Sea Battle Anticipated—Tokyo Newspaper Expresses Fear Of Air Attack by Soviet Planes

SHANGHAI, Sept. 9: (CP) — Chinese forces continue to fight doggedly against repeated efforts of Japanese troops to sever their lines.

In the vicinity of Whangpoo, the Japanese claimed to have made an advance of half a mile yesterday.

A detachment of four thousand Japanese is reported to have been wiped out by a Chinese ambush west of Peiping.

Three shells crashed directly in front of the United States consulate today, seriously injuring three Chinese civilians and one British Sikh policeman.

The Chinese, it is said, plan to energetically fight the projected coastal blockade of the Japanese.

Shipping is Warned Another warning has been issued to neutral shipping to keep clear of Japanese naval concentrations.

The Chinese struck a new blow at the Japanese navy by blockading the upper Yangtze River with a barrier thirty miles east of Nanking.

In Tokyo yesterday the newspaper Nichi-Nichi expressed fear of Soviet air attacks upon Japan which would leave death, devastation and destruction in their wake.

The upper house in Tokyo yesterday passed the new \$600,000,000 war budget.

Neither Nation Will Be Present At Parley On Submarine Piracy

Suggests That Question Should Be Handled By Non-Intervention Committee—Meeting Will Go Ahead Just The Same

ROME, September 9: (CP)—Italy today declined an invitation to confer with eleven other powers on ways and means to stop Mediterranean submarine piracy and suggested to Great Britain and France that the question be placed in the hands of the Spanish non-intervention committee.

Germany acted in an identical fashion. Italy said that the Russian charges that Italian submarines had sunk two Soviet steamers made Italian participation in the Mediterranean conference impossible.

London reported that, despite the absence of Germany and Italy, the conference will go ahead. Foreign Secretary Anthony Eden and Admiral Lord Chatfield flew to Paris this afternoon enroute to Nyon, Switzerland.

Addressing the Nazi Congress in Nurnberg yesterday, Chancellor Adolf Hitler suggested that the whole question of submarine activities in the Mediterranean be referred to the Spanish non-intervention committee.

### WHO CAN FORESEE?

At the Good Roads convention in Nanaimo opinion was expressed as to the development of northern British Columbia. This is an indication that the importance of the north is beginning to seep into the consciousness of the people of the south.

In the past British Columbia has been looked upon as a strip of territory roughly speaking along the valley of the Fraser River and in the Okanagan and Kootenay together with the southern end of Vancouver Island. Beyond that was practically a terra incognita. Prince Rupert had a boom just before the war but it died out and the possible importance of the north seems to have died with it. People here will be glad to know that once more the importance of the north is being recognized and being mentioned at a southern convention by a resident of the south.

### BIDDING FOR POWER

The only objection we have been able to see to the Pattullo Bridge at New Westminster is that it is something that may possibly give the opposition an opportunity to bid for power. We remember it was during the time when the present Premier was minister of lands that he initiated an irrigation scheme for the interior to provide water for the farmers in the dry belt. It was an excellent scheme and it meant an immense lot to the people of the districts affected. The money was raised on the security of the province and expended and the beneficiaries bound themselves to repay it over a term of years. But, like many other government aid schemes, those who benefitted scorned the idea of repaying. They got behind with their payments and at a subsequent election the other party candidates came along with a proposal to abolish the water dues. Naturally they were elected.

At New Westminster there is already a movement afoot for the abolition of the tolls by which the Pattullo Bridge was financed. Possible candidates for office are already urging it and if nothing is done before the next election, the opposition candidates will be roaring their heads off at the injustice of making people pay tolls for crossing a bridge.

### NEEDS ARE MANY

Prince Rupert's needs are many. She needs more and better roads, more police protection, more sewers, new schools, more houses, more business and lots of other things. The city is like all other places in regard to needs. All these things have to come gradually as the finances permit. One of the latest needs is seen to be a new museum building. Securing these things often depends on

## CAREER IS TURBULENT

New Deal Candidate for New York Mayor Used to Scraps

NEW YORK, Sept. 9: (CP)—In a turbulent career, Jeremiah Mahoney, New Deal candidate for mayor of New York, has proved his capacity in many city and state posts and on the bench. Not the least of his scraps have come in his two regimes as president of the Amateur Athletic Union.

In 1935 he resigned as head of the athletic body in protest against United States participation in the Berlin Olympic Games of 1936. He claimed a true sportsman should boycott a country that persecuted Jews and Catholics. He lost his fight but last December, when the games were over, he was again elected president in a victory interpreted as a personal vindication.

