Community of Forbes Landing, Campbell River Surrounded By Forest Fire

Flames Spread

Other Centres on Vancouver Island Also Endangered

CAMPBELL RIVER, July 20.—(CP)—

Forest fire is still threatening summer resort of Forbes Landing, a short distance north of here. A change in wind causing flames to back up, the settlement is surrounded by flames and cut off from communication except by radio. Several people are still in the settlement but can be rescued, if necessary, by airplane. The hotel and other buildings are being continuously sprayed with water. Thirty thousand acres of timber land in this area is being swept by one of the largest forest fires in the history of the province and there is little sign of relief.

The flames, spreading before a twenty mile an hour wind, today threatened new Vancouver Island settlements as Forbes Landing was apparently spared for the time being as the flames appeared to be burning out.

Fire is reported "unpleasantly close" to Campbellton but the village is in no immediate danger because it is separated from the forest by open fields.

Fire is also threatening Comox Landing Camp 3, where 60,000 feet of bucked timber is stored, and Elk Falls Park. Fire fighters at the camp at Elk Falls were forced to evacuate.

About one thousand men are now fighting the Campbell River fire and twelve others on Vancouver Island and the lower mainland.

Fire menace continues unabated throughout the province and the Pacific Northwest States with dry, hot weather.

Mail Break Frustrated

Shooting Yesterday at Columbus, Ohio, Penitentiary

COLUMBUS, Ohio, July 20.—An Ohio penitentiary convict was shot down while trying to escape yesterday and Raymond Thornton, a guard, was stabbed in the back with a butcher knife during the attempted break. The wounded convict was Clyde Staup. Charles Menges, another convict, also fell when Staup was shot, leading to reports that both had been killed. Staup and Thornton were hurt seriously.

German Flying Boat Crossing Atlantic Ocean

HORTA, Azores, July 20: (CP)—

In the course of an experimental transatlantic flight preliminary to the institution of a proposed commercial service from Germany to the United States, a German seaplane arrived here today from Lisbon on its way to New York.

Huge Run Of Salmon

KOGGIUNG, Alaska, July (CP)—

The heaviest run of salmon in the history of Bristol Bay is reported. Fishermen say that they have been able to load their nets in a matter of minutes. Gear has been lost and boats almost swamped because of the sheer weight of fish.

Sails Back To United States

Douglas Corrigan Decides Against Attempting Return Flight Across Atlantic

DUBLIN, July 20.—(CP)—Douglas Corrigan, who made a non-stop flight on Monday from New York to Dublin, announces his intention of travelling back to the United States by steamer. His desire is to ship his plane back to New York without dismantling it. So far he has resolutely declined all financial offers.

The hero of a "wrong direction" transatlantic flight was notified yesterday that Irish customs officials had returned his plane after they had detained it several hours. The technical seizure was made after Irish officials learned that the American Commerce Department had cancelled Corrigan's experimental license to prevent any attempt to fly back to New York.

Officials had a shock when they learned that Corrigan, discussing his transatlantic flight, had commented casually: "She is good enough to fly around the world."

BIG PUSH STARTED BY JAPS

Every Indication That Yangtze Drive Is On—Chiang Predicts Russo-Nippon War

SHANGHAI, July 20: (CP)—There is every indication now that the long-expected big Japanese push up the Yangtze River with Hankow, provisional Chinese capital as the immediate objective, has commenced. Forty-seven Japanese warships and transports have now passed a barrier in the river which had held them up for weeks.

Students at the American Catholic Girls School in Hankow narrowly escaped injury or death yesterday in the devastating Japanese air raid. The planes, operating in a squadron of nine each, dropped more than 150 bombs in one of the biggest air raids of the war of the so-called Wusan district. A semi-official Chinese estimate said, there were 11000 casualties from the bombing, including 500 killed by bombs which struck the sixth municipal primary school in Wuchang.

Generalissimo Chiang Kai-Shek said last night that his defences were ready to withstand any assault. He also predicted that Manchukuo and Korea would soon both be battlegrounds in war between Russia and Japan.

