Government Wins In Saskatchewan

Premier Patterson Is Returned To Power But Majority Is Cut Down

Takes Thirty-Six Out of Fifty Seats—C.C.F. Increases Representation—Social Credit Gets Three Members

THE RESULT AT A GLANCE

Liberals, 36. C.C.F., 10. Social Credit, 2. Union Progressive, 1. Independent, 1. Deferred, 2.

REGINA, June 9: (CP)—The Liberal government of Premier W. J. Patterson rode back into power at yesterday's general provincial election with a decisive although reduced majority of seats in the Legislative Assembly, winning thirty-six out of fifty seats. The Co-operative Commonwealth Federation increased its representation from five to ten seats. Social Credit won two seats, falling to make the showing that many had expected of it. In both these Social Credit seats, there may be recounts. The Conservatives failed to elect a single member for the second election in a row.

All but two members of the Patterson cabinet were apparently re-elected. Hon. C. M. Dunn, minister of highways, lost Melville by four votes to Fred Herman, Social Credit, the result being subject to a recount. W. F. Kerr, minister of natural resources, was leading James Proctor, Social Credit, in incomplete returns for Turtleford. The other six ministers were definitely conceded re-elected.

Taking into account complete returns and concessions, the Patterson government will have a clear majority of twenty-two in the ninth Legislative Assembly with voting still to take place in two far north ridings on July 28.

Able Canadians With Loyalists

Winnipeg Hears First Hand About Action In Spain

WINNIPEG, June 9: (CP)—Canadian soldiers in Loyalist government ranks are fighting well in war-torn Spain, George Hayes of Winnipeg, recently returned from the Spanish front, told a meeting here.

He described the Canadians' stand at Teruel, where, surrounded by insurgent troops, they held their ground for two days before breaking through the enemy lines to safety.

Hayes, a Great War veteran found air attacks by insurgent bombing planes more devastating than in the Great War.

Distinguished service is rewarded by rank promotion rather than medals, he said.

Cattle Shocked, Fence Cost Cut

TURIN, Alta., June 9: (CP)—All Mitchell, inventive farmer, has found a way to cut fence costs. He electrified the wire and attached corn cobs. When the animals attempted to eat the cobs they received a light shock.

Now the animals won't go near a wire of any kind and a one or two-strand enclosure is all that is needed to keep the herd in its allotted field.

NEWS IN OLD PAPER

GUELPH, Ont., June 9: (CP)—News can be so old that it is news again and that why interest is being shown here in a copy of the "Guelph Weekly Advertiser," dated January 15, 1880, found here in good shape.

Start Made On Hospital

Breaking of ground for the new seventy-bed unit of the Prince Rupert General Hospital was commenced yesterday by the Bennett & White Construction Co. with twenty men on the job. The first work consists of excavation of dirt and loose rock for the foundation walls. Arrangements have been made to encroach on the lane.

Halibut Sales

Canadian Dovre B., 19,000, Atlin, 7.2c and 5c. Gony, 14,500, Cold Storage, 6.4c and 4c.

BULLETINS

KIDNAPPING SOLVED MIAMI — Federal agents last night found the body of kidnapped Jimmy Cash, recovered the \$10,000 ransom which the father had paid and arrested Franklin Pierce McCall who they said had confessed to writing all the ransom notes and collected the money. The boy's body was discovered three-quarters of a mile off the highway near Princeton. McCall is a truck driver and had lived in an apartment owned by the boy's father. Others, it is believed, may have been implicated in the crime.

MORE BRITISHERS BOMBED DENIA, Spain — The British freighter Isadora and the French freighter Brisbane were bombed in separate insurgent air raids on Mediterranean seaports of the Spanish government today. Five were killed including an observer for the non-intervention committee in the raid on the Brisbane by a lone bomber at Denia. Ten others were injured. Denia is twenty miles south of Gandia which was bombed yesterday. There were no casualties aboard the Isadora which was at Castellon de la Plana. It was feared the Brisbane would sink.

CRISIS THREATENS LONDON — A crisis threatens over slaughter from the air in the Sino-Japanese and Spanish civil wars. The Japanese declare their intention of continuing the Canton massacres and the growing toll of attacks on British and French ships in Spanish waters have brought London and Paris sharply up against an ugly problem. British officials deny a report that a Royal Air Force patrol may be sent to Spain to protect shipping there.

JAPS ADVANCE SHANGHAI — Advancing Japanese troops are now within a few miles of Chenchow on the Lung-hai Railway. This is only forty-five miles from the provincial Chinese capital of Hankow.

STRIKE IN HOTELS PORTLAND, Oregon — Employees of major hotels in Portland have gone on strike following failure of five unions to reach an agreement with the Hotel Association. The strike came on the eve of the Rose Festival which is, however, proceeding. Hotels are not closed but are being picketed.

Historical Car Still Serves

CALGARY, June 9: (CP) — "Earnscliffe," once the private car of Sir John A. Macdonald, Canada's first premier, is still giving service 48 years after coming out of the shops.

