THE CHINESE SITUATION

Evidently the Chinese are following out their original plans of retreating as pressure from the Japanese army increased. The great difficulty seems to be to sustain the morale of the Chinese troops under these conditions. Should it be decided to evacuate Nanking it would mean that the Japanese would then be in possession of a most strategic section of the country. It is also possible that, once Nanking is taken, the Japanese may refuse to advance farther into the country, resting content with the gains made.

EUROPEAN MIX-UP

It is very difficult for anyone to understand the European mix-up. The two dictatorships, Italy and France, are more in the public eye than any other countries. The Russians are not very demonstrative and Britain seems to be trying to be friendly with all parties. France is socialistically inclined but not very red. Other countries do not seem to count very much although they may prove to be deciding factors in case of a struggle. The Spanish embroglio continues without any present hope of a letup. It is all very puzzling and unfortunate. In the meantime all countries, especially Britain, are working hard on military preparedness.

A HAPPY IDEA

It was a happy thought for the officers and crew of the herring seiners Chief Skugaid and the Zenardi to distribute several tons of herring to the unemployed and other citizens who wished to partake. Every man, woman and child who asked was given all he or she could carry away and there was great feeding in many homes that day.

It is several years since a free distribution such as this has been carried out in Prince Rupert. Possibly the early arrival of the fish in such large quantities inspired the idea that the whole city should share in the bounteous harvest.

WAKE UP YOUR LIVER BILE—
And You'll Jump Out of Bed in the Morning Rarin' to go

The liver should pour out two pounds of fluid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You get constipated. Harmful poisons go into the body, and you feel sour, sunk and the world looks punk.

A more powerful movement doesn't always get at the cause. You need something that works on the liver as well. It takes those good, old Carter's Little Liver Pills to get those two pounds of bile flowing freely and make you feel "up and up". Harmless and gentle, they make the bile flow freely. They do the work of a stimulant but have no calomel or mercury in them. Ask for Carter's Little Liver Pills by name! Stubbornly refuse anything else. 24c.

Development of Homestake at Alice Arm This Season Attended With Gratifying Results

The well known Homestake mine, nine miles above the famous Dolly Varden property in the Kitsault Valley at Alice Arm, has closed down for the winter after an active season's development campaign which was attended with highly gratifying results, leading to the belief that this may become an important producer of high grade silver ore as well as gold. A five-foot vein of chalcopyrite and arsenopyrite was particularly interesting. The season's work was under the direction of Arthur F. Smith, long well known in connection with mining development at Alice Arm as well as elsewhere in the district. Work will be resumed on the Homestake next spring. There is at present eight feet of snow there.

Martin Nyberg, Percy Lucey and Tom Olsen, who have been working at the Homestake mine, arrived in the city on the Catala yesterday from Alice Arm and, after spending a week or so in town, will proceed to Anxox for the winter.

WOULD SEND HERRING

Editor, Daily News:
Re drought stricken areas of prairie provinces. I see that Prince Rupert has formed a committee to take up subscriptions for the poor people back on the prairies and also that other parts of B.C. have donated fruit and vegetables. Do you not think it would be a good thing if Prince Rupert sent these people some herring? They are very cheap here, and I think if the different packing companies were approached they would readily donate them free and the railway company would, in all probability, haul them free also.

It would be a great treat for these poor people and also a good boost for Prince Rupert. As I am writing this, I can see the sea gulls helping themselves to a scow load of herring at the wharf. I am quite sure the prairie people would appreciate them a great deal more and there would still be plenty left for the sea gulls.

JAPANESE GOODS

Editor, Daily News:
Let us not become hysterical about this Japanese boycott until we know all the facts of the case. I venture to say that the Japanese manufacturers received the money for every dollar's worth of goods that is on the Canadian merchant's shelves and in the wholesale warehouses, a considerable time before the Japanese were considered a menace. In a great many cases Japanese manufacturers demand payment in advance to finance their factories. So why penalize the Canadian merchant who was only trying to meet the public's demand for low priced merchandise when he stocked Japanese goods.

The Canadian public could well voice its opinion of Japanese aggression by demanding that no more goods be purchased from that country. Doubtless the wholesalers and merchants feel just as keenly about it as the consumer does and will not wish to patronize them in future.

"Last Train from Madrid" deals with ten persons, most of them strangers to each other, whose destinies are dramatically brought together in a frenzied effort to obtain passes to board the last train permitted to leave the beleaguered Spanish capital before the commencement of a heavy bombardment. Drama is provided by the conflict of a Spanish officer's emotions between devotion to the girl he loves and his best male friend. The cast includes Dorothy Lamour, Gilbert Roland, Lew Ayres, Karen Morley, Lionel Atwill, Helen Mack and Anthony Quinn.

In "Angel's Holiday" Jane Withers turns sleuth and plagues the lives of a murderous gang of kidnapers, there being plenty of fast and furious fun. Robert Kent, Joan Davis and Sally Blane are also featured.

Rev. Father James Gordon, parish priest of the Roman Catholic Church, was the speaker today at the regular weekly luncheon of the Prince Rupert Gyro Club. Dr. R. G. Large, past president, was in the chair in the absence of the president, Dr. H. N. Brockelsby, and there was a good attendance of members.

Guard your children's eyes with better light

Does your child push her nose into her work? That is a wellnigh unfailling sign of eye strain. It is a "stop, look and listen" warning to parents to make sure that a child is getting sufficient light, and without glare. Poor lighting is a serious matter. It may be the cause of eye defects that will not only hold a child back in school, but also throughout life.

Young eyes need plenty of light — well shaded, and free from glare. They need it, not in one place, but in every room in the house where any reading, studying or sewing is done. Ample light costs little, and is cheap eyesight protection.
