### LOANS IN RUSSIA

Russia pays good salaries to those in high positions and, in order that this favored class may be perpetuated, it sells them bonds bearing four per cent interest just as! is done in this country. Everyone has a chance to buy these bonds and indeed the pressure is so great that they have to buy, providing they are earning enough to enable them

The peculiar method of floating these bonds will be in- St. Louis teresting to readers in capitalist countries. Over there Philadelphia the hint is given that the government is ready for a petition. Forms of petition are drawn up and distributed so MAROONS that thousands of people may sign a request to the government to call for a loan. Public meetings are held and every means used to make it appear that the people wish! to loan money to the government. This money is used to strengthen the defences. Not only do the bonds call for Financially the payment of four per cent interest but they also are tax! free so the already rich officials buy them and become richer than ever, all in the name of socialism. ### THE PERFECT COUNTRY

At one time Switzerland was pointed to as the perfect country where democracy insured a fair deal and good conditions for everyone. But Switzerland is like other cals countries. It is not perfect. Why did so many of its farmers come to Canada and buy farms in a new country?

Lately New Zealand has been quoted as the perfect democracy. But some of the New Zealand plans are said,3. to be not working out exactly as was expected and pretty soon we shall hear that the New Zealand demos has changed its mind and prefers not to be quoted as the perfect country. Perfection is rather monotonous.

As a matter of fact all we can do is to improve steadily but not too rapidly.
