VANCOUVER, May 29: (CP)—The British Columbia Natural Products Marketing Act of 1934 and amendments made in 1936 were declared ultra vires by Mr. Justice A. M. Manson in Supreme Court of British Columbia today.

Mr. Manson considered among other things an argument that the act was ultra vires by reason of the fact that the legislature delegated its legislative functions to the Lieutenant Governor in Council.

Amending legislation could not render valid an act which was ultra vires since its inception. His lordship commented, in reference to amendments passed last year.

Start Being Made at Powell River And is Planned to Extend To Other Plants on Coast

POWELL RIVER, May 29: (CP)—Employees of the Powell River Company are preparing to consider organization of two unions as the American Federation of Labor embarks on a program of unionization of the entire British Columbia pulp and paper industry.

Harvey White, representative of the International Brotherhood of Pulp, Sulphite and Paper Mill Workers, said the proposed organization of the Powell River plant was the "first step" toward an alliance of employees of British Columbia plants with 14,000 unionized workers along the United States Pacific coast.

Other plants to be organized shortly are at Ocean Falls, Wood-fibre, Port Alice and Port Mellon.

Bombardment of Open Cities Condemned By Resolution at Geneva

Regret Expressed That Non-Intervention Measures So Far Taken Have Not Had Full Desired Result

GENEVA, May 29: (CP)—The council of the League of Nations has unanimously voted for a resolution favoring the withdrawal of foreign volunteers from Spain. The League resolution condemns the bombardment of open cities and expresses approval of steps taken by certain governments to evacuate women and children from Spanish war zones. The resolution expresses hope that the initiative undertaken by the London non-intervention committee towards the withdrawal of foreign volunteers will show results. It expresses regret that events do not seem to justify the belief that non-intervention measures taken by various governments on council recommendations have not so far had the full desired result.

FORESTERS' CONVENTION

Quadrennial Gathering to be Held Next Week in Vancouver

WINNIPEG, May 29:—Enroute to Vancouver to attend the Supreme Court of the Independent Order of Foresters to be held during the first week in June, a special train of delegates arrived in Winnipeg over Canadian National lines this morning with close to 100 in the party. At Winnipeg, they were joined by 35 delegates from the United States and the entire party proceeded west later in the day and will arrive in Vancouver on Monday morning.

At Winnipeg the party was officially welcomed by Hon. J. S. McDiarmid, provincial minister of natural resources for Manitoba, in the absence of Premier John Bracken, Mayor Fred E. Warriner of Winnipeg, and Munroe Hall, United States consul, who were introduced to the delegates by Major Thomas Smith, D.S.M., D.D.S.C., managing organizer of the Foresters in Winnipeg. They were piped to Port Garry Park by members of the Winnipeg Pipe Band where the welcoming ceremony was staged. At the park, where the gate of Upper Fort Garry still stands as a historic monument, the party was entertained by the Moorhead, Minn. High School Band now visiting the city.

After being officially welcomed to Winnipeg, Frank H. Hand, Supreme Chief Ranger of the Foresters, was handed written invitations from the Manitoba government and the city of Winnipeg to hold the next convention in this city. Meetings of the Supreme Court of the Independent Order of Foresters are held every four years and the present meeting at Vancouver is the first time in the history of the organization that the gathering has been held west of Toronto.

CAPITOL THEATRE Monday, 8 P.M. Speaker Gerald G. McGeer K.C., M.P. All Adults Welcome

Premier's Message To Electors

To the People of Prince Rupert: In the closing hours of the campaign I would like to convey to the people of Prince Rupert my affectionate regard and appreciation of their long expression of confidence in me.

The present election is the most important since Confederation, for there must be adjustments made in the relationship and jurisdiction of federal and provincial authority.

The welfare of every individual is at stake and the more nearly unanimous the will of the people, the stronger will be our position in the deliberations and negotiations which must take place.

