## KING TO BE GUEST

New Ideas For Party For Leopold  
At Palace—Reception For  
Prime Minister

By MOLLIE MCGEE  
Canadian Press Correspondent  
LONDON, Nov. 1: (CP)—With  
the Lord Chamberlain's department  
considering the form of the dance  
to be given at Buckingham Palace  
on November 17 for King Leopold  
of the Belgians, the King and  
Queen decided it would be their  
private party and have arranged  
for several innovations.

It is understood the officials had  
thought of a state ball, with the  
diplomatic corps, army and navy  
officers and an opening quadrille,  
a court ball, with dozens of pretty  
young things and a royal procession  
at supper time.

As it is a dance band will play  
to the white, gold and crimson ball-  
room instead of the traditional  
military band. Their Majesties en-  
joyed the dancing. This will mean a  
change to lighter music  
for the programs.

Evening dress is to be worn in-  
stead of full court dress, though the  
Lord Chamberlain is still inclined  
to insist that the men wear white  
waistcoats and breeches rather  
than ordinary evening dress. There  
is also bound to be some disap-  
pointed dowagers for only about  
100 guests will be invited, less than  
those who attended Coronation  
dinner balls.

Another large recent event was  
the reception in honor of the  
prime minister by Lady Londonderry  
at Londonderry House in Park  
Lane Tuesday night, the eve of the  
opening of Parliament. At one  
time Lady Londonderry's reception  
for the prime minister was an en-  
dowed affair and the great political  
social event. It has been several  
years since social and political Lon-  
don has met at a "Londonderry  
crash" in the historical house fam-  
ous for treasures of art and sculp-  
ture.

With such events current London  
is preparing for the most brilliant  
season of evening affairs since the  
war. Jewelry, long hidden in vaults,  
taken out and remodelled for the  
Coronation, will appear again.  
Sparkling diamond tiaras, gleaming  
necklaces and bracelets, plastrons  
of fabulous value, heavily-encrusted  
with rubies and emeralds from  
many climes, will deck the latest  
costumes.

The fashions shown in London's  
exclusive dressmaking houses make  
use not only of most striking colors,  
sequins and metallic embroidery  
but frequently employ extensively  
the elaborate shirring, draping,  
bunching and stiffening of luxu-  
rious materials that appeared in  
party dresses of historically-festive  
times.

The bustle and crinoline are not  
appearing only on the stage but al-  
so in the ballroom. The Duchess  
of Kent has worn a wide-skirted  
crinoline gown with a becoming  
off-the-shoulder decolletage to  
several private parties.

It is due to the interest of the  
Queen and the young royal Duch-  
esses and to the fact that London's  
social round is rivaling that of  
Paris that the Empire metropolis  
is becoming more and more impor-  
tant as a fashion centre.

Whether or not London can  
launch evening dress millinery—if  
you please—is a question among  
the city's most dictatorial proprie-  
tors who still request women to at-  
tend the smart night clubs and cab-  
arets without hats.

Molyneux and Victor Stiebel are  
the advanced designers. Molyneux  
showed several varieties of even-  
ing hats in his show. One was a  
Merry Widow of black felt 18 inches  
long and lined under the brim with  
black sequins. Stiebel's are equally  
ornate.

## Argentina Frost Reports Result In Wheat Jump

damage to the Argentina crop.  
Chicago prices were fractionally  
higher.

tative to G.O.P. National Body

man, prominent Seattle publisher  
and former member of the Inter-  
national Fisheries Commission, was

ington succeeding Frank Burns.

## Boston Balking At Meat Prices

Housewives Turn to Fish And  
Vegetables to Balance Menus

BOSTON, Nov. 1: (CP)— Bos-  
tonians are face to face today with  
the alarming proposition that  
beef is becoming too expensive to  
eat and that hi-jackers are plun-  
dering precious shipments of meat  
as they do liquor and furs.

Steaks and beef cut prices are  
so high that restaurants report  
they lose money every time they  
serve a choice tenderloin. Market  
men say good corn and milkfed  
stock have become almost a scar-  
city commodity. Prices have jump-  
ed more than 30 percent over last  
year in many instances.

Housewives are turning to vege-  
tables and fish to budget their  
menus. Instead of buying thick  
slices of sirloin, top of the round  
and roast cuts, which now are  
and will continue to be alarm-  
ingly high, especially in New En-  
gland, the housekeeper has been  
ordering lamb, veal, poultry and  
native turkeys.

## Vancouver Stock Market Is Active

at \$3.50 to \$4.10, and cows at \$2.50  
to \$3.50.

## RAZE OLD LANDMARK

ALDERSHOT, Ont., Nov. 1: (CP)—  
One of the district's oldest land-  
marks, a frame house on the Tor-  
onto-Hamilton highway near here,  
is being wrecked. The 12-room  
structure was built more than 100  
years ago by Joseph Lyons on an  
estate of 112 acres.

