We have much sympathy for the Prime Minister who looks across the boundary and sees what has been appar- | Creek, that the trail on that creek ent failure of New Deal policies. He seemed to have set be generally improved, that the his heart on the great waterways scheme for Eastern Canada but that has not met with approval in the east. much less in the west where the people would pay without benefiting. He, doubtless, looks at the railway to Churchill and sees that, while the railway has benefited mining development, it has not vet proved valuable for grain ship ping. That was one of Mr. Dunning's schemes.

What the country sees today is that many people are idle and, having no Liberal leader, they are listening to subversive leaders who will destroy them as those who followed the pied piper were destroyed. That expression is from Mr. Hepburn. We are all looking to Mr. King for leadership. Will he give it? In Prince Rupert we hear a rumbling of discontent over our national policy. All faces are turned to Ottawa for action. As Mr. Henburn miles, that the survey for the exsays, Hitler and Mussolini gave a lead in Europe We do not like their method of leadership but, if the Canadian people cannot get Liberal leadership, they may turn elsewhere. No party can succeed which is not proud of the leader. Laurier was almost a god in many parts of Canada. He did not have to be prodded into action. Macdonald was a great man prior to Laurier's day. We all they have sacked some five tons of want to be proud of Mackenzie King but he seems to be ore so far and are steadily extractlagging in leadership. Is he really laying his plans and ing more. awaiting the proper moment to move?

PARLIAMENT OPENS EARLY

Parliament opens early next year in order to allow it to get through its work in time for the Prime Minister and others to meet the King and Queen when they visit Conade in May. It will be a great event and one for which great preparation will be made. In order to make it possible to adjourn Parliament on time it will be necessary for some of the members to curtail their speeches. This will be no loss to the country.

UTILIZE MIND POWER

Editor, Daily News: Many thanks for your editorials Thursday and Monday last regarding health consciousness versus disease conscionsness. We need the warning for the danger is real. Most of us admit the desirability of could be conducted without getting people, especially children, all fussed up and excited over it.

Just at present the possibility of an epidemic is one of the most popular topics of conversation among school children. It was the case also early in the year. There is no doubt that many young minds are dwelling too much on the prospect of rashes and other symptoms. Since the power of the subconscious mind is so generally admitted these days, it does seem rather foolish to ignore it in this way and let fear and panic prepare the ground for the very thing we want to stamp

That is why I feel your warning s so timely just now. The very efforts bing put forth to combat the trouble are likely to cause its development in some cases.

We could not help much to save threatened dyke if we piled up andbags with one hand and bored hole through the dyke with the other. Yet suggestion will let in the enemy just as surely as the hole would let in the water. Some of we folk have seen this happen too often to doubt it. We don't for moment want to slacken in the war against disease but fear and panic and morbid thought are traitors who will betray, not aid, our cause,

symptons of disease.

If only we could find a way to guests. convince all that health is really more thrilling than spots and rash- popogooog es! What about a yearly certificate to every child who has passed the term without an infections com-15 plaint? That would do for a start. The rules could be made more exlusive as time went on. Why not nake health a commendable con-! a dition and admit that there is 2 credit due to those who preserve

And while doing all in our power! o support the visible means of protection, it surely only can aid the cause to admit the power of thought and the desirability of thought control. Thoughts are things and, although these elusive dynamics are not easily controlled, can be done by effort and practice and their power used for the contemplation and ultimate production of health and strength and

You'll know it's a better cigarette tobacco the moment you see its richer colour. And when you feel those long, silky threads of Virginia leaf, when you drink in the full, satisfying fragrance, you'll realize that Old Virginia Fine Cut is truly a grand cigarette tobacco.

It's extra fine cut for smooth, even rolling. Old Virginia Fine Cut lies snug and even in the paper. It rolls up smooth and clean and lights up to give you a taste and a flavour you'll revel in.

AND IT COMES IN A HANDY POCKET POUCH!

A sensible, seal-tight pouch that keeps this new Fine Cut sweet, fresh and flavourful to the very last. A pouch that opens easily and folds up neatly. Every pouch bears the signature "D. Ritchie & Co."-the mark of the genuine Old Virginia quality so well known to smokers.

TO STATION

Tyle A. Swain Named Scientific Assistant-Sunderland Promoted

Dr. Neal M. Carter, Director of the Prince Rupert Fisheries Experimental Station, of the appointment of Lyle A. Swain to the position of scientific assistant in chemistry on the staff of the sta-

Mr. Swain is a native son of this province. He graduated from the University of British Columbia in 1931 and received the postgraduate degree of Master of Arts two years later from the University. Several years' teaching in high schools at Ladysmith and Vancouver has been followed by postgraduate work at the University of Washington and that university's oceanographic laboratories situated at Friday Harbour, San Juan Island, Washington. This work is expected to lead to the doctorate in 1939.

Although specializing in chemistry. Mr. Swain has studied in various fields including oceanography and the biochemistry and physiology of marine life. In beng appointed to a vacancy on the staff caused by the resignation of Dr. Riddell a few months ago, his work at the station will be chiefly along chemical lines bearing on EIM CREEK, Man., Dec. 1-(CP) the numerous investigations con--A radish 16 inches long, 16 in stantly arising in connection with in girth and weighing five existing and possible marine pro-

Robinson, gardener of this district. Mr. Swain will be arriving in The huge specimen, believed to be the city shortly after the new year companied by his bride.

Sunderland Promoted

P. A. Sunderland of the Fisheries Experimental Station has been promoted to the permanent scientific staff with the grade of scientific assistant in the investigation of fish specialty products.

This promotion, confirmation of which has just been received from Ottawa, is retroactive to October 1 of this year and is largely in recognition of the excellent progress made by Mr. Sunderland in the study of various smoked, pickled, ispiced, frozen and canned products and their processing. Part of this work has been done in col- 2 If the public knew all that science aboration with O. C. Young, associate research engineer, and Dr. H. L. A.
