## Improved Financial Condition Over Period Of Fourteen Years Disclosed In Annual Statement

Has \$20,000 on Hand for Building Now Whereas There Was Then \$11,000 Indebtedness—Further Action In Connection With New Hospital Deferred

Whereas fourteen years ago the Prince Rupert General Hospital Association was some \$11,000 in debt, today it has no obligations and has a fund of some \$20,000 for building extension purposes. This was disclosed last night at the regular monthly meeting of the board of directors of the hospital by W. M. Brown, chairman of the finance committee, in the course of consideration of the annual financial statement of the institution which was received and adopted by the board and referred to the annual general meeting of the Prince Rupert General Hospital Association which, it was decided, will be held in the Moose Hall on January 28. During the fourteen years, it was also pointed out, substantial expenditures had been made in improvements and maintenance of the hospital premises.

The question of the new hospital was referred to at last night's meeting but no further action was taken pending the annual general meeting when a new board will be elected. Towards the end of the month, it is expected, plans for the proposed new unit will have been completed by the provincial architect's department. Mr. Brown told of a conference that had been held with City Commissioner W. J. Alder in regard to financing. It was still felt that some assistance should be forthcoming from the city although Mr. Alder had said that there could be no financial help from that quarter unless it was by bylaw.

It was reported by G. V. Wilkinson, chairman of the grounds committee, that Robert Wilson, as his donation towards the new hospital, had cleared trees from the building site just east of the present hospital. This will enable the contractors, when the time comes, to obtain a better idea of the nature of the ground. The board passed a vote of thanks to Mr. Wilson.

Among matters of general business coming up at last night's meeting was that of indigent patients not actually requiring hospitalization but being housed in hospitals for whom the provincial government was withdrawing its per diem grant. There were eight such patients in the local hospital. It was pointed out, and the withdrawal of the government grant covering them would mean a loss of \$140 per month. The city will be asked to make some provision for the taking care of these patients.

## AMIRAL IS DEAD

William Oswald Storey, Canada's Naval Dean, Was Known in Prince Rupert

MONTREAL, Jan. 15: (CP)—Admiral William Oswald Storey R.C.N. retired, one of Canada's best known naval figures and the only full admiral in the Dominion, died here yesterday at an advanced age. Many posts of responsibility he held during his career included once being in command at Esquimaut. He retired before the war but returned to active service while it was in progress.

## New Export Record For Metals Set

OTTAWA, Jan. 15: (CP)—The Department of Mines yesterday announced that a new record was set by Canada in 1937 for export of base metals to foreign countries. The value of metals so exported during the year is placed at \$147,000,000.

## SOMETHING NEW HERE

Mining Superintendent Below Ground Talks to Airplane High In Sky

## Unique Event

Modern Communications Demonstrated to Toronto Rotary Club

TORONTO, Jan. 14:—A mining superintendent a quarter of a mile underground, an airplane a mile above the ground and a radio hookup, which extended the length and breadth of Canada, were all linked together in a unique demonstration of modern communication methods given by D. F. Galloway, Assistant Vice-President of the Canadian National Telegraphs, before the Rotary Club here yesterday. A part of the demonstration was the installation of the latest type automatic teletypewriter upon which an operator sent greetings from President "Jack" Deegan to various Rotary clubs from Vancouver to Halifax within 12 minutes and long before the demonstration was finished answers were received and delivered to the President. One of the interesting sidelights of this demonstration was that all types of facilities were co-ordinated to act as a single unit of communication. More than 8,000 miles of Canadian National Telegraphs' wires were required. The long wave of radio communication was brought into use by the Canadian Radio Commission to give a national broadcast of the event. The short wave was pressed into service to establish a connection with Flight No. 4 of the Central Vermont Airways, flying regular passenger service between Montreal and Boston. Telephone loops were linked up to complete the talking circuits.

In the opening demonstration Mr. Galloway called E. W. Todd general superintendent of the Lake Shore Mines, at Kirkland Lake more than 400 miles away, who spoke from the 1,800 foot level of No. 5 shaft of the mine. During the course of the two-way conversation between Mr. Todd and Mr. Galloway, interesting data was given as to the importance of the mining industry to Canada and of the great wealth which it contributed to the national treasury.

"Perhaps the members of the Rotary Club would be interested to know that in 1936, the last year for which complete figures are available, Canada's mineral production amounted to \$362,000,000 of which \$260,000,000 came from metals, more than half of which represented gold," Mr. Todd said.

