plan, revision of taxation and a regime of rigid economy in government expenditures became Alberta's 1936 objectives today as set forth in the Speech from the Throne read by Lieutenant Governor W. L. Walsh in opening Alberta's eighth legislature, the only Social Credit Parliament in the world.

Full traditional ceremonies attended the opening.

A measure leading to the forciples would be submitted for consideration, the Lieutenant

of Trade, in giving an address.

Reviewing the Dominion debt problem, Major Brown outlined a solution to provide retirement of the domestically held debt as it becomes due by the issuance of non-interest bearing currency which automatically would be extinguished over a fiftyyear period at a two percent annual rate.

Taxation would take care of the two percent rate which would replace the present interest paid on debts.
