Mysterious radio signals reported to have emanated from the missing plane are now increasingly questioned.

WHO IS BEST PAID?

We happened to hear an interesting discussion in regard to the proportion of the cost of goods being paid to the farmer and the proportion that goes to transportation, brokerage and retailing. Undoubtedly, each performs a service and each should be paid.

WAKE UP YOUR LIVER BILE-

And You'll Jump Out of Bed in the Morning Rarin' to go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You get constipated. Harmful poisons go into the body, and you feel sour, sunk and the world looks punk. A mere bowel movement doesn't always get at the cause. You need something that works on the liver as well. It takes those good, old Carter's Little Liver Pills to get these two

"The Story Of Louis Pasteur"

There have been great moments on the screen-but none to surpass that electric second when this champion of humanity had to decide which was dearer to his heart, -the fate of his own daughter, or that of unborn generations. The choice he made was like every other moment of his life-heroic! And here is that life re-lived in all the drama of its fearless combat with the fearful enemies of man-in a picture that, as hundreds have told "stands among the significant works of the screen."
