## URGES PRINCE RUPERT TO EXERT ITSELF WITH VIEW TO DEVELOPING RESOURCES

This District Has the Goods in Potential Natural Wealth—Is Up To People to See That World Is Informed of Opportunities Hereabouts

Cognizant themselves of the great undeveloped wealth of natural resources which surround Prince Rupert and upon the development of which the future of the city is dependent, it is up to Prince Rupert people to let the world know of these resources so that they may receive their just and due recognition and the financial assistance required for their development. In the job of creating a informed public the Junior Chamber of Commerce can perform a valuable function. So declared Dr. Joseph T. Mandy, resident mining engineer for the northwestern mineral survey district, who was the guest speaker last evening at the regular dinner meeting of the Junior Section of the Prince Rupert Chamber of Commerce.

Dr. Mandy spoke more particularly of the mining potentialities of the Prince Rupert district. Tributary to this city, he said, was an area of 144,000 square miles, one-third of the province of British Columbia. Only 52,000 square miles of this had been superficially scratched. In spite of that, it had produced \$164,000,000 in mineral wealth over a period of twenty-two years. Ninety thousand square miles was known to be favorable to the occurrence of mineral deposits.

"Who knows how many more Premiers, Anyox's Surf Inlets, Alice Arms, Surf Points, Tulsequahs may exist in that great area as part of Prince Rupert's heritage?" suggested Dr. Mandy.

At the outset, Dr. Mandy referred to the importance of his listeners familiarizing themselves with the natural resources of their district, one of the most important of which was mining. On the development of these resources the future of this city depended. Control of appreciable mineral resources was essential to the full development of any country. Northern British Columbia possessed these resources.

**Importance of Mining**

Had it not been for the development of mineral resources, declared the speaker, the British Columbia coast might still be a wilderness and, possibly, there might have been no Vancouver, Victoria, Prince Rupert, Alice Arm, Stewart or Atlin. Dr. Mandy then proceeded to trace the history of British Columbia with particular reference to the mining industry. He referred to the California gold rush of 1849. The Forty-Niners, like all prospectors, always had their ears to the ground for news of new mineral fields. In Victoria (then the small trading post of Fort Camosun) had learned of gold on the Queen Charlotte Islands through the arrival there of an Indian whose fur-laden boat had an anchor stone containing gold. This led to the outfitting of an expedition by the Hudson Bay Co. and the first Gold Rush in British Columbia. Sir James Douglas had established a crown colony on the Queen Charlotte Islands. The first prospectors came into the wilderness of New Caledonia. Prospectors, among them 49'rs, returning south from the Queen Charlotte Islands, had discovered gold on the bars of the Fraser River in 1857. A stampede materialized and, within three months, Victoria had a population of 23,000 people. Millions of dollars of gold was taken from the Fraser River and there was expansion into the Cariboo and as far as the Omineca. Mining had played an important part in events leading up to the entering of Confederation by British Columbia. This was the dawn of the industrial

## SURVEYORS ARE SAFE

Party Located in Northern Quebec Wilderness and Brought Out By Aircraft

MOOSONEE, Quebec, Jan. 5: (CP)—Fifteen members of a provincial government survey party who had been reported lost in northern Quebec near the Ontario boundary, have been brought out by Canadian Airways planes which located them at the end of the week. Members of the party headed by R. H. House of Three Rivers, were in a condition of near starvation, having eked out an existence for several days on such food as the snowbound wilderness would yield after they had missed a food cache. For thirty-nine days they had virtually no food.

Seven members of the party reached here by air on Saturday and Sunday, the last eight being brought out Monday.

## HIGHWAY TIED UP

Will Be Several Days Before Traffic Can Be Resumed Beyond Yale On Account of Snow

VANCOUVER, Jan. 5: (CP)—Although it has been cleared as far as Yale, the Cariboo Highway is not expected to be open for traffic for several days yet. It took twenty four hours to clear fifteen miles of the road and even worse snow conditions were reported ahead.

## Paddy Coughlan Is Laid At Rest

Funeral Took Place This Morning From Catholic Church to Fairview Cemetery

Solemn requiem mass for the late Paddy Coughlan, whose death occurred on New Year's morning in the Prince Rupert General Hospital was celebrated at the Church of the Annunciation this morning by Father James Gordon after which interment was made in the Roman Catholic section of Fairview Cemetery with Father Garly conducting the committal rites. A number of friends of deceased were in attendance. The choir took part in the Mass with Charles P. Balagno presiding at the organ. Pallbearers were R. A. McLeod, E. P. Smith, Spiro Gurvich, Arthur Bayne, Harry Astori and Peter Laporte.

The late Mr. Coughlan was a native of Ireland and was seventy-two years of age. He was watchman at the provincial public works warehouse and had been a resident of Prince Rupert for about fifteen years.

