FINALE OF CAMPAIGN BIG TIE-UP FOR RADIO

Starts Drive For Local Connection With C.B.C.

Meeting Held

able Situation For Air Reception Discussed

The campaign of the Junior Section of the Prince Rupert Chamber of Commerce to improve radio service in Prince Rupert and Northwestern British Columbia by having the local station CFPR hooked Commission's network got into full motion last night when a public! meeting in the city council chamber with some fifty persons in attendance endorsed a resolution seeking the co-operation of the Radio Commission in bringing about such a hook-up. Those present also signed a petition to this effect. The petition is to be given city and district-wide circulation for signa-

The meeting was presided over by J. C. Gilker, chairman of the Junior Chamber of Commerce radio committee, and S. A. Prudhomme acted as secretary. An exhaustive memorandum on the local radio situation prepared by Hugo Kraupner, another member of the Junior Chamber's radio committee, was presented to the meeting and will titions to the authorities.

There was a general discussion on the various phases of radio locally, the meeting lasting for somewhat over an hour. Some of the speakers were inclined to believe that it would be more desirable to; press for immediate improvement in local reception conditions by elimination of present noises upon which some rather strong opinions! were expressed. However, all were agreed upon the desirability of having the local station hooked up with the Commission network so that the national programs might be enjoyed by the listeners of city and district.

William Reid and James Boyd were among those who seemed in-! clined to believe that it might be advisable to concentrate at first on he effort to remedy present noises which interfered with radio.

Best Solution

Dr. J. T. Mandy and Steve Prudhomme were among those who felt that, by being hooked up with the Commission, the position in demanding removal of local interferences would be greatly strengraned. There would also be the advantage of not having to depend upon Vancouver or other remote stations for the good national programs.

J. J. Little, president of the Senior Chamber of Commerce, gave assurance that his body would back up any efforts of the Junior Chamber along the line of improving radio service here. He stated that already his company (Northern B. C. Power) had spent considerable money in endeavoring to eliminate interference as far as its lines were concerned. As soon as new insulators were brought out which were guaranteed to remove interference they would be installed on McBride Street.

H. S. Meadows, manager of Canadian National Telegraphs, said it would cost \$45,000 to connect NEW YORK. (CP -Bar silver Prince Rupert up by wire with the The funeral of Alfred Herman was unchanged at 4434c per ounce Commission network from Jasper Skattebol will take place Friday.

Vancouver Again

Victoria is terribly worried over the fact that Vancouver has been stealing part of her bank clearings. It seems that checks of \$5,000 or over passing through Victoria banks are not credited to Victoria but to Vancouver as a matter of banking policy, thus robbing the capital city of about one half of its clearings, so far as the published results are concerned.

We can sympathize with Victoria. She is in competition with a monster that absorbs everything it touches. It absorbed the general offices of our railway and continues to take everything it sees or happens to hear about. Even our ideas are absorbed and promulgated as theirs. Much of our population has been stolen. It tried to get our dry dock and we have grave fears that some day it will ask for the inclusion of this progressive city within its municipal boundaries.

Cheering News

Victoria today is providing us with another editorial paragraph. The following is from the typewriter of British Columbia's most outstanding writer in the person of . Bruce Hutchison of Saanich:

"A headline in this paper suggests that a provincial contained by the latter of the la cheering. We shall get very excited about the provincial! election in British Columbia. Passions will be inflamed. Promises will be made, hopes raised, high principles stat- Lost_Black fur lined glove. Fined. There will be rushings hither and thither across LOST-Pair of spectacles between pressing the thoughts and interthe country, marches into the interior of the province and back again, predictions of victory from every party in

the field, denunciations of everyone. "Meanwhile Europe will be passing from one crisis to another. The Orient will be in upheaval. Britain will be GENTLEMEN'S Sanitary Supplies, The Communist Party here in arming as fast as it can. Russia will be shooting conspirators. Japan will be in ferment. The United States will be in the group of labor war. Our civilization will be in tra- TRUTHFUL Clairvoyant readings. vail. But still we shall get excited about our provincial election. It will look to us like the most important thing in the world. How wise was nature in building man in his present form so that he can always divorce himself from everything of real importance. He can keep his eyes off MEN-Get vigor at once. New Os- some individuals of some organithe universe by worrying over the affairs of a small planet. He can keep his eyes off the planet by worrying about the affairs of a province. He can keep his mind off everything by worrying about the weather. We should be thankful for these small worries.

The Letter Box

BELIEVES IN NO WAR MACHINE

Editor, Daily News:-In regard to your editorial of February 2, "Canadian Defence." The question of defence in Canada The answer is in Canada the same is one of great importance to all Canadians and needs their deep consideration. The stand taken by a peace ballot taken not so long the C. C. F. is worthy of the approval of every peaceful-minded Canadian and he need not be a Communist. The reason why the C. C. F.'s policy is correct is that first of all the C. C. F. is the representative opinion on the peace policy of members of the working class and that it recognizes the character of war. Secondly it understands its detrimental effect on the progress of human society.

This should be enough to fight against it and much less allow the government to prepare for war.

Thirdly, that wars are beneficial

only to the trusts, bankers, finan-

cial monopolists and armament,

of give you the answer as to whether The fundamental principles war are first and foremost the acquisition of territorial rights to of one nation against another submit them to their dictates so they can make profits.

Wars are a necessity to capitalism. They are its lifeblood along the profit motive. Capitalism, order to live must expand, that is, with the basis of capitalist society Editor! So much for Rusisa! lit must find a place where it can make more money and consequently more profits. It must find market for its surplus goods cannot be sold at home.

Trade routes are an example of what wars are fought for-empires slaves and what have you. The whole world is staring us in the face of what wars are fought for.

The burden of wars is borne by the majority of the population of 1.00 any country—the working people in .02 general and not by those who seek .25 it, who prepare for it or benefit Editor, Daily News:-

The Canadian people are still rect some very wrong statements paying 75c out of every dollar in in the letter which appeared in taxes for the last war and I am Wednesday's Daily News signed berni is due here about Friday from sure they don't want to finance Bernhard Treiberg. another.

MAKES ICE CREAM

A 7 HETHER you make ice cream in V V an electric refrigerator or in a hand freezer-try making it with Carnation Milk. You'll find it even more tempting, richer and smoother-and more economical. Carnation is twice as rich as ordinary milk, every drop contains an equal share of cream, all the food value of the original whole milk is retained. It keeps well because it is sterilised. These same virtues make it an ideal food for

bottle-fed babies and for growing children. Carnation is unusually digestible, and is irradiated supplying extra "sunshine" vitamin D. Carnation is the evaporated milk the Dionne Quintuplets use.

Write for the gorgeously illustrated Garnation Cook Book. A host of ideas and recipes for 10c, coin or stamps. Address Carnation Company Limited, Abbott Street, Vancouver.