BE STRONG AND JUST

These Were Last Words of Marie To Carol—Body Lies in State

BUCHAREST, July 20.—The body of Dowager Queen Marie, whose final words to her son were to beseech him to be a just and strong monarch, was taken yesterday to King Carol's palace at Penih, outside Hinaia. There it will lie in state for two days. Thousands of inhabitants of Hinaia and neighboring districts watched bareheaded as the coffin was transferred from the chateau to the King's palace. Until tonight the Queen's "neighbors" will be admitted to the castle to pay their final respects.

In accordance with a will dated 1923, purple rather than black was used as the mourning color and the castle hall was draped in that color.

UNEMPLOYED IN SITDOWN

Regina Post Office Was Occupied For One Hour Yesterday

REGINA, July 20: (CP)—There was a brief one-hour sitdown by 125 transient unemployed men in the Regina Post Office yesterday. They left the building after being promised meals for last night and today by the city. A tag day on Saturday had provided them with meals until Sunday but they had no breakfast yesterday, the Salvation Army providing them with lunch.

The provincial government has asked the federal government to assume responsibility for relief of such men as these but Ottawa has so far refused.

HAD MERE PITTANCE

Samuel Insull Was Comparatively Poor Man At Death

PARIS, July 20.—(AP)—When he died the only resources of the late Samuel Insull were three pensions of \$6,000 each voted to him by the directors of a trio of his largest companies. Every cent otherwise had been thrown into the scales in a vain attempt to tip the balance in his favor.

At the high water mark he controlled public utilities worth \$4,000,000,000 in the open market, and had personal fortune estimated at \$100,000,000.

But fifty-one years after he had started his American career as secretary to Thomas Alva Edison, he was left at the age of 72 without fortune and he went to France to "find some little place which was cheap" where he could "rest up a bit."

In the midst of his greatest activity, Insull found time to head the Chicago Civic Opera. The organization was losing a million dollars a year when he took it over in 1921. He raised a guaranty fund of \$500,000 a year for five years but the guarantors never had to pay the full amount of their pledges.

His big achievement in this line was erection of a huge combination opera house and office building. The aim being to endow the opera with the rents of the offices. The structure is one of the landmarks of the city.

Insull was born in London November 11, 1859. The son of Samuel and Emma Insull. He was 40 when he married Miss Margaret Bird, an actress who always continued her interest in the theatre. Mrs. Insull returned to the stage several times after their son, Samuel Insull, Jr., had grown to manhood and assumed a place in his father's affairs.

First Plane Of Series Is Due Tomorrow

MONTREAL, July 20.—The flight of the Imperial Airways "Mercury" will be the first of eight trans-Atlantic crossings this year, according to the schedules just received by the Trans-Canada Air Lines. In addition to the Mercury, which will make three flights, three new planes, Albatross No. 1, Albatross No. 2 and Cabot, will cross the ocean. After leaving Montreal this week, the Mercury will fly to New York and will make the return trip from there via Botwood, Horta and Lisbon, to Southampton. The Mercury will fly across again in the middle of August and will close the season toward the end of October.

After trials, including a long flight around England, the Cabot, will leave Southampton for New York via Foynes, Botwood and Montreal toward the end of September. It will fly the same route a month later. Albatross No. 2 will leave Hatfield for Collingstown and Hatties Camp early in October.

The Albatross planes are all-plywood construction, land planes with retractable undercarriage. They have four engines of approximately 450 horsepower each. Top speed is about 235 miles an hour and cruising speed about 200.

The Cabot is a flying boat similar to the Cambria and the Caledonia which crossed the Atlantic last year. It has, however, a greater load capacity and a greater fuel range.

YANKS LOSE TO INDIANA

Crucial American League Series Now Being Played at Yankee Stadium

TODAY'S SCORES National League New York, 2; St. Louis, 7 (second game at end of second inning, New York, 0; St. Louis, 3). Philadelphia, 11-1; Pittsburgh, 0-4. Brooklyn at Chicago, rain. Boston at Cincinnati, night game.

American League Detroit, 2; Washington, 4 (end of sixth inning). Cleveland at New York, St. Louis at Philadelphia, Chicago at Boston, rain.

