BANK IS ENTERED

Police Vigilance Saturday Night Prevented Anything in Way of Untoward Incident

Shortly after 11 o'clock Saturday night the local branch of the Bank of Montreal was entered by intruders but police vigilance prevented any untoward incident.

At 11:15 Constable Terry Stewart, in the course of patrol, tried the main door and found it secured. Ten minutes later Constable A. Guant tried the door and walked in. He immediately telephoned to police station and to the acting manager, Geoffrey Willett.

It was found later that it was a simple matter to open the front door by giving pressure to the latch with a knife or flat blade. It is believed that one or more men were in the bank when the second officer entered and quietly slipped out a back door. The back door was found ajar.

Mrs. Baker, who lives above the bank, heard the front door open but believed it was a member of the staff until she also heard the back door open. Then she telephoned the bank office and the police.

JAPS MAKE NEW DRIVE UPON CHINA

Tremendous Offensive Is Started All Along 2000-mile Coast

Long Brockade

Due Respect Promised by Tokyo To International Shipping

U. S. MISSION SIEZED
SHANGHAI, Sept. 7: (CP)—The Japanese army today seized the United States Seventh Day Adventist mission property in the Yangste Poo district north of Shanghai for military purposes.

SHANGHAI, Sept. 7: (CP) — The Chinese army abandoned the defensive today and counter-charged Japanese lines fringing on the Yangste and Whangpoo Rivers on the northern Shanghai front. Mayor Yui of Shanghai said that the sudden Chinese thrust had driven the Japanese from Jukong wharf district between Shanghai and the confluence of the two rivers, splitting the Japanese front.

Fires spread over the whole northwestern area as the Japanese fought to put down the Chinese offensive with artillery.

It is reliably reported that Japanese destroyers seized Pratt Shoals and Lintin, west of Pritish Hong Kong, and were converting them into seaplane bases. A tremendous new offensive was launched by Japan over the week-end with army, navy and air force against China in the Shanghai district as well as along the 2000-mile Chinese coastline. The combined attack commenced at Woosung at the confluence of the Yangste and Whangpoo Rivers. Seventy-thousand veteran Japanese infantrymen have been thrown against 250,000 Chinese in the immediate vicinity of Shanghai.

Ten Japanese airplanes bombed the railway station near the British settlement, doing much damage.

The Japanese government has given assurance that due respect will be shown all international shipping except that of China, of which it is the intention to clear the coast. There will be a blockade extending as far south as Tsingtsao, Hong Kong and Portuguese Makao.

At least one hundred were wounded in week-end bombardment over the international settlement here.

Two high Japanese Army officials have arrived at Peiping, it is reported, to set up political control over that part of China.

Reply to Britain

TOKYO, Sept. 7:—Tokyo has delivered a reply to the British note of protest demanding a formal apology and redress for the recent wounding of the British ambassador to China, Sir Hugh Knatchbull-Hugessen, and guarantee that such an incident shall not be repeated. The contents of the note, however, have not been published. It is understood, however, that regrets are offered over the incident but that demands for a formal apology and punishment of the aviators responsible are ignored. Previously Foreign Minister Hirota had indicated that Japan would not accept the British contention that the ambassador had been wounded by bullets from a Japanese plane.

It is claimed in Tokyo that Soviet Russia is now in control of the Chinese armies following the recent non-aggression pact between China and Russia.

WARRING ON INFANTILE SUBMARINES PARALYSIS SPREADING

Russia Joins England and France in Campaign—Turkey and Greece Too

LONDON, Sept. 7: (CP)—In co-operation with efforts of Great Britain and France to rid the Mediterranean of the submarine menace to international shipping, the Russian Black Sea fleet has been ordered into the Mediterranean. Greece and Turkey are also expected to assist in the effort to suppress activity of submarines in the Mediterranean.

The Soviet government on Monday night charged Italian submarines with torpedoing two Russian ships in the Mediterranean and demanded reparations. Italy, in a quick response, disavowed all responsibility and retorted that the Moscow note "torpedoed" the scheduled international conference on the Mediterranean submarine piracy threat.

RATHER SLOW ACTING

The three interested powers, Great Britain, United States and France, have been rather slow in asking that their rights in Shanghai be respected. So slow has been the effort to reach agreement and take action that it will not be surprising if no notice is taken of the protest. If the three powers decided to use armed force to back up their demands the question arises as to how long it would take them to really show their teeth.

CRITICISM OF RELIGION

A well known Canadian journalist in London set out to criticize one of the newer forms of religious expression and another Canadian journalist takes issue with him that he has no right to criticize a man's religion. By tacit consent religion has been taboo for all writers unless it is in a spirit of appreciation.