## Weather Forecast

#### BRITAIN INDUSTRIALLY

Those who imagine that Great Britain is losing in the industrial world are being misled by propaganda coming from other countries. During the year ending September 30 there was an increase of ten per cent in motor construction in that country and considerable of this was manufactured for export. Both exports and imports increased. Coal sales were up and the number of unemployed has decreased considerably, both in the coal regions and in the heavy industries. The only weak spot has been in the cotton and woolen industries in which there was a slight recession.

Great preparations are being made for the Empire Exhibition at Glasgow. The Palace of Engineering has been erected of steel on a block which has an area of two and a quarter acres. The work was done by fifty men in three months.

While, doubtless, part of the prosperity has been due to the speeding up of defense schemes, overseas orders for forty-two new locomotives are being filled for delivery to South Africa. Sixty new trolley buses go to the same part of the world. Italy has been buying a large hydro-generation plant and, during the year, a million dollars worth of cotton goods has been shipped to Iran.

One of the newer developments has been the construction of a glass train which is now making a tour of Britain showing the uses to which glass may be put. The train itself was manufactured almost wholly from glass.

A new pulp mill is planned for Cumberland costing approximately six million dollars and which it is thought will employ eight hundred men.

A new calcium carbide plant is to be erected at Port Talbot to cost five million dollars. Unused fabric mills are to be reopened in the north for the manufacture of rayon and a new rayon factory is nearing completion in Lancashire which it is expected will employ from five to six thousand operatives.

Taken all in all, the present outlook in that country is a healthy one with increased business and increased employment being recorded everywhere, especially in the north and in Wales.

#### MONEY MORE PLENTIFUL

Considering the time of year, money seems rather more plentiful this year than at any time since 1930. According to general reports there is a greater readiness to pay accounts and one large account paid up often means the liquidation of a dozen or more other accounts. The moment somebody pays it enables somebody else to pay and the chain is almost endless. The erection of the post office will bring some new money into town that will help in the general liquidation.

## AIDED ARMY LADIES' FUND MUCH BOWLING

Sum of \$298.35 Realized From Radio Auction—Business at Meeting of Junior Chamber

The recent radio auction conducted by the Junior Chamber of Commerce for the benefit of the Salvation Army Christmas relief fund realized the gratifying sum of \$298.35, it was reported at the regular monthly meeting of the Junior Chamber last night by George Rorle chairman of the committee in charge of the undertaking. Appreciation was expressed to the committee and all within and without the Chamber who had assisted in the project.

Another Christmas activity of the Junior Chamber had been the decorating of lamp standards and the community Christmas Tree on Third Avenue. The committee headed by Lawrence Pierce having this work in hand was congratulated and appreciation was expressed to merchants whose donations had made possible the illumination of the tree.

The Junior Chamber had contemplated having a dance in January or February but, after some discussion, it was decided to defer the affair until immediately after Easter.

A. W. Newman reported on recent activity of the Peace River outlet committee.

The University of British Columbia extension lecture committee, of which G. P. Lyons is chairman, reported that Dr. Harry Warren would be here January 19 and 20 to give lectures on "Can I Make Money With Mining Stocks?" and "An Engineer Looks at Modern Education."

A special committee named to answer a questionnaire from the Rowell Royal Commission on inter-governmental relations is preparing to send in its answer.

#### Mail Service

The President, J. C. Gilker, who was in the chair, brought up the matter of postal service here, more particularly in regard to possibility of a more satisfactory street pick-up and box distribution at night. Jack Bulger was delegated to interview the Postmaster.

The President also offered the suggestion that all goods made in Canada should be labelled "Made in Canada" whether for export or otherwise. In Great Britain this had proven most efficacious advertising. The suggestion was referred to committee with a view to presenting it to the Junior Chamber of Commerce of Canada.

In view of other activities of members conflicting with the first Tuesday of the month, it was decided that, for the next two or three months, regular monthly meetings of the Chamber should be held on the second Thursdays of the month. The monthly executive meeting will take place on the first Thursday.

Members of the Junior Chamber were reminded that all were invited to attend the annual dinner meeting of the Prince Rupert Chamber of Commerce this Friday night. It was decided that the Senior Chamber should be asked to name an official representative at all Junior Chamber regular meetings.

The President re-appointed C. G. Ham as the Junior Chamber's representative on the museum board and T. J. Williams on the library board.

R. G. Van der Sluis was named official delegate of the Junior Chamber to the forthcoming annual meeting of the Prince Rupert General Hospital Association.

Correspondence before the meeting last night included a letter drawing attention to the convention in Vancouver on February 11 and 12 of the Northwest Aviation Planning Council and a letter from the chairman of the national committee of the Junior chamber of Commerce on civil service.