NEW YORK, July 20: (CP)—In the opening game of a crucial American League leadership series at the Yankee Stadium yesterday, the Cleveland Indians downed the New York Yankees by a score of 6 to 3, thereby cutting the New York margin of leadership to a scant half a game. In the only other American League game yesterday the Washington Senators eked out a close 4 to 3 victory over the Detroit Tigers who, as a result, dropped into a tie with Chicago White Sox for fifth place.

In the National League, the Pittsburgh Pirates still have a half game margin at the top of the standing over the New York Giants. The Pirates blanked the Phillies 8 to nothing yesterday while the Giants were winning a close 7 to 6 victory over the St. Louis Cardinals. The Cincinnati Reds took both ends of a double-header from Boston Bees to move back into third place ahead of the Chicago Cubs who were beaten 8 to 3 by Brooklyn Dodgers. The Dodgers assumed leadership of the second division in place of the Boston Bees.

Yesterday's Big League scores: National League Philadelphia, 0; Pittsburgh, 8. Boston, 1-2; Cincinnati, 3-7. New York, 7; St. Louis, 6. Brooklyn, 8; Chicago, 3. American League Cleveland, 5; New York, 3. Detroit, 3; Washington, 4. Chicago-Boston, St. Louis-Philadelphia both postponed on account of rain.

REVEALY PARIS

France and Great Britain Lie in Same Principles, King Declares

PARIS, July 20: (CP)—Colorful with special illumination of the streets and great fireworks displays, Paris continued its festive mood last night in connection with the visit to France of King George VI and Queen Elizabeth of England. Thousands danced in the streets and the revelry continued late into the night as the demonstration of friendliness between the two great nations continued.

In the course of a speech King George said that both "France and Great Britain had the same attachment to democratic principles and the same belief in individual liberty." This was taken as an official answer of Great Britain to the dictatorship nations.

King George VI, and Queen Elizabeth, making their first state visit to any foreign nation since they accepted the throne of Great Britain, were welcomed to Paris yesterday with a great military display. They arrived at the Bois de Boulogne station by special train and prepared for a four day visit designed to cement the Anglo-French relations.

Two hours before their arrival, troops virtually took over Paris. Army tanks rumbled through the boulevards and took up commanding positions in the Place de Concorde and the Champs Elysee, barring all traffic.

The special train that brought the King and Queen from Boulogne, where they had landed after crossing from Dover, pulled slowly into the station to the thunder of a hundred and one gun Royal Salute and the cheering of a crowd that pressed against the lines of troops.

ATHENS HAS EARTHQUAKE

Near Panic in Capital of Greece—Nearby Village Partially Destroyed

ATHENS, July 20: (CP)—This capital city of Greece was thrown into a near panic by an earthquake shock yesterday. A village sixty-five miles north of Athens was partially destroyed and a number of persons were killed.

The disturbances continued today when what was said to be the strongest earthquake in modern times shook the country, killing twenty and wounding one hundred. The Island of Euboea was the heaviest sufferer. The tremor was so severe in Athens that seismographs were put out of commission but there was little damage to the capital city itself.

WHAT PRICE PEACE?

The British Empire stands for peace. It desires peace. That seems to be a self-evident truth. Yet, in spite of that, it is thought desirable this summer to hold a "Peace and Empire Congress" in connection with the Empire Exhibition in Glasgow. It will be under the auspices of the Scottish Peace Council and will be an outstanding effort to draw attention to the desirability of settling differences without war.

Looking back at the wars waged by the British it is said that many of them have been the result of weak or "peace" governments in Britain. When there was a strong government in power and other nations knew that they meant what they said, there was less danger of war. In view of this we may ask "What price peace?"

It is rather odd that most of the people who are leaders in the peace movement are men who strongly backed Anthony Eden at a time when it seemed as if he were leading the nation in the direction of war. He was the man who seemed to be showing strength.

Prime Minister Chamberlain was not satisfied with the Eden policy and in order to keep peace was willing to make concessions. Which man was really the leader who could be trusted to keep the Empire from war? We do not know.

