Backed by Strong Wave Of Public Indignation, Great Manhunt is On

Federal Department of Justice Throws All Resources Into Quest For Mattson Kidnap-Killer—Definitely Announced Ransom Was Not Paid

TACOMA, Jan. 12: (CP)—Backed by an intense wave of public indignation at the horror of the crime, one of the greatest manhunts in the history of the Pacific Northwest is getting under way today with the diabolical kidnap-murderer of ten-year old Charles Mattson as the quarry. The Federal Bureau of Investigation is throwing every resource into the search and some of the nation's most famous criminal hunters are swinging into action.

Federal Bureau of Investigation agents are under direct orders from President Franklin D. Roosevelt to push the hunt until the quarry has been found. To aid the search, the Department of Justice has offered a reward of \$10,000 for the arrest of the brutal killer.

Although no statements are forthcoming, agents are known to be relying on bits of evidence such as the ransom notes left by the man who snatched the boy on December 27, impression of footprints and tire tracks in the snow where the body was found yesterday, a few finger prints and verbal description of the kidnapper as given by the three children who witnessed the abduction.

The Seattle Times today quoted an unnamed authority as stating that clothing of the Mattson boy had been found in an abandoned automobile at an Everett service station.

The battered body of the lad, which was stumbled onto yesterday morning by a 19-year old youth while hunting rabbits, was positively identified yesterday afternoon by Dr. W. W. Mattson as being that of his son. The body, stripped of clothing, was found lying in the snow six miles southwest of Everett. It is believed that the kidnapper, fearing to follow up negotiations for the collection of the ransom money and also afraid that the boy might be able to give information leading to his capture were he permitted to live, did the boy to death in a fit of fury. The slaying is believed to have taken place on Sunday.

It was officially announced last night that the ransom money had never been paid. The mother became prostrated with grief on learning of the cruel fate of her boy.

Public indignation runs high and there are mutterings such as that lynching is too good for the depraved killer. Indeed, some furious persons erected a rough gallows.

Vancouver Wheat

VANCOUVER, Jan. 12: (CP)—Wheat was quoted at \$1.28 1/2 on the Vancouver market today.

Two Speakers At Meeting of Labor Defence League

A large audience gathered on Monday night in the C. L. D. L. Hall to listen to speeches and to participate in a meeting at which the speakers were A. Wallin and G. Murphy. Wallin spoke on the international situation and Murphy on the local. A lively discussion took place after the speeches.

Tonight's train, due from the east at 10:20, was reported this morning to be on time.

MERGING CHURCHES

Proposal on Foot to Unite Presbyterian, United and Baptist Congregations Locally

A movement is at present on foot for the amalgamation of the Presbyterian, United and Baptist churches in this city in one church building and with one pastor. The proposal is either already under consideration by the local authorities of the three churches concerned or will be presented soon. No definite decisions have yet been reached.

The united congregation, if proposal which has been made goes through, would be controlled locally but separate rolls of the members of each of the three churches would be kept and connection would be retained with the parent church organizations.

REASON FOR DIFFERENCE

Hon. C. C. Ross Tells Why He Retired From Premier Aberhart's Cabinet

CALGARY, Jan. 12: (CP)—Disagreement over a proposed cabinet appointment planned by Premier William Aberhart led to the resignation of Hon. C. C. Ross as minister of mines. It was disclosed here yesterday in a statement by Mr. Ross.

The former minister, in the statement, said: "My resignation came about through a difference with the Premier over appointment to a government portfolio." It was not that of Hon. H. E. Tanner, selected to fill the mines portfolio in succession to him, Mr. Ross said.

