Imports and Exports

Imports from the United States and exports to that! country have increased very considerably since the trade; treaty with that country came into force but this does! not seem to have interfered with the trade between Canada and Great Britain, trade with the United Kingdomi having increased until it has become the highest since 1928. Recent increases have brought the balance of trade v. cox. between this country and the two countries mentioned very close with a slight advantage to Canada in each case. | Hudema. This is as it should be. The whole trade situation is very advantageous to this country and to the countries with which we trade. All benefit from the business.

Real Farmers Now

It does not seem many years ago that it was difficult to point to any one farmer in the interior and say that Moorehouse. he made a living from the farm which he cultivated. Most of the residents depended on road work and ties for part! of their living. Today there are dozens of farmers who make a good living without recourse to either of these aids. They sell their cattle, their oats, their timothy seed hall or other products or they live from the regular milk or cream check received from the dairies at Prince Rupert Mrs. J. L. McIntosh. or Prince George.

We are not suggesting that farming is an easy way of making a living. The farmer earns every dollar he gets Mrs. H. Smith. and more but he is today getting a better living from the land than ever before in the history of this part of the province.

Martini is cast as the swashbuckling Chivo whose glorious voice causes him to be kidnapped by a Mexican bandit chief, Carrillo, who is really a sentimental, music-loving fellow at heart. Carrillo also kidnaps an American millionaire's weakling son, played by James Blakeley, and his sweetheart, Ida Lupino. Martini and Miss Lupino meet and fall in love. The former manages to escape and to effect the release of the other by a radio plea directed at Carrillo's heart.