Today it is known simply as "Car 25" and is the private car of R. McKillop, superintendent of Calgary division of the Canadian Pacific Railway.

A brass bedstead in which Sir John once slept, old-fashioned lamp-holders and many other ancient fixtures have been retained. Outer construction of whitewood and interior mahogany have stood up well and it is unlikely the car will be retired for a long time.

ADD TO MISSIONS

TORONTO, June 9: (CP)—Assets of \$2,269,069 were reported to the annual meeting of the Dominion Board of the Women's Missionary Society of the United Church. New missionaries were placed in Alberta, Quebec and Nova Scotia.

Planes From United States Being Ordered

LONDON, June 9: (CP)—The Air Ministry announced today that the government had decided to buy four hundred airplanes in the United States to be added to the equipment of the Royal Air Force. The order follows the recent visit of a purchasing commission to the United States and was based on its recommendations. Orders for aircraft manufactured in Canada are also expected to follow.

BAR SILVER

NEW YORK, June 4: (CP)—Bar silver was unchanged at 43 3/4c per fine ounce on the New York metal market today.

Local Member Has Hand In New Federal Legislation To Assist Home Building

By THOMAS WAYLING

OTTAWA, June 9.—The Dominion Housing Act is being made available to the smaller urban and the general rural population of Canada. The old housing act could not be used by these in the smaller centres and outside the centres of population so Olof Hanson M.P. and other members who have realized this brought pressure to bear on the government to revise the act. This has been done and yesterday the minister of finance, Hon. Charles A. Dunning, brought his new proposals down into the House. They are being received with general approval and this summer small cost homes will be possible for people in all parts of Canada instead of only the big centres of population.

In introducing the new housing bill, Mr. Dunning stated that it was designed to assist low salaried owners, builders and municipal low rental housing projects and lift early burden of municipal taxation from low cost owner-builders.

About \$55,000,000 will be the federal treasury obligation under the scheme.

The Act was given its first reading.

PRINCE RUPERT HEARS HOW IT MAY BE GIVEN BUILDING ASSISTANCE

There Are Still Some Difficulties in the Way But Federal Housing Director Expresses Hope That Something May Be Done

There are still some difficulties in the way of a home building campaign being instituted in Prince Rupert under the Dominion Housing Act but F. W. Nicolls of Ottawa, federal director of housing, speaking at a special dinner meeting of the Prince Rupert Chamber of Commerce last night, expressed hope that it might be possible to make arrangements whereby use of the scheme could be made locally.

There would have to be at least fifteen good applications for loans before there would be much chance of interesting one of the lending institutions, said Mr. Nicolls. Another requisite here would be the institution of zoning regulations, a by-law for which was already in course of preparation, City Commissioner W. J. Alder stated. Mr. Nicolls further made it clear that loans would not be available for houses crowded onto twenty-five-foot lots.

Mr. Nicolls went into a detailed explanation of the terms of the Dominion Housing Act and how it might be possible to take advantage of it here. The dinner was presided over by F. A. MacCallum, president of the Prince Rupert Chamber of Commerce, and those present, in addition to members of the Chamber, included local builders and some prospective applicants for loans under the Act. City Commissioner W. J. Alder spoke briefly during the evening and, before the meeting closed, there was an extended question period during which there was further elucidation of terms of the Act in relation to the local situation.

The question of housing had been occupying the minds of public men ever since the war, said Mr. Nicolls, and the depression had drawn particular attention to the need. The problem was being approached from three angles—the improvement of existing dwellings to promote which there was the Home Improvement Plan; the erection of new homes by men who were in a position to borrow and repay to assist in which the Dominion Housing Act had come into being, and the provision of adequate dwellings for men who were unable to own their own homes or pay reasonable rental.

Speaking of the Home Improvement Plan, Mr. Nicolls stated that loans totalling \$15,500,000 had been made in Canada by the banks with federal guarantee for the modernizing of homes. In Prince Rupert there had been nineteen loans totalling \$9442 which was rather low compared with other communities of similar size.

There had been no loans as yet in Prince Rupert under the Dominion Housing Act. In the Dominion 4247 loans had been made in 180 communities from \$1700 to \$350,000 for a total of \$17,550,000. In British Columbia there had been 750 loans with a total of \$2,250,000. Close to 700 of these loans had been made in Vancouver and now they were being taken advantage of in Victoria and adjoining places as well as some interior cities. Other parts of the province include Nanaimo, Port Alberni and the southern interior were now being organized. Vancouver, it was expected, would have the largest number of loans of any city in Canada.

How Act Operates

Mr. Nicolls then proceeded to explain the manner in which the Dominion Housing Act operated. It was necessary for the borrower to have twenty percent which might be made up of the value of the property and some cash. The government contributed twenty percent and sixty percent was invested by approved lending institutions. The borrower paid five percent and the government contributed three percent.