TIME DRAWING NEAR

The time is drawing near when the people of British Columbia will exercise their rights as a democratic people in voting for a man to represent them in the legislature. We believe it would be the best thing for the people of Prince Rupert riding to return Mr. Pattullo as their member once more and we have tried to induce as many people as possible to vote for him. But everyone knows they have a right to vote for any one of the four candidates they may think would serve the people better.

All we ask is that in considering the choice voters should refrain from allowing their prejudices to influence them instead of the best interests of the people.

Unfortunately, so far as the contest is concerned, Mr. Pattullo, as the leader of the government and the Liberal party in British Columbia, feels it his duty to remain at Victoria during the height of the campaign. He is relying on the good sense of the people here to see that his interests do not suffer while he is keeping in close touch with the campaign in all parts of the province.

MESSAGE FROM LEADER

Today we are publishing a message from the leader in which he urges the importance of returning the government once more to carry out the policies which it has initiated. If we try to visualize the big things and allow the little issues which have been raised by the opposition to pass, we should return Mr. Pattullo by an overwhelming majority.

It is not a question of whether we like Mr. Pattullo personally or whether we like someone else. The issues are too big to be settled in that way. It is a question of what will be best for the whole province and for Prince Rupert in particular.

We are not suggesting that the province will be ruined or that any of the candidates are incapable of representing Prince Rupert in the legislature. Under ordinary circumstances, we think Mr. Evitt would be an excellent member but these are not ordinary circumstances and Mr. Pattullo is not an ordinary candidate. He is the Premier of the province and he has initiated policies that he should be allowed to carry to completion.

We know nothing of Mr. Weaver except that he claims to be a musician and that he came here from Vancouver although he gives his home address as at Summerland. We prefer to pin our faith to a man we know.

The fourth candidate, Capt. J. Bowen-Colthurst, is scarcely likely to receive many votes. He admits he is carrying on the campaign for educational purposes. Possibly social credit may yet be explained so that the man on the street can understand it. So far we have not heard it so explained in Prince Rupert.

Letters to the Editor

MODERN TREND

Editor, Daily News:
What is socially operated must be socially owned is the obsession of the socialistically inclined mind.

Is private ownership of the means of production really a handicap to social justice? What has ownership to do with distribution? Is it rather not a plain and peaceful fact that the real outstanding problem of the day is to furnish the consumer with the purchasing power to absorb the superabundance of foods produced by the machine age?

Does the socialistically inclined mind realize that Socialism is a dry branch, for the reason that it belongs to the production age long supplanted by capitalism?

The surplus economy has undermined the rigid conception of the class struggle which stifles the process of social evolution in to the blind alley of class hatred. The struggle is no longer between producers and owners. It is rather mass production versus mass consumption.

Now that the sum total of production due to the application of technical intelligence is superior to the one of manual labor and that chemistry, with four basic elements, namely oxygen, hydrogen, ozone and carbon, with a few other aggregates, is about to revolutionize with synthetic products the market of natural products, the dogma of class action is entirely outside the trend of political evolution.

It is obvious that the state only can unite all the material and spiritual forces of the nation and reconstruct the social structure in keeping with the modern age. It is above all imperative to maintain the authority of the state above the factions—the classes and interests, big and small.

A few fixed points must, however, be fixed in our minds:

1. Wealth in its various forms being a social product, must be organized in function of social service.

2. The principle of private initiative and private property must be proclaimed and recognized the most efficient system of production in the national interest.

3. The generic principle of socialization must be condemned as impracticable.

Mr. Editor, Premier Pattullo has publicly enunciated the principle of gradual intervention of the state in the control of national economy. In other words, he sees like President Roosevelt the imperative necessity to regulate, with the organized power of the state, all economic factors. For this reason alone he should be returned to power. He will be the most beneficial influence in the Dominion.

ANCIENT HISTORY

Editor, Daily News:

On the radio last evening Mr. Patmore, speaking for the Liberal party, made extensive references to my brother, Ernest Love of Stewart, concerning his radio talk of one week ago. As he is not here I will reply to the same briefly.

The statement that Mr. Pattullo was the saviour of the city telephone franchise was made, I believe, in introducing him at his meeting this month and repeated in Liberal campaign matter later in both papers.

