Ford V-8. They are different in appearance - but built to the same standard of mechanical excellence — on the same 112inch wheelbase.

Because people liked our 1937 car so well, they bought more than of any other make. They liked its looks, its smooth performance, and the way it handled. We have improved on that car in the newly styled Standard Ford V-8.

But some folks wanted still more size and style, with the same fundamental Ford advantages. For them, we have designed a new De Luxe line.

The De Luxe Ford V-8 Sedans are longer with more room, larger luggage space, and finer appointments. De Luxe cars are equipped with the 85-horsepower Ford V-8 engine. They provide more

the De Luxe. It is a brilliant, modern car. It has graceful new lines and well-tailored interiors. It gives you the same basic advantages of the 85-horsépower Ford V-8

Before Ford made V-type 8-cylinder engines available to every one, they were used only in expensive cars. Since then, four million Ford owners have learned the genuine enjoyment of driving an 8-cylinder car with all-round economy. The low prices of the De Luxe and Standard cars make it easy for you to step into the

More PEP More POWER Better Motor Performance

THE "KING" TESTER

That is what you will have after we have gone over your car with our "KING" Tester, which is the last word in equipment for diagnosing motor trouble.

Very often the difference between a slow motor and a PEPPY one is only a matter of minor and inexpensive adjustments. It doesn't take much to put a high speed motor "out of line," but it does take special equipment to locate the trouble so that it can be remedied. We have the finest equipment obtainable and it eliminates all GUESS WORK. Bring your car in and get PEP for the getaway and POWER for the hills.
