U.S. Tests New Trans-Pacific Air Route

The dotted line on the above map shows the route followed by the Pan American Airways clipper which has completed a test flight from Alameda to Auckland, New Zealand with a view to establishing a new 7,000-mile trade route. At the top of the photograph is the giant four-engined Pan American Clipper which made the test. The solid line in the map shows the present trans-Pacific clipper route to the Orient.

Spanish Rebel Command Having Trouble With Both Inside And **Outside Enemies**

ANDAJUR, Spain, March 31 (CP)—Government forces smashed by land and air at insurgent troops today, trying to cut through into the Almaden mining region of Ciudad Real Province south of Toledo. One column was engaged in bitter fighting at Alearacejos, about thirty miles north of Cordoba, on the southern front.

Meanwhile from Bayonne on the Franco-Spanish border continue to come reports of widespread executions throughout insurgent-held Spain to suppress bitter dissatisfaction with Italian influence. Several score persons are reported to have been shot as a result of abortive plots against the insurgent command. Increasingly strong is becoming the feeling in General Francisco Franco's armies against foreign influence, reports reaching Bayonne say.

At Gibraltar it was stated that reports from Algeciras said that mass executions had been ordered of fifty conspirators against Franco's regime, two hundred government prisoners being shot in reprisals.

Using Italians

Would Have Been Disastrous

It is very satisfactory to people in this part of the world responsible for its original developto know that a settlement has been made in the dispute ment and subsequent growth. between the railways and their employees. A strike would have been disastrous to business and especially to the fishing business of Prince Rupert. Last year the railway from Montreal into Val D'Orr this was tied up by a washout and if there had been another fall, said C. S. Gzowski, chief entie-up this year it would have had a very bad effect.

It is also most satisfactory to the employees of the rail- last week from a trip of inspection How Baseball way that they are not asked by their unions to leave their to the mining district of Northwork and be without wages for weeks or possibly months. western Quebec, accompanied by Strikes should always be the final resort and it is most Wilfred Gagnon, member of the pleasing to know that in this case a strike has been of directors, Alistair Fraser, vice- Yankees and Cardinals Are Wageravoided.

Peculiar Position

The government of Alberta is in a peculiar position. It a portion of the right-of-way of has already been defeated in the Legislature. Yet it is the new Sennetterre-Rouyn branch holding on to power in the hope of being able to carry out between Val D'Orr, the rapidly finish first in the National League its pledges of nearly two years ago. Premier Aberhart is growing centre of the district, with race while Chicago Cubs are 2 to in the unhappy position of having been publicly forced to Montreal and Quebec. go ahead with his Social Credit plans or admitting ina- | Members of the party expressed bility and resigning. Even if he weathers this political themselves as very much impressed do is to finish third. storm, he has lost prestige with the people which will by the remarkable development of this important mineral territory. make it much more difficult for him to secure re-election when an appeal is again made to the people.

Fish as a Food

Just as the fish is beginning to come in daily from the reicinity of Val D'Orr, and meeting fishing grounds is a good time to draw attention once ing and commercial men of the more to the value of fish as a food. Apart altogether from district, they flew to Amos where the fact that eating fish is a patriotic duty in order to they entrained for the return trip. Playing at Pullman, Stanford Unihelp support our own industry, fish is a very healthy food "Our construction program on the versity defeated Washington State" and, if well cooked, very appetizing.

The Dominion government has been making efforts to popularize the eating of fish in interior cities. How much more so should the people of Prince Rupert use their own making. The general feeling seems Palo Alto after a hotly contested product, especially when it can be secured direct from the to be that the construction of the game. sea in the best possible condition. Many people ask for between Montreal, Quebec and meat that comes from the prairies but discard the food val D'Orr will still further accelsea in the best possible condition. Many people ask for new branch giving direct service that is right at hand. This does not appear to be a wise erate the remarkable progress that policy.

WANTS ITS OWN FIELD

C. N. R. Fights Against Charters For Two New Lines In Quebec

having been opened by the transcontinental line and developed by the National system up to the present, the Canadian National Railways opposes this year, as it did last, the granting by Quebec Legislature of railway charters to other interests on the ground that authorization had been granted by the federal parliament to the Canadian National for the construction of a branch line through this reof the mining development of the tween the Typos with 175.

This branch, between the Typos with 175. area. This branch, between Rouyn and Senneterre connecting the fast growing centre of the district, Val D'Orr, directly with Montreal, is now under construction. Clearing of the right-ofway has been completed and steel will be laid on the greater portion of the new branch by next fall.

In discussing the situation ast week representatives of the Canadian National Railways pointed out that the National system had pioneered the opening of this mineral and colonization territory. As development proceeded, it was declared, the Canadian National, in order to take care of the requirements of the area, constructed the branch from Taschereau to Rouyn, despite the fact that no other railway appeared to have sufficient confidence in the future of this section of the province to consider building into it. The remarkable mineral development that followed in this territory south! of the transcontinental was taken to justify the building of this branch and the Canadian National last year started construction of the new Rouyn-Sennetterre branch in order to meet the requirements of this region. It was stated that Wednesday, March 31, 1937 the National system is prepared to keep pace with the development of requirements of the district and it feels that it is in the best position ing to date: to serve the territory having been

Service This Year

There will be railway service gineer of construction, Canadian National Railways, on his return [1] president in charge of traffic, and N. B. Walton, chief of transportation. B. L. Dalyn, another C. N. R. director, accompanied the party as far as Rouyn. The party inspected
