Situation in Steel Cities Looks Menacing—Breakdown Of Negotiations

CLEVELAND, June 29.—Inland, only one of the four steel companies that has not attempted to resume production, said it would make announcement in Chicago regarding reopening. Meanwhile, Governor Townsend of Indiana announced late Sunday that he hoped settlement of the steel strike at Indian Harbor might be made within the next 24 hours.

Another announcement from Johnstown, Pa., said that coal miners would march on the city again to help striking steel workers pickets at the big Cambria plant of Bethlehem Steel.

At the centre of the steel strike was Governor Martin L. Davey of Ohio who found himself embroiled in a controversy with Secretary of Labor Frances Perkins and with the C. I. O. leaders, who accused him of strike breaking activities because he was keeping National Guardsmen at the gates of steel mills to protect men returning to work.

Davey, in turn, said he would reject completely the Secretary of Labor's "dictatorial plan" to force an end of the strike.

The C. I. O. filed in Federal Court a suit to enjoin Governor Davey from using National Guard Troops in the Mahoning Valley to protect men returning to work in the strike-embroiled steel mills. Federal Judge Mell G. Underwood set a hearing for Thursday on the motion.

The strike is in its thirty-fourth day today.

Mediation Collapses

WASHINGTON, D.C., June 29: (CP)—United States Secretary of Labor Frances Perkins said today that the government's efforts to mediate the steel strike had collapsed. She added, however, that she was studying the industrial dispute to determine whether further mediatory steps were possible. Meanwhile at Warren, Ohio, Gus Hall, Committee for Industrial Organization leader, was named a terror plotter and police reported seizure of "enough explosives to blow up an entire block." Three men were jailed, confessed and were being held in high bail.

At Johnstown, Pa., two dynamite blasts ripped pipelines feeding Bethlehem's Cambria works, threatening heavy damage and menacing thousands of jobs.

Times Better In Interior; Many New Cars Seen

J. L. Roof, manager of the northern division of Home Oil Distributors Ltd., returned to the city the latter part of last week from a trip to the interior as far as Vanderhoof on business. He found high water conditions in the Bulkley and Nechako Valley as a result of recent hot weather and warm rains. The water was beginning to recede, however, as he left.

Business conditions appear to be considerably improved in the interior, Mr. Roof says. The number of new cars owned by local residents is noticeable.

Investigation Of Safe Cracking Is Still Proceeding

Although a number of suspects have been questioned, no arrests have yet been made in connection with the safe cracking job between Sunday afternoon and Monday morning in the office of Home Oil Distributors Ltd. on the local waterfront in which upwards of \$300 was taken. A check-up is being made on all suspicious characters. One report given to the police was of two strangers passing along the waterfront road in the direction of the oil plants Sunday afternoon. They were carrying a gunny sack.

Charles Lambert Loses Life in Yukon River As Result of Boat Dumping

George Carter and Foster McLeod, Also From Here, Were Thrown Into Stream as Well But Managed To Escape to Shore

WHITEHORSE, Y.T., June 29: (CP)—Charles Lambert was apparently drowned while George Carter and Foster McLeod escaped when a small boat in which the three men, recently arrived from Prince Rupert, capsize in the waters of the Yukon River while enroute from Whitehorse to Dawson last Friday evening, according to word received here. The boat turned over when it struck a log projecting from a driftwood pile four miles south of Little Salmon. Carter and McLeod clung to the boat and managed to reach shore. Lambert held to the log which the boat had struck but, when Carter and McLeod got back to the drift pile, both Lambert and the log had disappeared. With the aid of a life-belt, they searched the driftwood pile for several hours but found no trace of Lambert. Most of the outfit in the boat was lost except some articles which became jammed in the bow.

Russia Kills Foreign Spies

Capture of Seven Near Finnish Border Reported

MOSCOW, June 29.—Capture of seven spies from a "foreign country" is reported Saturday from Petrosavodsk near the Finnish border.

The government newspaper Izvestia suggests that many more spies and agents of a neighboring nation are under arrest in the Soviet Far East. Execution of 37 more "wreckers" in that section is announced from Khabarovsk, bringing to 131 the number of persons so disposed of in that region.

T. W. Hall, inspector of schools, sailed this afternoon on the Catala for Victoria where he will spend the summer vacation.

CALLS BY OFFICERS

Amenities Observed by Capt. Hadano, Master of Japanese Training Ship

Since arriving in Prince Rupert the latter part of last week, Capt. Z. Hadano of the Japanese training ship Kaiwo Maru, accompanied by officers of his vessel and local Japanese officials, have been making a number of official calls.

Late Saturday afternoon Capt. Hadano, accompanied by Chief Engineer F. Arakawa, First Officer E. Kashino, T. Mio and Sadao Suga, called on City Commissioner W. J. Alder at the City Hall where, after being duly welcomed, Capt. Hadano made the presentation to the Commissioner for the citizens of Prince Rupert of a beautiful bronze cast flower vase in commemoration of the visit of the Kaiwo Maru. The captain expressed his appreciation of the reception which had been accorded at Prince Rupert and remarked that the vase might easily be broken if, by accident, it should fall on a hard surface. He hoped that it would never be broken and that, likewise, the ties of friendship and goodwill between Canada and Japan would never be broken. Capt. Hadano also presented to the Commissioner for the Prince Rupert Public Library several interesting books dealing with Japanese subjects. Mr. Alder expressed appreciation for the gifts.