Undoubtedly Great Britain is the country that has the chief say in regard to peace or war. She is the protector of the other nations of the Empire with her enormous navy and air force. Yet Britain takes no action of a serious international character without first consulting with the premiers of each of the other nations of the Empire and is influenced by their opinions. Before declaring war, the full circumstances would be laid before Prime Minister Mackenzie King and his advice or protests carefully considered. In that way no nation of the Empire can be rushed into war without at least being given the opportunity to make a strong protest if it was thought the cause for war was not sufficient to make sure of Canada backing up the other Empire countries.

This system is a strong factor making for peace and should be remembered by all Canadians when they hear it suggested that Canada might be forced into a European war contrary to her desire. Evidently the premier is the man whom a majority of the people trust or he would not be there. He is kept informed of all diplomatic moves and more than once has been warned of the imminent danger of war being forced by one of the European dictators.

When we suggest, as we often hear suggested, that the British government should take a firm stand, it must be remembered that they consult with our representative at Ottawa and that he is given the underlying facts which cannot at the time be published or broadcast. The British High Commissioner at Ottawa is kept informed by code messages of the various diplomatic moves and these are passed on to the Prime Minister of the day at Ottawa. It makes the office of Prime Minister doubly onerous for he has to bear the burden of Canadian administration and at the same time has to give consideration to problems which are only indirectly Canadian but which would be very important in the event of war being declared. He must justify himself to the Empire leaders and also to the people of Canada should anything untoward happen as a result of his advice.

There is no definite rule in regard to the extent to which the Dominions may be consulted but there is bound to be more or less frank discussion in order that any action taken may come to the world as an expression of Empire policy to be backed up by all the forces of the Empire. Of this we may be sure, Canada will not be drawn into a war in any part of the world without the Prime Minister and members of his cabinet being cognizant of the fact and probably a party to it.

HAS STRONG McClymont Park GOLF TEAM Wins Softball

Manitoba Making Strong Bid For Dominion Honors This Year

WINNIPEG, July 20.—The Manitoba Golf Association will have one of the strongest and the youngest teams in next week's Willingdon Cup matches. The team leaves for the east tonight over Canadian National lines and will arrive in Toronto Friday morning. From Toronto they move on immediately to London where they will tune up for the championship matches at the London Hunt Club. The Manitoba team is made up of Ernie Palmer, who won the Manitoba amateur championship on Saturday, Herb Pickard, Allan Boes and Foster Woolley, all of whom are well under the thirty year mark.

In addition to this team Howard Bennett, a tall 16-year old youth, will be along as Manitoba's representative to compete in the Canadian junior championship which is being inaugurated this year by the Royal Canadian Amateur Golf Association. After many years of effort, Palmer's determination was rewarded on Saturday when he won the amateur championship in a stirring 36-hole battle with John Hopwood. At the conclusion of the match Palmer was still under par for the week of play.

Woolley, Pickard and Boes won places on the Willingdon Cup team in a special competition played a week ago. Incidentally Boes won the qualifying medal in the amateur championship.

The Manitoba team will be in the charge of Allan Anderson who has again been appointed non-playing captain.

The Willingdon Cup and junior championship matches will be played next Monday over 36 holes and the Canadian Amateur will start on Tuesday. All five Manitoba players will play in the Canadian Amateur.

Defeated Westview in Gyro Playground League Last Night

The third game of the Gyro Softball League went to McClymont Park last night with a victory over Westview by a score of 11 to 3.

Mah and Scherk both scored for Westview in the first inning on an error, two stolen bases and two singles. McClymont opened its half of the game by waiting out the pitcher who walked five men in this inning.

The Westview team is weak in the pitching department. The team used three pitchers in last night's game and most of the runs scored against it were the result of walks.

There was a flurry of runs scored by McClymont in its half of the fifth inning. Santerbane singled and Barker dropped a neat Texas Leaguer over second base. Keays hit into an error to fill the bases. Two more errors and Simpson's single scored three runs. Scherk and Laurie both fled out to retire the side with the bases full.

Again in the seventh McClymont started a rally which netted four runs. Simundson singled and Zbur's double to left field advanced him to third. Two more hits by Laurie and Simundson were responsible for the scoring in this inning.

The game tightened up for the remaining two innings and both teams retired their opponents in order except for Scherk's long hit in Westview's half of the eighth which went for three bases and scored Grimmon who had walked. Team captains were Blaine for Westview and Scherk for McClymont.

