## CENTRE OF ATTENTION

Interest of Parliament at Ottawa This Week to Focus on Report of Turgeon Commission

OTTAWA, May 9: (CP)—Attention of Parliament will focus on the Turgeon report on grain trading which is to be tabled probably today.

Whether or not a minimum wheat price will be recommended is a question of special interest. There is a minimum price of 45¢ per bushel at present but the government has not had to invoke it since the market price for some time has been considerably above that level.

## GOES TO PEERAGE

Shuffle in British Cabinet is Seen as Result of Elevation of Ormsby-Gore to Barony

LONDON, May 9: (CP)—A British cabinet shuffle is possible and a by-election will have to be held as a result of the elevation to the peerage of Rt. Hon. William George Arthur Ormsby-Gore, Secretary for the Colonies, through succession to the Barony of Harlech.

It is considered likely that the new Baron of Harlech will resign from the cabinet. There has already been criticism of the rather large number of cabinet seats held by members of the House of Lords.

Political commentators today have predicted a realignment of the British government to carry on the policy of Prime Minister Neville Chamberlain of appeasement in Europe. The feeling is that reorganization will extend to junior ministerial posts. The accession of Ormsby-Gore to the House of Lords makes some change almost mandatory, it is generally felt. The new Lord Harlech could retain his cabinet position but it would open the way for criticism from the opposition on the grounds that there are too many members of the cabinet in the Lords. Already there are seven peers in the cabinet.

Mr. Ormsby-Gore succeeds his father, Baron Harlech, aged 53, a former soldier Member of Parliament for Denbigh during the Great War and Postmaster General in 1931, who died on Sunday.

### PART OF DEFENSE PLAN

Bruce Hutchison, writing in the Victoria Times says: "It is now clear to everyone, as it has been to all thinking people for some time, that the United States proposes to build a military highway through British Columbia to Alaska as part of its plans for defending this continent from the yellow peoples of Asia."

"The British Columbia government is agreeable. The public seems agreeable. Most of us want to see the road built, because we believe that anything which defends Alaska from Asia defends British Columbia also. Most people look only at the flat projection of the world's map and imagine Alaska is quite a way north of here and remote. If they will look at the globe they will see that the tip of Alaska is directly west of Victoria, that it lies directly between us and the yellow peoples of Asia and the gentle Communists of Russia. It is clearly our first line of defense."

"The significance of the Alaska Highway project, as started by Premier Tolmie and now carried on by Premier Pattullo, is that Canada and the United States, through this scheme, are joining formally together in their common defense. They are recognizing the obvious fact that their interests in this matter are almost the same."

"They are so identical that the only defense this coast and this city has against the yellow peoples is the United States navy. But still our politicians pussyfoot on this subject. Hon. Ian Mackenzie says in Vancouver that if an Oriental power were to establish a base on the Queen Charlottes against the United States and another power (i.e., the U.S.) had to be called in to dislodge them, we might lose our Canadian sovereignty. As if the U.S. wouldn't come in itself and dislodge them whether we liked it or not!"

"Mr. Pattullo has publicly recognized the obvious facts and it is about time the Canadian people did. The sooner we have the whole situation reduced to a definite understanding between the two countries, a treaty of mutual defense, the sounder we can sleep in our beds at night."

"Anyone who is opposed to the adequate defense of this coast by joint action between the two interested nations ought to read the last issue of Time, which recounts the curious habits of the Japanese soldiers in the sack of Nanking. It says that the Japanese government was so appalled by the Nanking atrocities that it recalled many of its officers, including the commander-in-chief."

"In the United States, philanthropic organizations interested in the matter have compiled exhaustive data, documentary and photographic, to show the wholesale execution of harmless civilian men and the rape of women. "Since many of the women raped were killed and buried indiscriminately with Chinese civilians," says Time's report, "there are no reliable statistics, but last week every white authority agreed that modern history does not afford another instance of such wholesale rape." The number of Chinese executed and not killed in battle, by the most conservative estimate, was 20,000."

Only half a game behind are the New York Yankees who won their sixth straight victory yesterday by defeating the Chicago White Sox. Junior Football League Gets Under Way With Borden on Short End Of Five to One Score

The Junior Football League resumed its activities on Saturday when King Edward High School (first year) won from Borden Street School by five goals to one after a well fought game.

Following a fine goal by Cameron, Borden did a spell of attacking but Wilson cleared. The game was very interesting with Hodgkinson and Arney showing up for Borden. Pavlikis kicked clear cleverly and Bird was very effective. Alan Smith was dangerous and Schubert shot behind. Lee in Borden goal, was safe but Bill beat him with a good shot.

The second half was equally well fought out. Glen Smith saved a dangerous situation and Hayakawa cleared well. Lee saved a penalty kick from Cameron splendidly. Nelson was doing well for High who added to their score when L. Keays took a corner kick so well that the ball entered the goal without anyone touching it. Bill added a fourth and Keays added a fifth with a shot that Lee touched but could not quite clear. In the closing moments Wilson cleared again but was beaten when Arney converted a pass from Vuckovich and McLeod.