Mr. Nicolls stated that, unless communities enacted zoning legislation, they could not get loans under the Housing Act. It was necessary that undesirable buildings be kept out of residential areas. Undesirable buildings depreciated the value of homes. In Prince Rupert

RAIL RATES FOR FAIRS

Special Fares Are Being Given to Prairie Cities by Railways

WINNIPEG, June 9.—Catering to the thousands of the general public who will attend summer exhibitions on the class "A" and class "B" circuits in western Canada this year, both the Canadian National Railways and the Canadian Pacific have authorized special rates into cities and towns of the three prairie provinces good in all classes of accommodation, single fare will prevail for the return trip, according to the announcement made yesterday by J. B. Parker, secretary of the Canadian Passenger Association.

Heading the Manitoba Fair listings is the provincial exhibition at Brandon July 4 to 8 for which the special rates will prevail from all points in Manitoba and Saskatchewan. The rail tickets go on sale July 2.

Saskatchewan boasts two class "A" fairs, the Saskatoon industrial exhibition July 25 to 30, tickets on sale July 23, and the Regina exhibition August 1 to 6, the first day of sale July 30. All stations of the two railways in the three prairie provinces will benefit by the reduced fares to the two cities.

Fair-goers in Saskatchewan, Alberta, and British Columbia as far west as Vancouver and Prince Rupert, but not including Vancouver Island or the British Columbia Coast Service, will be in position to take advantage of the special rates to the Calgary exhibition and stampede, July 11 to 16, and to the Edmonton exhibition, July 18 to 23. In each case the tickets for the railway passage may be purchased two days before the opening of the fair.

In addition to the above in the class "A" qualifications, special rates are announced also for the following "B" exhibitions.

Manitoba

Carman, June 30 to July 2. Portage La Prairie, July 7 to 9. Dauphin, July 14 to 16.

Saskatchewan

Weyburn, June 27 to 28. Moose Jaw, June 29 to July 2. Estevan, July 4 to 6. Yorkton, July 18 to 20. Melfort, July 21 to 23. Lloydminster, August 1 to 3. North Battleford, August 4 to 6. Prince Albert, August 8 to 11.

Alberta

Lethbridge, July 4 to 6. Red Deer, July 7 to 9. Vegreville, July 25 to 27. Vermillion, July 28 to 30.

### PROGRESSIVE IDEAS

Hon. Dr. George M. Weir, minister of health and provincial secretary, speaking here yesterday, gave some instances of how the government of which he is a member is endeavouring to harmonize political liberty and economic security under a system of democracy. As is well known, Dr. Weir has progressive ideas along these lines—too advanced to suit some of the more conservative and reactionary elements. Dr. Weir is more interested in the welfare of the people than that of any special interests. Any government that can preserve him as a member is not liable to go stale, particularly in the field of social legislation.

### INSURING HEALTH

Dr. Weir mentioned the desirability of prevention of illness and expressed the hope that the authorities would be able to spend more and more on health insurance. Illness had to be cured but it was much more desirable that it should be prevented.

This is in line with a campaign for the improvement of the health of the people of Canada which has been undertaken by the federal authorities.

Nothing is more vital to Canadians than good health and it is gratifying to see government authorities seeking to give leadership at this time to a movement on a national scale for general improvement in the fitness of the people.

At the same time, however, as efforts are made to create interest in health measures and health preservation, it is desirable that the authorities should do everything in their power to make health facilities as readily available as possible to the people. This is something that Dr. Weir, as is well known, is earnestly working towards.

### PAYING OF BILLS

Prompt payment of monthly accounts by those who do business on a credit basis is possibly a more important thing in the prosperity of a community than many people realize. The payment of a monthly account when it falls due tends to keep money in steady and orderly circulation. One is able to pay the other and tightness of circulation is relieved.

A good many people are still able to pay their monthly bills by the fifteenth of the month following. No one should fail to do so through mere neglect. All should endeavour to balance their budgets so as to be able to do so.

### THE SASKATCHEWAN ELECTION

The Patterson government of Saskatchewan has been returned to office with a heavy preponderance of seats in the Legislature. The electors of the prairie province have thus fittingly recognized the work of their government in carrying on through very trying and difficult times. The people have stamped disapproval on third party experiments, neither Social Credit of C.C.F. winning enough seats to be of much influence in formulating public policy although they will have sufficient to provide a medium of keeping their doctrines and preachments before the public. Saskatchewan went as was expected.

# 'SPORT'

## Football Game Ended In Draw

High School and Sand Pit Played To Three All Deadlock Last Evening

Junior football teams played an interesting game last night with High School and Sand Pit sharing honors by a three all score in a closely contested encounter. First High took control of the ball and Holkestad scored on Zbura's pass. Sand Pit then attacked and had only the goalie to beat but Leland stopped them in the goal mouth. Silversides then scored another for High School on a pass from Holkestad. The Sand Pit defence was weak while the forwards were strong. Colussi got through for the Sand Pit and made a goal. Gomez tested Zbura with a long shot but the latter saved well. After a ragged spell, Sand Pit forwards broke through and Simundsen made a neat goal. High School then went through again but was stopped by Latin Gomez, from a penalty, made the score two all.