My brother mentioned in his radio talk that Mr. Pattullo, the vice-president of the Prince Rupert Telephone Co., and several other directors and shareholders were also members of the first city council and stated to the effect that it was only after a very bitter campaign editorially in the Evening Empire that the council was forced to submit the ownership of the phone system to a vote of the citizens, which vote carried in favor of the city by a large majority.

Only a handful voted for the company to retain it and it was surmised at the time that these were interested parties. This, I submit, was fair comment and a fair answer to the statement given publicly first.

I am sure that the files of the paper will bear me out and I have been assured by many old timers still here that my brother's statement as given was correct.

I have no direct knowledge of

NOT SATISFIED

Editor, Daily News:

In your reporting of my address to a Prince Rupert audience at Moose Hall on Thursday, May 20, you state that "I spent most of the first part of the evening belaboring the Prime Minister." My exact words were, "I do not speak against men, I speak against an obsolete financial system."

You write that "whereas Hugh Savage M.L.A. thought all changes should be changes of the heart, what was needed was a political change." I said nothing about a "political change." I distinctly stated "That what was needed was a change of thought, a change of mind, a change of viewpoint."

You write, "He had done no work for his money, and had no intention of doing any," which is ridiculous. What I did say was, "It is better to let one's money work for one, than to work for one's money," which is sound commonsense.

You write that I "expressed the opinion that our democracy was based on constructive criticism." I never said anything of the sort. I reiterated that our democracy was based on the freedom of the individual, and that, "constructive criticism was a valuable essential in our democracy."

You write that I suggested the press was a "tied press." What I did say was that 185 editors of the Hearst Associated newspapers had to await orders from Wm. Randolph Hearst, as to how they were to write on the last Presidential Election in the U. S. A. To speak therefore of the freedom of the press was a misnomer, and "the press" might often be called "the sub-press."

You write that I claim that the "United States had changed from its being the land of the free and the home of the brave, to the 'land of the spree and the home of the knave.' I have a great love and admiration for the people and country of the U. S. A.—the jocular description with what you debit me was given by an American.

I was president, not vice-president of the Sooke Liberal Association, and I quoted T. D. Pattullo's exact words spoken as leader of the opposition at Victoria on February 27, 1933, as quoted in the Victoria Daily Times, that he "would use national credit to start the wheels of industry moving, so that workers in British Columbia could get away from the dole system, and be employed at reasonable wages."

In your penultimate paragraph you again state that "I blamed the Premier for breaking his pledges." Your reporting of my remark is absolutely incorrect.

Even the date, Thursday, May 20, which you give on the front page of your newspaper is wrong, as I spoke at 8 p.m. on that date, and your paper appeared on the streets at 4 p.m.

Mr. Maitland stated here on May 19 that "The Daily News" was part of the Liberal Party machine in Prince Rupert, and so I can only remind you that misrepresentation of your political opponents is more likely to arouse indignation than contrition.

JOHN BOWEN-COLTHURST

the other matters mentioned by Mr. Patmore with so much venom and can assure our learned friend that it did the cause he espouses no good and am content to leave to the many hundreds who intimately know both parties who is more worthy of belief.

Come on the air again, Mr. Patmore, you are doing good work and offer some entertainment.

Waterfront Whiffs

Halibut Landings Substantially Heavier Than Last Year—Volume Large During Past Week—Trolling Still Slow

Halibut landings at the port of Prince Rupert for the 1937 season up to yesterday totalled 4,435,860 pounds in comparison with 3,525,800 pounds at a corresponding date last year. The Canadian total is 2,453,660 pounds as against last year's 1,888,700 pounds at a similar date while the American aggregate is 1,982,200 pounds in comparison with 1,637,100 pounds.

