#### SOCIAL CREDIT SPLIT

DAILY EDITION

There seems to have been a split in the ranks of Social Credit advocates in Great Britain. John Hargrave, leader of the party in that country, at a meeting of members in London, repudiated the political leadership of Major C. H. Douglas, especially in giving poor advice to Premier! Aberhart in the province of Alberta. The meeting was called to welcome George F. Powell back from Alberta but Mr. Powell did not get a hearing as the meeting broke up in confusion after hearing Mr. Hargrave and several' other speakers. Evidently, the Social Credit advocates still do not know what it is they want.

#### U.S. WORLD POLICY

Those who have been counting that in any European v trouble United States and Canada may preserve a strict C neutrality may be interested to know that this is not at all certain. A special despatch from the Monitor Washington ; Bureau intimates that the United States government is taking a much keener interest in European affairs than formerly. The correspondent asserts that the American government is exercising a much greater influence in Europe than formerly and even goes so far as to suggest that the failure of Germany to invade Czechoslovakia may have been because of the attitude of the United States. A German official is credited with the statement that it was! expected United States would be in any European war within three weeks of its outbreak.

Secretary Hull has been giving a number of hints that his country was displeased with the aggressive policies' of some of the European nations and it is suggested that he is prepared to take action should it be necessary.

#### LOANS FOR DEFENCE

Australia is borrowing a second twenty million dollars this year to be expended on defence. It is estimated that the Commonwealth and states governments during the next year will expend two hundred million dollars on defence projects. This indicates how they feel about the situation in that part of the British Empire. Part of the defence money is being taken from ordinary revenue, Australia being one of the countries of the world that can afford to do this at the present time.

#### PAGEANT SUGGESTED

Last year the natives of Kitimaat held a pageant showing the planting of Christianity in their midst and the consequent development up to the present time. It is suggested that the natives might undertake a historic pageant of the same kind at Prince Rupert next year. This could be shown either indoors at the exhibition building or outside in one of the parks, the proceeds going to the Indians. The object would not be to make money but to illustrate the progress that has been made during the past century. The plan looks as if it might have possibilities. Prince Rupert is suggested as the location for such a display because it would be a central meeting place for all the villages and because it would give present day residents of the city an opportunity to get a full realization of what has been done. It would be an education to the white residents.

Carr of McClymont played a good game in left field, making one or two spectacular catches of long Arrangements Made For Competiflies. Left field was well looked after on both sides with Arney of Westview also making some good catches.