"Thus, the mineral industry of Canada in 1936 was worth \$32.90 to each citizen of the Dominion. The per capita value of Ontario was \$52.72, which was only exceeded by British Columbia with \$77.72. However, the Yukon had a per capita output of \$444, principally gold."

Canada Challenges States Questioned further by Mr. Galloway as to Ontario's position in gold production. Mr. Todd explained that Ontario leads all provinces in gold production, with a per capita of \$23.80 from 2,346,528 fine ounces, followed by British Columbia with \$22.61, from 281,492 fine ounces. The percentage of Ontario's contribution to the total gold production was given as 63.46, with Quebec as 17.80 and British Columbia, 13.06. "Canada," Mr. Todd concluded, "is challenging the United States' position for second place among the gold producing nations of the world, the first position being held by South Africa, another member of the British Commonwealth of Nations."

At the time Mr. Todd was speaking

## Halifax Having Strike Violence

HALIFAX, Jan. 15: (CP)—Police reinforcements patrolled the narrow waterfront streets here today seeking to prevent a recurrence of violence which met a fleet of taxis carrying men into the plant of the strike-harassed Maritime National Fish Co. Windows were broken by stones but none were hurt.

## ALBERTA DEFENSE

Presents its Argument in Connection with Three Contentious Bills

OTTAWA, Jan. 15: (CP)—Defense by the province of Alberta of the three measures of the Legislature of that province assent to which was reserved by the Lieutenant Governor pending signification of the pleasure of the Governor General commenced before the Supreme Court of Canada yesterday. Chief counsel for province of Alberta, submitted that the duty of the court was simply to decide whether the bills having to do with control of banking, currency and newspapers were within the competence of the provincial legislature. All other questions were but side issues.

## COLLAPSES AND DIES

Louis Lazzarotto Expires In Lock Up After Removal from Hospital

Louis Lazzarotto, bartender at the Commercial Hotel and resident of the city for several years, collapsed and expired at 10 o'clock this morning in the city lock-up where he had been taken last night after becoming unmanageable in the Prince Rupert General Hospital. He had been drinking heavily and evidently outdid his strength. An inquest will be held Monday.

Lazzarotto was an Italian, about fifty-five years, unmarried and lived on Fulton Street.

## Wales Defeats England Today In Rugby Game

CARDIFF, Wales, Jan. 15: (CP)—Playing in a gale, Wales defeated England by a score of 14 to 8 in the initial international rugby match of the season. The victors scored one goal and two penalty goals and a try against the Englishmen's goal and try.

## Ashcroft To Fort St. John Flight

Pilot Ginger Coote to Take Off Tomorrow on Inauguration of New Air Service to North

ASHCROFT, Jan. 15: (CP)—Inaugurating a new commercial air service into Northern British Columbia and the Yukon, Pilot R. L. (Ginger) Coote plans to take off from here tomorrow for Fort St. John. During the winter the southern terminus of the service will be Ashcroft, extending to Vancouver in the summer.

## Chiang Kai Shek Finds One Of His Aides Is Derelict In Duty Causing Collapse In Shantung

## NEED OF DEFENSE

Japs Know More About This Coast Than Do Canadians, Declares Mrs. George Black

WINNIPEG, Jan. 15: (CP)—The Japanese know the "Inland Passage" between Vancouver Island and the British Columbia mainland better than the Canadians or Americans do, Mrs. George Black, M. P. for Yukon, said here Friday night. "I have been going up and down the coast for forty years," Mrs. Black said. "Where there was one one Japanese fish boat there are hundreds now. Now we're scared, at least we are doing something about Pacific Ocean defence."

## WILL AID FARMERS

Agricultural Problem to be One of Principal Matters Before Coming Session of Parliament

OTTAWA, Jan. 15: (CP)—The farming industry of Canada will be given a good deal of attention at the forthcoming session of Parliament opening on January 27. Legislation may be based on the report of a special committee which, among other things, has recommended a reduction of tariff on farm implements and the subsidizing of co-operative distribution of such implements.

## NEW PLANE FOR ROUTE

Pan American Airways Plans to Replace Samoan Clipper With Huge Flying Boat

SAN FRANCISCO, Jan. 15: (CP)—A new forty-ton flying boat, with capacity for seventy-two passengers, which is now being built, may replace the ill-fated Samoan Clipper in the new air service between Honolulu and New Zealand, it is indicated by officials of Pan-American Airways. The new ship is expected to be ready for test flights by March.