In the second half Gomez broke through, only to shoot behind the bar. Holkestad and Zbura got through but were stopped by Perkins. From another penalty, Simundsen shot behind the goal. Gomez showed cleverness at back while Perkins tried hard. Eby got through and centred well but Shruball stopped the goal. Weir was playing a great game in goal.

For High School Holkestad, Simundsen, Zbura, Morgan, Leland, Silversides and Field were best. For Sand Pit Gomez, Perkins, Latin Colussi and McLeod starred.

### Teams:

High School—Leland; Simundsen and Eby; Holkestad, Hougan and Zbura; Field, Silversides, Silversides and Morgan.

Sand Pit—Weir; Shruball and Gomez; Perkins, Latin and McKeown; Burns, Colussi, Anderson and Hemmons.

Merchants vs. Navy

## HIGH WINS IN SOCCER

Defeated Borden Street School by Score of Three to Nil Yesterday Afternoon

On Wednesday night King Edward High and Borden Street Schools played a warmly contested game which ended 3 to 0 in favor of the High School. Borden again showed the excellent style and spirit it has displayed throughout the season. The Borden boys attacked again and again but the combination of Nelson, as centre half, Ken McCrimmon and Jack McLean, as backs, and Mah, in the goal, proved too strong. On the other hand the High School's forward line played well and, despite good work on the part of Lee in the Borden goal, they scored twice. Cameron and Bill each scored once and the third goal went in as McLeod tried to head a corner kick out of the goal.

The teams were as follows:

High School—Mah; McLean and McCrimmon; Pierce, Nelson, O. Keays; L. Keays, Postulo, Cameron, Bill and Schubert. Allan Smith played for a few minutes but was withdrawn as soon as High School realized that he was disqualified through having played three senior games.

Borden—Lee; Bird and Hayakawa; Long, McLeod and Pavlikis; Hodgkinson, G. Smith, Robertson, C. Mah and Arney.

P. Doherty refereed. The linesmen were Tony Christian and Stan Scherk.

The League standing:

	W	D	L	F	A	Pts
High	5	1	0	28	9	9
Borden	3	1	3	12	22	7
Booth	0	0	5	8	17	0

## SPORT CHAT

More than 80,000 men and women will participate in the German sports and gymnastic festival on the gigantic new Herman Goering Sports Ground in Breslau, Germany.

Watching Mrs. Helen Willis-Moody in the Surrey Lawn tennis championships in England, a writer said he would compare her with Don Bradman. "Once she gets set she never looks like getting out," he said.

Only 200 of the 3,400 reserved seats for the fourth England-Australia test cricket match in Leeds starting July 22 remain unsold. Money received already totals more than £4,000 (\$20,000).

Joyce Gardner retained the women's professional billiards championship in London for the seventh time when she defeated Thelma Carpenter 2,313 points to 1,824.

Professional at Sundridge Park golf club since 1900, Jack Randall died while holidaying. Fifty-eight years old, he intended retiring in October.

Next year's British women's golf championship will be played over the Royal Portrush course at Belfast June 12-16. International matches, which precede the event, will be played June 9-10.

R. Luyt, member of the South African rugby team which toured England in 1912, is manager of the British squad now visiting South Africa.

Miss Gloria Minorprio, one-club, blue-trousered golfer who said she would stick to one club until she wins the British women's open championship, was eliminated in the third round 4 and 3 by Miss M. Fyche.

A bat autographed by the Australian test cricket team and manager, sold on behalf of the National Playing Fields' Association at a dance in London, realized £135 (\$675).

The annual professional international match preceding the British open golf championship was transferred from Royal Cinque Ports, Deal, to the Royal St. George's course in Sandwich, England, July 2.

Johnny Allen of Cleveland has the best life-time won and lost average among major-league pitchers with 35 won and 30 lost for a .739 percentage. He registered 15 victories last season. He was fined \$250 in a game with Boston Tuesday for quitting the game because he was told to remove a sweat shirt contrary to regulations.

## BASEBALL SCORES

**National League**  
New York, 4-4; Chicago, 2-1; Brooklyn, 7; St. Louis, 6; Boston, 1; Pittsburgh, 4; Philadelphia, 5; Cincinnati, 7.

**American League**  
Chicago, 11-10; New York, 10-6; Detroit, 5; Philadelphia, 1; Cleveland, 6; Boston, 7; St. Louis, 11; Washington, 5.

## FIGHT PICTURES COMING

The management of the Capitol Theatre here has been advised that the pictures of the recent fight in New York when Henry Armstrong won the welterweight title from Barney Ross will be shown here on July 4 and 5.

## WALKED IN SLEEP

TILBURY, Ont., June 9: (CP)—Somnambulism almost cost a 23-year old man his life while sleep-walking. He shoved his arm through a window and was in danger of bleeding to death when found by his parents.

## GARDEN WAS BARE

BROCKVILLE, Ont., June 9: (CP)—"No," said a resident here to a small boy and girl selling tulips. She had some in her garden. Then her garden was bare and police are now looking for the young sales experts.

