### Popularizing Dining Cars On Canadian National

W. W. Swinden on Inspection Trip Talks About the Service

WINNIPEG: July 30:-Because of the recent revision downward in the cost of both a la carte and table d'hote meals in the dining car service, there has been a very appreciable increase in patronage, in the opinion of W. W. Swinden, General Supt. of sleeping and dining cars for the Canadian National Railways. Mr. Swinden is on one of his periodical inspection trips over the Western Region. He will leave in a few days to continue his trip' through to the Pacific coast.

"The air conditioned cars are becoming more understood and appreciated every day," said Mr. Swinden. "This feature of our service is now extremely popular with the travelling public, as they now move from point to point in clean comfort never before enjoyed in the old type of equipment. Another feature we have improved on is a new type of special meal for children, in our dining cars. In this regard, we have a very dainty and attractive menu specially arranged for the children, showing a combination of meals similar to those served by mothers to their children in their own homes."
