**The Political Prospect**

The political prospect as indicated from many sources is that the Liberal party under Hon. T. D. Pattullo will be returned to power at the election next Tuesday. The real fight seems to be as to whether the Conservatives or the Co-operative Commonwealth Federation will be the official opposition.

The indications also point to the election of Mr. Pattullo in Prince Rupert. Word received from the Islands is that the Premier will get more than half of the vote there, that he will get a good majority in the city and that the other outlying points will give at least a plurality.

In view of the fact that Mr. Pattullo will still be Premier after the election, it would be suicidal for his home constituency to defeat him. He could have been elected in a dozen places in the south but he trusted Prince Rupert and he believes Prince Rupert trusts him in spite of the speeches of wily politicians who distort the truth and make things seem like what they are not. Prince Rupert people would hate themselves if they sent a travelling musician to represent Prince Rupert in Victoria while the Premier represented some southern constituency. We do not think this can happen but can we afford to take chances?

**Cut Down Costs**

If by any chance the Conservatives should take the place of the Liberals at Victoria, as some few people predict, they are pledged to cut down expenditures and in what easier way could it be done than by shutting down the work on the highway east of Prince Rupert? We suggest that, if the people of Prince Rupert want work to continue, they vote for Hon. T. D. Pattullo, the man who is pledged to secure a better deal from the Dominion so that more money will be available for opening up the province by means of highways.

**What Rockefeller Did**

John D. Rockefeller was a pioneer in co-operation and he proved to the world that huge corporations can be successful in business. In doing this he proved that, if necessary, large industries might be carried on successfully by governments as long as they were conducted on purely business lines.

Rockefeller's idea was that it was useless to try to help people. What the mass of the people needed was to be taught to help themselves. He said: "There is no feeling in the world, I think, to be compared with self-reliance. Do not sacrifice that for anything else." And again: "If the people can be educated to help themselves, we strike at the roots of many of the evils of the world."

In giving away part of his vast fortune, Mr. Rockefeller made himself ill studying methods and schemes for giving without pauperizing the recipients. A small part of this money is being used in paying the costs of the university extension lectures from which Prince Rupert benefitted last winter.

Some of Rockefeller's sayings have survived. Here are one or two of them:

"Do not grow old before your time. Maintain an interest in life and in all living things."

"Live within your means. One of the swiftest toboggans I know is for a young man just starting in life to run into debt."

"I believe in man and the brotherhood of man and am confident everything will come out for the good of all in the end."

**The Letter Box**

**THE POLITICAL ISSUE**

Editor, Daily News:  
The average zealot, enthused by the two newcomers in the political field, C.C.F. and Social Credit, thinks that they are the long sought new magical lights which will cure our social ills.

The C.C.F. is a half-baked variety of popular Socialism and Marxism. The latter was experimented with in Russia during the past twenty years and resulted not in Socialism but a capsize form of it, namely State Capitalism.

C.C.F. and Social Credit belong to the variety of sentimental policies known under various names such as "Republic of Plato," "The City of the Sun," "Campanella," Sir Thomas Moore's "Utopia," Robert Owen's "Industrialism," etc.

What then? First of all, our cardinal problem is not one of production or change of ownership of the means of production. What the people are concerned with is not the static legal principle of titles of mills, factories, mines, railroads etc., but in the distributive machinery and the flow of purchasing power and goods which governments, under pressure of events, are already steering in their direction.

The fundamental problems of the day are the relations of wealth and labor, dignity and justice. It is of paramount importance that the activities of production shall not be at the mercy of insatiable appetites, that the regime of distribution shall not be in the hands of trusts, stock exchanges or single individuals but co-ordinated between the rights and needs of the state and the collectivity of the citizens. If democracy is to survive this is its inescapable work.

The trend of political evolution the world over has definitely supplanted the old idea of Socialism. In the cradle of Socialism an entirely new philosophy is born. The masses have ceased to think in terms of class. They think in terms of national solidarity and social justice.

In the great republic to the south of us, labor has never assumed the aspect of class politics and, under the wise and humane leadership of President Roosevelt, labor of hand and brain will soon cease to be a class fact and assume the expression of national power.

