Barns And Railway Station Burned

Doukho District Being Investigated

Great Northern Railway Station at Grand Forks Also Razed Result of Incendiary Activity

GRAND FORKS, Aug. 2:—Three men in a truck seen speeding from a flaming building are being sought by the authorities investigating an outbreak of apparently incendiary fires which destroyed the station and three barns Saturday night.

The truck was seen as the barn on the farm of Jim Posnikoff in the predominately Doukhobor settled Slocan Valley, 100 miles northeast of here, burst into flames

Two other barns in the district were destroyed and the Great Northern Railway station here also was burned about the same time.

Sees Improvement Everywhere In Province and Building Is Mildly Booming in Vancouver

"Conditions are improving everywhere," declared L. J. Martin, sales manger of the Home Oil Company with headquarters at Vancouver who came in on the train Saturday evening on a tour of Northern British Columbia.

Mr. Martin is chairman of the B. C. Products Bureau of the Vancouver Board of Trade and as such is in close touch with the situation throughout the province. He sea choppy. says that in Vancouver they are evperiencing a mild | Langara Island - Overcast, building boom and that the building trades everywhere |south wind, 25 miles per hour; are getting busy. He also expects to see Prince Rupert moving forward pretty soon.

TEST AIRWAY SPANNING ATLANTIC BE TWEEN NEWFOUNDLAND AND IRELAND

These two giant British and American flying boats took off simultaneously on flights east and west to survey the route that will eventually become the first regular commercial airway carrying passengers and mail across the North Atlantic. The boats are the mighty Caledonia of Imperial Airways (shown top), with its skipper Capt. A. S. Wilcockson, and the Sikorsky clipper ship No. 3 of Pan-American Airways (below) whose commander on the flight was Capt. Harold E. Gray, pictured alongside. The clipper ship left Botwood, Newfoundland, arriving safely at its destination, Foynes, Ireland, after 12.5 hours of flying, proceeding thence to Southampton. The Caledonia took off from Foynes for the westward crossing and came down safely at Botwood, taking approximately 2.5 hours longer on its trip. From there it moved to New York by way of Montreal, Canada, after spanning the 2000 miles of ocean. The flights were in the nature of tests for the planned passenger and freight routes which the two companies will operate jointly.

Buckley and Associates Expect Be In Prince Rupert This Week Hungerford, chairman and president of the C.N.R. leaves here

City Commissioner W. J. Alder, who returned home this morning on the steamer Princess Louise, announced that F. L. Buckley and associates expect to be in Prince Rupert this week, possibly on Friday in connection with the pulp mill.

While in Victoria Mr. Alder Discussed the whole proposal with Premier Pattullo and found him and members of the government extremely interested in the situation and keenly desirious of helping to get the industry started, while at the same time looking after the interests of the city.

VIEWPOINT OF FRANCO

In Interview To American Correspondent Rebel Spanish Leader Tells of His Aims

NEW YORK, Aug 2: - The Spanish Insurgent forces are fighting not only for control of Spain but for the "destruction of Communism throughout the entire world," according to General Francisco Franco, rebel leader In an exclusive interview with T. R. Ybarra, European correspondent of Collier's, General Franco delivered a special message to the people of the United States, emphasizing that his objective is world-wide.

"It is not generally realized," he told Ybarra, "that we are intent on a crusade that will ultimately lead to the destruction of Communism in the world. Russia has seen this; and that is why. with the help of the French Socialist Government, she has made such frantic efforts to supply Valencia (Spanish Government headquarters) with men and armaments. Had it not been for this, the war would have ended long ago.

"Just as Spain saved the civilized world from the Turks at the Battle of Lepanto, she has now engaged in another such historical feat against the modern but no less dangerous scourge.

"We have time and again proved that there is no government at Valencia; by their own behavior they have proved themselves to be Communists, thieves V and anti-patriots. They have systematically desecrated churches, assassinated priests, murdered peaceful citizens, slaughtered men, women and children. They have stolen and exported the national treasures which the whole world used to admire; they have despoiled the nation of its gold ond heat in the American cup race reserves; they have laid waste

"Notwithstanding all this there are people blind enough or selfish enough to take sides with the Reds-who would prefer to see them win rather than the Nationalists. Many people are prejudiced to the extent that they do not care to see where the truth MADRID LINES do not care to see where the truth lies. But, with their support, or even subjected to their antipathy, the Nationalists will win through. Let them reflect, let them truly ponder over the question, and I am sure that, if they examine the problem in all fairness, they will accept the truth and give us

> The interview took place in Na. of the Bishop of Salamanca. Among other statements made by the Nationalist leader were the following:

In foreign relations the new Nornan, 3,500, Cold Storage, NEW YORK, Aug. 2:-Silver Spanish State-(Franco assumed eventual victory for his forces) -will adopt a friendly attitude toward those other states which have offered her moral support from the inception of the Nationalist movement. There is one nation that the new Spain will never recognize or maintain Connection With Pulp Mill Plans friendly relations with—and that, needlees to say, is Soviet Russia.

"A military dictatorship will only be necessary until the country, freed from the political strife which has harassed it and hampered all activity during past years, can return to normal conditions, under a system of government that will insure order, peace and progress in the land.

"A firm, stable government, capable of imposing its will on the people, and capable of ruling the country, is all that Spaniards need and yearn for."

THE CONSOLIDATED MINING & SMELTING COMPANY OF CANADA, LIMITED

TRAIL-BRITISH COLUMBIA

Manufacturers of Elephant Brand Chemical

Fertilizer Ammonium Phosphates, Sulphate of Ammonia, Superphosphates, Complete Fertilizers

Producers & Refiners of Tadanac Brand Metals Gold, Silver, Electrolytic Lead, Zinc, Cadmium, Bismuth.

British Columbia has produced minerals of an aggregate value of \$1,515,728,149.00.

The gross value of the industry for the first six months of 1937 is estimated to be \$36,383,540.00. This is an increase of 53.4% over the value for the corresponding period in 1936.

Indications are that this year's production will exceed that of any previous year in value, which is a splendid commentary upon the stability of the mining industry in this province. New properties are being brought into production, and with the reopening of old properties, mill capacity will be considerably increased over last year.

For Authoritative Information Regarding the Mining Industry Apply to .