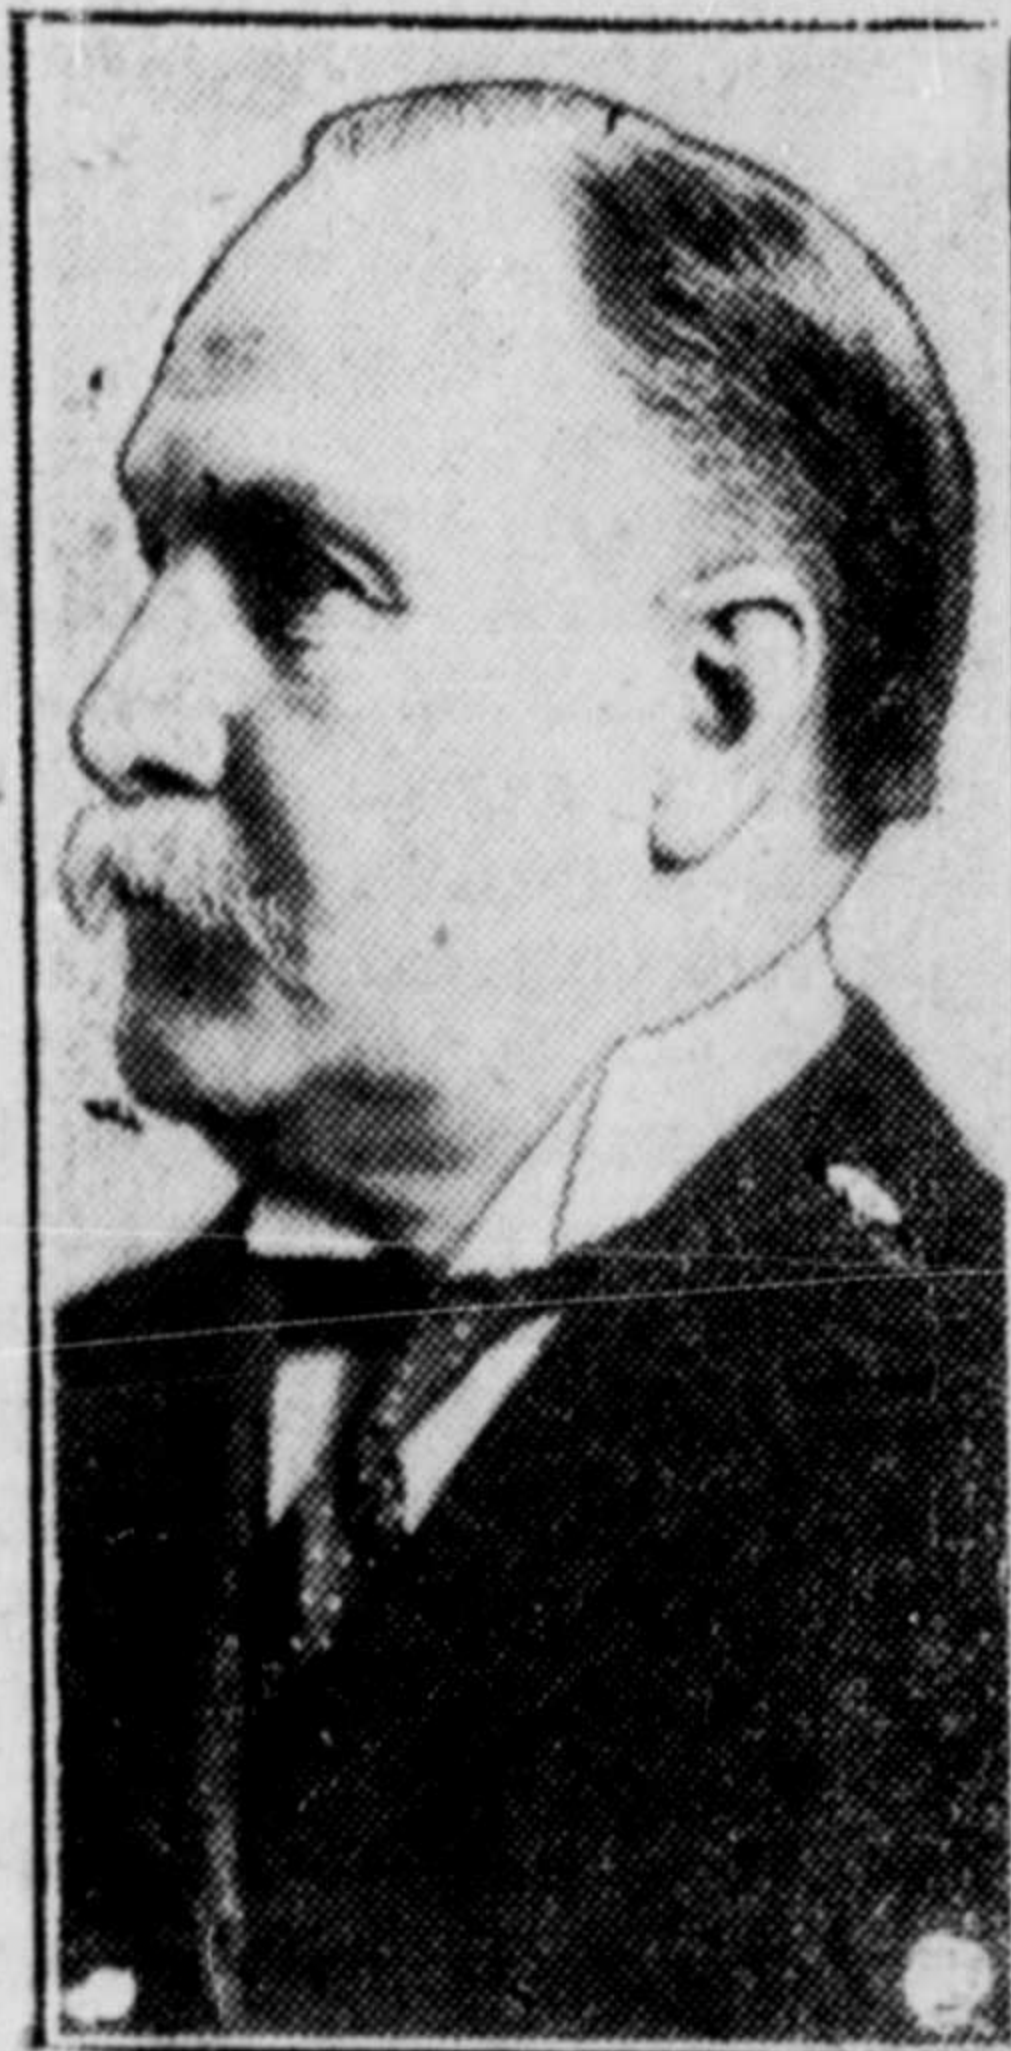

It was indicated that no differences existed between Ross and Aberhart in the administration of the Department of Mines.

Ellsworth Vines Is In Hospital

American Professional Tennis Player is Suffering from Attack of Influenza

CHICAGO, Jan. 12:—Ellsworth Vines, California professional tennis player, is at present in hospital here suffering from influenza but expects to resume his play against Fred Perry of England in Pittsburg Friday night. The onset of his illness is believed to have been at least partially responsible for Vines having lost in the three meetings he has so far had with Perry in the course of their tour.

Retires

SIR JOHN AIRD

TORONTO, Jan. 12: (CP)—Sir John Aird, dean of Canadian banking, today announced his retirement from the presidency of the Canadian Bank of Commerce. He will be succeeded by S. H. Logan, general manager since 1926. Sir John was knighted in 1917 in recognition of his services to the Dominion and the Imperial governments in wartime banking.

NEW YORK, Jan. 12: (CP)—Bar silver was down to 45 1/2¢ per fine ounce on the New York metal market today.

LEAKAGE RESULT

Five Employees of Naval Dockyards in England Have Been Dismissed

LONDON, Jan. 12: (CP)—Five men were dismissed from the service in two British naval yards today after a two-year investigation of suspected sabotage and leakage of confidential information. Four dismissals at the Devonport yards resulted from the discovery of "certain documents" in work boxes of employees it was said. The other was dismissed at Sheerness dockyard.