The concept that the state is responsible for national welfare is a generally accepted fact. Events will soon force the state to become the centre of a living reality and establish the mobile equilibrium between production, prices, profits, wages, Wheat Boards, Marketing Acts, People's Banks etc.

Labor, wealth and technique are one and indivisible, the future of civilization demands their full co-operation. Together they will usher the industrial civilization but the highway is not the class appeal but true democracy.

OBSERVER.

**CHANGED ALL THAT**

Editor, Daily News:

A Conservative article asks what Pattullo has done for Prince Rupert. Those of us who remember the hundreds of men and women who paraded in our streets escorted by the police under the last Tory government about five years ago know quite well that Pattullo has changed all that and, although we are not yet completely out of the depths, we know that it is 100 percent better than it was then. These same Tories led by Tolmie's old lieutenant, Dr. Patterson, are now asking us to put them back in power. They must think we have short memories.

**Smithers Couple Wedded Saturday**

Miss Bertha Chapman Becomes Bride of Reginald Collison

SMITHERS, May 28.—A very pretty wedding was solemnized in the United Church at Smithers Saturday afternoon at 1 o'clock when Miss Bertha Chapman became the bride of Reginald J. Collison of Smithers. Rev. L. J. Hales performed the ceremony and the church was filled with the many friends of the happy couple.

Mr. and Mrs. Collison left later in the afternoon by motor for a honeymoon trip through Southern British Columbia and will return in about two weeks.

The bride was head stenographer at the government offices in Smithers where she had been employed for nine years and is the daughter of Mrs. E. S. Arnold of Smithers.

Mr. Collison is a popular member of the Smithers Lumber Yard firm and is one of the younger business men of the town.

Both young people are very well known throughout the Bulkley Valley and their many friends will wish them many long and happy years of wedded life.

Aubrey Ivarson arrived in the city on the Prince George last night from Premier to spend a month or so here visiting with his parents, Mr. and Mrs. A. Ivarson.

**Man in the Moon**

The election campaign is on and nobody seems to be worrying so far.

Jake says he's going to vote C. C. F. so he can join the dictatorship of the proletariat. He says he notices all the members of the C. C. F. want to be dictators.

Dugald was out walking with Janet the other evening and she said: "I love ye Dugald, I love ye so much I'll give ye anything ye like." Dugald thought it over and decided the most useful thing she had was a bicycle so that's why Dugald now rides a woman's bike.

A speaker who had been asked to make his after-dinner remarks as brief as possible, rose and said: "I have been asked to propose the toast of our guest, and I have been told that the less said the better."

"I turned the way I signalled," said the lady, indignantly. "I know it," retorted the man, "that's what fooled me."

It is understood the tax collector is talking of collecting amusement tax from some of the political speakers.

If there is not good government in this province during the next term it will not be for lack of legislative candidates.

Prince Rupert seems to always get the small end. There are a good many similar constituencies with five candidates yet this city can boast only four.

Louis Lebourdais has been keeping the Cariboo in the public eye for a number of years through his old-time stories and now they say he is to be rewarded by making him member for the riding.

Jake declares election stories in Prince Rupert are just as old as those in the Cariboo.

**NOBODY ENJOYS TAKING MEDICINE!**

Yet most people at some time suffer from common constipation. Why not correct this condition the natural way—by including a ready-to-eat cereal with your daily meals instead of taking weakening pills and drugs?

Kellogg's ALL-BRAN adds the "bulk" the average system needs. In the body, ALL-BRAN absorbs twice its weight in water, forming a soft, spongelike mass—which gently cleans the intestines.

Kellogg's ALL-BRAN also furnishes vitamin B to tone up the intestines and iron for the blood.

Just eat two tablespoonfuls a day, as a cereal with milk or cream, or cooked into appetizing muffins, breads, etc. Three times daily in severe cases.

ALL-BRAN is sold at all grocers. Made and guaranteed by Kellogg in London.

**CEREMONY AT OSLAND**

Coronation Day 'Fittingly' Celebrated at Village

OSLAND, May 28.—Coronation Day in Osland was appropriately celebrated by the planting of a Royal oak seedling which had been presented to the settlement by the Department of Agriculture for the occasion.

The ceremony was opened by the school children singing "O Canada." During the planting of the seedling in the school grounds by Mrs. R. Sakamoto, the children, who had grouped themselves about, sang "The Maple Leaf."