In his youth, Mahoney was a star athlete. In 1897 he competed in athletic meets in both Canada and the United States, winning high-jump championships in both countries. He was four times all-round amateur athletic champion of New York City.

In 1928 he threw up his \$25,000-a-year judgeship of the New York Supreme Court because "it was too quiet."

"I wanted to get into the fights of the world," he said. "I have resigned more jobs than most men and the answer is that I am an impatient, restless Mick. When I find that I have mastered a job, I tire of it."

Born in New York City, Mahoney graduated from the College of the City of New York and taught in the public schools while studying law at night. At the age of 24 he was admitted to the bar. He served as a judge of the court of general sessions from 1913 to 1923, during which time he was said never to have had a decision reversed. He was a state supreme court justice from 1923 to 1928.

## ISLANDS PIONEER IS DEAD

Thomas Bradley of Tow Hill Passes Away at Age of Seventy-Five Years

MASSETT, Sept. 9:—Thomas Bradley, one of the real pioneers of the north shore of Graham Island, died at Massett recently at the age of seventy-five years. He was well known in the early days in Prince Rupert and along the line of the Canadian National Railways.

The late Mr. Bradley was a native of Yorkshire, England, his boyhood having been spent on the Harewood estate, now famous as the home of the Princess Royal, sister to King George VI. After serving his apprenticeship, Mr. Bradley emigrated to Canada in 1882 and for several years was engaged in railway construction in the Lake of the Woods and Winnipeg districts, later home-staying in the Lake Manitoba district north of Winnipeg. In 1911 he came to the Queen Charlotte Islands and took up land between Tow Hill and Rose Spit. He lived on his ranch until about two weeks before his death.

Mr. Bradley is survived by his widow, one son, Herbert of Massett, and four daughters, Mrs. Taylor of Oak Point, Manitoba; Mrs. T. B. Donoho of Tow Hill; Mrs. E. W. Singer and Miss Jessie Bradley of Massett.

## FIGHT FOR DEMOCRACY

Mrs. Beekie Ewen Addresses Public Meeting in Regard to Spanish and World Situation

It was rather a slim gathering of possibly about sixty persons that turned out last night in the Moose Hall to hear Mrs. Beekie Ewen, labor woman orator from Vancouver, speak on the Spanish and world situation in the course of her campaign for the purpose of raising funds to provide comforts for Canadians serving in the Spanish civil war on the side of the loyalist government. Considering the smallness of the crowd, the collection totalling \$27.75 was considered satisfactory.

Mrs. Ewen spoke to a large extent along the same lines as when she was heard here previously two weeks ago, developing the subject of the Spanish civil war into the possibility of a world conflict between similar contending forces—on the one hand those who stood for progress along socialistic lines and the welfare of the common people as a whole and, on the other, the small but powerful predatory group which sought by any means to preserve the capitalistic system for its own interests.

The ruthless invasion of Ethiopia by Italy, the acts of aggression of Germany, the Spanish civil war and the arrogant campaign of Japanese Fascism in Japan Mrs. Ewen described as "merely little rehearsals" of what the next world war would be like. Those who had professed to be defenders of democracy in 1914-1918 were the same people who were responsible for the conflicts of today. It was now admitted that desire for coal, iron and natural resources on the part of the predatory interests had been really responsible for the Great War.

### Unity of Common People

Mrs. Ewen urged unity of the laboring classes and the forces of true progress. It was in countries where these elements were divided that Fascism had arisen. Often behind honeyed words of hypocrisy and delusion were to be found the clammy hands of the munitions magnates, the big industrialists and the financiers. Fascism, the destroyer of the labor movement, culture and liberty through regimentation of nations, could not live without war. This had been illustrated in Italy, Germany and Japan. The importance of undivided support of democratic movements was emphasized by the speaker. The same thing as had happened in Spain might occur even in Canada in which Dominion the seeds of Fascism could be seen. All sections of the labor movement, farmers, middle class people and little businessmen should unite so that the rise of Fascism might be thwarted. "We must stand on guard for democracy, progress and all the things we hold dear, not yielding an inch to the Fascist interests," declared Mrs. Ewen.

Discussing the Spanish situation, Mrs. Ewen described General Francisco Franco, commander-in-chief of the insurgents, merely as the pawn of Hitler and Mussolini who sought to gain control of Spain, with its natural resources and strategic situation, in order to advance the interests of Fascism. Similar was the motive which actuated Fascist Japan in its present cruel campaign in China. However, Japan was not finding the campaign as easy as might have been expected. It was running into the snag of a more united China.