Possibly it is because of this diffidence on the part of journalists that religion has been gradually looked upon with indifference by so large a section of the community. In other walks of life it is considered better to have opposition than indifference. In sport criticism is looked upon as the stepping stone to success. The same is true in literature, in art and in other walks of life. Opposition makes people talk and think and is good publicity. Indifference means a languishing death.

In a small community like Prince Rupert it would be difficult for a journalist to go to a church service and tell what he thought about it. It would be too painful, especially to the journalist. It is too serious a matter to criticize. Nobody wants to impair trusting faith, even if that faith is in the efficacy of the hoodoo. In this age of distrust we like to feel that somebody trusts something.

And yet we cannot help but feel that the Oxford Movement got the best advertisement it ever received when Beverley Baxter set out to be mildly critical of it in an article in the London Graphic.

Betty Lowman Coming Again

Girl Canoeist Will Be Here South-
bound Aboard Cannery Tender

Betty Annette Lowman, girl canoeist, who passed through the city about a month ago in the course of her long paddling trip from Seattle to Ketchikan, will be here again within the next few days going south with her father aboard the Ketchikan cannery tender Nina Mae. In a letter to the Daily News office Miss Lowman expresses appreciation of many kindnesses which were extended her while she rested in Prince Rupert on the way north. She will long remember, she says, the hospitality and generosity of the people of Prince Rupert in entertaining and assisting her.

Man in the Moon

It's a great life if you don't whimper.

We expected the post office and the pulp mill but we did not expect the new shell fish cannery.

As the good book says: "Blessed is he that expects nothing. Verily he shall not be disappointed."

Monday was Labor Day, the day on which the parents labored in a vain effort to please the children.

There's one thing about Premier Aberhart. He knows what he doesn't want even if he does not know what he wants.

Taximan: I'll have a job finding the sixpence change for you.

Scot: Ah, weel, the night's young.

"You understand, Cook, that you forfeit your wages if you leave without notice."

"Oh, that's all right, ma'am. Keep them, and buy yourself a tin-opener."

Charles Colpe, well known Atlin mining operator, was a passenger aboard the Princess Charlotte Saturday afternoon going through to Vancouver enroute to San Francisco. Members of the mine crew were also aboard the same steamer.

Many Angling Parties Out Over
Week-End—Move To Get More
For Cod—Sea Maid Breaks Crank-
Shaft.

Numerous angling parties were out over the Labor Day week-end and, in the most cases, there was good success. Following the dry week and with fine weather still prevailing, angling conditions were very good. Leveron Lake, Khatada, Kiew Nuggett, Red Bluff were among the points visited.

Word has been received in the city of the success of Paddy Palmer of Prince Rupert in passing his examinations at H.M.S. Victory Signal School of the Royal Navy at Portsmouth, England, with the exceptionally good percentage of 99. He headed the class, the next highest being 87. Before leaving Halifax, Paddy had passed his examinations with 93 per cent.

A move has been on foot among local halibut boat owners and fishermen to have the price of black cod paid by local buyers increased from three to four cents. Nothing definite has yet been done, however, as there has not been a representative enough number of fishermen in town at any of the meetings so far called.

Having broken her crankshaft last week while on her way to the fishing grounds, the local halibut boat Sea Maid, Capt. Henry Dolron, is now at Ketchikan awaiting the delivery of a new shaft from San Francisco.

Having broken her tailshaft off Cape Spencer, the Seattle halibut boat Yaquina was disabled at the end of the week. Two members of the crew proceeded in a small boat to get aid and the coastguard cutter Haida put out to tow in the vessel and four members of the crew.

Making her final appearance of the season at this port, C.P.R. steamer Princess Charlotte, Capt. William Palmer, in port Saturday afternoon southbound from Skagway to Vancouver, had on board a total of 253 passengers of whom four disembarked here. Only one passenger boarded the vessel at this port for the south. There were seventy-four round trip tourists returning south on the vessel.

There were no halibut landings at Prince Rupert Saturday. The only boat in was the Kaiken which disposed of 14,000 pounds of black cod to the Canadian Fish & Cold Storage Co. at 3c per pound.

Having on board a large list of passengers including many local and district school teachers returning to their duties after the summer vacation, Union steamer Catala, Capt. James Findlay, arrived in port at 10 o'clock Sunday night from the south and sailed at midnight for Stewart. Anyox and other northern points whence she returned here at 11:15 this morning, leaving at 1:30 p.m. for the south. The Catala made a special call northbound at Ocean Falls with school teachers.

Pilot Charles Elliott arrived at 5:30 Saturday night with his Waco seaplane from Stewart, bringing in a party of Premier men consisting of J. R. Drysdale, J. M. Grey and D. L. Coulter with whom he left early Sunday morning for Lake Khatada on an angling trip over the Labor Day holiday week-end.