### MASSETT

The Native Sisterhood of Massett held a successful social on Monday night of last week in the Community Hall. development of the province and the foundation of the cities of Vancouver and Victoria.

"What mining has done for the south, mining can and will do for the north," asserted Dr. Mandy. "We have a great mineral area tributary to Prince Rupert awaiting development. There are also coal and oil resources. We have every good reason to be optimistic."

The speaker then turned to a brief review of the history of mining in northwestern British Columbia. In 1873 gold had been discovered in the Cassiar. In 1898 had come the Klondyke and Atlin discoveries, later Portland Canal, Alsea Arm and Anyox. Closer still to Prince Rupert were the discoveries and developments of Queen Charlotte Islands and Surf Inlet; more recently, Surf Point, and, latest of all, Tulsequah. All this was only a beginning but it had brought business, revenue and traffic to Prince Rupert.

Dr. Mandy concluded with his appeal to the members of the Junior Chamber to play their part in seeing that recognition was obtained for the natural resources of this district and their development brought about so that the city might progress and prosper.

THE "KING" TESTER

That is what you will have after we have gone over your car with our "KING" Tester, which is the last word in equipment for diagnosing motor trouble.

Very often the difference between a slow motor and a PEPY one is only a matter of minor and inexpensive adjustments. It doesn't take much to put a high speed motor "out of line," but it does take special equipment to locate the trouble so that it can be remedied. We have the finest equipment obtainable and it eliminates all GUESS WORK. Bring your car in and get PEP for the get-away and POWER for the hills.

## BOY SCOUTS RESUMING

Various Activities at First Gathering of Year Last Night

The First Prince Rupert Boy Scout Troop entered on its activities for the new year with great gusto at the regular weekly meeting on Tuesday night in the Toot H Hall. The meeting was formally opened by the raising of the Union Jack by Duty Patrol Leader John Davey. This was followed by an inspection of each patrol in turn by the Scoutmaster, Robert Yerburgh.

A letter from Miss Jean Harrison R. N., lady superintendent of the Prince Rupert General Hospital, thanking the boys for their Christmas Cheer work among the patients of the men's and children's wards was read.

Following this each patrol dispersed to its own corner and engaged in activities under the direction of its patrol leader. After this period of instruction the troop threw all restraint aside and played the game "Whipped to the Gap." Several Scouts then passed their observation tests while playing what is known as Kim's Game. This was followed by the Scout war dance "Een Gonyama" which was borrowed by Baden Powell from the Zulu warriors.

A short display of splicing was given by the Assistant Scoutmaster, Ernest Meadows. This was followed by a relay using the fireman's grip.

The troop then gathered for a few minutes while the Scoutmaster announced a few items of interest. A letter from a scout in Hankow, China, was read to the boys who found it very interesting. A picture of a scout carrying a wounded baby also proved interesting.

It was decided that on Friday January 28, the formal presentation of the charter to the troop by the troop committee would take place. A short display is to be given by the boys before the presentation.

It was also arranged that a hike to Grassy Bay would be held on Saturday, during which a number of the Scouts will endeavour to pass their fire-lighting and cooking tests for the second class badge. Sergeant J. H. McClinton of the provincial police has very kindly offered to act as examiner for the First Aid and compass tests.

A Court of Honor meeting is planned for Saturday evening at the home of Patrol Leader John Good.

At the close of the meeting the Scoutmaster presented four Scouts with their registration certificates and announced that next week an investiture will be held at which time George Zbura will make his Scout Promise and become a Scout.

The meeting then closed with the lowering of the flag and the usual prayers.

### WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Rarin' to go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You get constipated. Harmful poisons go into the body, and you feel sour, sunk and the world looks lunk.

A mere bowel movement doesn't always get at the cause. You need something that works on the liver as well. It takes those good, old Carter's Little Liver Pills to get those two pounds of bile flowing freely and make you feel "up and up." Harmless and gentle, they make the bile flow freely. They do the work of calomel but have no calomel or mercury in them. Ask for Carter's Little Liver Pills by name! Stubbornly refuse anything else. 25c.

Everybody needs enough light to be able to read comfortably. One way to check this is to notice how long they DO read. If an hour's reading makes Father or Grandma drowsy, it's quite likely that there is insufficient light or else glaring light.

Reading is so important that every member of the family should be provided with the kind of light that will protect their eyes and give them the full enjoyment of the great blessing of sight. The modern table and floor lamps we are showing this year offer scientific protection. They give ideal, glareless light for reading, studying or sewing. We have a wide variety of really beautiful lamps at surprisingly low prices. You can have your choice for as little as \$1 down.