Mrs. Ewen made an appeal to democratic nations to stretch out the hand of comradeship to the Spanish and Chinese people. The best sons of the nations, fired with ideals of democracy and liberty, had joined the international army of anti-Fascism in Spain. These included eight hundred Canadians whose intention it was to make Spain the tomb of Fascism. Already thirty-one had died in service. To them a debt of gratitude was owed. The meeting was presided over by George B. Casey.

AND YOU SAY IT GETS CLOTHES 4 TO 5 SHADES WHITER WITHOUT SCRUBBING OR BOILING AT ALL? ABSOLUTELY! WAIT AND SEE.

IT'S TRUE! ONLY 15 MINUTES' SOAKING AND THESE CLOTHES WASHED WHITE AS SNOW. JUST A FEW QUICK RUBS ON THE EXTRA DIRTY SPOTS... THAT'S ALL!

THAT NIGHT. SAY, YOU LOOK COOL AS A CUCUMBER... DIDN'T YOU WASH CLOTHES TODAY? OF COURSE, DEAR. BUT I'M THROUGH WITH WASHBOARDS AND HOT WASHBOILERS... THANKS TO OXYDOL.

### AT LAST! A "NO-SCRUB, NO-BOIL" SOAP That's Safe as Can Be for Colors, Hands...

Millions of wash-weary women are finding relief this amazing way. For here's a "no-scrub" soap that's really safe! A soap that soaks out dirt in 15 minutes... yet banishes forever the fear of faded colors and rough, red hands! OXYDOL was perfected by 'the makers of gentle Ivory soap, at the cost of \$1,000,000. Combining speed and safety in an utterly new way, it does these 4 amazing things: (1) Soaks out dirt in 15 minutes, without scrubbing or boiling. Even grimy collar bands come snowy white with a few quick rubs. (2) Cuts washing time 25% to 40% in tub or machine. (3) Gets white clothes 4 to 5 shades whiter, proved by scientific Tintometer tests. (4) Yet so safe that every washable color comes out sparkling, brilliant, fresh. And hands stay soft and lovely. Even sheer cotton prints washed 100 consecutive times in OXYDOL suds, showed no perceptible sign of fading. It's economical, too! Tests show that, cup for cup, one package will go 1/2 to 1/3 again as far as even the latest soap chips on the market. One package often gives twice the suds—does twice the work—lasts twice as long as less modern soaps. Quit scrubbing your life away! Try this new safe "no-scrub" soap and end the drudgery of washday. ### TEEN AGE ACTIVITIES

Prince Rupert Gyro Club Considers Helping Them—Social Functions Coming Up

The Prince Rupert Gyro Club, at its regular monthly business luncheon yesterday, considered a proposal whereby the club might sponsor activities especially designed for the guidance along healthy lines of teen age boys of the community. The need of special attention being given to such boys was emphasized. A special committee consisting of Dr. R. G. Large, Dr. H. N. Brocklesby and W. P. Stone was appointed to go into the matter and present a report to the club a month hence.

The dance to be held by the club on October 29 will take the form of a public Halloween masquerade ball. It was decided, W. W. Watts will be convener of the event.

A club dinner and theatre party will be held towards the end of this month, the committee in charge to consist of C. C. Mills, T. W. Brown and W. M. Watts.

Dr. Hugh Morrison, the new inspector of schools, has accepted an invitation to address the club at its regular weekly luncheon next Wednesday.

Dr. H. N. Brocklesby, the president, was in the chair at yesterday's meeting and, in addition to the local members, those present included Dr. A. L. Pritchard, past president of the Nanaimo club.

### YANKS WIN TWO GAMES

Boston and Cleveland in Tie For Leadership of Second Division

BROOKLYN, Sept. 9: (CP) — New York Giants defeated Brooklyn Dodgers by a score of 9 to 7 in a free-hitting game at Ebbets Field yesterday to retain their leadership of two and a-half full games in the National League over Chicago Cubs who were blanking St. Louis Cardinals four to nil at Wrigley Field.

In the American League the New York Yankees took both ends of a double-header from the Boston Red Sox and increased their margin to eleven and a half games over Detroit Tigers who broke even with Cleveland Indians. The Red Sox and Indians are now tied for leadership of the second division.