## EXTENSION IDEA OFF

Presbyterian Church Not Following Up Hollingworth Survey

TORONTO, June 9: (CP)—Recommendations for the appointment of two officials to carry on the secretarial duties of the church's missionary work were embodied in the report of the General Board of Missions of the Presbyterian Church in Canada to the 64th General Assembly in session at Calvin Church here.

Rev. Dr. W. A. Cameron, Central Church, Vancouver, was named by the board for the post of home missions secretary with Rev. A. A. Lowther to take charge of foreign missions. Mr. Lowther has been attached to the church's staff in India for some years but at present is on sick leave in Australia.

The proposals marked another stage in the church's efforts to put the secretarial work on a permanent footing. Since the death of Rev. Dr. A. S. Grant, veteran general secretary, three years ago, Rev. Dr. J. W. MacNamara, Clerk of the Assembly, has been in charge. Nominations for the positions were received by the board from various presbyteries in Canada.

In the home field, the board stated, encouraging reports have been received from many quarters, especially from Northern Ontario mining districts, indicating steady progress at Kirkland Lake, Hawk Junction and Geraldton. Attention has been called to rapid developments in the Val D'or area, Quebec, and in the Goldfields district of Northern Alberta and Saskatchewan. In British Columbia it has not been found possible or advisable at the present time to follow up the results of the survey made last year by Rev. W. D. Grant Hollingworth, formerly of Prince Rupert and now of Medicine Hat.

Referring to conditions in Saskatchewan the board reports: "Continued drought and consequent crop failure made it necessary that your board should respond to the appeal of the synod for one year to treat the pastoral charges in the province on the basis of a frontier field. In this connection we wish to pay tribute to the W. M. S. (W. D.) which at once contributed \$1,000 for this purpose."

## Co-operate in Survey

The board has agreed to co-operate with the Saskatchewan synod in making a survey of Northern Saskatchewan with a view to formulating definite plans to minister to the large numbers of families moving into the district.

While the board is concerned over conditions in China and Japan, work at the North Formosa station has been carried on without serious interference. The requirements of the Japanese authorities with regard to the use of the Japanese language are placing a heavy burden upon the missionaries and upon the board's finances. It now is necessary for missionaries to visit Japan for extended periods for language study.

The board recommends no change in present scale of salaries for different foreign fields but proposes the maximum salary, including all allowances, be fixed at \$2,500 a year. "It should be noted," the report says, "that the board is not responsible for the payment of income taxes."

Negotiations with the foreign mission board of the Presbyterian Church in the United States are being carried on with a view to closer co-operation. Plans also are being worked out looking to a solution of problems connected with agricultural and industrial work which, it is hoped, will open the way for a larger measure of evangelistic activity.

In regard to the three-year rule for members of the board, it is proposed that one-third of those due to retire be eligible for re-appointment.

## VIGGO KIHIL FINE AGAIN

Piano Master Wins Admiration Of Large Audience And Is Given Ovation—Happily Selected Program

Viggo Kihl of the Toronto Conservatory of Music is no stranger to Prince Rupert but, with each successive visit this eminent piano master wins more friends and admirers here. He gave a recital last night in First United Church and his very fine playing charmed a large audience, the admiration being expressed by spontaneous applause throughout and an ovation at the end.

Mr. Kihl's fine technical skill and his interpretive genius are too well known here and elsewhere to need detailed description. Suffice it to say that he seems to be better every time he comes. Psychological effect probably has something to do with this for local music lovers have come to understand Mr. Kihl and the understanding probably has brought with it a keener sense of appreciation of his fine skill and artistry.

Apart from his playing, Mr. Kihl also has a fine personality and the delightful way in which he announces and describes his selections make it that much easier for

listeners to grasp the artist's mood and the spirit of the numbers. Mr. Kihl's program was happily selected, affording full scope and range for his talents. He avoided too ponderous selections and everything he gave was comprehensible even to average listeners. There was either enough harmony or melody to captivate the ear or sufficient mechanical technique to excite admiration from that standpoint.

The program was as follows: "Fantasia and Fugue in minor" (Bach-Liszt); "Andante in F major" (Bethoven); "Sonata in C Major Opus 33—Allegro con brio, Introduzione molto adagio, Rondo: allegretto moderato - prestissimo" (Bethoven); "Impromptu in G major" (Schubert); "Serenade" (Schubert); "Moment Musical in F major" (Schubert); "Lao Jongleuse" (Mozzkowski); "Four Etudes" (Chopin); "Minute Waltz" (Chopin); "Waltz in C Sharp Minor" (Chopin); "Berceuse" (Chopin); "Campagnella" (Liszt-Paganini).

### Last Rites For Capt. Swanson

Pioneer of City Laid at Rest this Afternoon With Many Attending Service

Many pioneers assembled this afternoon at the chapel of the B.C. Undertakers for the funeral of the late Capt. John Alfred Swanson, whose death occurred at the first of the week at Prince Rupert General Hospital. Rev. Edwin E. Brandt, pastor of First Baptist Church, officiated and Peter Lien presided at the organ to accompany the hymns. Pallbearers were Lawrence Halcrow, W. Eastman, O. A. Johnson, S. E. Parker, John Dybavn and H. B. Eastman.

