### A UNIQUE INVESTIGATION.

Whatever dissatisfaction Mayor Manson has caused during his term of office among those of the citizens who prefer a business to a political administration, he has amply atoned by the investigation he conducted yesterday into the charges of taxity in the police and license administration. No similar inves- Christmas vexatious problems easily solved by Sloan & Company's Script. Sold for any amount, redeemable in merchandise. tigation has ever been conducted anywhere else. As the Journal remarked of it this morning in flamboyant eulogy: "It was indeed a happy thought of the Mayor to take the method he did in testing the foundation for such reports." Mr. Manson should get the method copyrighted and patented. Under some pleasing title, such as "The Manson Whitewash Method," it should have a considerable sale at large prices among those of whitewash.

The beauty of the Manson Method is that all the parties who are on trial—the Police officers, the License Commissioners and the license holders—can get together and mutu- SLOAN & COMPANY ally perform the whitewashing act. Under the old system an independent judge and an independent jury had to be bothered with the tiresome business. The Manson Method saves independent judges and independent juries all this trouble.

Applied to the work of the ordinary courts of justice it would save the salaries of judges and court officers. It would probably be the means of abolishing the prison system also. Under the Manson Method all the parties in any way reflected upon could get together and swear to each other's innocence and everything would be lovely. Our fearsome police courts could then be turned into Mutual Admiration Leagues.

Mr. Manson in the days when he was seeking office protoised a thorough shaking up and housecleaning in the police and license departments, and he has kept his promise.

How widespread has been the alarm felt throughout the city at the supposed loose way in which the law was being enforced is very well known. Indeed, among those who communicated to The News protesting against the alleged disorderly manner in which one of the licensed houses was said to be conducted was a woman in the tenderloin district. Curiously ONLY \$17 enough, the plea was based on grounds of public morality.

Now that the License Commissioners under the Manson Method have secured from each applicant before renewing his license a statement that he had no complaints to make and that no club was held up to him, the public will feel relieved -perhaps.
