Discuss Night Police Patrol

Junior Chamber of Commerce Wonders if This is Being Carried Out Adequately

The subject of adequate policing of the city at night came up for discussion last night at the regular monthly dinner meeting of the Junior Section of the Prince Rupert Chamber of Commerce. The opinion was that an edequate night patrol! was even more important than day patrol. The recent entering of the Bank of Montreal was referred to as a suggstion of what might happen if there was not an adequate night patrol.

R. G. Vandersluys was appointed to discuss the matter with Staff of British Columbia Municipali- | Sergeant G. H. Greenwood preparties. One of the resolutions to be atory to taking it up with the Sen-

Fascists Are Guilty Of Submarine Piracy

Another Demand Made For Reparations as Result of Sinking of Two Ships—Conference on Mediterranean Situation to be Held Friday

MOSCOW, Sept. 8: (CP)—The Red Army's official newspaper served notice today that the Soviet government will use force "to call Italian sea pirates to their responsibility" if peaceful moves fail. It said the goveernment was determined to obtain redress from Italy for the sinking of two Soviet ships.

ROME, Sept. 8: (CP)—The Soviet government told tions which had been critcized by Italy today that the Fascist answer to charges that Italian a submarines had sunk two Russian ships in the Mediterranean was unsatisfactory and repeated the grave accusation made in the original note. The second note is more terse than the first which demanded that the "intolerable situation" in the Mediter-

lost vessels.

TALE OF CRUELTY

Montreal Man Arraigned on Charges of Harribly Abusing Boy Who Was in His Care

MONTREAL, Sept. 8: (CP) -Fatherless Freddie Brown of Toronto, his body splotched with burns and bruises, was recovering under medical care today as police prepared to arraign a Russian named Alexis Winslow on charges of torturing the nineyear-old boy. The youngster's feet had been seared with a heated fork, police said, and his tongue and mouth burned with acid while he lived with Alexis, a supposed friend of the family, who brought him here from Toronto to "better his education."

Queen Charlottes Mourn Passing Of Mrs. G. A. Charter

QUEEN CHARLOTTE CITY, Sept. 8:-The residents of Queen Charlotte City and the natives of Skidegate Mission owe an unpayable debt to Mrs. G. A. Charter, who passed away recently in Vancouver. During her stay at Queen Charlotte which ended in June of this year, Mrs. Charter gave herself without reserve to both white and Indian patients. All who entered the hospital there were treated with unselfish devotion. She cared for her patients as a mother does for her children.

Mrs. Charter was also a great social worker and a loyal church worshipper.

FINED \$100

For supplying liquor to Indians, Leo Simon was fined \$100, with option of one month's imprisonment, in city police court yesterday.

Mrs. James L. Lee and son, Forbes, who have been visiting in New Westminister, returned to the city on the Prince George this morning.

ABOLISH RELIEF

Member of Audit Bureau of Circulations

There are in the Dominion somewhere about 900,000 on the basis of laboratory specipeople receiving help from the federal or provincial gov- fications. Laboratory control of ernments or from the municipalities. While this looks like manufacturing operations was a large number, it is not as large as it might seem. necessary to make standardized Among those receiving this aid are farmers and thenr de- and gasoline. In the production pendents, amounting to about 27 per cent. These are men of steel laboratory control was of and women and their families who are supposed to be great aid in keeping the carbon working but who are not sufficiently established in their content of the product to within farms to be self-supporting or who, through failure of boratory functions in connection crops, are unable to carry on without aid from the gov- with the manufacture of flour, ernment. They are not employed. Then there are something like 46 per cent who are housewives, children un- also referred to. der sixteen years of age and aged persons. There is a small group of about five per cent of the whole who are modern industrial development place. unemployable and who will always need state aid. The total unemployed who are able to do a day's work but cannot get it and who are being relieved by the government number about 200,000 in all throughout the Dominion.

With the steady improvement of conditions this number may be very materially lessened next year although it may not be wholly wiped out. Owing to the seasonable employment in a number of industries it is very difficult to eliminate relief altogether. It should, however, be reduced to a very small minimum except for the unemployables.

In former days the families of old people made themselves responsible for the parents or immediate relatives. Today the government is called upon to keep those who are unable to keep themselves, no matter how well to do

may be the immediate relatives. Many cases also are reported of small farmers drawing relief allowance and refusing to produce anything of value for fear the relief navments may be stopped. This kind of graft will have to be abolished. Taxnayers will realize that, when someone gets money from the government to which they are not entitled, the taxpayers have to nav that much more. Relief that encourages loafing will have to go but genuine relief cases on a small scale will be always with us.

WAR NOT LIKELY TO SPREAD

It does not seem at all likely that the war in China will spread to any other country unless Russia should; take a hand in which case Germany may possibly become involved. Undoubtedly Japan knows that Great Britain has not many warships in the Pacific and that she does not dare to withdraw too many from European waters. She also does not fear United States interference although that is the only power with an effective naval force in the Pacific. It is a pretty safe bet that Britain will not act alone in the Orient and coalitions are too slow to cause real trouble. The situation does not look dangerous, although as long as there is war going on in any important country, there is always danger that others may be drawn into it.

BETTER LIGHT Makes Better Marks

Are you doing all you can to make sure your children get good marks in school? Do they get enough rest and sleep and good food? Of course, you say! But that's not enough! School days usually mean study nights. And many parents who would never starve their children's stomachs are literally starving their eyes ing light.

Your children live outdoors during the long summer months. Their eyes are accustomed to the intense light of outdoors - up to what lighting experts measure as 10,000 foot candles of light. Indoors, in many homes, their eyes get only 5 to 10 foot candles of light under the average study lamp - when less than 20 foot candles is defin-- with insufficient, or glar- itely harmful to youthful

> Northern British Columbia Power Company

The only way to be sure your children are getting enough light is to have one of our lighting experts measure the actual light your lambs are now providing. This service is free, and without obligation. Have it done at once!