Later Captain Hadano made an official call at the headquarters of the 102nd Battery, Royal Canadian Artillery, at the Armory where the captain and his party were met by Capt. A. G. Rix and escorted to the officer commanding, Lieut. Col. S. D. Johnston M. C., V. D., who duly received them. Also at the Armory Capt. Harano met representatives of the provincial government in the persons of Government Agent Norman A. Watt, School Inspector T. W. Hall, District Forester A. E. Parlow, Assistant District Engineer M. J. Dougherty and Inspector J. A. Fraser, provincial police, as well as Rt. Rev. G. A. Riv D.D., Bishop of Caledonia, and United States Consul General John K. Davis of Vancouver.

The same afternoon there was an official call at headquarters of the Royal Canadian Naval Volunteer Reserve on Lieut. Commander Walter Hume, commanding officer. Yesterday morning official calls were paid by Capt. Hadano, accompanied by First Officer Kashino, Chief Engineer Arakawa and T. S. Shimizu, president of the Prince Rupert Japanese Association, at the offices of W. H. Tobey, C. N. R. divisional superintendent; J. H. McLeod, collector of customs; Capt. J. R. Elfert, harbor master; F. A. MacCallum, vice-president of the Prince Rupert Chamber of Commerce.

The Prince Rupert Japanese Hall was also visited yesterday by the captain and his officers who were received there by T. S. Shimizu, H. K. Yamanaka, K. Miwa, T. Mio, G. Kitagawa, S. Morinaga, I. Matsumoto, K. Sakamoto and K. Tsumura.

There was a smoker entertainment in the Moose Hall last night which proved highly enjoyable for the Japanese both of the ship and locally. The program was entirely Japanese in character.

J. W. Plommer, formerly a member of the local high school teaching staff, arrived in the city on the Prince George yesterday from Squaw Creek in Northern British Columbia, where he has been engaged in mining for some time and plans on proceeding from here to Edmonton enroute to the Northwest Territories.

SERIES OF PURGES

Russia has been passing through a series of purges which have seriously reduced the size of the ruling party, the only people who have votes in elections in that country. In order to understand how Russia is ruled, we stress from time to time some of the outstanding features of their system, particularly those that differ radically from ours.

Evidently there are two groups of thought in Russia, those who follow Trotsky and those who follow Stalin. The Trotskyites are not allowed to give voice to their views and any who are discovered are either shot or removed from office and disenfranchised.

There is to be a National Congress during the coming autumn, it is announced, but only those who support Stalin in his policies will be taking part in it. The political bureau of ten men, who are the most powerful in the country, see to it that any men who show the slightest tendency toward freedom of thought or expression are sifted out and replaced by younger and more conformable persons. It is stated by one writer that, since the last National Congress, half the members of the party have been removed. The group that is left is compared with the Fascist group in Italy or the Nazi group in Germany. It holds a political monopoly and no others have any rights in the country except the rights given them by the few members of the party. The huge number of expulsions from the party indicates how widespread is the Trotsky tendency there.

SHOWING THE WORLD

Japan in sending her young men to foreign ports to study is also showing the world what a fine lot of young men they are. To watch them climbing aloft on Sunday afternoon was a treat enjoyed by many. Sailing ships do not usually come to Prince Rupert and to see the sails unfurled is something new. To see it done in an orderly way such as that of Sunday afternoon was indeed worth watching. Prince Rupert people may never again have an opportunity to witness this, for sailing ships are out of fashion. Yet in most countries the young men who take to the sea as officers and especially as naval reserve officers are usually given training on sailing vessels.

Could Not Lift Arms Above Head

Owing to Painful Rheumatism

This woman suffered from rheumatism in her back, arms and legs. For two months, she endured this painful condition, then, like many another sufferer, she decided to try Kruschen Salts. Read her letter:—

"About fifteen months ago I had rheumatism in my arms, back and legs. The pains in my arms and legs after getting warm in bed were almost unbearable. I was like that for two months, and could not reach above my head. I read so much about Kruschen Salts that I thought I would try them. I am so glad to say that for more than a year I have not had the slightest return of my rheumatism."—(Mrs.) H. E.

The pains and stiffness of rheumatism are frequently due to deposits of uric acid in the muscles and joints. Kruschen Salts assist in stimulating the internal organs to healthy, regular activity, and help them to get rid of this excess uric acid.

Speculation Over Plane in Interior

Land Machine Has Not Been Reported Since Flying Low Over Hazelton Last Week

There has been some speculation around Hazelton, according to word received at provincial police headquarters here from Constable Andrew Grant, in regard to a red wheel-equipped biplane which flew low over Hazelton late on Thursday afternoon last and shortly afterwards was seen, again flying low, over George Belrnes ranch in the Klipox Valley. After passing Belrnes' place, the machine headed north in the general direction of Telegraph Creek but, as far as can be learned, has not since been reported as landing anywhere. There were low clouds and rain with generally poor flying conditions as the plane passed over Hazelton.

DRAMATIC FILM FARE

"Stolen Holiday" and "The Great O'Malley" at Capitol Theatre

"Stolen Holiday," a drama of Paris with beautiful Kay Francis in the leading role, and "The Great O'Malley," a melodrama of life in the East Side of New York starring Pat O'Brien, opened on the screen of the Capitol Theatre last night on an interesting double bill and will be repeated tonight.

"Stolen Holiday" depicts the rise of an obscure little French mannequin to the position of queen of fashions for the whole world. In addition to being somewhat of a fashion show, it is a tense drama with rioting mobs on the streets of Paris, international political and financial complications and much suspense. Claude Rains appears as an unscrupulous financier whose complicated schemes finally crash about his head. Ian Hunter provides the love interest for Miss Francis. Alison Skipworth is another important member of the cast.

In "The Great O'Malley" Pat O'Brien is a tough, hardboiled copper who is finally humanized by a crippled girl and a lovely school teacher. Humphrey Bogart shares stellar honors with O'Brien. Ann Sheridan is the school teacher and Sybil Jason, the talented child star, takes the part of the little crippled girl.