### LOCAL NEWS NOTES

Selkirk Falconer, son of Mr. and Mrs. T. W. Falconer, was a passenger aboard the Prince George yesterday bound from Vancouver to his home in Alice Arm.

Mrs. Smith of Vancouver was a passenger aboard the Prince George yesterday going through to Stewart where she will spend a couple of weeks visiting with her brother-in-law and sister, Mr. and Mrs. H. V. Littler.

Enrolments are being received here under the Young Men's Forestry plan of the provincial government whereby employment and training is given in forestry training camps. Young men from 18 to 25 years of age are eligible providing they have High School training and are of promising character. The allowance is \$1.75 per day less board of 75c per day.

Tonight's train, due from the East at 11 o'clock, was reported this morning to be running on time.

Today is being observed as the King's Birthday by schools, banks and government offices. Stores were open, as usual, this morning.

The fire department had a call at 4:35 yesterday afternoon to a roof fire at the Evening Empire office. A small hole was burned in the roof but damage was inconsequential.

The weekly luncheon of the Prince Rupert Rotary Club today took the form of a business meeting with the president, W. R. McAfee, in the chair.

Tom Steen is home from Oshawa, Ontario, for a month's visit with his parents, Mr. and Mrs. Howard Steen. It is five years since he has been here.

Mr. and Mrs. J. R. Drysdale and child of Premier, who have been on a vacation trip to Vancouver, were passengers aboard the Prince George yesterday returning north.

Merely routine business was taken up at a meeting of the Moose Lodge last night. Dictator B. J. Bacon was in the chair and there was a fair attendance of members.

Mrs. F. J. Feasby was able to leave the Prince Rupert General Hospital a few days ago for home after undergoing a major operation a couple of weeks ago. She is making a good recovery.

Mrs. D. Zarell and her two daughters, Louise and Evelyn, are sailing on the Prince George tonight for Vancouver whence they will proceed to Chicago for a six weeks' visit.

### Mrs. Collison Of Kincolith Passes

Well Known Native Woman of Nearby Village Died Yesterday

Mrs. Katherine Collison, wife of Henry Collison and one of the best known native women of Kitkatla, passed away at 3:30 yesterday morning at that village following an illness of long duration. She had been confined to bed for several weeks.

Mrs. Collison was seventy-five years of age and was born at Kincolith.

### UNCLE SAM SEES NEED OF CANADA

Washington Finds Dominion Hopes Based on Monroe Doctrine

By ALEXANDER R. GEORGE

WASHINGTON, June 9: (CP)—Citizens of "good neighbor" Canada used to feel pretty safe because they seemed isolated from potential enemy countries. Now they are becoming invasion-conscious as war alarms reverberate around the world.

With Mother Britain arming to the teeth in the face of European tension, members of the Canadian Parliament are urging a strengthening of home defenses. Reports hint of "mysterious" movements of heavy guns from one coast to another.

Canada's remoteness from expansion-hungry powers and her cordial relations with next-door United States have made a large peacetime military establishment seem unnecessary. Moreover, Canadians have counted upon Britain's warships to hold off a possible invasion of their eastern coast.

But probably the most comforting antidote for Dominion fears has been the belief that "the strong right arm of Uncle Sam" would be lifted against an aggressor who carried the fight to the Canadians' home grounds. Defense Minister Ian Mackenzie said recently:

"Just as the British navy on the Atlantic is our greatest security in that quarter so I think it might be reasonable to assume that in a major conflagration we should have friendly fleets upon the Pacific Ocean."

#### Situation of Canada

Canadian hopes for U.S. aid in a pinch are based roughly on:

1. The Monroe Doctrine under which the United States views as an unfriendly act any attempt by a European or Asiatic nation to deprive an American state of territory or the right of self-government by force.

Outside of the general assurances of the Monroe Doctrine, this country is not committed to the military protection of Canada. So students of international affairs find it conceivable that the United States would remain neutral if Canada became involved in a war between Great Britain and another power.

But they find it difficult to imagine the United States remaining placid if foreign troops actually were blasting their way into Vancouver or planes were dropping bodymangling bombs on Toronto and Montreal. Among many U.S. citizens, the bombing of those nearby cities would stir almost the same resentment as air raids on Buffalo and Detroit.

2. The "realistic" viewpoint that the United States, with its long unfortified northern border, could not afford to allow the conquest of Canada with the probable setting up of a strong military establishment.

Resistance against a surprise attack on this country by way of the Dominion has long been an impor-

tant part of secret U. S. defense plans.

The biggest peacetime manoeuvres of the army have been sham battles between "invading" and "defending" forces in northern New York State, even including the use of large numbers of New York City taxicabs to transport troops from New Jersey and southern New York to the "front."

#### Canada's "First Line"

Canada's own first line of defense is a volunteer militia of about 53,000, a dozen or so batteries of coast artillery, some 85 batteries of light and medium artillery, a half-dozen destroyers and about 100 modern aircraft. Compared with the military establishment of even tiny Yugoslavia, Canada is "unarmed."

