HIS MAJESTY WILL PROBABABLY COME TO RUPERT

KAIEN ISLAND'S CHARMS ARE AN ASSET OF OUR CITY

WM. MANSON, M. P., HAS PROMISED TO USE HIS INFLUENCE AT VICTORIA TO GET ROADS MADE AROUND THE ISLAND AND UP TO MOUNT OLDFIELD.

With characteristic non-comittal precautions Mr. Manson, M.P., for the riding has replied to the committee of the Progressive Conservative Association of Prince Rupert in regard to their request that he bring his influence to bear towards securing certain improvements to Kaien Island, in its relation to Prince Rupert as a natural pleasure ground for the community. Mr. Manson according to a report presented at the Progressive meeting last night by Mr. A. J. Audhomme, "regards favorably" the scheme for having a road made right around Kaien Island, and a good trail out to the summit of Mt. Oldfield, behind the peninsula.

Mr. Manson has promised that his influence shall be used towards the securing of these advantages for Prince Rupert.

Regarding the sale of the government owned lots in Prince Rupert, Mr. Manson's view is also favorable. He will on behalf of the Progressive Conservatives, as well as on behalf of the City Council, represent the position of the community in this regard to the powers that be at Victoria. Beyond that there is no more to be said. The report was received with satisfaction last night.

READY MADE FARMS FOR B. C.

English Settlers Will Be Assisted Similar to Alberta Plan.

(Special to Daily News.)

Victoria, Jan. 18.—Mr. D. G. Dennis of the C. P. R. land department has announced the intention of his company to prepare ready-made farms in British Columbia, similar to the Alberta plan. This year a number will be prepared for English settlers in the Columbia River valley, near South Golden. A half million dollars have been set aside for this purpose to be used this year.

Nearly Finished.

Rapid progress has been made with the erection of the Registry office destroyed by fire. The new temporary building is almost ready for occupancy.

FRANK MOBLEY PRAISES WOMEN OF THE NORTH

WITH HIS WIFE'S SPLENDID RECORD AS COMRADE OF THE TRAIL BESIDE HIM, HE PAYS HIGH TRIBUTE TO THE FAIR SEX AS PIONEERS.

Throughout his lecture last night Mr. Frank Mobley made reference of the highest possible compliment to Mrs. Mobley as companion of his adventures, as a shot and pioneer of splendid endurance kept cropping up. Mrs. Mobley was not present, but many at night felt that they would have liked much to see and identify her beside her husband in the light of the magnificent accounts he gave so unassumingly of her character as his comrade of the wild.

"The women of the north," said Mr. Mobley, summing up at the end of his lecture, "by their straightforward fearlessness, uncomplaining endurance, strength of character, tenderness, goodness and helpfulness have earned the very highest respect of the men whom they accompanied into these outlying parts." His stories of Mrs. Mobley well bore out his statement.

B. C.'S PROVINCIAL LAND POLICY

Prince Rupert Progressive Conservatives Criticise the Present Government Administration

UNITED STEP TO BETTER SYSTEM

Conditions Retarding Queen Charlotte Islands and Other Districts Mentioned by Various Speakers—Progressives' Executive to Outline Proposed New Policy

Comment and criticism of the Provincial Government's land policy proved the principal matter for consideration by the Prince Rupert Progressive Conservative Association last night. An address by C. M. Wilson, representing the Progressive Conservative Association of Massett, furnished food for discussion regarding the application of the present Government's land policy on the Queen Charlotte Islands. "Over there," said Mr. Wilson, "sums are drawn from land by the Government to the extent of \$200,000, and \$280,000 paid into the treasury for land, \$160,000 for timber limits and \$150,000 for coal claims. In return for these sums only \$35,000 has been expended on the Islands for development by the Government."

Criticism of Mr. Manson's representation to the Islands as Member for the district was made strongly. In fact, there had even been talk of a hostile demonstration against Mr. Manson on his last visit. During his representation of them the Island community had received nothing at all in return for their support at the polls, which had gone entirely to him at last election. Unless there was a change things would look different next election. Many of the settlers on the Queen Charlotte group had had experience of Australian land administration, and contrasted it strongly with the British Columbia system, adversely for British Columbia. Mr. Wilson favored a provision of the land policy which will give the settlers a chance to come in and make good. He instanced cases of at least twenty-five settlers who had come to the Islands, spent upward of \$1,000 each on land claims and left in disgust because they found it impossible to secure records.

Strong support was accorded the views of Mr. Wilson by other speakers, including the chairman of the meeting, H. H. Clark; Dr. Clayton, F. M. Lannic, F. Shaw and others. It was pointed out that the land policy was, after all, the principal point of divergence between the Liberal and the Conservative parties in B. C. and the Dominion. If the Progressive Conservative Association could bring about a spirit of union between the parties toward securing a better land administration it would be for their common good, and the good of the province. Mutual co-operation for the enactment of progressive legislation on the land issues was the keynote of the meeting. The executive of the Progressives will get busy on the drafting of an outline land policy such as in the view of the majority will be much more desirable than the present one.