Landings for the week ending yesterday were the heaviest for any single week so far this season amounting to 531,360 pounds of which 288,360 pounds was from Canadian boats and 243,000 pounds from American vessels. The heaviest single day's landings for the year to date were recorded at Prince Rupert on Tuesday when a total of 352,360 pounds was sold, 142,360 pounds from Canadian vessels and 209,000 pounds from American boats. Despite heavy landings, prices have held steady. The top bid of the week for Canadian halibut was 7.8c and 5c which the Viking I received for 13,000 pounds and the low 7c and 5c which was the prevailing price. For American fish the high price of the week was 8.5c and 6c paid the Tuscan for 13,000 pounds and the low 8c and 6c which the Wabash and Tongass were paid for catches of 6,000 and 36,000 pounds respectively.

The provincial election campaign which concludes with the voting next Tuesday has been receiving its share of attention in the waterfront and marine community. Each side, as usual, has its enthusiasts and, evidently, no one side is going to have a walkaway in spite of extravagant claims that may be made by the more ardent party supporters. Whoever wins, it is generally agreed that things will go on in much the same old way notwithstanding the great things that may be promised or suggested. It has always been that way and there is no reason to suppose that it will be any different after this election has become a thing of the past. It is to be noted that none of the parties have promised "more fish and higher prices." Possibly, we are a little late in suggesting that such might have been a winning election cry in these parts.

While quite a number of boats are out now, there is no very spectacular run of fish on the trolling grounds as yet. The backward spring is having its effect on the fish as on everything else. However, there should be more definite signs of summer very soon and then there should be an improvement in the run.

C. P. R. steamer Princess Adelaide, Capt. Henry Anderson, arrived in port at 4:30 yesterday afternoon from Vancouver and sailed at 10 p.m. on her return to Vancouver and waypoints. In addition to a few local passengers, the vessel had several round-trippers on board.

Union steamer Cardena, Capt. John Boden, arrived in port at 8:15 last night from Vancouver and waypoints and sailed at 10:30 p.m. on her return south.

Imperial Oil Co.'s tanker Imperial, Capt. A. S. McGaw, arrived in port at 10 o'clock yesterday morning from Vancouver and, after discharging fuel cargo at the company's local tanks, left at 2 o'clock in the afternoon for Stewart.

Armour Salvage Co.'s service boat Pachena returned to port Thursday night from a trip to the Queen Charlotte Islands with Olof Hanson M.P. and W. M. Brown who were on a speaking tour on behalf of Premier T. D. Pattullo in the provincial election.

Aboard Eddie Hudson's Elida, M. P. McCaffery, Capt. Paul Armour and W. O. Fulton took to the high seas yesterday to do some electioneering on behalf of Premier Pattullo. Leaving here yesterday morning, they were at Port Simpson last night for a meeting and today are visiting various trolling camps. They are due back tonight.

The Prince Rupert Fishermen's Co-operative Association's packer Ogden is in today from Banks Island and Squadaree with 15,000 pounds of salmon which is going into cold storage for freezing or mild curing. The troller Leona, belonging to Jackson Bros., is also in with 1400 pounds for which 9c and 6c was paid.

Kitzeguklians heard with deep regret and sorrow of the death of Dr. Stanley, assistant superintendent of Hazelton Hospital, on Monday. Although Dr. Stanley only made one visit to the village, he won the respect and admiration of the people.

To Salmon Trollers

Messrs. Woodworth and Telford, leaders of the C. C. F., advocate votes for Orientals. How long do you suppose it will be after Japs get the vote before they obtain trollers' licences and dominate trolling as they now do gill-netting? You know Japanese contractors supply Jap labor in a block as required. Will they not also supply Japanese votes in a block where Japanese interests demand it? You know that Japan is claiming the right to fish in international waters off British Columbia. What will happen here, if the Japanese have the franchise, when we are called upon to vote on the question of allowing Japanese encroachment upon our fishing grounds? The white races are not allowed the franchise in Japan. Why should we give the Japs the vote here? Japan admits the races will never mix. You must admit them to be right. Are you prepared to give them equal rights with yourselves in your fishing and fraternal organizations? Will you accept them in your boat crews, in your lodges and in your homes? You must do this if, as Mr. Woodworth says, we are to assimilate them. Think this matter over carefully before you vote C. C. F.