Miss Beatrice Webb, acting as chairman, introduced the speak-

ers for the afternoon. F. Kristmanson, in his native Icelandic, and Mrs. S. Yamanaka, in Japanese, spoke eloquently on "Coronation Day to Canadians."

After the presentation of Coronation medals to the children, the ceremony was concluded by all singing "God Save the King."

Hostesses for the afternoon were Mrs. O. Olafson and Mrs. J. Jonsson. Refreshments were donated by the various ladies. The table was charmingly graced by a bouquet of fuschia and maiden-hair fern.

This very enjoyable afternoon was humorously climaxed by the entrance of "Nannie," one of the settlement's well known quadrupeds, who took it into her head to join the gathering in the school-house and test the quality of the table decoration.

The King  
His not alone the might of pride  
and place,  
Of pageantry—the pomp of ancient days,  
With silver trumpet—clarion  
round the world—  
The glorious Flag unfurled;  
Deep in our hearts, by generous,  
knightly deed,  
Vast, quiet courage in the Empire's  
need,  
He shall be King indeed!

## USK HAS BIG DAY

All Terrace Attends Celebration—Recovery from Flood Complete

TERRACE, May 27:—Victoria Day passed off quietly at Terrace. There is a reason for this in the unwritten law which decrees that all Terrace shall go to Usk to celebrate that special holiday. The edict was obeyed to the full and the Terrace crowd enjoyed witnessing the victory of Terrace baseball club over the Usk team. Usk, however, evened matters up when it came to deciding the championship in softball, the Usk girls winning.

The day came to a fitting close in Lee Bethurem's Hall where dancing was the order until the wee sma' hours.

A good deal of credit is due to the inhabitants of Usk for the almost complete repair of the ruin which was their lot in the flood of last summer. A visitor to Usk today would scarcely believe it to be the same place, where houses had floated around or vanished altogether and where a huge chaos of driftwood had floated on to the gardens and streets.

## FINALS IN BADMINTON

## SMITHERS DOLLS UP

Coronation Day Inspired Everybody to Decorate Premises

SMITHERS, May 28:—Never in the history of Smithers had there been such a splendid and whole-hearted scheme of decoration for any holiday or event as that displayed in this town on Coronation Day.

Main Street, between the Canadian National Railways depot and the Government Office, was a blaze of color both by day and by night. Strings of flags crossed and recrossed the street at very frequent intervals and at night there were as many red, white and blue colored lights as there were flags by day.

Many people came in from the country at night to witness the display and many laudatory remarks were heard for the staff which worked under J. G. Stephens, the chairman of the committee, in producing such a fine decorative effect.

All the business houses of Main Street were decorated as well and the Canadian Legion building, under the supervision of Lt. Col. R. L. Gale, presented a fine appearance. Residences throughout the town were decorated with bunting and there was not any more material in the way of flags or bunting to be had in Smithers, the large stock brought in by many of the stores having been all used up.

There was a large gathering in town for the Coronation festivities, the celebration being one of the finest ever staged in the history of the town.

## EMPIRE DAY CELEBRATED

Kitsegukla, May 28:—Empire Day in Kitsegukla was celebrated with a community picnic.

Young and old gathered on the recreation grounds in the forenoon. Chief Cookson, who is still hale and hearty in spite of his nearly 80 years, heralded the day by riding through the streets in suitable array.

Children's foot races were run off and games played until a delicious lunch was served picnic style by the members of the United Church Ladies' Aid.

During the afternoon softball between the girls and men was played. Grandfathers and fathers contested the game with young women in their early teens. Joseph Wesley caused great amusement by his interest and activity.

This was followed by a football game in which the young men showed great skill and gave much pleasure to respective boosters as each one took his or her side.

Prizes were later distributed to the successful competitors among the children. These were donated by Chief Cookson. Peter Brown assisted by Matthias Wesley, made the awards.

Speeches of appreciation and thanks closed the day. J. Wesley and Chief Cookson thanked all who had assisted in any way in making such a delightful time possible.