## MARRIAGE AT DAWSON

Miss Florence Glosie Becomes  
Bride of Constable Alva Moore

One of the prettiest and most colorful weddings seen in Dawson for many years took place in St. Paul's Pro-cathedral on Monday evening, December 20, when Florence Catherine Glosie, only daughter of Mr. and Mrs. Christian Glosie, of Bear Creek, became the bride of Alva Edison Moore, youngest son of Mr. and Mrs. E. J. Moore of Terrace, Right Rev. W. A. Geddes, D.D., Bishop of the Yukon, performed the ceremony assisted by Rev. A. C. McCullum, rector of St. Paul's. The groom, who is a constable of the Royal Canadian Mounted Police, was in uniform, as were also the best man and the ushers, their bright scarlet tunics lending a splendid touch of color to a most charming wedding group. The church was gay with evergreens and poinsettias, having been decorated in advance for the Christmas festival.

The bride, who was given in marriage by her father, was a pretty picture in a gown of white slipper satin with tulle veil attached to an orange-blossom head-dress. She carried a bouquet of gardenias and lily-of-the-valley. The bridesmaid was Miss Pretoria Curtis, who selected a gown of gold taffeta with blue halo hat and elbow length cream gloves. Her bouquet was of roses and forget-me-nots. Lance-Corporal Stanley Rothwell assisted the groom and the ushers were Constables Earl Cross and Arthur Stewart.

During the ceremony the choir of the church sang the "Deus Misereatur" and in the interval of signing the register they sang "O Perfect Love." The wedding hymn was "The Voice that Breathed o'er Eden." Miss Solway Dines played the wedding music.

### Reception Later

A reception was afterwards held at St. Paul's Hostel, Mr. and Mrs. Glosie assisting the bride and groom in receiving the guests. Mrs. Glosie chose a black velvet gown and hat with corsage of gardenias.

Mrs. B. Gladwin attended to the visitors' register and the serving was looked after by a number of girl friends and school-mates of the bride including Miss E. Henderson, Miss M. Wyness, Miss S. Dines, Miss Isabel Fournier, Miss Emily Skistad, Mrs. J. Stevenson and Mrs. C. Craig. Tea was poured by Mesdames Jeckell, McFarland, Osborn and Geddes and Mesdames Lewis, Chappell and Coldrick and Miss Ida Dale, were in charge of the general arrangements. A delicately-decorated three-tier cake was the centre of admiration and the bride's table was dainty with silver vases and flowers, being centred with a silver bowl of gardenias and gypsophila. Mrs. G. Binning and Miss Marion Harvey served the wedding cake.

There were a large number of visitors from various parts of the Yukon, notably from Bear Creek, the home of the bride and her parents, and the scene at the reception was one of beauty and animation. The groom's gift to the bride was an aeropack travelling case and an overnight bag; to the bridesmaid, a gold compact with watch; and to the best man, a gold nugget tie-clip.

Mr. and Mrs. C. Glosie have resided in the Territory since 1911 and their charming and popular daughter was the recipient of a

With a fair-sized list of passengers including a few Prince Rupert people returning home after spending the Christmas and New Year holiday season in the south, C. N. R. steamer Prince George Capt. H. E. Nedden, arrived in port at 10:45 this morning from Vancouver, Powell River and Ocean Falls and will sail at 4 o'clock this afternoon for Anyox and Stewart whence she will return here tomorrow evening southbound.

## GOOD CAST IN COMEDY

Leslie Howard, Bette Davis and Olivia DeHavilland Head "It's Love I'm After" Company

"It's Love I'm After," a comedy-drama co-starring Leslie Howard and Bette Davis and also featuring Olivia de Havilland, Eric Blore and others including Spring Byington, Bonita Granville, George Barbier and E. E. Clive, is the mid-week feature offering on the screen of the Capitol Theatre here.

Howard is shown as a matinee idol about whom all the girls in town are worked up. Bette Davis is his leading woman. They love each other but each is a scene-stealer and they battle continuously in whispers while reciting beautiful lines aloud. Miss DeHavilland is a sentimental heiress who falls madly in love with Howard. The story concerns itself with how she is disillusioned and sent back to the embraces of her fiancée.

Without a dull moment or a weak spot, "It's Love I'm After" is said to be one of the most lively comedies ever presented on the screen.

A large number of handsome and useful gifts. The happy couple spent the Christmas holidays at Bear Creek before making their home at Whitehorse where Constable Moore is stationed.

## MEN WHO FEEL OLD

Get Back New Youth,  
Energy, Vitality

Too many men to-day feel tired out all the time—can't work, hate to get up mornings, haven't the vitality to do the things they used to do. A weak unhealthy liver caused by modern living, soft foods, lack of exercise, is the chief reason. Your liver is the storehouse for glucose or the "energy part" of the food you eat—it supplies energy to muscles, tissues and glands. If it is not strong and active no wonder you feel old! Take "Fruit-A-Tives," it will build up your liver like nothing else will. You'll be surprised how young you soon feel. 25c, 50c, all Drugists.
