JAPAN TALKS PEACE

PARIS, October 28: (CP)—Japan seems disposed to accept friendly conversations with Great Britain and the United States looking toward eventual restoration of peace between Japan and China, a high Japanese authority said tonight.

SHANGHAI, Oct. 28: (CP)—Tension continues high in the international settlement as the Japanese continue their occupation of North Shanghai railway terminals. The Japanese last night took possession of the Szechow Creek railway bridge, driving the Chinese across the creek.

At dawn British troops, guarding the settlement's western boundary, opened barbed wire gates, permitting several thousand refugees to enter the settlement.

British troops and United States marines offered tonight to aid in the withdrawal of a Chinese battalion trapped by Japanese, in order to end the menace of stray bullets falling in the international settlement with its thousands of foreigners. The offer was refused.

British officers disclosed that Major-General A. P. D. Telfer-Smollet, commander of the British forces, and a group of officers had been endangered when a Japanese tank fired in their direction as they watched refugees evacuating across Szechow Creek.

In a statement at Nanking, General Chiang Kai Shek, Premier of China, declared that responsibility rested with Great Britain and United States to uphold the nine-power treaty guaranteeing Chinese territorial integrity which he asserted the Japanese were violating. Chiang admitted an unsatisfactory military situation at Shanghai as far as the Chinese were concerned but disclaimed its effect upon the general position.

Apology Accepted

LONDON, Oct. 28: (CP)—Foreign Secretary Anthony Eden announced to the House of Commons last night that the British government had accepted the apology of the Japanese government in connection with the attack upon the British barracks at Shanghai on Sunday when Rifleman W. McGowan of the Royal Ulster Rifles was killed. McGowan's family would be compensated, Capt. Eden said. The Foreign Secretary also informed the House that he would personally lead Great Britain's delegation to the nine-power conference at Brussels on Saturday. Cheers greeted Capt. Eden as he addressed the House.

FISH CO-OP IN SESSION

Semi-Annual Meeting of Prince Rupert Association Held—Activities Reported Upon

The semi-annual meeting of the Prince Rupert Fishermen's Co-operative Association was held in the C.C.F. Hall this week to receive the report of the directors as to the season's operations. J. Saldan was chairman of the meeting and Jack Deane secretary.

A resolution was passed to contact the other Co-operatives on the Pacific Coast in order to secure their support to request the proper authorities to refuse to issue permits to Indians to fish in the creeks for their own use until after the close of the salmon fishing season.

A resolution was also passed urging the Department of Fisheries to pass regulations making it illegal to offer for sale spring salmon under twenty-six inches in length.

An interesting feature in connection with the work of the Co-operative Association was a visit of two of the directors of the Scottish Co-operative Wholesale Society during the past summer. They were particularly interested in the production of canned salmon as their Association purchased \$5,000,000 worth of Canadian products annually.

This was the first season that the Association had its own two packers in operation. The Azurite carried 449,841 pounds of fish during the season and the Ogden carried 610,594 pounds. All fish and goods carried by the packers during the season was covered by insurance but there was no loss of any kind for the entire season. The Azurite is now owned outright by the Association, and a substantial amount paid on the Ogden. Both packers operated at a profit.

Much Fish Handled

The sum of \$112,722.26 was paid out to the fishermen during the season and the sales of fish amounted to over \$160,000. These figures are only tentative and a fuller detailed report will be completed by the end of the year when all the accounts have been audited. There was a payroll of \$10,549 during the year and substantial amounts have been paid to the government in taxes and compensation.

In the operation of the camps, stores to the value of \$33,135 were purchased, and sales amounted to \$37,101.

Two new members were elected on the Board of Directors to replace two of the members who had resigned. The newly elected members were Stanley Bjornson and Arnolf Berg.

A resolution was passed to abolish proxy voting from the rules of the Association.

FAITH IS ESSENTIAL

Progressive and Prosperous Communities Those Whose People Are Optimistic, Speaker Tells Gyo Club

"Faith in one's own community is essential to the development of the community," declared Rev. W. D. Grant Hollingworth, pastor of First Presbyterian Church, who spoke to the Prince Rupert Gyo Club at luncheon yesterday, giving impressions of a year's travels throughout the province of British Columbia. Communities which were progressive and prosperous, Mr. Hollingworth had found, were those whose people were optimistic and had faith in their communities and in the country.

Mr. Hollingworth, despite the fact that his subject was rather a large one to confine to a twenty-minute talk, spoke interestingly and covered a good deal of ground. British Columbia was indeed a land of mountains, lakes and rivers. One had but to travel extensively in the province to realize the problems and the difficulties which faced a government. Everywhere roads were needed and each community believed its requirement of the prime importance. The fact that the great bulk of the population was situated in one small corner of the province around Vancouver and Victoria also, of necessity, must have its effect.

The speaker referred to the versatility of the province from an industrial standpoint. The fur industry, fishing, lumbering and agriculture had in their turn occupied the centre of the stage. Now it was mining which was in the limelight.

Mr. Hollingworth then proceeded to give impressions of the Bridge River country—a rough and rugged deep valley with towering mountains. Pioneer and Bralorne, both established producers, were the outstanding mines. Mr. Hollingworth also referred to the Granby Co.'s important operation at Copper Mountain. Here was an unusually pleasant location on the very top of a mountain from which one could see with an unobstructed view for miles around.