## NO NEED OF COMMISSION

Bennett Criticizes King Govern-  
ment—Probe Unnecessary—De-  
plores Removal of Magazine  
Ban

VANCOUVER, November 1:—Ad-  
dressing a Conservative "family  
gathering" at the Auditorium here  
Saturday night, Rt. Hon. R. B. Ben-  
nett, former Prime Minister and  
now Leader of the Opposition, de-  
clared that the Rowell Royal Com-  
mission on Dominion-provincial re-  
lations was unnecessary. There was  
nothing which it would do that  
could not be just as well handled  
by direct representations between  
the provincial governments and Ot-  
tawa. He suggested that it was a  
means of the government evading  
its responsibilities. All the infor-  
mation the Commission would ob-  
tain was already readily avail-  
able.

Mr. Bennett criticized the Cana-  
dian-United States trade agree-  
ment as negotiated by Premier  
King. Particularly he criticized the  
action of the government in rais-  
ing the ban on United States mag-  
azines. This duty, imposed by his  
government, said Mr. Bennett, had  
brought \$300,000 revenue a year  
but, what was more important, had  
shut three quarters of a million  
American magazines from this country.

ment of copyright laws in con-  
nection with the use of a radio  
script. They are to appear today for  
sentence and are meantime out on  
\$1000 bail.

## LIVING IN NORTH HIGH

Fruit, Meat, Potatoes, Water, El-  
ectricity Are Costly; Rents  
Are Low

LETHBRIDGE, Nov. 1: (CP)—  
The cost of living in Dawson City  
Yukon, famed for the gold rush  
of '98, is high but does not seem  
to worry the hardy inhabitants.

On a 3,000-mile aerial assign-  
ment, from Lethbridge to Dawson  
a Lethbridge Herald reporter, J.  
St. Claire Rivers, learned what is  
meant by the "high cost of liv-  
ing."

"Apple Jimmy," a Greek fruit  
dealer and a famous character  
during the gold rush days, who  
sold apples and oranges in the  
dance halls at \$1 each, told of  
present costs. He still runs a fruit  
store in Dawson, his wares brought  
in from Vancouver.

Fruit is the most expensive. Can-  
teloupes today sell for \$1 each;  
oranges and peaches, three for \$1;  
plums three for 25 cents. Potatoes  
sell at \$14 a sack and meat at 50c  
a pound, regardless of the cuts.

House rents are cheap, \$10 a  
month, but water is costly, \$10  
a house a month, and electricity is  
25 cents a kilowatt. Telephones  
come high, too. A party line costs  
\$10 a month; a private line \$20 a  
month.

Cigarettes are sold in packages  
of 50. The cost is 75 cents a pack-  
age.

There is no draught beer in  
Dawson and no permits are needed  
to purchase liquor. Beer sells at 50  
cents a pint and \$1.00 a quart.

### WANT BODIES MOVED

HAMILTON, Ont., Nov. 1: (CP)—  
Application has been made to  
remove eight bodies from the old  
cemetery here. The property, unused  
since 1895, has been purchase-  
d by Dominion Foundries and Steel  
Company Limited.

## Trades Unionists Are In Session

Meeting in Victoria to Prepare Sug-  
gested Measures for Submission  
to Legislature

VICTORIA, Nov. 1: (CP)—Nearly  
two hundred delegates representing  
various British Columbia trades  
unions gathered here at the end of  
the week to prepare a trades union bill  
for presentation to the Legislature.  
A draft bill, dealing principally with  
organization, was submitted by  
Harold Winch C.C.F. member of the  
Legislature for Vancouver East.

Last night the delegates from  
the various labor organizations  
throughout the province approved  
the draft plan of a Trades Union  
bill to be presented to the gov-  
ernment tomorrow asking enact-  
ment into the provincial statutes  
and compelling employers to re-  
cognize the right of employees to  
organize unions. The bill, drawn  
up by the Trades Labor Congress  
of Canada, would provide penalties

on organization.

## ISOLATING OF RUSSIA

Spanish Civil War Non-  
Intervention

## Floods Halt Fighting

British Steamer Sunk by Insurgents  
Off Spain—All Crew Saved

LONDON, Nov. 1:—Four nations  
are moving to isolate Russia if she  
persists in her refusal to enter the  
proposed British-French agreement  
whereby belligerent rights would be  
granted General Francisco Franco  
and his insurgents in connection

unteers from both sides in the  
Spanish civil war.

## Floods Halt Fighting

MADRID, Nov. 1:—Flood waters  
are interfering with military activi-  
ties of both sides in the Spanish  
civil war with the result that there  
has been an easing up in the con-

washed out, making it impossible  
to move artillery into positions.

