Japan Mobilizes Against Russia

Diamond Drilling Proceeding At Anyox and Plant Reopen Soon 'Tis Heard

ANYOX, Sept. 28.—Diamond drilling is going ahead here and by the end of the year the Consolidated Mining and Smelting Company will know pretty nearly what ore may be available for the opening up of the plant which it is said may take place next year. Dr. A. Jure, chief geologist for the company, is in charge of the work and three shifts are being worked.

The probability is that, if the plant is re-opened, it will be operating like as large as the one operating before the closedown. It will be of a different type and will be so planned that it will be able to handle custom ore as well as the ore produced on the ground. It is not expected that any ore concentrates will be brought here from Big Missouri. It is planned to extract the gold from the ore right at that mine and export it in gold bricks. That is now all ready to commence production on a large scale and officials are satisfied that the results will justify the expenditures that have been made. The mill, being located under ground, enables it to be worked all year and summer.

NO FORCE OR EFFECT

Proposed Alberta Legislation Would be Futile, Declares Ottawa

Called "Seditious"

Debate in Legislature Getting Into Involved Constitutional Ground

OTTAWA, Sept. 28.—Constitutional authorities in Ottawa, commenting on a resolution presented to the special session of the Alberta Legislature under which the province would no longer recognize the right of the federal government to disallow its legislation, say that such a resolution, if passed, could have no legal force or effect. The Dominion has the power under the British North America Act to veto provincial legislation and that power could only be removed by amendment of the British North America Act.

At Edmonton Premier Aberhart said his recall as member for Okotoks-High River, if ordered by the courts, would not interfere with the progress of Social Credit legislation or program.

Sedition Charged

EDMONTON, Sept. 28: (CP)—The Opposition in the Legislature yesterday termed as seditious the government's resolution which would disregard the Dominion's power of disallowance. After consultation, the Speaker refused an Opposition contention that the resolution was out of order and was sustained by a vote of 45 to 11 in the House.

Taking particular exception to the use of the words that the Governor General had "presumed" to disallow Alberta legislation, both Liberal and Conservative leaders agreed that the resolution was "improper, unparliamentary and seditious."

Provincial Secretary Maynard, sponsoring the resolution, declared that the province was "sovereign in its own sphere." He said that the vote on the present resolution would be awaited before it was decided whether or not there would be re-introduction of the disallowed acts regarding banks.

Maynard, who is also minister of municipal affairs, maintained that, if the King was not permitted to disallow Imperial legislation, then his representatives—the Governor General or Lieutenant Governor—had no greater authority to disallow federal or provincial legislation.

Earlier D. M. Duggan, Conservative leader, and Gerald O'Connor of Edmonton, Liberal, contended that the resolution was seditious. It was Mr. Duggan who demanded a test as to whether or not the resolution was in order whereupon the Speaker ruled that it was.

The debate on the resolution resumes today. It denies federal authority to disallow provincial legislation and expresses determination to implement the disallowed acts.

HERRIDGE OUTSPOKEN

To Many Clamoring Minorities And Not Enough Unity In Canada, He Declares

SYDNEY, Nova Scotia, Sept. 28: (CP)—In an outspoken address here yesterday, Hon. William D. Herridge, former Canadian minister to the United States, said there was no unity in Canada. There were too many sectional minorities each clamoring for their own rights.

Major Herridge, who was speaking before the Sydney Board of Trade, said that Fascism was possible in Canada unless the people protested at the denial of their general rights. He called upon the "Old Capitalism" to help create a new economy to combat the peril of reaction and fascism. He stressed this value of trade unionism which he believed reactionary forces were attempting to destroy.

Straight Fight In Gotham Now

Socialist Candidate Drops Out Of Mayoralty Field In Order To Support LaGuardia

NEW YORK, Sept. 28: (CP)—The fight for the New York mayoralty resolved itself down to two candidates—Mayor Fiorella LaGuardia, Republican candidate for re-election, and Jeremiah T. Mahoney, the Democratic standard bearer—last night when Norman Thomas, the Socialist, withdrew and pledged his support to LaGuardia. The fact that Communists and Socialists have both assured their support to LaGuardia might alienate certain party support from LaGuardia to Mahoney, it was thought in political circles last night.

Five Candidates Enter Field In Edmonton Fight

EDMONTON, Sept. 28:—There was a last-minute entry on nomination day yesterday for the forthcoming provincial by-election when a woman alderman entered the contest as a Labor-Progressive candidate. She makes the fifth candidate and divides the opposition to the Social Credit candidate.

LABOR WAR CONTINUES

Round World Cruise Ships May Not Call at 'Frisco—Criminal Charges Against A. F. L.