Officials said that the lengthy inquiry into the alleged sabotage was provoked by uneasiness in connection with rumors of numerous foreign spies operating in England.

NATIONAL GUARDS ARE ORDERED OUT TODAY IN MICHIGAN AUTO STRIKE

LANSING, Mich., Jan. 12: (CP)—Governor Frank Murphy ordered out a regiment of Michigan national guardsmen today to concentrate in Flint, Mich., scene of automotive strike riots. The national guards have been detailed to preserve peace and order.

PEACE OF WORLD GOAL OF GREAT BRITAIN IN ALL ITS DEALINGS NOW

John Bull Through 1936 Never Relaxed Efforts to Curb War Abroad Even in Crisis at Home

LONDON, Jan. 12: (CP)—Steadily, patiently, Britain through 1936 sought to bind together the slender threads of peace. Even through the crisis preceding the abdication of King Edward, with the thoughts of the Empire turned to Fort Belvedere and Westminster, Britain pressed her effort toward peace in Spain. With the co-operation

back to days before the crises of 1936. Before she began to rearm, Britain made strenuous efforts to obtain arms limitation by international agreement. The treaty of Washington and the first treaty of London checked naval expansion. In the world disarmament conference she submitted a scheme which would have halted the threatened race in armaments. The scheme failed. The disarmament conference broke down. Germany left both the conference and the League.

Again, in the early days of the dispute between Italy and Abyssinia, Britain, both in the League and parallel with the League, sought to find a peaceful solution before Italian troops crossed the Abyssinian frontier on their triumphant march to Addis Ababa. When conciliation failed Britain led the League movement for sanctions against Italy.

British public opinion desires peace wholeheartedly. Whether advocating the League system of collective security or urging "splendid isolation" the objective is the same—the preservation of peace. The average man supports the great British scheme of rearmament, not because he thinks in terms of war but because, in a world bristling with bayonets, he wants to feel secure. He supports non-aggression in Spain because

Reich Isolation Would be Ended and it Would Get Its Markets and Raw Materials Back—Would Draw Out of Spanish War and Leave Morocco Alone

BERLIN, Jan. 12: (CP)—A pledge to respect the present status of Spanish Morocco was given France by Chancellor Adolf Hitler of Germany yesterday. Hitler assured French Ambassador Andre Francois Poncet that Germany does not intend ever to question the integrity of the Spanish possession.

PARIS, Jan. 12: (CP)—The French Foreign Office announced today that the insurgent Spanish administration of Spanish Morocco had authorized French officials to visit any part of the territory and make whatever investigations of German troop infiltrations considered necessary. This is seen as an indication of lessening international tension over the alleged increase of German influence. As a result, there has been a sudden breaking of the acute tension which has bound Europe since before Christmas.

CUT DOWN ON RELIEF

Minister of Labor Rogers Feels Less Federal Aid Will be Required This Year

TORONTO, Jan. 12: (CP)—Relief grants in aid of the provinces will be substantially reduced in 1937, Hon. Norman Rogers, minister of labor, told the Canadian Club yesterday in what he called an "interim report" of the progress of the Dominion in dealing with unemployment and relief last year.

"I believe," declared Mr. Rogers, "that the reductions will be fully justified by the extension of business recovery, by the marked improvement of municipal tax collections and by the improved financial condition of the most of the provinces."

PIONEER'S MEETING

Developing Of Unuk Valley

Some Work Done Last Year And More is Contemplated

The Unuk Valley is now pretty well traversed by a pack trail which has been constructed by the British Columbia government. This season twelve miles has been added to the nineteen miles previously constructed, carrying the trail as far as the international boundary.

There are trails yet to be constructed up Sulphurets Creek and South Fork Creek and, it seems very probable that this work will be done next year as there is prospecting going on there.