## Sink British Ship

LONDON, Nov. 1: (CP)—A Brit-  
ish freighter, the Jean Weems was  
sunk and sunk 16 miles off the  
coast of Spain Saturday by insur-  
gent planes. All the crew were  
saved. The vessel, which was bound  
from Marseilles to Barcelona, is de-  
clared to have had "legal cargo"  
on board.

A Daily Herald dispatch from  
Barcelona intimated that an Ital-  
ian-made plane piloted by Bruno  
Mussolini, son of Italy's Premier,  
might have been responsible for the  
bombing of the merchantman.

Foreign Secretary Anthony Eden  
told the House of Commons today  
that the government had lodged a  
strong protest with the Spanish in-  
surgent authorities over the sink-  
ing of the Jean Weems. As the  
battle cruiser Hood sped to Barcel-  
ona to investigate the defiance of  
the anti-piracy accord, Eden indi-  
cated that Anglo-French Mediter-  
anean reinforcements might be  
made as a result of the bombing.

### HAS LOST FACE

Japan has already lost "face" in the war against China simply through inability to drive the "hordes of Chinese soldiers" from Shanghai in two months of fierce fighting. According to a writer in the New Republic, the Japanese could not imagine a Japanese army being held by the more or less unorganized and untrained Chinese forces. They felt themselves invincible and now they find that they are not. The Chinese have learned a most important lesson and that is that they are able to stand up against armed Japanese.

The writer of the article says the chief danger is that China may become too confident and abandon the strategy which was planned. It was to fight and retreat, drawing the Japanese farther and farther into the country until their lines were pulled out thin and vulnerable. In the meantime, the Japanese are using up valuable men, guns and ammunition and spending much money in carrying on a war which is leading them nowhere.

What Japan hoped for and confidently expected was a quick and decisive victory which would give them control of the country and enable them to dictate terms. This hope is not being fulfilled and the likelihood is that it will not be fulfilled. The final summing up of this writer is that, even if Japan does win, she loses anyway. She may even dictate terms of peace and occupy half of China but she will end up so weak that her future is in jeopardy. And then there is the uncertainty of Russia.

### JAPANESE MIGRATION

While Japanese have always been ready and willing to come to this coast they do not seem to care to settle in Manchuria or Korea. China is already overpopulated so that country can hardly become an outlet for Japanese emigrants. All Japan can hope for is to make the Chinese hewers of wood and drawers of water for their Japanese masters. Evidently the Chinese know this and the knowledge is the chief inspiration giving them courage to defend their country.

It has been suggested that, if Japan should conquer China without great difficulty, she would seize islands on the coast and gradually extend her island kingdom to include possibly some of the islands now under European control. Evidently part of her plan is to commence the work of driving Europeans out of the Orient.

With Britain not prepared and with United States pretty well imbued with the neutrality idea, there is no sea force to prevent Japan doing as she likes with her navy but the Chinese army is at present the stumbling block. It has shown surprising strength and that sacrificial effort may prove to be the turning point in the Orient which will curb the growing and dangerous power of Nippon.

### WAS IT MANIPULATED?

People are wondering whether or not the recent stock depression was manipulated by large industrial forces that are opposed to the policies of President Roosevelt. There seems to be little change in commodity markets or in the production of industrial plants, so far at any rate. It is just possible that the Roosevelt policies had nothing whatever to do with market conditions but that international uncertainty was the ruling factor.

# "It's great to have a steady job"

says **TOM LANG**

"THREE years ago I was getting only two months' work a year. Kept my missus scratching to get us enough to eat and a few clothes for the kiddies. But now that I'm working steady our troubles are over. And the way I figure it we're helping a lot of you other boys around here, too. Jack Mills works in a shoe factory and we've bought new shoes for the whole family in the last two months. Bill Thomas is a cutter; Henry Jameson works in a textile plant — and we've been able to buy some badly-needed new clothes. We've done a bit of painting — Dick Morris works in a paint factory. We've bought some new furniture for the boys' room and it was made by the people Sid McRae works for.

"No wonder you fellows have steady jobs, too, because there are 33,000

others at work in the same industry as myself and we are all spending money on the things you other men make.

"Or look at it the other way. I work in an automobile plant and nine men on this street have bought new cars this year. That's why I'm making steady money and it has a whole lot to do with why you are, too!"

Tom Lang is right, but he might have carried his conversation a step further. Canada's busy factories are buying millions of dollars worth of raw materials and machinery each year and that means a steady demand for the products of Canada's farms, forests, factories and mines.

Healthy, growing industries are vital to the welfare of Canada; a personal benefit to every Canadian.