SAN FRANCISCO, Sept. 28:—The battle between the American Federation of Labor and the Committee on Industrial Organization for control of organized labor on the Pacific Coast continues without let-up while industry and shipping suffers as a result.

Criminal charges of violence and intimidation were made by the C. I. O. yesterday against the leaders of the Teamsters' Union in connection with the picketing of the San Francisco waterfront. The picketing, however, continues uninterrupted and the only cargo that is being hauled is that which can be taken in railway cars. Trucking is at a standstill. As a result of the San Francisco waterfront trouble, it was stated yesterday that round-the-world cruise ships might eliminate this as a port of call.

At Los Angeles yesterday A. F. L. interests sought an injunction from the courts to enjoin the International Longshoremen's Association from affiliating with the C. I. O.

Portland sawmills continue closed with their product still tied up on account of the boycott applied by the C. I. O.

Metal Trades Convention

DENVER, Sept. 28.—Abolition of the National Labor Relations Board as being unfair to the interests of organized labor was urged by President Williams yesterday at the convention here of the metal trades department, largest unit of the American Federation of Labor. The drive for the expulsion of John L. Lewis, leader of the Committee on Industrial Organization, continues.

IS BEFORE ASSEMBLY

Resolution Condemning Japan For Bombarding Chinese Towns Goes to Main League Body

Raids Continue

Japanese Still Keep Up Their Campaign of Frightfulness

GENEVA, Sept. 28: (CP)—The resolution of the Far East committee condemning the bombardment of Chinese towns by Japanese airmen is being submitted to the Assembly today.

Before the resolution was adopted by the committee yesterday Dr. Wellington Koo, China's delegate, urged the League to name Japan as a "wrongdoer to the world." The British, French, Swedish and Russian members of the committee orally condemned Japan for the bombardment of non-combatants, declaring that the horror and indignation of the world had been aroused.

Despite widespread disapproval, Japan continued its air raids yesterday, from 100 to 200 non-combatants being estimated to have been killed at Nanking and Foochow.

In Shansi Province the Chinese were reported yesterday to have launched a vigorous offensive, driving the Japanese invaders before them.

**SATISFACTORY RESULT**

It was fully expected that there would be a large majority in favor of making concessions to the people planning to erect a pulp mill in Prince Rupert. The vote was very satisfactory and it is to be hoped that the promoters will now realize that the people of the city are behind the project and are ready to co-operate to bring about its establishment. We hope some definite move to that end will be made in the near future.

**MORE COMPLICATIONS**

It is evident that complications in connection with the war in China may arise at any time and that other countries may become involved. The attitude of Russia was to have been expected but it is impossible to say what other countries may do if Russia intervenes. What is evident is that the world powers seem determined to stop the killing of non-combatants in the campaign of frightfulness.

Yesterday there was a glut of halibut at the local fish exchange yet good prices were paid. It was the largest offering ever made here and a sum of something like forty thousand dollars was paid to the fishermen in one day. The fact that most of the fishermen were American does not lessen the importance of the transaction to this port. The fish were handled by local houses, packed by local men and it was or will be carried east by a Canadian railway.

**INTERNATIONAL JUSTICE**

If the press reports be true the two dictators, Mussolini and Hitler, are asking that international justice be universally respected. In view of recent happenings we cannot quite understand the views put forth by the German and Italian rulers. It can hardly be said that the conquest of Abyssinia was in accord with international justice nor is the attack on China with the killing of thousands of non-combatants international justice. Both are condemned by the League of Nations.

The vote yesterday in favor of giving some slight concessions to the pulp mill was almost unanimous.

Only a dozen people standing in the path of progress. If we only knew who they were, we might buy them out and let them go.

Jake says he guesses the dozen who voted against the pulp mill thought they were doing the right thing by writing "no" on the ballot paper. Perhaps they were. It's rather nice to be a village.

The waterfront was a busy place yesterday. King Halibut reigned supreme for the space of a few hours.

With forty-five thousand dollars divided among members of the fleet the fishermen felt something like the man who was all dressed up and nowhere to go. They had plenty of money but no time to spend it.

Now that the big fish day is over and the vote has been taken on the encouragement to the pulp mill we shall have time to read the war news.

TERRACE, Sept. 28:—Interest in the land is reviving in the Terrace district. There have recently been two important transactions by which desirable farm homes have changed hands.