Asking British Settlers

The province of Saskatchewan seems to be making a strong bid for support of the Hornby plan of British settlement and for a good share of the settlers for that province. There is no objection to settlers from a good many other countries but the present scheme is to try to attract men who would be suitable to take up farming in this country and to assist them in getting the necessary training and financial backing to establish farms of their own.

The general opinion seems to be that the Hornby plan is sound in principle, meets all objections to assisted immigration and would lead to a constant stream of immigration from the Old Country to Canada with very little cost to Canada.

It has been pointed out that some of Canada's best citizens come from countries outside the British Empire. With that we agree but we still think we can absorb a large number of British people who are willing to settle on the land and use the vacant areas of which Canada has plenty. A bold immigration policy to place people on the land or to rehabilitate those who have not made good in the dried out areas would, we feel sure, be a popular policy.

Chamber of Commerce

Evidently there is a general expectation that conditions in the country will definitely improve during the year 1937 and at such a time as this it is very desirable that Prince Rupert shall have a strong and united Chamber of Commerce that will take advantage of every business opportunity to advance the interests of the city. There are still dozens of men who are eligible to become members of that organization and whose support would prove very valuable this year.

Every possible pressure should be brought to bear to try to induce industries to establish in the city, to improve our transportation facilities such as linking up with the Peace River by rail and also linking up with the outside by highway. Increasing the business of the port should also be included in our aims. This is a great deal to work for and every additional member adds to the force of the local organization.

HOOP PLAY OFF AGAIN

Grotto Beats Lambie & Stone In Second Half Opener

Before a small crowd of fans in the Moose Hall last night, Grotto, first half winners, took the opening game of the second half of the basketball season with a 41 to 32 victory over Lambie & Stone. The Tobaccoists, playing a heavy checking game, took the lead at the start and at no time in the game was the issue in doubt.

The play was fast, although somewhat ragged, throughout, with the Grotto having the edge while the Clothiers seemed to be having trouble in finding the basket. McPhee, Ratchford and Campbell were in line form on the Grotto forward line, while Lindsay and Calderone played a fine game for the losers, getting 20 points between them.

Individual scores:
Grotto—Ratchford (11), Morgan (4), Campbell (12), Houston, Eby, MacPhee (14), Stalker, total, 41.
Lambie & Stone—Johnson (4), Santerbane (6), Dominato (2), Arney, Calderone (7), Lindsay (13); total, 32.

Intermediate Game
Moose defeated the Regiment in a rough and rugged intermediate game by a score of 33-16. The first half was close all the way with Moose having the edge in the play. The score at the interval was 11 all.

In the second half the Moose opened up and ran in 22 points to win in a walk. Husoy was high scorer with 16 markers for the winners.

Individual scores:
Moose—Greer (8), Husoy (16), Ritchie (6), Erikson, Hale, Cromp (3), Eby; total, 33.
Regiment—Burnett (3), Davis (5), Comadina (4), Miller, Nelson (2), Allen (2); total, 16.

Ladies' Game
With Croxford and Smith playing a stellar game at guard and with the whole forward line definitely "on," the Grotettes made a good start for the second half by winning out over Annettes by a score of 22 to 14.

The winners took the lead at the start and were never headed. Annettes made a desperate attempt to win in the last few minutes but to no avail. Menzies and Beale both got seven points for the Grotettes while Enid Morris was high for Annettes with 8.

Individual scoring:
Grotettes—Beale (7), Menzies (7), Croxford (2), McMeekin (6), Erikson, Smith; total, 22.
Annettes—E. Morris (8), Eva Morris (4), E. Dickens, Wilson (2), B. Dickens, Ratchford; total, 14.

Junior Game
The Junior game was fast and clean with the Boy Scouts coming out winners over the Seal Cove crew by a score of 25 to 13. Half time score was 12-1 for the Scouts. Dennis and Mackay were outstanding for Seal Cove, while Montasano snared 10 points for the winners.

Individual scores:
Scouts—Montasano (10), Eastman (2), Storie (6), Lindseth, Grimble, Lindquist (4), Christian (2); total, 24.

