## Hospital Campaign

The hapital board has decided to go ahead with a campaign to raise \$30,000 as the share of this district toward able game in goal for the Black the erection of a new hospital to cost \$100,000. The pro- Hawks. Late in the second period vincial government is contributing liberally toward the had to be taken to the dressing Little scheme but the city is not in a position to borrow money room where several stitches were for it. It is quite impossible to sell city debentures and put in. He returned to the ice afsuch action would not be allowed by the minister of muni- ter a delay of ten minutes or so Kinslor cipalities in the present civic set-up.

The hospital is very badly needed, in fact it is almost suffering a gash in the elbow in imperative that a new building be erected at once. If the the second period as a result of money can be raised it is understood that work on the new building may be started during the coming summer.

For years past the Prince Rupert Hospital has not beenapproved by the American Hospitals Association authori- roons, winning five to nothing Armour Salvage ties and recently, other governmental officials have added with two goals in the first and their muota of condemnation of the old building as being out of date and dangerous for patients and staff.

The feeling at Victoria evidently is that the district should do its part in raising the money just as they do in other districts. The neonle of the Bulkley Valley got rid of the difficulty by handing the work over to one of the branches of the Roman Catholic Church. So far as can be gathered action such as that does not meet with general approval in Prince Rupert, it being preferred to keen the hospital absolutely non-sectarian. To do that it will be necessary to raise some money locally and that it is planned to do An excellent committee has been appointed to initiate the campaign and, doubtless, the people of the whole district will be willing to donate to the fund. At any, rate an opportunity will be given them to do so.

## An Advertising Experiment

A remarkable statement was made by Roger W. Bab- M'CALLUM son, famous commercial statistician. He broadcast an advertisement by radio at the cost of \$3000 and received sixteen enquiries and orders as a result. A couple of days later he printed his advertisement in five newspapers in different cities, at a cost of \$3000, and received 4000 re- Mount Oldfield Club, Now Possessplies. The radio advertisement cost him \$166.66 for each reply, whereas the newspaper advertisement was only 75 cents a reply.

Roger Babson is one of the most alert business men on the North American continent, and his opinion on this elected F. A. MacCallum as presimatter will undoubtedly have tremendous weight. An advertisement that is read in the newspaper, set up in an attractive manner and sometimes illustrated, gets the attention of the reader, and leaves a lasting impression.
