COMMISSION IS SNUBBED

Government of Alberta Not Rep-Chamber Presents Case

EDMONTON, March 29: (CP)opening session of the Rowell royal commission on interprovincial relations yesterday. There is possibility, however, that a case may be presented by the government as the question of doing so is to be brought up again in the Legislature today.

The Edmonton Chamber of Commerce, in making representations to the commission, urged the taking over by the Dominion of a number of functions now in control of the province.

The Edmonton Chamber of Commerce, in its brief to the commission, explained that it had included a number of matters of general provincial interest because of the understanding that the provincial government would not make any submissions. It submitted, among other things, how the British North America Act, as at present interpreted, was inadequate to the present needs of the people. It submitted that the allowance from the Dominion to meet the needs of the present was inadequate. It also submitted that the province had to buy in a protected market whereas products of the province were! almost without protection. This was a severe handicap.

Transportation also was a source of complaint. Alberta suffered in almost every case over other points on a ton mile basis. As an example of the manner in which Alberta! claims to be handicapped, it is pointed out that the freight on a carload of 400 boxes of butter shipped from Edmonton to Toronto amounts to \$764.82, exclusive or icing charges. On the same weight of Ontario condensed milk, another dairy product, shipped from Aylmer, Ontario, a slightly longer distance, Advances On All Fronts In Southto Edmonton the freight rate is

> The chamber pointed out the high cost of education and the loss of revenue resulting from encroachments of the Dominion on provincial fields of taxation. It submitted that banking, companies, fire insurance, railroads, manufacture of farm implements and department store selling were controlled outside the province, mostly in Quebec and

Coal And Petroleum Board To Be Appointed; To Take Action On Public Utilities As Well

3ensation

VICTORIA, March 29: (CP)-In a public address last night, Premier T. D. Pattullo announced that a one man board would be appointed to regulate coal and petroleum industries in the province of British Columbia. Dr. W. A. Carrothers was the intended commissioner. The board would have full control of coal and petroleum within the provincial boundaries from production to sale.

The Premier further announced the intention that a public utilities act would be introduced at the next session of the Legislature. Dr. Carrothers had agreed to serve as commissioner under that act also.

Mr. Pattullo disclosed that he would shortly be making another trip to Ottawa with a view to pressing a more expansive road program and obtaining increased federal aid for public works projects. He much hoped, he said, to be able to make progress in the east toward the construction of the proposed British Columbia-Alaska-Yukon highway.

The Premier further stated that renewed efforts would be made to have the Pacific Great Eastern Railway taken over by the Canadian National and Canadian Pacific Railways and operated on a joint basis. Railroad facilities, said Mr. Pattullo, should be extended to the Peace River where there was every indication of oil possibilities as great as in the Alberta fields. If the Pacific Great Eastern was extended from Prince George to the Peace River, both Prince Rupert and Vancouver would be served.

RAILWAY COMBINES

Editor, Daily News:

The third paragraph of a leading article in Edmonton Bulletin of March 17 reads thus:

"Edmonton had long and convincing experience of the 'blessings' Meet In Bowls more than a town and had no prospect of becoming more than a town until competing railway lines were built across the prairies. It became a city when and because its position changed from that of a jumping-off place at the end of a stub line to that of a divisional point on a transcontinental system and a radiating point for branch lines.

May we draw the attention of our Edmonton friends to the fact that this Northern Empire is now—and has been—in the position described by the above paragraph for twentyover to Sir Edward Beatty and ent, our fate was apparently-sealed Individual scoring was as fol-that Premier now has. so far as railway development was lows: concerned for time and eternity. As sure as the sun rises and sets there is no evidence forthcoming as the years pass into decades that would indicate that that combine was brought into being for the speedy development of this great Northland which is now tied up with a little jerkwater railway that can't put down a siding or set up a water tank without the consent of Sir Edward Beatty. As the years pass into history, it becomes more and more apparent that the only Tuesday, March 29, 1938 interest that his gigantic combine has in our Peace River empire is to have our stock and wheat trains turned over to them at Edmonton

J. G. Johns is Speaker at British-Israel Meeting

Taking as his subject "Mileposts left on last evening's train for a of Prophecy" by the late Dr. Pascoe Goard, J. G. Johns gave an interesting reading at the British-Israel meeting last evening in the Toc-H

this morning to be running on Many of the great prophesies in the Bible were prepared and launched two thousand years ago, said the speaker. God, who saw the end from the beginning, had prepared a plan of His administration. This marvellous prophetic scheme related itself to the people Dominion Constable A. J. Watof God in every age-past, present kinson returned to the city on the and future.

Abraham was the starting point of a "chosen generation," the establisher of a distinct faith, upon which would be based the Kingdom of God in the earth.

Many of the mileposts pointed out by the speaker had appeared since the fateful year of 1917 when Jerusalem was captured. Others would appear. All these mileposts warned that the old Imperial militaristic son, is paying a brief visit to the order was ending and that the Kingdom of God was coming into