Umpires were Ross and Gordon-Cooper.

Errors
Ronalds, Navy, 1 (for Merchants).
Murray, Legion, 1 (for Merchants).

Marking the resumption of senior league play after a suspension of three weeks, last night's football fixture between the Royal Naval Volunteer Reserve and the Canadian Legion resulted in a win for the Royal Canadian Naval Volunteer Reserve, by five goals to one. The Legion had only four of its regular team on hand but managed to pick up enough to field ten players. The Navy had ten of its regular players. It was a very poor exhibition especially after the two great games with H.M.S. York.

Bob McLean opened the score for the Legion. Pierce fisted away two grand corners by Bryant and then Morgan saved well from Vance. McMeekin drove narrowly past and later was just too high. Christisen headed in a beauty from McMeekin to put the teams level. Cameron shot well but Morgan cleared.

The second half found the Navy attacking steadily with the Legion making occasional breakaways. Bryant added a second goal. Murray cleared off the goal line and Pierce saved at full length. McLean and Ferguson got away but Cross and Davies cleared. Christisen added a third, Armstrong a fourth and Christisen a fifth. Murray and Howe played good football and saved many an awkward situation but, shorthanded, could not score.

Teams—
R.C.N.V.R.: Morgan, Cross, H. Dickens, Eastman, Davies, R. Armstrong, Bryant, R. Smith, Christisen, McMeekin, Fulton.

Legion: Pierce, W. Murray, Alex. Barry, Howe, Ferguson, B. Knutson, D. Cameron, Vance, Vance, Bot McLean, McOreish, C. Ellison refereed.
 Pierce, Murray, Alex. Murray, Howe and Vance were the best for the Legion although all tried hard. The Navy did not need to play too hard but several members of the team were inclined to make a farce of the game. If the players do not give of their best they cannot expect spectators to attend. It was altogether a very disappointing exhibition.

Local Navy Men Defeated York

R. C. N. V. R. Won Closely Contested Football Game by Score of 2 to 1

A third football game to be played during the visit of H. M. S. York to port over the week-end was on Sunday afternoon when the Royal Canadian Naval Volunteer Reserve team of the City Senior League defeated a second string team of the visiting cruiser by a score of two to one. It was a well contested match and was witnessed by a good-sized crowd of fans.

Prince Rupert made both its goals in the first half while playing with the grade and wind in its favor, Cameron and Christison being the scorers. In less than ten minutes before the end, the warship scored its one and only. The visitors missed narrowly from equalizing in the dying moments when a shot went over the bar by inches.

CLASS IN SWIMMING

Children Taking Advantage of Instruction Under Gyro Club Playground Work

Gyro Club swimming and life saving classes are under way on Tuesday and Friday afternoons, swimming under Neil Ross at McClymont pool on these afternoons at 3 o'clock and life saving on the same days under Harry-Gordon-Cooper at Morse Creek.

There is already an enrollment of twenty-two juniors and intermediates at these classes at McClymont playground and Mr. Gordon-Cooper reports an enrollment of eight at the life saving classes at Morse Creek.

In addition to these groups, there are classes in life saving every Sunday afternoon at Salt Lakes. There was an attendance of twenty-four intermediates and seniors at this class last Sunday.

The boat for members of this class who have no other means of transportation leaves the Armour Salvage dock at 1:30 and leaves the lakes again at 4:30 every Sunday afternoon.

Helsingfors Already Making Arrangements—All Members Are Being Advised

HELSINGFORS, Finland, July 20.—(CP)—Government and civic authorities have started the making of arrangements for the holding of the 1940 Olympic Games here following the virtual award of the Games to Finland. It is expected they will be held in July or August. In order to provide accommodation for visitors, it is proposed to use ocean liners as floating hotels.

At Brussels Count Baillet-Latour, president of the International Olympic Committee, said yesterday that he was cabling all members of the organization to vote by cable whether the 1940 Olympic Games should be held in Finland. The games were originally scheduled for Japan but Japan gave them up last week because of the far eastern conflict.

WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Karin' to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You get constipated. Harmful poisons go into the body, and you feel sour, sunk and the world looks punk.

A mere bowel movement doesn't always get at the cause. You need something that works on the liver as well. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up". Harmless and gentle, they make the bile flow freely. They do the work of enzymes but have no calomel or mercury in them. Ask for Carter's Little Liver Pills by name! Stubbornly refuse anything else. 25c.

COME FROM MANYLANDS

Largest Assemblage of Mountaineers On Record Gathers At Jasper Park.

JASPER, July 20: One of the largest Canadian climbing camps on record is in the making as the Alpine Club of Canada's annual camp opened adjacent to the Columbia ice fields, 70 miles south of here on the new highway.

More than 100 are already under canvas representing a dozen mountaineering clubs including the Swiss, French and Mexican Alpine Clubs. The Ladies' Alpine Club of England and the Scottish Ladies' Mountaineering Club.

In his official welcome to the climbers, President A. S. Sibbald, Regina, paid high tribute to the road building policies of the National Parks pointing out that the Columbia ice field was practically virgin territory reached hitherto only by lengthy journey with a pack train. At the present camp automobiles are being used up and down the highway to reach adjacent peaks.

Climb Many Peaks.
One of the notable features has been the establishment of the highest camp ever used in the Rockies. The club has four tents fully equipped on the Columbia ice field proper at the 10,000 foot level on Snow Dome. Some of the best climbs will be made from it, notably Mt. Columbia (12,294 ft.) North Twin (12,085 ft.) Mt. Stutfield (11,320 ft.) Mt. Kitchener (11,500 ft.) South Twin (11,675 ft.) a fly camp will be established today in the meadows at the foot of Mt. Saskatchewan (10,964 ft.) further down the highway. Thus, provided the weather continues fine, the area will be thoroughly explored.

A regular forest of skis marks the camp site beside the highway. Summer skiing on the high glaciers is a distinct novelty that is possible in this magnificent scenic area at the apex of the main Rockies. The high camp is already occupied although camp has barely opened. Of the ten climbers who went up via the Athabasca Glacier yesterday seven had skis. Skis will not only make for fast climbing but add thrills galore to the descent into camp.

Among the distinguished visitors in camp is Dr. James E. Conant, president of Harvard University.

From The Waterfront

C. N. R. steamer Prince George, Capt. Edward Mabbs, with a large list of passengers, consisting largely of round trip tourists, arrived in port at 10:30 this morning from Vancouver, Powell River and Ocea Falls and sailed at 1 o'clock this afternoon for Skagway and other northern points whence she will return here Monday southbound.

Mr. and Mrs. F. A. MacCallum are enjoying a ten day cruise to Warke Canal with their power yacht Arranmore. They left on Friday last and are expected back early next week.

Seven halibut boats landed catches at Seattle yesterday as follows: La Paloma, 23,000 pounds. Booth, 8c and 7 1/2c; Bianca, 18,000, San Juan, 7 1/2c; Diana, 6,500, New England, 7 3/4c and 7 1/2c; Resurrection, 15,000, Whiz, 7 3/4c and 7 1/2c; Bertha, 4,500, McCallum, 8 1/2c and 7 1/2c; Flint, 15,000, Whiz, 7 3/4c and 7 1/2c; Faith, 10,000, San Juan, 8 3/4c and 7 1/2c. For sable fish 4c was being paid at Seattle yesterday and for mixed cod, 4c.

SMITHERS

S. H. Hoskins, government agent at Duncan, who formerly held the same office in Smithers for many years, left here yesterday morning to return home by motor car, accompanying his friend Mr. Purver of Duncan. He has been spending his vacation at Smithers looking up old friends, renewing old acquaintances and visiting his son Oswald Hoskins.

Mr. and Mrs. Harry H. Darling returned to Smithers on Sunday after a year's holiday in and around Toronto where they have been visiting relatives and friends. Mr. Darling was for many years superintendent at the roundhouse for the Canadian National Railways here and was superannuated about two years ago.

Gangs of volunteer workers are turning out every evening at the Fair Grounds here making alterations to the buildings and cleaning up the grounds in preparation for the big celebration in Smithers the first week in August. Horse racing will be one of the principal features of the celebration and the race track will be put in first class shape for these events.

