrants to the country. The speaker himself had taken an interest in no less than 1900 cases during the last nine months. When immigrants arrived at the port of entry, chaplains were on hand to act as guide, councillor and friend.

One tenth of the population of Canada, the speaker said, had been on relief. Arising out of this had been the problem of the single men who had been brought together in twenty-one camps stretched across the Dominion. These men were far from home and the niceties of home life. They felt that every man's hand was more or less against them. The government housed and fed them but left it at that. A fine work had been done by the church social service organization in sending men to each camp to organize social activities and de-

velop a spiritual atmosphere. (Continued on page three) Recreation Courses- 242 At

Balancing of Budget

The President of the United States suggests that he has a plan for balancing the budget and naturally the world is looking forward for the announcement in January which will let them into the secret of how to do it. There seem to be only two methods of doing this, either by collecting more revenue or by spending less. If there is some other magical method we shall all be glad to learn about it. Possibly the plan is to head off the Townsendites by levying a sales tax.

McGeer is Wise

Mayor McGeer has decided not to be a candidate at the Gyro Club forthcoming civic election in Vancouver. Evidently he has noted what happened to other mayors in other cities after they had held the office for several years. While it is quite possible Mr. McGeer would have been re-elected, it is never a sure thing and it would injure his prestige at Ottawa to be defeated in his home town. Also it must be difficult for a man to hold down two such important posi- Foord, British Empire heavyweight tions as mayor of Vancouver and member of the Domin- boxing champion, read the les- Town 0. ion Parliament.
