THE GAME OF POLITICS

Leslie Roberts, writing in "Canadian Business" this month, gives it as his opinion that Hon. Maurice Duplessis, Premier of Quebec, is playing a game of politics when he refuses to be a party toany changes in the constitution of Canada. He has a following made up of men of many shades of political opinion and it is rifficult to get cohesion from this mixture. Some of the French nationalities are already becoming impatient at the lack of action on the part of the Premier. The suggestion that all the rest of Canada is against Quebec gives him a new battle cry that may keep his following from disintegrating. It is suggested by the writer that, unless Prime Minister Mackenzie King and Premier Duplessis can get together, there will be no unemployment insurance law passed this year.

PROSPERITY MUST BE WON

Discussing the economic set-up in view of the present world conditions, Dr. H. G. Moulton, president of the Brookings Institution, says there are no short cuts to City 0. prosperity. During times such as those through which we have passed, the tendency is to believe that revolutionary changes may usher in a new era of prosperity for all. 1. History indicates that this cannot be the case. Only co--operative effort of capital, labor, business management and technical invention and discovery can lift a people back to social well being. He suggests that all work together to reach that common goal.

PROGRESS AS WE SERVE

Prince Rupert can make progress only as the whole district which it serves makes progress. We can serve the various parts of the district and they can help to make us prosperous. It would be an immoral condition if we in the city were prosperous and the surounding towns and villages not sharing in it. Because of this Prince Rupert people should always have in mind that when they help Smithers, Terrace, Hazelton, Stewart, Alice Arm, Queen Charlotte Islands, Porcher Island, Port Simpson, Port Essington, Telkwa, Burns Lake, Endako, Vanderhoof, they also help Prince Rupert. The whole of northern and Central British Columbia has much in common.

NEEDS OF THE CITY

Prince Rupert has a great many needs. The city needs a civic centre with swimming pool and gymnasium. We need a complete new hospital. We need a new sewer on Third Avenue and a number of sewers in the residential districts. We need a new school building or shall need it very soon. We need to finish up some of the half finished roads which were started several years ago and are an evesore to the community. We need a number of improved sidewalks. We need a new fireproof museum building. We need money to do all these things but where shall we get it? This year the taxes have been reduced by the reduction in assessments. And yet the city cannot stand any more taxes and cannot borrow. These are matters for the serious consideration of the whole city. It is evident that there is a period of careful financing ahead, during which we shall have to avoid all luxuries and confine ourselves to actual necessities. Each year a few more lots revert to the city because of unpaid taxes and this reduces the civic revenue. We do not like the role of Jeremiah but we have to carefully consider what things are most badly needed.

We heard of each removed from its official list a re-1938 fishing season on April 1. Lake other through a mutual friend feree who approached a profes fish production has been light this and got in touch through the sional of a club in whose match h year, frozen halibut sales have been medium of telephone and letters was officiating to get him a trial heavier during the past winter than as it seemed impossible for us to with another team. in the previous year and, with Lent ending on April 17 this year, too early for new halibut to be on the important markets, the market may be in better shape by the time the movement of the fresh fish from this coast resumes. As said before, however, there is no reason to anticipate that this year's halibut prices will be any better than in 1937. The Old Country market for frozen halibut is said to be none too encouraging this year owing to overbuying last year.

Self-Sealing Envelopes Union steamer Venture, Capt John Boden, arrived in port at 7 c'clock last evening from the south, sailing two hours later on her return to Vancouver and waypoints

The Armour Salvage Co.'s power tugs Daly and Pachena are busy just now hauling in gravel to be used in connection with the construction of the new federal building here. The clamshell is working at Porcher Island and a delivery of 150 yards is expected in tonight. The gravel will probably be taken direct from the scows to the building site without going through the

Herring Quota Reached

The quota limit of 15,000 tons for the season having been reached, herring seining was discontinued in Prince Rupert Harbor on Thursday. The seineboats Western Manarch and W. No. 9 then moved out of the harbor to prospect for fish elsewhere. Surface signs of herring have been reported around nearby Barrett and Holland Rocks and |Kinahan Islands. The Tucks Inlet | and Port Edward reduction plants! are still in the market for herring with which to continue manufacture of fish meal. Both the Canadian Fish & Cold Storage Co. and the Northern Fishermen's Cold Storage had put up their bait requirements last fall.

C.P.R. steamer Princess Norah, Capt. William Palmer, is due in port at 9 o'clock tomorrow morning from Vancouver and will sail at 10 a.m. for Skagway and other Alaska points.