Seal Cove—Dennis (4), Dalzell, McCover, Rystaad, MacDonald, Geary, McKay (4), Ritchie (5); total, 13.

Referees were F. Comadina, Fred Calderone, Walter Johnson and Brick Skinner.
Timekeeper, J. Antonelli.

SPORT CHAT

At a meeting of the executive of the Prince Rupert Basketball Association Saturday night tentative arrangements were made for local players to go north to Ketchikan and New Metlakatla in about two weeks with a return series here. Later a series with Ocean Falls may be arranged. Business at the meeting of the executive, over which President Bill Stone was in the chair, was otherwise largely of a routine nature.

Bill Swift, pitcher with Pittsburgh Pirates in the National Baseball League, was born in Elmira, N.Y., 26 years ago Sunday. Bill joined the majors in 1932, coming up to the Pirates from Kansas City of the American Association. He broke into professional ball only eight years ago.

Known to Italian soccer fans as "Mister," Bill Garbutt, former English international who coaches Milan Football Club, was once sent a postcard addressed "Mister, Rome." It was duly delivered.

England's leading ice hockey weekly published a map of London for the benefit of "ice hockey players who are having their first glimpse of the largest city in the world."

Eight-ball overs are general almost all over South Africa in inter-club cricket matches but in this season's Currie Cup inter-provincial games only six-ball overs will apply.

Alan Clarke, international and Coventry rugby forward, is suffering from a septic ear and may not play again this season. He played in the first of the English rugby trials.

Al Batson, defenceman with Streatham (London) last season, has given up hockey playing for the footlights and microphone, Al being "no mean" crooner.

Ask Your Husband to Help You END A COLD Quicker

with the
**3-Minute
VapoRub
Massage**

Of course, you can really do most of this yourself. But he'll gladly help you end the misery of your cold.

Massage VapoRub briskly on the throat, chest and back (between and below the shoulder blades). Then spread it thick over the chest and cover with warmed cloth.

Already, your VapoRub has begun to bring relief—two ways at once:

1. Through the Skin. VapoRub acts direct through the skin like a poultice or plaster.

2. Medicated Vapors. At the same time, its medicated vapors, released by body heat, are breathed in for hours—about 18 times a minute—direct to the irritated air-passages of the nose, throat and chest.

This combined poultice-and-vapor action eases the breathing—loosens phlegm—relieves irritation—helps break congestion.

While you relax into comfortable sleep, VapoRub's two-way treatment keeps right on working. Often, by morning the worst of the cold is over.

Now White—Stainless

Thanks to a new process, VapoRub now comes to you in white stainless form. Only the color is removed; it is the same VapoRub—the same formula and the same effective double action.

YES, THIS FOOD ENDS YOUR CONSTIPATION

Look out for those half-sick days, when you feel listless, headachy, out-of-sorts. Your trouble may be constipation. The real cause of common constipation is too little "bulk" in meals. Your system misses its regular exercise.

Get this needed "bulk" in a delicious cereal: Kellogg's ALL-BRAN. Within the body, its "bulk" absorbs moisture, forms a soft mass, gently sponges out the system.

Why keep on feeling bad when you can feel good? Millions of people use ALL-BRAN. Tests prove it's safe and effective. ALL-BRAN is guaranteed. Try it a week. If not satisfactory, your money will be refunded by the Kellogg Company.

Two tablespoons daily are usually sufficient. Serve as a cereal, with milk or cream, or cook into recipes. Remember, ALL-BRAN also supplies vitamin B and iron.

Certainly you'd rather eat a food than take pills and drugs. Buy ALL-BRAN at your grocer's. Made by Kellogg in London.