Donkhor Problem The Donkhor problem in the Kootenays was also referred to by the speaker. While the Donkhobors had been guilty of some sabotage, there was a tendency to blame them for everything along this line that happened. The speaker told of some Continued on Page Four

#### A CURIOUS FAITH

The German government has its own representative as head of the church in the Fatherland. This man has the title of Reich Bischof. He tries to make the people believe that the Kingdom of God is the German Reich. The wine taken in the communion represents the divine blood of the German race and the bread the product of the divine German soil.

While the majority of the people accept the new faith outwardly it was but to be expected that many would not accept it, even outwardly. Some of those who were able to do so left a country which interfered with the most sacred things of life.

Several groups of these German dissenters left the Fatherland and took refuge in England. One settlement took over a farm in Wiltshire in the Cotswold Hills. Here they formed the Cotswold Bruderof, an organization modelled on that of the early Christians where they had everything in common. There they are able to bring up their children in the faith of their fathers without interference. They make most of their own utensils and expect soon to be able to sell their products to others. Also they are setting up their own printing press. They live simple lives, asking nothing of their neighbors but to be allowed to live in peace and quiet, obeying the laws and at the same time retaining the religion which is so dear to them.

Britain has for many years been an asylum for the oppressed. Germans or people of any other race are made welcome there as long as they are willing to conform to the laws and customs of the country.

## Hoop Team Is Coming Here

An interesting athletic group to visit Prince Rupert shortly will be a basketball team from Hill Military Academy, Portland, Oregon, which will be here on the morning of January 2 enroute south after a trip to Alaska for a series of games. It has been suggested by Jack Wahl, director of athletics for Hill Military Academy, that a game might be arranged here during the stay of the team. The suggestion is being taken up with the Prince Rupert Basketball Association although it is hardly thought that the time of the visit would be convenient.

## SPORT CHAT

Although most basketball fans believe Edmonton Grads have held the Canadian women's crown since 1922 and the North American title since 1923 the record book shows otherwise. Percy Page's proteges, who have established an amazing record of sustained superiority, did not win dominion honors on four occasions in the last 15 years and have been international champions only since 1934. The Albertans have never lost a series for the Canadian championship since defeating London Shamrocks in 1922 but four times—in 1929, 1931, 1936 and 1937—they did not attempt to win. Most followers of the game, however, have conceded that the Edmonton team was tops in Canada even in those years. The Underwood International Challenge Trophy has been retained by Grads since it was donated in 1922 but the first series for the North American championship was played in Edmonton in 1933 when the United States Amateur Athletic Union for the first time authorized its recognized champions to compete for the international title.

After winning their first dominion title in 1922, Grads held the title until 1929 when there was no final and no team awarded the championship. The Edmonton girls recaptured the laurels in 1930 but the following year defaulted to Toronto Lakesides and the title was awarded to the Ontario outfit. Later that year in an exhibition game Grads trounced a Toronto "all star" team composed almost entirely of Lakeside players. Coach Page did not enter his team in the title hunt in 1936 as a European tour was planned in conjunction with the Olympic Games. In 1937 Montreal Notre Dame de Grace, eastern champions, wanted to come to Edmonton for the Canadian finals but

## RELIEVES Fiery, Itching Skin

Here is a surgeon's prescription now dispensed by chemists at trifling cost. Not only does this great healing antiseptic oil promote rapid and healthy healing in open sores and wounds but boils and simple ulcers are relieved and cleanly healed. In skin diseases the itching of eczema is instantly stopped. Pimples—skin eruptions dry up and scale off in a very few days. The same is true of Barber's Itch, Salt Rheum and other inflammatory skin disorders. You can obtain Moon's Emerald Oil (full strength) in the original bottle at Ormes Ltd. or any modern drug store.

Grads' management refused to guarantee expenses, contending the Quebec team was not strong enough. The previous year Grads had overwhelmed the same team 90-20 in an exhibition game on the eastern squad's own floor.

Durant, Oklahoma, Cardinals captured the international crown with three straight victories in 1933 but the American champions for the next three years—Tulsa Stenos—lost each time to Grads. Little Rock, Arkansas, Flyers won the United States title in 1937 but they failed to arrange a series with the Canadians. The amateur union in that country refused to designate any other team to represent the United States with the result there was no series for the crown. So Grads still are North American champions.

Good Old Chum!

Think back over that morning on the marsh... all the ducks flying so high... your legs getting cold in your waders... your waiting... waiting... freezing in the "blind"—what a comfort your Old Chum was... how sweet the aroma of that mellow Virginia tobacco... how satisfying the flavour!

The Hon. E. G. Prior became Premier of British Columbia in November, 1902. He was selected to continue the government formerly headed by the Hon. James Dunsmuir, following the latter's resignation. A few months later, charges brought against the Premier in the House, in connection with the previous awarding of contracts to a firm of which it was alleged the Hon. Mr. Prior was financially interested. Regardless of whether the charges justified it or not, the Premier shortly resigned. He was succeeded by the Hon. Richard McBride. Between July, 1898, and June, 1903, the Province had five different Ministries.
