COMING PARLIAMON HAS IMPORTANT ISSUES TO OCCUPY PARLIAMENT

Dominion House Opening January 27 Will Face Varied Program of Important Legislation—Developments of Wide Political Significance

OTTAWA, January 19: (CP)—Developments of wide political significance which featured the parliamentary recess are expected to be threshed out on the floors of the House of Commons and Senate after parliament opens January 27. These may include the federal government's relations with the Social Credit administration of Alberta,

CHAUTEMPS IS PREMIER

Former Prime Minister of France Heads New Administration of Centrists

PARIS, Jan. 19: — Camille Chautemps, who resigned as Premier last week, succeeded last night in forming a new French cabinet along conservative lines. The new government, consisting of the centrist Radical Socialist members, is expected to meet with severe opposition from the Left, having entirely eliminated Socialists and Communists. It is a complete breakaway from the influence of former Premier Leon Blum and his Popular Front.

While the prime minister and a large section of his cabinet travelled in Europe, Ottawa enjoyed a long period of quiet after the closing of the last session of parliament. The ministers attended the coronation of King George VI and Mr. Mackenzie King also visited Germany, Belgium and France.

The fall brought considerable action, however, with the federal government disallowing three acts of the Social Credit administration of Alberta and later developments which resulted in references being made to the supreme court questioning the disallowance power and the constitutionality of three bills by which Alberta sought to deal with banks and newspapers in that province.

LINKING UP WITH NORTH

Coast Copper Railway Across Vancouver Island Associated With Re-Opening of Anyox Smelter

The latest report to be heard in connection with the plans of the Consolidated Mining & Smelting Co. for its mining operations on the British Columbia coast associates a railroad building project across the north of Vancouver Island from the Coast Copper mine on the West Coast with renovation and re-opening of the Anyox smelter for treatment of the ores of that mine.

Surveys are reported to have been completed for the Vancouver Island Railway from the Coast Copper property to the east coast of the island either at Squash or Port McNeill.

The suggestion is made that it would be more economical to treat the Coast Copper ore at Anyox than attempt to transport it to the company's smelter at Trail.

The report, emanating from Stewart, is, of course, without confirmation as far as the company is concerned.

VANCOUVER, Jan. 19: (CP)—An immediate census of all British Columbia Japanese is recommended by Captain McGregor Macintosh, Conservative member of the Legislature for the Islands constituency. MONTGOMERY AS VILLAIN

"Night Must Fall" is Unusual Picture—Rosalind Russell in Feminine Lead

Presenting Robert Montgomery as a villain in a role such as he has never previously played and with Rosalind Russell in the leading feminine part, "Night Must Fall" comes to the screen of the Capitol Theatre here this mid-week as the feature presentation.

The story concerns the bell boy of a country hotel near London who has a way with women and the impulse to advance himself by robbing and murdering them. It is this diabolical role that Montgomery plays. He kills a hotel guest when she refuses him money and then becomes involved with a rich old shrew and her niece. The latter, although knowing him to be a killer, becomes fascinated with him.

It is a new type of murder story developed in a unusual way. Besides Montgomery and Miss Russell, the cast includes Dame May Whitty, Kathleen Harrison, Merle Tottenham, Alan Marshall, Matthew Boulton, E. E. Clive and Forrester Harvey.

the provinces on a necessary constitutional amendment. Quebec, Alberta and New Brunswick are the only provinces to withhold their approval. They have demanded further information which, so far as known, has not yet been given.

Question of Trade

Late in the year Mr. Mackenzie King announced he would seek a new trade agreement with United States, replacing that which expires at the end of 1938. Negotiations are expected to run concurrently with those between United Kingdom and United States. No official comment has come from the government as to whether Canada will abandon some preferences on the United Kingdom market to facilitate negotiations between that country and United States.

Deaths among House of Commons members took S. F. Tolmie, Conservative member for Victoria; D. A. Cameron, Liberal member for Cape Breton North-Victoria; J. A. Verville, Liberal, Lotbiniere; Rt. Hon. Sir George Perley, Conservative, Argenteuil and W. M. Ryan, Liberal, Saint John-Albert.

Vacancies were created in the Senate by deaths of H. C. Hocken, Toronto; Pat Burns, Calgary; James Arthurs, Parry Sound; Rodolphe Lemieux, Montreal; Aime Benard, Winnipeg and a sixth vacancy exists from the death in 1936 of Emile Fortin of Levis.

STUDENT COUNCIL

Allan Kergin Heads Pupils of King Edward High School

At the meeting of the new Students' Council of King Edward High School the following executive was elected by the class representatives: President, Allan Kergin. Vice-President, Helen Laskie. Secretary, Hjordis Skaland. Treasurer, Fred Barber.

The class representatives had been elected a few days ago resulting in the following being chosen:

- 9A, Sheila Blackstock and Aleck Bill.
- 9B, Gunvor Skaland and George Pierce.
- 9C, Dorothy Fowler and Donald Nelson.
- 10A, Flora Leslie and Andrew McDonald.
- 10B, Marian McLachlan and Bill Long.
- 11, Dorothy Davies and Fred Barber.
- 12, Helen Laskie and Allan Kergin.

Commercial, Hjordis Skaland and Emile Blaine.

At the beginning of the meeting, Arthur Sutton, principal, welcomed the members to the Council. He spoke of the opportunity that Council members have of serving their fellow students and at the same time cultivating the ability to give leadership. The principal pointed out that, if leadership was to be given in the community, it must be prepared for in school. It was not everybody that could be a leader but those who had the ability to be leaders were morally responsible. Mr. Sutton then outlined the duties of the class representatives. It was most important that the representatives be able to repeat to the members of their classes the discussions that were held in Council.

Furthermore, class representatives must be able to bring to Council ideas from their classes that would promote student interest in and loyalty to their school.

The meeting discussed the sports program for the coming year, and also such social events as a Valentine Dance and a Junior party.

The meeting ended with a social half hour. Refreshments were served by Sheila Blackstock and Helen Laskie. The next meeting will be Monday, January 24.

WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning

The liver should pour out two pounds of bile into your bowels daily. If this bile is not flowing freely, your food does not digest. It just decays in the bowels. Gas builds up your stomach. You get constipated. Harmful poisons go into the body, and you feel sour, sunk and the world looks pink.

A more bowel movement doesn't always get at the cause. You need something that works on the liver as well. It takes those good, old Carter's Little Liver Pills to get those two pounds of bile flowing freely and make you feel "up and up". Harmless and gentle, they make the bile flow freely. They do the work of calomel but have no calomel or mercury in them. Ask for Carter's Little Liver Pills by name! Stubbornly refuse anything else. 25c.