There are 18,000 workers in Canada's automobile plants, and 15,000 employed in the 202 parts manufacturers' plants. An average of four to a family means over 130,000 people whose prosperity depends in whole or in part on the activities of the motor car builders. Add as well, the employees of railways who live by traffic and you have a huge cross-section of Eastern Canada — a group of people who contributed much of the \$40,000,000 spent last year for Western farm products. Therefore, all Canada, West as well as East, is vitally interested in a sound and well-supported Canadian Automobile Industry.

For statistical and further information about this industry, write to Automotive Industries, 1000 Lansdowne Building, Toronto.

Too much play at the wheel is said to be the cause of a great many auto accidents.

"Have you anything to say before I pass sentence on you?" inquired the judge.

"Yes, your honor. I should like you to have lunch first."

A certain colonel was transferred to a new command.

On reaching his depot he found stacks of completely useless documents accumulated in the archives of his predecessor.

Wishing to get these things in order he wired to headquarters for permission to burn them.

"Yes, but make copies first," was the reply.

With Captain Paul Armour in personal charge, the Armour Salvage Co.'s general service boats Daly and Pachena with derrick scow left early this morning for Hudson Bay Passage, Dundas Island, to turn over a scow which capsized some two weeks ago when it filled with water. The scow was laden at the time with five hundred tons of clamshell which was to have been delivered to Seattle. After being righted, the scow will be re-loaded with more clamshell. The salvage outfit is expected back tomorrow.

Dr. H. N. Brocklesby of the Prince Rupert Fisheries Experimental Station staff will sail Friday night of this week on the Princess Adelaide for California on a three weeks' trip to study latest methods in fish oil and fish meal production. He will be accompanied by E. E. Kuchel of Australia who is spending a few months here on fisheries research work for the Australian government.

Word has been received at the Prince Rupert Fisheries Experimental Station to the effect that Dr. W. A. Riddell, who was taken to Vancouver ten days ago for special medical treatment, is making definite improvement. After a consultation, however, it was decided that he would have to take at least two months' complete rest and, with that end in view, he will probably go to California.

Union steamer Catala, Capt. James Findlay, arrived in port at 8:15 last evening from the south and sailed at 11 p.m. for Stewart, Anyox and other northern points whence she will return here tomorrow southbound.

## Hallowe'en Was Quiet In Rupert

Boys Who Had Soaped Downtown Windows get Mops and Hot Water to Wash It Off

Observed on Saturday night, no serious pranks marred Hallowe'en in Prince Rupert. The police frowned on the rolling of log barricades on certain streets but, fortunately, these caused no mishaps although they might quite easily have done so. No false alarms were turned in to the fire department. Officers rounded up some boys who had soaped store windows on Third Avenue and provided them with mops and buckets of warm water with which to wash the windows so, what was designed as a prank, meant doing some work before the gaze of the public.

## Madrid's Babies Thriving On War

Birth and Death Rate Declines  
But Children Better Housed  
And Fed

MADRID, Nov. 1: (CP)—Babies born amid shell fire in the war-torn capital thrive under the hectic conditions. Madrid has more babies under a year old now than it did in normal times. The birth rate has declined somewhat but the infant mortality rate has declined much more, due to wartime health and protection measures, officials explain.

More than 50 infants are born every day now. Since the outbreak of civil war July 18, 1936, 22,200 babies have been born at an average rate of 1,600 monthly. The normal birth rate was 1,750 monthly.

The decline is explained by the emphasis put on evacuation of expectant mothers, thousands of whom are housed in nursing homes in less dangerous areas. But, while infant mortality was 28 deaths in 1,000 annually in pre-war days, it has been reduced to 18 or 20 percent 1,000 now.

Sixty thousand children under five years old have been placed under supervision of the Institute of Child Care, with state feedings and regular medical attention. Madrid's war babies face no prospect of clothing shortage because stores are stocked high and children's clothes still sell at normal prices.

Bob Burns and Martha Raye In  
"Mountain Music." Capitolians  
To Play "Show Boat" Music

The new and popular comedy team of Bob Burns and Martha Raye comes to the screen of the Capitol Theatre here at the first of this week in "Mountain Music," a gay story of love among the hill-billies. In order to stop a feud between their families, Burns is supposed to marry Terry Walker. However, he gets hit on the head, forgets the wedding and winds up with Miss Raye. Mountain music, played by a real hill-billy band is one of the features of this picture, the cast of which also includes such character actors as George Hayes, Jan Duggan, Fuzzy Knight, Rufe Davis and Spencer Charters. The locale is the famous Ozark Mountains.

Featured on the stage in this first of the week program will be the Capitolians, under the baton of Dr. H. N. Brocklesby, making their first appearance of the season. They will be presented once monthly during the winter. Their opening program will feature "Show Boat" with Miss Barbara Daniels and Len Cripps as assisting vocal artists.