Although many of the people are away, some already being at Hazelton and others visiting Hazelton he preached for Rev. W. D. Moore, who was attending United Church Conference. Dur-

Messrs. Woodsworth and Telford, leaders of the C. C. F., advocate votes for Orientals. How long do you suppose it will be after Japs get the vote before they obtain trollers' licences and dominate trolling as they now do gill-netting? You know Japanese contractors supply Jap labor in a block as required.

Will they not also supply Japanese votes in a block where Japanese interests demand it?

You know that Japan is claiming the right to fish in international waters off British Columbia. What will happen here, if the Japanese have the franchise, when we are called upon to vote on the question of allowing Japanese encroachment upon our fishing grounds?

The white races are not allowed the franchise in Japan. Why should we give the Japs the vote here? Japan admits the races will never mix. You must admit them to be right. Are you prepared to give them equal rights with yourselves in your fishing and fraternal organizations? Will you accept them in your boat crews, in your lodges and in your homes? You must do this if, as Mr. Woodsworth says, we are to assimilate them.

Think this matter over carefully before you vote C. C. F.

## WHIFFLETS From the Waterfront

Halibut Area No. 2 May Close Early in August — Coastal Steamers in Port From South

If halibut fishing continues at the rate it has so far this year, it is estimated that the season's quota for Area No. 2 will have become exhausted by early August when it will be closed. The last half of October would see the close of No. 3 Area.

On a regular voyage to Alaska, C. P. R. steamer Princess Louise, Capt. S. K. Gray, arrived in port at 8:30 this morning with a good list of passengers and sailed at 10 a.m. for Skagway and waypoints. The vessel is due here southbound Tuesday afternoon. The Princess Louise had on board 158 passengers of whom four disembarked here while fourteen boarded the vessel here for the north.

To exercise the franchise at the polls next Monday as every good citizen should, Harry Scott has arrived in town from his hand logging operation down the coast. He came in with his boat Lila on Wednesday afternoon and will be here until next week. Harry is sure that he knows who is going to win the election and, in fact, is willing to bet that it will be the man who gets the most votes. Providing the election is not disqualified. And, at that, his guess is probably as good as those of some of the political enthusiasts.

Captain K. Petersen of troller Westford, from Freeman Pass, has delivered to the Co-operative 500 pounds of salmon at 9c and 6c. The Co-operative packer from Banks Island, Quatset, delivered 9,000 pounds and the Azurite is in from Dundas Island with 2,500 pounds to be cured and frozen for the Fishermen's Co-operative.

A notice to mariners announces that a fog horn on the southwesternly point of Green Island, Ori-Flame Passage, Chatham Sound, is being replaced by an acetylene fog gun which will be fired once every minute. The fog gun is elevated eighty feet above the water.

Victoria Day holiday week-end anglers, apparently, met with varied success. Fair strings of trout were reported by some who visited the Prudhomme Lake district. At most of the popular streams, however, it was found that the water was too high for the best of results. The very fine-weather, however, made the outings in all cases very enjoyable.

The big Seattle halibut schooner Vansee, Capt. Andred Olsen, is giving up halibut fishing for the time being to take up a sixty-day charter as a tender for the New England Fish Co.'s cannery at Chacon, Southeastern Alaska, starting June 22. At conclusion of the charter, the Vansee will resume halibut fishing.

Capt. Charlie Ness, owner and skipper of the Seattle halibut schooner Venture left Seattle this week for a trip to his native land of Norway as well as other European countries. He expects to be away until next spring. Capt. Lars Ness will take command of the Venture during his absence.

Three Seattle halibut schooners, all well known in Prince Rupert, took part in a halibut gear setting and hauling contest which was held in Seattle harbor Saturday as a feature of National Maritime Day observance. They were the Unimak, Aleutian and Tordenskjold. The boats actually finished the contest in the order named but it was declared a draw with the three boats sharing the \$60 prize which had been put up for the winner.

## Naval Wedding At Esquimalt

Pretty Nuptials of Miss Agnes Fyfe and John Robert Anslow

The marriage of Miss Agnes Fyfe, only daughter of the late Robert Fyfe and Mrs. Fyfe of Victoria, to John Robert Anslow, eldest son of Mr. and Mrs. J. Anslow of Prince Rupert was solemnized in St. Paul's Naval and Garrison Church, Esquimalt, Rev. Arthur Bischlager officiating. The church organist played the wedding marches.