KING GEORGE COMING TO PRINCE RUPERT

Probably in the Year 1914 When the National Transcontinental Railway Will be Complete and Ready for Opening—May Travel Direct by Rail

Ottawa, Jan. 18.—There is reason to believe that His Majesty the King may visit Canada in the summer of 1914 to formally open for traffic the National Transcontinental Railway between Halifax and Prince Rupert.

Officials of the Grand Trunk Pacific declare there is no foundation for the rumor that the G. T. P. may repudiate its contract with the Government respecting the lease of the road between Moncton and Winnipeg. They say, on the contrary, that the Grand Trunk Pacific will be ready to operate the entire transcontinental line as soon as completed, and the opening ceremonies are already being planned upon a scale of unusual magnificence.

It is well known that His Majesty intends to visit the Dominion in the near future, and it is hoped that his visit may be so timed as to enable him to cross the continent upon the first through train from Halifax to Prince Rupert.

Some 1,300 miles of the eastern section of the N. T. R. is already completed, the Grand Trunk Pacific is operating that part of the line between Winnipeg and Superior Junction, thus enabling trains to be run between Fort William and Winnipeg. A number of the contractors are also giving a train service on other parts of the line between Quebec and Superior Junction.

It may be possible that the G. T. P. will build a cutoff across the state of Maine, which will reduce its mileage between Levis and Moncton for passenger and fast freight trains by from 75 to 100 miles. The royal train, of course, will follow the all-Canadian route.

Ready by July of 1914.

The western section of the road, which is being built by the G. T. P. Railway, is completed to a considerable distance west from Edmonton and east from Prince Rupert. The gap still to be bridged is mainly mountain work and necessarily tedious, but there is every reason to believe that the line between Winnipeg and Prince Rupert will be completed by July 1, 1914.

The remainder of the road from Winnipeg to Moncton will be finished, with the exception of the Quebec bridge, before this time, and a car ferry service between Levis and Quebec will permit the running of trains from ocean to ocean, the I. C. R. being used from Halifax to Moncton.

WHEN FRANK MOBLEY WAS WRECKED OFF WRANGELL

THRILLING STORY OF A DESPERATE EXPERIENCE BY SEA IS INCLUDED IN MR. MOBLEY'S LECTURE, "MUSHING IT," GIVEN IN PRESBYTERIAN HALL LAST NIGHT.

To stand up quietly before his large audience and in the simple manner of everyday speech tell them how his life had been in peril such as few even in the Great West have survived was the role assumed by Frank Mobley in the Presbyterian Church Hall last night. Mr. Mobley's address, "Mushing It," attracted crowds. In it he touched on his experiences in the gold rush to the Klondike, and of great hunting experiences thereafter in the Atlin district.

Mr. Mobley's hunting experiences are mostly wrapped up with his stories of Mrs. Mobley, but one terrible adventure in a boat built by himself Mrs. Mobley did not share. Had she done so her chances of being alive today were few. With a companion Mr. Mobley set out from Wrangell in his new boat, which at first behaved well, but later began to meet bad weather and the heavy seas stove in her side, flung her on her beam ends and rendered her sails and gear useless so that she was driven steadily out onto the broad Pacific.

For long they drifted and, frozen to the marrow, Mr. Mobley's companion beseeched him many times to let go that they might end it together. "But," said Mr. Mobley, "somehow I couldn't see it." He encouraged his comrade to cling on still, and at last by a sheer miracle the boat brought up against the only rock between it and Japan. "I thought that the nicest rock I had ever seen," remarked Mr. Mobley. Gaining it with difficulty the pair remained there in the cold for a couple of days. Not a bite had they to eat but a rotten crab which Mr. Mobley found. "I looked at that crab many a time," he said with a queer expression, "but nothing doing!" Meanwhile his comrade got pretty sick, almost all in, in fact. He could do nothing but lie still and groan.

Disappointed by the passing of a steamer without sign of help for them, the men had all but given it up when Mr. Mobley saw a sail. It approached to within half a mile. He yelled all he could and waved frantically. It passed, sailing on a mile distant. Bitterly disappointed, still Frank Mobley shouted and waved despairingly. By good chance the steersman of the craft, who had never noticed the figure on the rock before, looked back and, turning, landed at the rock.

"What do you want?" the boatman asked Mr. Mobley.

"If there is anything in the world that I don't want," was the characteristic reply, "I wish you'd tell me about it."

The incident ended with the successful rescue of both Mr. Mobley and his companion, who were taken back to Wrangell, but it was weeks before Mr. Mobley's companion recovered from the effects of his exposure.