He Keeps His Job Though Turned 70

House Painter Who Takes His Kruschen Every Day

How many painters can continue to work when they are over 70? Here is one who can—and he still does some of the most trying jobs in his trade. How does he do it? He tells us in this letter:—

"I have been in the habit of taking a few grains of Kruschen Salts in every cup of tea I have had for a great number of years. I may state that I am turned 70 years of age, being born on July 22nd, 1864. I am a house painter by trade and still at work I can work off any ladder, no matter what height, or in cradles which are hung outside high buildings. I have been asked many times how I carry my age so well, as I only look about 50. Well, I tell them all that I take Kruschen Salts regularly every day." J.S.A.

Kruschen is a combination of numerous mineral salts which assist in stimulating your liver, kidneys and digestive tract to healthy, regular activity. They insure internal cleanliness, and so help to keep the blood-stream free from impurities.

SPORTS OF COLD SNAP

Skiing, Skating and Sleighing Enjoyed in Prince Rupert Over Week-End

Prince Rupert had a week-end of real winter sports with conditions ideal for skiing and sleighing and to a lesser degree for skating. The weather was clear and cold and many spent Sunday outside. Mount Oldfield attracted quite a number of skiers while numerous others merely climbed the mountain for the outing. Although the ice was rather bumpy, skaters were out in goodly number at Morse Creek and other ponds while a few crossed to the Salt Lake. Coasters were enjoying that pastime on many streets.

A wet snow starting yesterday afternoon and turning into a heavy rain during the night ended the latest cold snap with a silver thaw which had cars and pedestrians slithering all over the icy streets this morning.

WHIFFLETS From the Waterfront

Union steamer Catala, Capt. John Muir, was back in good time at 7:30 this morning from Stewart, Anyox and other northern points and sailed at 1:30 p.m. for Vancouver and waypoints.

The herring run continues in the harbor and further catches were made last night by the seineboat Zenardi. Some of the fish are now being taken by Bacon Fisheries for kippering with the Northern Fishermen's Cold Storage plant taking some for halibut bait storage and the rest going to Nelson Bros. Fisheries Ltd. reduction plant.

C. N. R. steamer Prince John, Capt. Neil McLean, is due in port tomorrow morning from Vancouver via the Queen Charlotte Islands. The vessel left Skidegate at 6:30 last evening for Massett.

MEANING OF RADICALISM

Editor, Daily News:— It amuses me to read in the Daily Province of a few days ago Senator Arthur Meighen's address to the Canadian Club in Montreal warning Canada against radicalism and revolutionary ideals and going on to say that no institution in the world can stop it should it get too far.

What are radicalism and revolutionary ideals? One would think by reading that article that they were something very dangerous and not wanted in Canada. "Radicalism," according to the Standard Dictionary, means "something complete, constitutional, entire, essential, fundamental, native, natural, organic, original, perfect, total." A radical change, which is and could be applied to Mr. Meighen's article, means one that does not stop at the surface but reaches down to the very root and is, therefore, entire, thorough and total.

Since the majority find superficial treatment of any matter the easiest and most comfortable, radical measures which strike at the very root of evil or need are apt to be looked upon as extreme. One who carries his ideals to their furthest applications is an extremist. If this is what radicalism means, I am at a loss to know why Mr. Meighen wants to put an end to it. Perhaps Canada is much too advanced in all spheres of human activities to need deep scrutiny into its political and economic system. Or is it that it is not necessary to bother about any changes either for better or for worse. I wonder!

Strange what comes out of a little inquisitiveness into a dictionary, isn't it? A little look about makes all the difference in the world. Maybe that's why Mr. Meighen likes to swim on the surface and forget to dig down to the roots for fear of discovering something very unpleasant that needs a little radical change, eh!

GERALD PATRICK MURPHY.

PEACE OF WORLD GOAL OF GREAT BRITAIN IN ALL ITS DEALINGS NOW

(Continued from Page 1)

he does not want to be embroiled again in continental wars.

Many Difficulties

Yet, more and more, difficulties encumber the path of peace. Across the neutral belt of Poland, Germany and Russia fulminate invectives. Spain is the battleground not merely of Spanish loyalist and Spanish insurgent but of Fascist and Communist. Into this carnage, Britain has no desire to be drawn. Her objective is international co-operation throughout the world—co-operation in which all states can participate.