Farmer's Picnic Great Success

Agriculturalists of Quick And Round Lake Have Fine Outing

SMITHERS, July 20.—One of the most successful picnics in years was the verdict of the farmers of Quick and Round Lake district after the conclusion of their annual outing at Round Lake on Thursday afternoon. Baseball and swimming tests were the features of the event and the large attendance got a great deal of merriment out of the occasion by standing on the shore and watching the contestants try to walk a greasy pole rigged on a float in the lake. None of them got more than a few feet on their journey before they were unceremoniously dumped into the lake.

The Smithers Brass Band added to the zest of the occasion by playing all the afternoon on the verandah of the Community Hall.

The hall was jammed to the doors at night by dancers who carried the picnic along until daylight the next morning.

ENO ENSURES HEALTHY HOLIDAYS

Every vacation it's the same old story—upset stomach, congested bowels, indigestion and miserable headaches. Of course, it's the change of food and water that does it, and what nature needs is the gentle help of Eno's "Fruit Salt". Simply take Eno first thing every morning.

Eno and nature together quickly overcome the disturbance, clear away congestion and keep you regular as clockwork. At the same time, Eno neutralizes the acid condition which often accompanies upset stomach.

Experienced vacationists never drink "strange" water without adding a dash of Eno to it. Eno prevents ill effects, and at the same time makes a pleasant, refreshing drink which quenches thirst marvelously, and cools you through and through. Yes, Eno's "Fruit Salt" will ensure that you have a happy, healthy holiday from the moment it starts. Obtain a bottle today.

LIBERAL IN HIS VIEWS

Justice Cardozo Was Most Consistent Supporter of New Deal

NEW YORK, July 20.—(CP)—The late Justice Benjamin Cardozo, who died recently, was hailed as a "liberal," as one who was inclined to consider the ultimate aim of a law rather than its strict application upon the basis of logical hair-splitting.

In support of this view it was recalled that in one of his decisions in the New York Court of Appeals, from which bench he moved to the country's highest tribunal, Justice Cardozo said, in denying a technical appeal:

"Rights and duties in systems of living law are not based upon quicksands."

In another public utterance he said:

"We are to beware of the insularity of mind that perceives in every inroad upon habit a catastrophic revolution."

Justice Cardozo was born in New York City May 24, 1870. His parents were Judge Albert Cardozo and Rebecca Washington Nathan Cardozo, both Jews of old Spanish and Portuguese lineage.

Their son had his education at Columbia University, studying liberal arts. He received his A. B. degree in 1889 and his master's degree the following year when he was only 20 years old.

The future jurist did not go through a law school. He read for his profession with his liberal arts education as a foundation and passed the New York state bar examinations in 1891. In practice he early became renowned for his keenly analytical mind and much of his work was as a "lawyer's lawyer" with appellate cases as his special field.

An independent Democrat in politics, he was elected in 1913 to the New York Supreme Court. In February of the following year Governor Martin H. Glynn named him to the state court of appeals.

In the fall of 1926 Cardozo was nominated to succeed Frank H. Hiscock as chief judge and he was elected for a full term of 14 years.

Smither's Man In Auto Smash

SMITHERS, July 20.—The automobile of Emery Barger of Telkwa was badly smashed while travelling on the road about two miles east of Telkwa on Thursday afternoon and Mr. Barger narrowly escaped serious injury, sustaining a few cuts about the head.

Mr. Barger was travelling toward Telkwa at the time and was passing another car which he had met on the road when a tire blew out. His car overturned several times and ended up in the bush with the sides and top squeezed together like an accordion. Although it was badly damaged, Mr. Barger was able to pilot the car to his home.

His appointment to the nation's Supreme Court by President Hoover on February 15, 1932, transferred him to Washington.

Most Liberal Judge

As a member of the supreme court, Cardozo quickly bore out predictions that his construction of the constitution would be extremely liberal. He had been on the high bench less than a year when President Franklin D. Roosevelt's administration raised many new and complex questions of federal powers. More often than any other Justice, Cardozo found reason to support these New Deal measures.