The marriage was solemnized in St. Paul's Naval and Garrison Church, Esquimalt, Rev. Arthur Bischlager officiating. The church organist played the wedding marches.

The chancel screen was banked with palms and ferns and flowers in shades of yellow, pink and blue, including iris, tulips and lilac.

### Bridal Party

The bride, who was given away by Mr. Anslow, sr., looked charming in a gown of ivory satin and filmy tulle veil arranged beneath a coronet of orange blossoms, and carried a shower bouquet of Ophelia roses, white carnations and sweet peas. The maid of honor, Miss Gay Stewart, wore a pretty frock of yellow net over satin, trimmed with bands of satin on the skirt and short puff sleeves, and a matching turban and short veil and carried a sheaf of mauve sweet peas, and the bridesmaids were Miss Rose Macdonald, in a pink net frock trimmed with blue, and Miss Cecilia Webster, in blue net trimmed with pink. They wore large picture hats with long streamers at the back in contrasting colors to their frocks, and carried Colonial posies of pink roses, violas and lilies of the valley. The groom and his attendants, who are all members of the personnel of H.M.C.S. Fraser, were in uniform.

Robert Dewhurst was best man, and the ushers were Edward Hall Victoria, and Ward Chester and Ernest Bell, Calgary.

A reception was held after the service at the home of the bride's mother, who welcomed the guests in a blue lace frock and matching turban, and a corsage bouquet of white sweet peas and lilies of the valley, assisted by Mr. and Mrs. Anslow, sr., the latter in a flowered chiffon frock and a large mauve hat, wearing a corsage spray of mauve sweet peas and lilies of the valley. Masses of flowers were delightfully arranged for the event, and the wedding cake had the place of honor on the supper table.

Mr. and Mrs. Anslow left at midnight for Vancouver, en route to Los Angeles, and on their return will live in Victoria. For travelling the bride chose a green hand-knitted suit, worn with green accessories.

## 'DODSWORTH' ON SCREEN

Said to be as Great on Screen As It was as Novel and Stage Play

Sinclair Lewis' "Dodsworth," which was great as a novel and stage play, comes as a talking picture to the screen of the Capitol Theatre here this week-end with Walter Huston, Ruth Chatterton, Paul Lukas, Mary Astor and David Niven in the leading roles.

Huston plays the title role of the easy-going American husband who retires to travel and find himself but, instead, finds out his frivolous, selfish and extravagant wife. The wife divorces Dodsworth to marry an impoverished young Austrian aristocrat, leaving the husband to wander miserably through Europe alone. In Italy, he meets a fine, sympathetic woman and they fall in love. A climax ensues when the first wife wishes to return to him.

In the film version, "Dodsworth" is said to lose none of its great effectiveness as a novel and stage play.

Miss Minnie Wiggins, daughter of Mr. and Mrs. Robert Wiggins, formerly of this city and now residing at Remo, has received from the Kiwanis Club of Vancouver a certificate of an award of merit in recognition of her essay "The Advantages of Democratic Government in Canada."

**200,000 Miles, Still in Constant Use**  
"We have a 1928 Chevrolet Panel refrigerated truck with over 200,000 miles, still in constant use and giving good service."

**60,000 Miles of City Driving**  
"We operate a fleet of 11 Chevrolet trucks. Some of these trucks show a mileage of 60,000 miles made up from steady city driving through downtown heavy traffic. This type of operation, starting and stopping for business in traffic, demands the utmost in economy and dependability. Chevrolet trucks in our experience are the answer to our particular problem."

**From Northern Ontario's Largest Exclusive Furniture Store**  
"Our first Chevrolet was a 1928 1-ton unit which ran well over 90,000 miles. This was turned in to you on a 1930 model which gave us over 100,000 miles. Our 1934 model when turned in this year had given over 65,000 miles and our present Chevrolet Maple Leaf has given us over 8000 miles of service with no expense whatever outside of gas and oil."

**100,000 Miles—No Expense or Delay**  
"We find Chevrolet trucks to be economical, and the one-half ton and three-quarter ton units are particularly suited to the bakery business. One of our units (one-half ton panel) has operated more than 100,000 miles, and outside of ordinary upkeep has caused no expense or delay."