PURITAN SUPPER PLEASES PRINCE RUPERT PEOPLE

NOVEL ENTERTAINMENT GIVEN BY LADIES OF THE BAPTIST CHURCH IN M'INTYRE HALL LAST NIGHT DELIGHTED HUNDREDS OF WELL-KNOWN CITIZENS.

In McIntyre Hall last night one of the most novel and successful entertainments ever organized under church auspices in Prince Rupert took place. The occasion was the holding of an old-time Puritan supper by the ladies of the Baptist Church. On long tables lighted with hundreds of wax candles the supper was spread. Beside the board, on each side, there sat rows of well-known people of Prince Rupert, and the candle glow gave the McIntyre Hall quite an unwonted appearance. Flitting to and fro around the tables, daintily attired and becoming, modest Puritan maids waited on the guests. Each Puritan maid was a veritable Priscilla and the whole scene revived charmingly the mind picture of scenes in the old colony days in Plymouth, the land of the pilgrim.

That the fare provided—the beans, the bacon, the beets, the brown and white bread, the Johnny cake, the cookies, the pickles,

GOLD RUSH THROUGH HENS

Nuggets Found in Crops of Killed Poultry at Minitonas, Manitoba, Ering Scores of Claim Stakers to Scene.

(Special to Daily News.)
Minitonas, Man., Jan. 17.—As a result of finding nuggets of gold in the crops of numerous fowls killed upon the Elliot farm, four miles from here, stores and shops have been closed down while their keepers hastened to the place to stake out claims. More than fifty of these have been marked out, and scores of others are hastening to the place.

Public Meeting.
Will be held in the Presbyterian Church Hall on Fourth avenue on Friday night next at 8 o'clock, under the auspices of the Property Owners' Association of Sections 5, 6, 7 and 8. The subjects for discussion will be: (1) The site of the proposed isolation hospital; (2) The attitude of our city press on civic affairs for the coming year; (3) The proposed Hays Creek sewer. Several speakers will address the meeting, followed by public discussion of each subject.

A HUNTER'S PECULIAR DEATH

Shot Through Hollow Log at Rabbit and Killed Himself.

Shooting through a hollow log, John W. Cook of Lawrenceburg, Ind., got a rabbit but lost his own life. Cook's dog started a rabbit in the underbrush, and it ran into a hollow log. Cook set his rifle muzzle in one end of the log, attached a string to the trigger, stooped over the other end and pulled the string. He received the bullet in his breast, but as the rabbit ran from its refuge he caught it with his hands and staggered, bleeding, two miles to his home. In his kitchen Cook fell dead.

THRICE WIDOWED, IS NOW ACCUSED

MRS. JOHN M. QUINN BY THE DEATH OF HER THIRD HUSBAND, "SHOT BY A BURGLAR," IS IN A SERIOUS POSITION.

"The female of the species is more deadly than the male" is Rudyard Kipling's latest expressed philosophy. The great writer goes on to instance proofs of his contention from the animal kingdom, which he applies to humanity.

Women the world over are vigorously "denying the allegation and detesting the alligator," as the humorist remarked. But evidently the courts of justice in the States have suspicions that Kipling may have at least grounds for his philosophy in certain aroused suspicion: She married John McDonald at London, Ont., October 23, 1883. McDonald died September 23, 1901, at Jackson, Mich., of alcoholism.

She married Warren Thorpe October 28, 1901, at Jackson, Mich. Thorpe was killed by "a burglar" at his home June 13, 1903.

She married John M. Quinn at Kalamazoo, Mich., not long after Thorpe's death. Quinn was shot dead by "a burglar" at Chicago November 2, 1911.

dead and she accused a burglar. Charles E. Thorpe, her stepson, testified that she was alone with Thorpe when he was killed, a few hours before he was to have transferred his property to his son. Her third husband was shot in his Chicago home November 2. A revolver was found later hidden in her bathroom. Two of her husbands were insured in her favor.

Here are the facts of Mrs. Quinn's history which have

has ever been known to mankind all over the world not only as the "fair sex," but also as the "softer sex," it may be recalled that even if Mrs. Quinn were proved really guilty of getting rid of her husbands in cold blood there are numerous notable cases from that of King Henry VIII downward in which husbands have gotten rid of their wives still more callously, while women too often are able to quote with the intensity of experience the lines of Kingsley's which Alderman Bullock-Webster has tellingly recited:

"That husbands could be cruel," said Lorraine, Lorraine Lorree.

"That husbands could be cruel I've known for seasons three."

A pretty and fashionable way to wear the hair is to part it in the middle and draw it loosely over the ears, gathering it into a simple knot at the back.

BOWSER AND MR. M'BRIDE

Both Are Most Anxious That License and Police Commission Appointments for Rupert Be Made with Worthy Object Only.