### Chumleigh Wins St. Leger Stakes

Lord Glaneley's Colt Takes Final Three-Year-Old Classic of Season

DONCASTER, Yorkshire, England, Sept. 9: (CP) — Lord Glaneley's colt Chumleigh yesterday won the St. Leger Stakes, last of the season's classics for three-year-olds. The Earl of Derby's Fair Copy was second and Mrs. G. Butt Miller's Mid-day Sun third.

### SPORT CHAT

First world's heavyweight boxing championship battle under Marquis of Queensbury rules was staged between John L. Sullivan and James J. Corbett at New Orleans, Sept. 7, 1892. Corbett won with a 21-round knockout. He lost the crown to Bob Fitzsimmons in 1897.

A year ago yesterday Howie Morenz returned to Canadians after two years with Chicago Black Hawks and New York Rangers. Playing in his 14th National Hockey League season Howie was in top form until his leg was broken in Montreal. The sport world was shocked March 8, 1937, when the "Straiford Streak" died in hospital.

The New York Yankee-Philadelphia Athletics great American League leadership fight drew the largest crowd in baseball history to Yankee Stadium nine years ago today. When the teams took the field for a double-header, 83,253 persons were on hand. The record still stands.

### KEEPING UP OF MORALE

Chairman of Employment Commission Emphasizes Need of Restoring Physique And Skill

VANCOUVER, Sept. 9: (CP) — Arthur E. Purvis, chairman of the National Employment Commission and also of the convention committee on public relations, told the Canadian Chamber of Commerce convention here yesterday that failure to provide a full-blooded program for the restoring of physique, morale and skill of those on relief would be disastrous both morally and financially.

Mr. Purvis said that a restoration program should be applied through plans developed locally to meet varying local needs in which industry, the government and the community could co-operate generally.

There are two hundred delegates from all parts of Canada in attendance at the convention. Hon. R. C. Matthews of Toronto, president of the Chamber, is in the chair.

Prince Rupert's delegate to the convention is F. A. MacCallum.

NANAIMO, Sept. 9:—The Union of British Columbia Municipalities, at its convention here yesterday, passed resolutions favoring the establishment in British Columbia of a boxing and wrestling commission, reducing of the old age pensions from seventy to sixty-five years, the holding of all municipal elections in December instead of January and a rebate on provincial gasoline tax for municipally owned vehicles.

### TAX SALE IS COMING

Some of it Quite Desirable, Is on List

A considerable quantity of improved property, some of it quite desirable, is coming up for tax sale on September 30, it was announced this morning by City Commissioner W. J. Alder.

By act of the Legislature, tax sales in Prince Rupert were postponed in 1935 and 1936, the commissioner states. Thus a considerable number of properties have paid no taxes for five years, making it necessary to proceed with the sale this year.

In 1936 a consolidation act was passed under which arrears could be paid in installments over a period of six years. Property in which taxes were thus consolidated last year is subject to tax sale this year unless payments have been made according to agreement.

## WHIFFLETS From the Waterfront

An announcement is expected to be made today by the International Fisheries Commission in regard to the closing date of halibut fishing in Area No. 3. The date will be tentative subject to change to a later, but not an earlier, date.

Only two boats sold halibut yesterday in Seattle as follows: Havana, 39,000 pounds, New England, 11½¢ and 10¼¢; Gloria II, 500 pounds (incidental to cod fishing), Whiz, 12¢.

The federal department of public works power cruiser Walrona arrived in port Tuesday night from the Queen Charlotte Islands with C. F. P. Faulkner, assistant district engineer, on board. Tomorrow the Walrona will leave with Mr. Faulkner for Stewart, Anyox, Alice Arm, Silver City and other northern points and will call here again next week southbound. Capt. Barney McKillop, formerly well known as an officer of Canadian National Steamships, is now skipper of the Walrona.

The Seattle halibut boat Yaquina, which broke down off Cape Spencer with a shattered tailshaft and arrived at Juneau yesterday morning in tow of the coastguard cutter Haida, had on board 15,000 pounds of fish. She was headed for Sitka when the accident occurred.

After having spent two or three days at the ocean dock following her withdrawal from service at the first of the week, C.N.R. steamer Prince Rupert has now moved to the dry dock to be tied up for the winter. Capt. Neil McLean and officers and crew of the Prince Rupert will sail on the Prince George tonight for Vancouver.

The following vessels delivered coho salmon to the Prince Rupert Fishermen's Cooperative this morning at the advance price of 9½¢: co-operative packer Ogden, 4700 pounds from McAuley Island, 1500 pounds from Squadaree and 1100 pounds from Anchor Island; packer Azurite, 12,000 pounds from Dundas Island and 1400 pounds from Burke Channel; and troller Active II, Capt. Harold Jacobsen, 1700 pounds.

