YOUTH DEMONSTRATION

We are all strong for peace but we cannot see what possible effect the Canadian Youth demonstration at Toronto can have on the warring nations such as Japan and Spain or the possibility of Russia entering the conflict against Japan. What they may do is to weaken the prestige of the Empire when it speaks through its chosen representatives. It was because of its unhappy divisions that China was attacked by Japan and Russia] is very greatly weakened by the news of punishment of men who seen to have been plotting against the government.