The larger of these deals concerned the farm and orchards of J. K. Gordon, who has decided to limit his work to a smaller fruit farm which he owns. The main orchards up on what is termed "the bench" consist of some thirty acres of fully bearing trees and ten or fifteen acres besides this property have been sold to Mr. and Mrs. Grainger who have come here from Edmonton. There is a crop this year of 2000 boxes of apples and probably 1500 boxes of stone fruits. The other deal concerns the Andrew Martin place north of town which has been purchased by J. Loen.

## WORKED FOR HIGH AIMS

Boston Merchant-Economist's Ideal Was More Social Justice

PARIS, Sept. 28:—Edward Albert Filene, Boston merchant, noted publicist and internationally known business economist, died in Paris Sunday night.

Often called the apostle of mass production and distribution, Filene preached a gospel of low cost production and high wages, of social justice, of shorter hours, of the scientific approach to business problems and of community service. He practiced his precepts as one of the co-owners of the largest specialty store in the world, William Filene Sons' company, and always tried to exemplify what he urged upon other employers.

There, 3000 employees benefited to an unusual degree by the liberality of Mr. Filene and his brother, A. Lincoln Filene, who long before the turn of the century had established the Filene Co-operative association, which gave to the firm's workers powers greater in many respects than those of the management itself.

The idea was called revolutionary by some competitors but the Filenes regarded it simply as giving effect to their conceptions of social justice.

Filene frequently spoke before important gatherings both at home and abroad. He helped to found the Boston Chamber of Commerce, the United States Chamber of Commerce and the International Chamber of Commerce.

He presented his ideas on mass distribution and its effects upon the standard of living to the first world social economic congress, held in Amsterdam, Holland, late in August 1931. He preached the gospel of maintaining wages and lowering prices a few days later to a large audience in Leipzig, Germany.

He helped to reduce economics and business theory from the more or less abstruse language of the text book to the understanding of every day man. Always he emphasized the social side of the mechanics of business.

## DECIDED TO SELL HERE

American Boats Stayed Because Taking Fish South Would Have Meant Losing a Trip

Many large American halibut schooners in Prince Rupert with their catches yesterday decided to take lower prices at this port than they believed they would have received at Seattle so that they would not to run the risk of losing their final trip of the season to the banks before Wednesday, the closing date for issuance of clearances. As a result, Prince Rupert had the heaviest day's landings of halibut in its history with a total of 677,000 pounds from twenty-three vessels. The sales for the day were as follows:

**American**  
Paragon, 39,000; Akutan, 40,000; Bonanza, 23,000; Estep, 20,000; Hazel H., 18,500; Betty, 11,500; Sherman, 15,000, Cold Storage, 8.5c and 6c.

Liberty, 35,000, Booth, 8.2c and 6c. Lituya, 26,000; Leviathan, 32,000; Havana, 39,000, Booth, 8.5c and 6c. Zenith, 39,000, and Ionic, 25,000, Royal, 8.5c and 6c.

Western, 39,000; Bernice, 24,000; Narrona, 28,000, Pacific, 8.5c and 6c. Eldorado, 39,000, Pacific, 8.1c and 6c.

Electra, 35,000, Atlin, 8.5c and 6c. Atlas, 33,000, Cold Storage, 8.7c and 6c.

Arrow, 29,000, Atlin, 8.6c and 6c.

**Canadian**  
Dovre B., 23,000, and Takla, 45,000, Cold Storage, 8c and 6c. Signal, 27,000, Atlin, 8.1c and 6c.

**Closing Clearances**  
The last date for clearances being issued to the banks this year having been set for midnight Wednesday, International Fisheries Commission was communicated with by the American boats in the hope that an extension might be made of the clearance date. This being refused, the boats sold here in order to turn back to the grounds for their final trips of the season.

There were only some fifteen refrigerator cars in the railway yards, enough to take care of some 400,000 pounds of fish. The rest has gone into cold storage. Three carloads of halibut were dispatched east by last evening's regular train, a fish special of twelve cars leaving this afternoon.

### RECORD BANANA-EATER

HOBART, Tasmania, Sept. 28: (CP)—Ernest Renault claims a "world" record in banana eating. He ate 44 in 30 minutes, or one more than the previous record reported from Melbourne. "It is a world record," he said.

## ARCHEOLOGY DISCUSSED

Canon Rushbrook is Interesting Speaker Before British-Israelites

Canon Rushbrook gave an absorbing address last evening to a good gathering of British-Israelites and their friends on recent archeological discoveries proving historical veracity of the Bible.

Excavators in ancient Babylon had recently unearthed tablets and cylinders showing that writing of a high order was in common use before the Flood at which time a wonderful civilization was illustrated by contents found in graves and ruins of houses.

Many who had doubted the book of Genesis had their faith restored in the bringing to light of inscriptions of persons, places and things.