Teams:  
Borden Street—Jone Lee; Bird and Hayakawa; Pavlikis, G. Smith and Long; Hodgkinson, Arney, N. McLeod, Bond, Vuckovich and Bill McLeod.  
High School—J. Wilson; O. Keays and McCrimmon; J. McLean, D. Nelson and Postulo; L. Keays, A. Bill, D. Cameron, A. Smith and K. Schubert.  
Referee—J. S. Wilson.  
Linesmen—C. Sunberg and Bill Brown.

Borden team showed neat combination and, with a little more experience will do well. It lacked the finishing drive that gets goals. High School forwards were good and Nelson was the pick of the defense which was not very thoroughly tested. It was a good game to watch.

## SPORT CHAT

With a greater display of the spirit of co-operation as shown on Saturday forenoon last there would be little need to bewail the lack of support of football in town. Through the activities of Jack Preece, president of the Prince Rupert Football Association a supply of sawdust was taken to Acropolis Hill. He also interviewed the City Engineer who had a grader and the roller put over the ground to good purpose. A squad of schoolboys then helped mark out the ground. With the help of three fishing lines, a yard stick, a boy's wagon—lent for the occasion by little Ken Laurie, and handled very expertly by Jackie Breen, Pat Wilson and Jack Hougan—under the supervision of J. S. Wilson, J. G. McKinley and W. J. Mouat, the marking out of the football pitch was properly and expeditiously done. And when

## THE STRONG RIGHT ARM OF CANADA

RECEIVING deposits or making loans, Canada's banks are dealing largely with other people's money. Parliament has placed the strictest safeguards around the handling of other people's money.

When you deposit, or when you borrow, the strong right arm of the nation itself is thrown about you, for banking is subjected, through The Bank Act, to greater Government regulation, stricter supervision and more penetrating Parliamentary scrutiny than any other business in Canada.

Banks assemble the surplus funds of millions of Canadians, mostly in small sums. Based on these deposits, and their own resources, they make credit available where needed, for agriculture, commerce, industry, lumbering, mining, fishing, transportation, markets, governments, municipalities and individuals.

These are grave responsibilities. In discharging them the banks are well supervised.

Charters of all Canadian banks expire at the end of every ten years; they can be renewed for no more than ten years and then only after the most searching parliamentary investigation of the whole business of banking. (Can you name any other form of enterprise in Canada in which every company's charter expires at one time? Or which has to undergo parliamentary investigation as a condition to continuing in business?)

Parliament can, of course, amend The Bank Act at any time, but every ten years that Act is thrown open for what is known as the "Decennial Revision". Bank officers are called before the Banking and Commerce Committee of the House of Commons. They are examined and cross-examined by members and every phase of banking is fully disclosed.

It is a large committee which includes many of the ablest minds in Parliament. Every province and every political party is represented on it, so that Canadians do not lack in any sense for the most penetrating examination of the business of banking.

Canadians as a people thus regulate the business of banking through their elected representatives. Into The Bank Act, by reason of the work of this committee over the years, have been built all of the safeguards prompted by experience.

In addition, Canada's chartered banks are supervised in various other ways and operate under almost continuous scrutiny. Shareholders appoint their own auditors—chartered accountants—who closely examine each bank's affairs.

Then there is an Inspector General of Banks, an officer under the Minister of Finance, whose duty it is to keep throughout the year a vigilant eye upon banking operations. He has access to all bank records.

Banks have to make statutory returns to the Minister of Finance and to the Bank of Canada, periodically. Heavy penalties are provided for neglect to make

them or if they contain falsity or deceit.

Each month they must report to the Government the total of loans made to bank directors or to firms in which they are partners, and of loans which directors guarantee. The return of January 31st, 1938, shows that the total of such loans does not amount to more than 1.98th part of the total bank loans.

There is no "money monopoly" in banking. Any group of responsible people who will get \$500,000 capital subscribed and half of it paid up, and who fulfil the requirements of The Bank Act, can start a bank. The requirements are devised to safeguard the people against fly-by-night promoters.

Up till 1934 chartered banks issued their own notes to the amount of their paid-up capital and might, on occasion, exceed that sum under definite and rigid legal limits.

In establishing the Bank of Canada, Parliament provided that for ten years from and including 1936, there should be a steady year by year reduction in the note circulation of the chartered banks.

We can issue our own notes now only up to 85 per cent. of our paid-up capital. Each year, as this reduction takes place, the note issue of the Bank of Canada increases.

Thus it must be seen that banks have never had an unlimited power to issue notes—they have always been definitely restricted by Parliament, with heavy fines as penalties for any breach of these restrictions.

There is no mystery about the work of Canada's chartered banks—their doings are an open book to the Dominion Government, through the Minister of Finance, his officers, and the Bank of Canada.

The chartered banks are controlled by specific laws, regulations and restrictions designed for your protection as depositor, note-holder or borrower. Their work is to safeguard the thrifty, promote the flow of trade and commerce and to facilitate the transfer of goods and services.