He wrote some famous majority opinions on New Deal laws which were upheld, notably those which sustained the unemployment and old age pension provisions of the social security act.

In these he made clear his conviction that the constitution must not be construed as a rigid framework but as a living organism which must grow to meet the changing needs of the nation.

"Nor is the concept of the general welfare static," he wrote. "Needs that were narrow or parochial a century ago may be interwoven in our day with the well-being of the nation. What is critical or urgent changes with the times."

He read his opinions in a rather high-pitched voice, a thin smile usually on his face. The documents were noted for their clarity and literary quality. Possessing a tremendous capacity for work, despite a somewhat frail physique, he labored more than his proportional share of the court's opinions.

His manner on the bench was one of gentle courtesy, especially when he questioned counsel. His inquiries, however, frequently brought out points inadvertently, or deliberately, concealed by the arguer.

By many he was regarded as the court's outstanding authority on common law.

Unvarying in his personal routine of early rising, long hours of work and early retirement, he was also meticulously punctual. He always was on time for sessions and conferences of the court and almost never missed a day from his duties.

NORTH FILM IS SHOWING

"Call of Yukon" Feature Offering For Middle of Week At Capitol Louis-Schmeling Fight Pictures

Said to be one of the outstanding of the newer outside adventure films, "Call of the Yukon," based on one of James Oliver Curwood's most popular stories, "Swift Lightning," comes as the feature presentation to the screen of the Capitol Theatre here at the middle of this week. It stars Richard Arlen with Beverly Roberts and Lyle Talbot.

The plot deals with the stirring adventures of a beautiful girl who, through her own stubbornness, becomes stranded in wastelands of snow and ice in the north. She is forced to turn to a cold-blooded half-civilized trapper for protection. Complications arise when a trader puts in an appearance and tries to take the girl back to civilization. Several animals are introduced including dogs, cub bears and ravens. A huge German police dog is instrumental in bringing the picture to a powerful climax.

Also coming on the mid-week bill are the official Joe Louis-Max Schmeling fight pictures which Henry McLemore, prominent sports writer, has described as the "most faithful recording ever made of human savagery."

MANY CARS PARTY AT WINNIPEG

Central Interior Reports More Travel This Season Than In Many Years

SMITHERS, July 20.—More tourist automobiles are seen on the roads of this district this year than have been noticed for several years past. Many of the states and provinces are represented and each car carried four or five passengers.

The hotels are filled to capacity most of the time and this seems to be a general condition all the way from Hazelton down through the Cariboo.

The travellers are unanimous in declaring that, if the Alaska highway is ever completed, there will be a tremendous impetus in tourist travel throughout the north and that thousands of cars will travel over the route to Alaska.

The completion of the highway from Prince Rupert to Hazelton would in itself multiply this travel many times.

One couple from Michigan travelling to Hawaii could not get passage on American boats and so booked by the Empress boat from Vancouver. They were obliged to wait some time before the departure from Vancouver and spent their time travelling as far north as they could by car. They shipped their car from Hazelton to Prince Rupert and from Prince Rupert to Vancouver and thence to Hawaii.

Mississippians in Prairie Metropolis On Way to Prince Rupert

WINNIPEG, July 20.—Staggering under the weight of a huge Mississippi watermelon, Mayor John Queen left the Canadian National depot yesterday bound for the city offices to distribute portions of the luscious southern product to his civic staff. The melon, one of forty for Western Canada mayors from the mayor of Water Valley, Miss was formally presented to His Worship by Denis Murphree, former governor of Mississippi, on arrival of the "Know Mississippi Better" train.

More than 200 visitors were aboard the train of fifteen passenger cars which arrived from the United States and left westbound in the afternoon. The tour will carry the southerners through Western Canada to Prince Rupert and by steamship down the coast to Vancouver.

The choice melons, largest of the Mississippi crop, are to be presented to mayors at every official stop, including Portage La Prairie, Melville, Wainwright, Edmonton, Jasper, Prince Rupert and Vancouver.

WINNIPEG WHEAT PRICES

WINNIPEG, July 20: (CP)—Wheat prices were up 1 1/4c to 5/8c yesterday, July closing at 99 3/4c.