Her resistance, no matter how gallant, to an attack in force by a great power or coalition of powers would be ineffective unless the services of a strong British fleet were available. In such a situation Canada would hope for U.S. assistance by sea, air and land.

Some American alarmists have envisaged enemy aircraft making the short jump across the Bering Straits from northern Asia to Alaska, flying from Fairbanks to Winnipeg in nine hours and in another four hours or less being in a position to bomb Omaha or Chicago.

Military planes can fly that far (more than 2,000 miles) but the defense experts are not alarmed at the prospect of such an attack in the near future—because no bombers have been developed which have a tactical range of even 1,000 miles. Meanwhile, the goal of the U.S. army is a force strong enough in numbers and equipment to smash the first contingent of an enemy which obtained a foothold anywhere in the United States, Canada or Mexico. The army air corps already has reached a stage of development where it is rated a match for the sky fighters of any nation.

#### WORD TO YOUNG

WINDSOR, Ont., June 9: (CP)—Resident here 68 years, Mrs. Robert Paddon, 88, says young people don't fully appreciate the many privileges they enjoy in this "wonderful age."

## LEGION IS IN SESSION

Various Matters Dealt With At Regular Monthly Gathering

The regular monthly meeting of the Prince Rupert branch of the Canadian Legion of the British Empire Service League took place last evening in the clubroom with president Jack Preece in the chair.

Considerable discussion took place regarding the notification to the hospital committee of the branch of the admittance of ex-service men to the local hospital. The hospital committee reported their difficulty in knowing when ex-service men other than members of the Legion are admitted to hospital. As a result, they are not able to visit them and attend to their needs as they would wish. Hope was expressed that all ex-service men, whether Legion members or not, will advise the admitting nurse that they are ex-service men and that relatives of the men will advise the Legion when ex-service men are in hospital or ill at their homes.

Report from the president of his attendance at the Sea Cadet display recently was heard with interest. The Legion unanimously endorsed his action in offering to supply two uniforms for the cadets.

J. S. Wilson reported on the Boy Scout display which he attended as representative of the Legion and on whose behalf he made a presentation of a Union Jack. He had been very favorably impressed with the type of leadership the boys were so fortunate in having and his report left the members in no doubt as to the value of the work under the local scout association.

Further arrangements were made for the annual picnic which will be held to Digby Island on July 3. A letter from Prime Minister

## WHIFFLETS From The Waterfront

Salmon Price Meetings to be Held Here Next Monday—Dr. Kergin On Week's Cruise—Halibut Situation Better

A committee representing the British Columbia salmon canners will arrive in Prince Rupert on the steamer Princess Charlotte next Monday morning to hold meetings here with fishermen's organizations to discuss salmon prices for the coming season. The Native Brotherhood of British Columbia is one of the organizations which has received notice of the visit of the committee.

Dr. W. T. Kergin and party are on a week's cruise aboard the power cruiser Full Moon to Warke Canal and other district waters. The party includes Dr. Ralph Outerbridge whose marriage to Miss Margaret Kergin, Dr. Kergin's daughter, will take place shortly.

Edward Lipsett, who has been on a visit to his local waterfront business during the past week, will sail by the Prince George tonight on his return to Vancouver.

The power cruiser Silene, Capt. Bob Frizell, left at midnight last night for a week's trip to the Queen Charlotte Islands. C. C. Mills, J. G. Johns and A. C. Small were among those on board. Various Island points will be visited.

Four halibut vessels landed catches totalling 100,000 pounds at Seattle yesterday. Two sales for the day were: Seattle, 39,000 pounds

Mackenzie King acknowledged receipt of a telegram from the branch protesting against the suggested withdrawal of the steamship subsidy to Prince Rupert steamers.

San Juan, 8½¢ and 7¢; Majestic, 36,000 pounds, Whiz, 8½¢ and 7¢; Sonia, 18,000, Booth, 8½¢ and 6¢; F. C. Hergert, 14,000, Washington, 8½¢ and 6¢. The F. C. Hergert also had 7200 pounds of mixed cod, mostly ling, which sold for 2¢ per pound.

The newest boat of the American halibut fleet, the Juneau-built vessel Sylvia owned by Louis and Vincent Anderson, has just left the Alaskan capital on her initial trip of the season to the fishing grounds. The Sylvia is the ninth new vessel of the American fleet this season.

The funeral of the late Mrs. Emma Eliason, wife of Capt. Anton Eliason of the Seattle halibut schooner Seattle, is taking place at Seattle this afternoon. Mrs. Eliason died two weeks ago and her funeral was delayed until the return of Capt. Eliason to Seattle from the fishing grounds.

According to a statement just issued by the United States Bureau of Fisheries storage stocks of halibut on May 15 this year totalled 3,800,000 pounds as compared with 4,653,000 pounds at the same date last year. A smaller proportion of this year's halibut is going into storage this year, more of it being consumed fresh. This makes the market situation more encouraging although it is by no means strong as yet.