## Weather Forecast

(Furnished through the courtesy of the Dominion Meteorological Bureau at Victoria and Prince Rupert. This forecast is compiled from observations taken at 5 a.m. today and covers the 24-hour period ending 5 p.m. tomorrow.)

General Synopsis—A storm centre is approaching the British Columbia coast. Heavy rains have occurred in the Prince Rupert district and mild weather is reported over the interior accompanied by rain and sleet. Prince Rupert and Queen Charlotte Islands—Strong east to southeast winds or gales, unsettled with not much change in temperature. West Coast of Vancouver Island—Strong winds, probably reaching gale force tonight. Cloudy and mild with rain.

## Rich Agricultural Regions Menaced as Japanese Advance After Capturing Tsining and Vital Rail Junctions—'Conflict Must Continue,' Decides Tokyo

TOKYO, January 15: (CP)—The Japanese cabinet and high navy and army officials decided today that the conflict with China must continue to "its ultimate objective." Draft of the government policy in China has been prepared after lengthy conferences by the cabinet and Imperial headquarters of military leaders directing hostilities.

SHANGHAI, January 15: (CP)—The Chinese reported today that General Han Fu Chu, once dominant war lord and governor of Shantung Province, had been courtmartialled and executed on orders of Generalissimo Chiang Kai Shek for "dereliction of duty." General Han was held responsible by the Chinese for collapse of resistance to Japan in Shantung.

Vital rail junctions controlling Shantung's rich agricultural regions have been menaced as the Japanese drive retreating Chinese troops southward after capturing strategic Tsining in the southern section.

### QUEER GOVERNMENT METHOD

Under the French method of government there is less stability than in any other country that has come to our notice. The Chamber of Deputies is made up of members representing a number of parties and no government can succeed without the support of several of these. The result is that, under very little provocation, the government is voted down through the defection of one or more of these parties.

The Popular Front in France was headed by M. Blum following the last election. Not long ago M. Blum retired and he was succeeded by M. Chautemps. Now M. Bonnet has been called to office but how long he will be able to keep the confidence of a majority of the Chamber, in the event he succeeds in forming a government, no one can say. It may be a week, a month or a year, but not likely long. It is difficult to understand how there can be continuity of policy under such conditions.

### FINANCIAL SITUATION

The present disturbed condition of France does not help the financial situation there. Prior to the recent resignation, the government was seeking a loan of a quarter of a billion dollars in England but the British government had to be given proper guarantee that the money would be repaid before it would put up the cash. A domestic loan also is planned which will cost the government five or six per cent. This is a big price to pay compared with the low rates at which Great Britain or Canada pay for money.

The trouble is that the instability of France, caused chiefly by the extreme radical groups in the Chamber and throughout the country, is causing people with money to pause before lending to a country which might at any time repudiate her debts.

### DESERTIONS FROM SPAIN

A British report from Gibraltar states that desertions are taking place from the insurgent forces of General Franco and it is intimated that they are going over to the loyalists. Is that the old sign of the rats deserting the sinking ship? If other countries would keep out of Spain, evidently the war would soon be over.

### FORTIFICATIONS

It was to be expected that the cities of southern British Columbia would be the first to receive protection under the defense program. Now we are hoping that Prince Rupert will receive some attention. While there has been talk of defenses here not much has yet been done. If parliament grants another thirty-five million dollars for defense this year, we may get some of it and it is badly needed.

## SKI MEET AT JASPER

Six-Mile Cross-Country Race To Feature Carnival Next Week

JASPER, Jan. 15:—With a six-mile cross-country race as the main feature, the Jasper Ski Club will hold its annual ski carnival next Wednesday. The nine events will include jumps and a number of juvenile competitions to promote skiing enthusiasm among the younger members of the club.

The Jasper Ski Club is working on a five-year plan of development of the sport in this part of the Rockies and many visitors from Edmonton, Vancouver and other outside points are reaping advantages from its efforts. The club has a concession from the Dominion government for slopes on the side of Whistler Mountain, while Signal Mountain, in the Maligne Lake area and the Tonquih Valley have camps and trails.

## BRIDGE IS RESUMED

Results Last Night of First Games For Second Half

Prince Rupert Bridge League results for the second half opening last night were as follows:  
Grotto, 10355; C.N.R.A. 11467; Ramblers, 10919; Musketeers, 8382.  
Canadian Legion, 5709; Sons of Norway, 12821.  
Prince Rupert Dairy, 7562; Brackman & Kerr, 9543.

