### Keeping in Touch

Prince Rupert people will doubtless notice the large amount of district news carried by the Daily News. Last Friday's edition was particularly notable in that respect. We feel that it is very desirable that Prince Rupert people; should know what is going on in the towns and villages around as well as that the outside people should know about Prince Rupert's activities. All this tends to bring about unity of interest and effort.

We are all looking forward to the time when there will Officer of Old be more frequent transportation between the city and neighboring points so that there may be more frequent! visits both ways.

Incidentally such villages as Dodge Cove, also deserve ex-service man, who lost a leg J. Comadina attention for it is by developing a suburban population that the city makes progress.

### Why Buy Here?

Let us assume that it is the patriotic duty of citizens to encourage the merchants of their own city so that it may make proper progress. Sometimes local merchants are good enough to give was 90c. All four were later arreasonable credit to residents. That privilege is worth; something, yet the mail order houses deal only for cash. It is hardly fair to run accounts at local stores and when Death List On cash arrives to send it away to a mail order house.

It is probably true that in days gone by there was some reason in people shopping out of town. Of late a great change has come over the city. Competition is keen among merchants and it is possible to get much better buys in the Prince Rupert stores than in those of a big city such as The death list as a result of in-Vancouver or Calgary or Edmonton.