## WAKE UP LIKE A CAVE MAN

Feel Full of Life—No More Tired, Dull, Heavy Mornings

Keep your liver healthy and you'll feel great every morning. When you wake up feeling "rattier" your liver is out of order. Your liver clears the blood of poisons, separates the nourishing part of your food from the waste. Supplies energy to muscles, tissues and glands—gives out bile, the body's laxative, helps stomach, kidneys and intestines to work properly. A mere hand movement isn't enough. "Fruit-A-Tives" made from fruits and herbs, will strengthen and build up your liver like nothing else will. You'll be amazed how well you are every morning. Try Fruit-A-Tives. All druggists.

### Don't Be Fooled About Constipation!

Many people, when constipation hits them, just reach for the medicine shelf, dose up with a physic, and try to forget it—till the trouble comes back. And come back it usually does—more and more often—till you get at its core.

Do you eat what most people do—just bread, meat, potatoes—chances are just this fact causes your trouble: lack of "bulk." And "bulk" doesn't mean a lot of food. It's a kind of food that isn't consumed in the body, but leaves a soft "bulky" mass in the intestines and aids elimination.

If that's the reason for your trouble, what you need is a good dish of crunchy Kellogg's All-Bran for breakfast. It contains the "bulk" you need plus Nature's great intestinal tonic, vitamin B. Eat it every day, drink plenty of water, and join the "regulars." Made by Kellogg in London, Ont.

W. J. Crawford, well known Stewart transportation man, who has been on an extended trip south on business, was a passenger aboard the Catala last night returning north.

Ernest Anderson and J. A. Ross, government weight men, arrived in the city on the Catala last night from Vancouver, being here in connection with the loading of wheat from the local elevator this week. Mr. Anderson was formerly located here.

The Prince Rupert Gyro Club will meet jointly with the Women's Canadian Club at luncheon this Wednesday when the speaker will be Chief Justice Aulay Morrison. Coming here to conduct the spring session of the Supreme Court Assizes.

Pacific Milk Irradiated of Course

In going over the letters of the recent contest we are surprised to find that a great proportion of those who mention the economy of Pacific Milk live in places where transportation is difficult and people must get the utmost value from every ounce of food products.

## Canada's Greatest Community Chest

FROM this great national "Community Chest", families throughout Canada receive Half a Million Dollars every working day.

As a result, fatherless children are fed, clothed and educated. Their mothers are guaranteed money to pay the bills. And men and women, past their earning years, are assured financial security.

This community chest—made possible by the accumulated savings of 3,500,000 thrifty Canadians—is Life Insurance.

So large are the payments of Life Insurance to policyholders and beneficiaries, that they far exceed the total amounts distributed for direct relief by Dominion, Provincial and Municipal Governments.

Thus Life Insurance not only protects Canadian homes, but also performs a great national service in lessening the burden of public as well as private relief.

# WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You get constipated. Harmful poisons go into the body, and you feel sour, sunk and the world looks punk. A mere bowel movement doesn't always get at the cause. You need something that works on the liver as well. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up". Harmless and gentle, they make the bile flow freely. They do the work of calomel but have no calomel or mercury in them. Ask for Carter's Little Liver Pills by name! Stubbornly refuse anything else. 25c.

# COLORFUL NAVY TALE

"Navy, Blue and Gold" Showing at Capitol Theatre Together With Daredevil Drivers

A colorful story of naval training at Annapolis Academy, Navy, Blue and Gold" comes to the screen of the Capitol Theatre here as the feature offering at the first of this week. With a strong cast including Robert Young, James Stewart, Tom Brown, Lionel Barrymore, Florence Rice, Billie Burke, Paul Kelly, Samuel Hinds and Barnett Parker, the picture portrays the poignant development of cadets pledged to their country's service, the heartaches of stern character building discipline, the thrilling sportsmanship of great football games and the affection of two players for the sister of the quarterback pal.

The second feature picture of this bill is "Daredevil Drivers," film story of intense rivalry between two bus companies. Beverly Roberts plays the part of a business girl and the manager of one of the warring concerns. Dick Purcell, her leading man, is an automobile racing driver who discovers that she is being double-crossed by her own drivers who are secretly in the employ of the rival concern. He throws in his lot with her and together they succeed in their business. Romance, of course, enters and thrilling automobile races are one of the features of the story which is fast-paced. Gloria Blondell, sister of Joan, is an interesting member of the cast.

# BANKING ASSISTANCE to Co-operative Organizations

By pooling orders and paying cash, associations of purchasers or co-operative concerns, including dairy, fruit, poultry, fishing and other organizations, can often purchase supplies to better advantage. It pays such organizations to borrow, if necessary, to buy at cash-quantity prices, and in this the Bank of Montreal is glad to co-operate. The Bank also has wide experience in financing co-operative concerns engaged in the packing and selling of agricultural products. Our branch managers, familiar with the requirements of "co-operatives," welcome their applications for loans.