Eden Defines

For what, then, would Britain be prepared, if need be, to fight? Foreign Secretary Anthony Eden has defined British obligations. The arms of Britain might, and would, be used if occasion arose:

1. In her own defence and in defence of the territories of the British Commonwealth of Nations.
2. In defence of France and Belgium against unprovoked aggression, in accordance with existing obligations. (These obligations are reciprocal. They were entered into when Germany sent military forces into the demilitarized zone in defiance of the Treaty of Locarno.)
3. If a new Western Locarno is reached—in defence of Germany if she were the victim of unprovoked

aggression by any of the other signatories.

4. In defence of Iraq and Egypt in accordance with treaty obligations.

Britain might also, if she thought proper, under the League Covenant, use her armaments to help a victim of aggression. But British arms, Mr. Eden adds, would never be used in a war of aggression or for a purpose inconsistent with the League Covenant or the Kellogg Pact.

CANADIANS AND THEIR INDUSTRIES... AND THEIR BANK

MINING AND METALLURGY

Mining in Canada, now second largest of the country's industries, gives employment to 80,000 workmen and has a production value of over \$500,000,000 per annum.

As an accompaniment of this great and growing mining industry, Canada is building up a smelting and refining industry of world importance. There are now huge plants in Ontario, Quebec, Nova Scotia, British Columbia and Manitoba. These plants produce:

- Copper • Nickel • Zinc • Lead • Cobalt • Iron
- Ferro-alloys • Gold • Silver • Bismuth • Radium
- Cadmium • Selenium • Aluminum • Tellurium • Uranium

The plants give direct employment to 10,000 workers, and indirect employment to many thousands more; have a production value of \$200,000,000 per annum; purchase coal and electricity to the value of \$12,000,000; pay for

equipment, supplies, freight, etc., some \$40,000,000 per annum; and add some \$100,000,000 to the export value of Canada's mineral products, without counting the value of the gold recovered from base metal ores.

Prominently identified with the upbuilding of the smelting and refining industry of Canada from its inception, the Bank of Montreal gives this industry financial service through every stage. Thousands of workers are depositors, sharing in the safety and facilities of the Bank with their employing companies.

The Bank's services include: Commercial accounts; foreign currency accounts; financing of shipments; loans and discounts; collections; trade and credit information; safe-keeping of securities; savings accounts; money orders; travellers cheques; banking by mail; personal loans.

JOE LOUIS IS WINNER

Knocked Out Stanley Ketchell In Second Round in Buffalo Last Night

BUFFALO, Jan. 12.—Joe Louis, Detroit's brown bomber, knocked out Stanley Ketchell in the second round of a scheduled ten round bout here last night.

When English hockey fans become wearied at a slow or tiresome game they go to another part of the rink to enjoy a game of "darts" or a visit to the bar.

listen to this - -

"Friend, there be they who lightly lose
"Their all, yet feel no aching void;
"Should aught annoy them, they refuse
"To be annoyed."

And these kind of people are all too scarce. After all, one wonders whether they be so impervious to annoyance. Maybe they get annoyed like other people, but just don't show it.

In any case, nobody is ever annoyed with Albert & McCaffery's coal. When you want a fire quickly and the kindling's scarce, that's when you appreciate Albert & McCaffery's coal. When you want a fire to last and to get the most heat for the least money, that's when you're glad it's Albert & McCaffery's coal. In each case, you will refuse to be annoyed.

So, the next time you need coal, just phone 116 or 117 to Albert & McCaffery and order Nanaimo-Wellington for furnace and heater; Alberta-sootless for the kitchen range.

You deserve the best!

C. P. Davis and C. N. Hyen, noted English umpires, are reconsidering decisions to resign from positions in the Lawn Tennis Umpires' Association, taken because they were dissatisfied with the manner in which umpires and linesmen had been selected for the Davis Cup matches.
