When Lord Halifax returned from his visit to Germany the terms discussed were made public through a leakage at the Foreign Office, generally thought to be due to Sir Robert Vansittart, head of the permanent staff, who is not friendly to the Astor group. Anthony Eden also is not au fait with this group, hence his removal.

The curious suggestion made in connection with the policy of this group is that while every effort is being made to placate Germany, this is done largely because Germany is the nation most to be feared by Great Britain and as most likely of any European nation to drag the Empire into war once more. The policy is based on the line that it is better to have Germany for a friend than an enemy.

SOCIAL CREDIT'S DOOM

The Supreme Court of Canada yesterday pronounced the doom of Social Credit so far as the province of Alberta is concerned. The court being unanimous in declaring every important move of the government unconstitutional, it would seem that the Aberhart government will have to change its policy or resign. It is scarcely likely to resign.

OF RADIO

Matter Dealt With at Some Length By Chamber of Commerce Following Presentation of Report

port from the radio committee, the Prince Rupert Chamber of Commerce last night discussed at length the question of local radio reception and how best to deal with it. Finally it was left for the radio committee to continue its efforts on behalf of improved conditions.

J. J. Little explained that it was too costly to try to bring progrems in for the local station by wice but he thought they might be able to make an arrangement with the Northwest Radio Telephone Company to convey programs by short wave to the city for rebroadcast by the local station. This he thought would be the solution of the difficulty. Tests were being made.

G. W. Nickerson suggested the solution was for the Canadian Broadcasting Company to have its own station at some point nearer to Prince Rupert than Vancouver. possibly at Prince Rupert or at some interior point. It did not matter where as long as people got good reception. There ought to be plenty of revenue from licenses to pay for the cost of such a sta-

C. G. Minns suggested that all licenses should be collected. He did not see why some should pay and some should not. He hoped the scheme Mr. Little suggested would prove a possibility.

It was suggested that all agree, not to pay licenses until some relief was given but this did not seem to meet with general favor. It was pointed out that the license fee was set and the government had a legal right to col-O lect it. It was felt there should be 2 something in return for the lio cense fee.