Among the many angling parties out over the Labor Day week-end was one consisting of Mr. and Mrs. Frank Ellison, Mr. and Mrs. William Rothwell and Mrs. C. Michaloff which visited Falls River in the Michaloff boat. A splendid bag of trout was taken.

### POPULATION IS NEEDED

Gradual Policy of Immigration in Canada Urged By Railway Official

#### Where To Look

Britishers Not so Interested Now—Might Look to United States

VANCOUVER, Sept. 9.—That Canada must have more population if it was to fulfil the destiny that nature intended for it was the contention today before the annual convention of the Canadian Chamber of Commerce of Dr. W. J. Black, director of Colonization and Agriculture for the Canadian National Railways.

With one-sixteenth of the cultivatable land in the world and and more than that fraction of the world's natural resources, Canada, nevertheless, had only half of one per cent of the population. Canada's development was and always has been tied up with immigration, Dr. Black said.

To the criticism that immigration would take away the opportunities of the younger generation, Dr. Black replied no part of Canada has had less immigration the past twenty-five years than the Maritimes yet the movement during this period to the United States and elsewhere had been perhaps heavier than for any other part of the Dominion. The Maritimes had not benefited by it and there were many today who believed an influx of farming families would have good effect.

Looking at the drought areas on the prairies, Dr. Black said the sad difficulties there still did not justify the lack of settlement in areas where families can succeed. He believed some of the perplexities of the past few years were due to rural population attracted to industry by high wages prevailing during the good years unable to find its way back to the farm without funds.

#### Field For Immigration

In a survey of the field for immigration the speaker found some old and favored sources closed with the British farmer well off and contented at home and the Scandinavian enjoying similar prosperity.

"When our effort to get British has been exhausted, we should endeavor to secure the maximum number of good farming families from the United States," said Dr. Black. Denmark would be a promising field in the next two or three years. On the subject of continental European immigrants he pointed out that British stock was amalgamated a few centuries ago of European peoples. He thought the Swiss, Czechs, Belgians, Hollanders and Ukhanians should become "as good Canadians as we ourselves ever have been."

"The average Central European, now in this country will not be noticed as such two generations hence, if we of Anglo-Saxon origin do our duty. Inasmuch as it may be necessary for us to look outside the British Isles for those to do the work we must have done, just to that extent should we exert our energies to see that the new people have placed before them the importance of our Canadian ideals and the work which our institution of learning can do for them," he said.

Dr. Black suggested there should be no large scale immigration movement for the present even if it were possible but one that could be increased from year to year.

"In my opinion," he said, "there never has been a time in our history when this important question of immigration called so urgently for leadership of a constructive kind. There is a distinct tendency of our developing a 'Laissez Faire' attitude which means we shall go back."

In conclusion he asked the Chamber to give that leadership.

#### British Immigration

"There is much being said these days about British immigration and Canada's need therefor," said Dr. Black. "We find ourselves faced with a peculiar condition. Oddly enough, there is little inducement to encourage the citizens of the United Kingdom to establish new homes on Canadian soil. Business conditions over there are good and agriculture especially so. The farm worker has special benefits which we scarcely can offer. His wages are practically as high as ours. He works five and a half days a week, he has pay and a half for overtime, he sees a pension in the offing and

### Indecency Charge Is Laid Against Montreal Russian

MONTREAL, Sept. 9. (CP)—Alexis Winslow, Russian, has been charged with gross indecency and causing bodily harm with intent to maim, disfigure or disable a nine-year-old fatherless boy, Freddie Brown, who had been taken in charge by Winslow and who was discovered to have been brutally abused. Winslow is a native of Kiev, 23 years old and an artist.

all of these help to hold him to his life work in the homeland.

"Would you give up the considerations I have enumerated and which are certain for a home in a new land that can offer little of advantage excepting perhaps greater opportunity for the younger members of the family to find their way into the activities of the country? It seems to be mainly on this basis that we can hope to arrest the attention of our kinsmen overseas. Even through our thirst for more British blood may remain incessant, it will not come to us again in any large stream unless we find some way of so organizing societies or directing organizations now existent, having the necessary British bent, that they definitely will concern themselves with encouraging the movement and with helping to supervise it when the people arrive in Canada. Mere talk will not do it and there is no use fooling ourselves. They will not come here in any great numbers of their own volition."