Letters from Premier McBride and Attorney General Bowser were read at the Progressive Conservative meeting last night to the effect that it is most desirable that police and license commission appointments be made toward the end of the preservation in the highest degree of law and order in Prince Rupert. The Progressives received the letters with interest and appreciation. Some names were suggested for nomination and recommendation as commissioners but these are not divulged for the general public by the executive.

THREE DAY CURE FOR DRINK HABIT

Appeals to the Business and Professional Man, the Banker, and Man in all the Higher Walks of Life

BECAUSE OF THE TIME IT SAVES THEM

When a man's time is worth a great deal more to him than the cost of a drink habit cure he is not going to drag along for twenty-eight to forty-two days taking a treatment when he can get a cure in three days, without hypodermic injections, and be surrounded with every comfort of home.

A PERFECT CURE.
 The Neal internal treatment cures the periodical, occasional or moderate drinker and the nervous man who has to drink to keep from becoming nervous. It takes away all inclination to drink, all desire and craving to drink, by neutralizing the poison of alcohol in the system and ridding the blood

of the poison by a rapid system of elimination, leaving the drinker in the condition that he was before tasting liquor, so far as the effect of alcohol may be concerned—all appetite for drink gone—and he a new man.

The treatment consists of the internal administration of a harmless remedy, tonic in its action, that removes the craving for liquor in a very few hours.

DRUG HABIT CURED.
 At the Vancouver institute we also treat drug addictions with uniform success. Call, write or phone for booklet, giving full information.

FRANK MOBLEY PRAISES WOMEN

(Continued from Page 1.)

to where they had parted. There, to his joy, he found Mrs. Mobley and the boy. They had been forced to spend the night in the drenching rain high above timber line, but Mrs. Mobley was too good a bush girl to take a chance on making camp through such awful weather and in such darkness. For her own safety and that of her boy she chose to face the weather on the bare mountain. "We went home then," added Mr. Mobley naively. "We had had enough sheep for that trip."

An amusing aspect of Mrs. Mobley's presence with her husband on the rough trail to Atlin was mentioned by Mr. Mobley. "It was an awful trail," he said. "There were men there with all kinds of dog sleds, hand sleds, every kind of sleds, all trying to haul them on a narrow trail with three feet of snow slush on each side. The sleds kept falling into the slush off the trail and the men in getting them out used language. It was the worst language I ever heard in all my life. But they were mostly well-bred fellows, and half their time was taken up in using the appalling verbiage while the other half was used in making profuse apologies to Mrs. Mobley for doing so."

SIXTH STREET BOMBARDED

(Continued from Page 1.)

Miss McDonald and Miss McPhail, the three young lady stenographers in Messrs. Williams & Manson's office in the Helgerson block, were at their places close to the Sixth street windows when the shot rang out. Instantly they were showered with smashed glass, like brides with confetti, but by a sheer miracle they escaped unhurt.

Windows of the Christiansen & Brandt block and all the stores in the theatre block are shattered. The Royal Bank is badly wrecked and the Helgerson block got its share liberally. Curiously enough

the big "See Helgerson First" mirror has escaped. It is a valuable bit of bevelled glass, heavily insured. The blast which did the mischief was fired on city grading work in the lane between Second and Third avenues, just behind the Prince Rupert Club. Five hundred sticks of dynamite were in the shot.
 Another miraculous escape was that of Frank Reynolds, who was seated at his desk in J. H. Kugler's office. The skylight over his head was shattered and he was covered with broken glass; but only a little scratched.

NOTICE TO MARINERS
 Change in Position of Lighthouse on Ballenas Islands, Strait of Georgia.

Ballenas Islands lighthouse, Strait of Georgia, is being moved from the southerly Ballenas island to the northerly Ballenas island; and the light will be shown from the lighthouse in its new position on or after January 1st, 1912, when the maintenance of a light on the southerly island will be discontinued.

The lighthouse will stand on the summit of the north Ballenas island, 1,240 feet S. 42 E. from the north point of the same island, and 5,126 feet N. 50 W. from the old site of the lighthouse on the south island.
 Latitude, N. 49 degrees 21 minutes 12 seconds. Longitude W. 124 degrees 10 minutes 11 seconds.

The lighthouse tower is an enclosed wooden building, square in plan, with sloping sides, painted white, surmounted by a square wooden lantern, painted red. The height of the tower from its base

to the top of the ventilator on the lantern is 33 feet.

The fixed white light will be elevated 280 feet above high water mark, and should be visible 14 miles from all points of approach. The illuminating apparatus is temporarily dioptric of the seventh order.

The Geographic Board of Canada has decided to adopt the name "Koya Point" for the first prominent point on Moresby Island to the eastward of Langford Point, on the north side of the eastern entrance to Houston Stewart Channel.