C.N.R. steamer Prince John, Capt. George Coles, is now on her way north from Vancouver via the Queen Charlotte Islands and, on her arrival here within the next few days, will go into the local dry dock for annual overhaul on completion of which she will go into commission in a general freighting service for the summer. The Prince Charles, Capt. James Watt, leaves Vancouver on Saturday evening of this week, inaugurating the summer service between Vancouver and Prince Rupert via Queen Charlotte Islands.

## PRINCE RUPERT HEARS HOW IT MAY BE GIVEN BUILDING ASSISTANCE

(Continued from Page One)

value of good houses. This was something that must be guarded against.

Under the Dominion Housing Act, Mr. Nicolls continued, provision was made for a system of monthly repayment which included principal, interest and taxes. He explained the factors in connection with the entry of lending institutions into a community and told of the process of getting loans. Of prime importance was the record capacity and reputation of the prospective borrower.

Briefly, the procedure of getting a loan was to choose a suitable site, have plans prepared by a capable architect or designer, select the builder, tabulate the entire cost, present the figures to the lending institution and make application for a loan. The borrowers' equity usually consisted of the property with cash or material on the ground. After being duly checked up, the application for a loan would be approved or otherwise. First the prospective borrower would have to put up his share and then the funds under the loan would come as work progressed. As the house was being erected regular inspections, usually four were made.

Since there were no lending institutions closer to Prince Rupert than Vancouver, it was evident that it would be impossible to make loans on one building. Indeed thirty-three loans would have to be going at one time to justify the cost of inspectorial and other services. It was possible, however, that, if there were fifteen loans, a lending institution might be interested. Mr. Nicolls doubted if any action could be obtained with less than fifteen applications. He pointed to the case of Nelson where the Sun Life Assurance Co. had been persuaded to come in and make loans. Appraisers had been appointed and other steps taken and the net result was one house. Naturally, the company was disgusted.

In certain Quebec communities local guarantees had been made against loss, said Mr. Nicolls. Something like that might be done here either by responsible organizations or the municipality. A local housing authority might be formed.

"Unless a reasonable number of prospective loans are available you might as well forget it," Mr. Nicolls quite candidly said.

### General Discussion

After his main address, Mr. Nicolls invited questions from the audience. In answer to L. W. Patmore, the city commissioner said that a zoning bylaw here was already in process of formulation. Mr. Nicolls emphasized the importance of keeping out the shack type of house and the regulation of certain types and sizes of houses in certain areas.

John Mitchell asked if it would not be possible to cut down the cost by appointing a local inspector. Mr. Nicolls said that the lending institutions had trained men especially for his purpose and, for a start at least, they would insist in using them. Later an acceptable local man might be used.

Earl Eby brought up the question of 25-foot lots which led to considerable discussion. Mr. Nicolls explained that it was necessary to have six feet between the house, wall and the lot line which left only thirteen feet on a twenty-five foot lot. Therefore, it could be quite readily seen that loans could not be secured for houses on 25-foot lots. The government certainly would not be a party to issuing loans for houses crowded on small lots. The city commissioner suggested that people with twenty-five foot lots might be able to make arrangements with the city for exchange for two lots.

Col. J. W. Nicholls inquired as to the possibility of an industrial corporation acting as the lending institution in financing its employees and getting the government's twenty percent. It was necessary Mr. Nicolls replied, for the corporation to have authority to make

loans under the supervision of the banking or insurance departments. It might be possible, however, to make arrangements with the lending institutions. Under restrictions speculative builders could not take advantage of the Act. Loans could be paid off in less than the specified twenty years' time. It should be remembered, however, that the Dominion Housing Act was not designed to help prospective builders who were in a position to erect homes under already existing financing facilities but was meant to encourage those who were not in such a position. Houses built with such loans could be transferred, if it became necessary, to other persons of equal credit risk. The fact that a building site was not on a sewer line and a septic tank would have to be used offered no difficulties. In some communities there were even private water systems.

Mr. Nicolls emphasized his desire to be advised at this time of all definite applications so that he might check up on them and have something definite to offer the lending institutions in regard to coming into Prince Rupert. He mentioned the possibility of further legislation being enacted that might aid in extending the benefits of the Act to such outlying communities as this.

Mr. MacCallum inquired as to the possibility of a civic centre being financed under the Dominion Housing Act. There had been no provision for this so far, Mr. Nicolls answered. Eventually, it might possibly be done under some community development scheme. It might also be accomplished as a self-liquidating public work.

### City Commissioner

In the course of brief remarks at the opening of the meeting, City Commissioner Alder mentioned how the city was short of modern homes. In the past there had been little outside money available to assist in home building. He mentioned the industrial possibilities of the city through development of natural resources and expressed hope that Mr. Nicolls might find it possible to recommend assistance by lending institutions for home building and modernization here.

A vote of thanks was tendered to Mr. Nicolls on motion of J. J. Little and City Commissioner Alder.

This afternoon between the hours of 2 and 4 Mr. Nicolls is in attendance at the city commissioner's office to meet prospective local borrowers under the act. Yesterday he spent much of the day in session with civic authorities and representatives of local building interests.