Portsmouth 1, Birmingham 1.  
Preston North End 3, Leeds United 1.  
Stoke City 3, Middlesbrough 0.  
Sunderland 2, Derby County 0.

### SOMETHING NEW HERE

(Continued from Page One)

...the passengers and officers of Flight No. 4 were receiving the demonstration by short wave from 5,100 feet above ground. When Mr. Galloway called Harry Carson general manager of the Central Vermont Railway and Vice-President of the Central Vermont Airways, subsidiary companies of the Canadian National Railways, the response came sharp and clear with Mr. Carson on the air-line was P. G. Johnston Vice-President of TransCanada Airlines. Mr. Carson assured Mr. Galloway that this demonstration had been heard perfectly on board Flight No. 4. This machine he stated, was one of the airway's fleet of the most modern type of airplane on the continent, a twin-motored Lockheed-Electra, 10-passenger, heated and ventilated cabin plane, similar to those which will be used by Trans-Canada Airlines in linking the Pacific Coast to Toronto and Montreal by air service. "Air service has played an important part in the development of Canada's mining industry," Mr. Carson continued. "While there are few scheduled airlines in Canada today, fifty commercial companies operate planes transporting prospectors, supplies and machinery to the most remote parts of the Dominion. By way of comparison, I might say that in 1936, the total tonnage carried by airlines in the United States amounted to 6,959,000 pounds. In Canada the total was 25,386,000 practically all of which was destined to various mines located in

northern Quebec, Ontario, the western provinces and the Northwest Territories. It may be interesting to know that planes operating within Canada carried a much greater tonnage of freight and express than the combined plane services of Great Britain, France and the United States. In 1936 the number of miles flown by Canadian planes amounted to 7,204,000 miles. This, if I may say so is a splendid achievement in Canada's development."

### Dramatic Introduction

Mr. Carson introduced Captain Milton H. Anderson, senior pilot and operations manager of the Central Vermont Airways. In turn Mr. Galloway introduced Mr. Todd and the Captain, flying more than a mile above ground spoke with the mining general superintendent a quarter of a mile below the ground. It was a dramatic touch which brought forth rounds of applause from the crowded banquet hall. In the conversation which followed, Captain Anderson said that his ship had a speed of 250 miles per hour, with a general cruising speed of 175 miles. He had been identified with commercial flying for 10 years during which he had flown more than a million miles and had about 8,500 hours in the air. The flying time between Montreal and Boston, a distance of 274 miles, was one hour and 43 minutes.

In his opening remarks, Mr. Galloway outlined the detail of the various types of communication which would be brought into use and the method by which it was possible for the Rotarians, the radio audience, the people in the mine shaft and the passengers on the air-liner all to listen, at once to the same program. He introduced to the gathering Dr. P. W. St. Charles, President of the Lake Shore Mine, through whose courtesy the conversation with the mine had been arranged; Hon. Chas. McCrear, formerly Provincial Minister of Mines; R. C. Vaughan, Vice-President, Canadian National Railways, Montreal; F. E. Mausson, director, Dome Mines; A. H. Cavanagh, general manager, Temiskaming & Northern Ontario Railway, who supplied the circuits between North Bay and Kirkland Lake, which with the local facilities of the Northern Telephone Co., enabled communications to be made with the 1,300 foot level of the mineshaft and Sidney Norman, mining editor of the Globe and Mail, who checked many of the figures used in the mining statistics.

# HOW TO WIN FRIENDS AND INFLUENCE PEOPLE

By DALE CARNEGIE  
Author of the famous book of this name

## HAVE YOU SMOKED A TURRET LATELY?

ARE you one of those smokers who have made the mistake of not trying Turrets? We do not mean to suggest that everyone ought to smoke Turrets—all of us are entitled to choose the cigarette that suits us best. But we do know that Turret smokers seldom find complete satisfaction in any other cigarette. The reason is Turret's unique and original blend of fine Virginia tobaccos which makes Turrets just that much different—just that much better. And so we suggest: if you haven't smoked a Turret lately, try a package today.

Imperial Tobacco Company of Canada, Limited

### IF YOU ARE WRONG, ADMIT IT

① "Isn't it easier—and less humiliating—to hear yourself condemned out of your own mouth than out of some one else's? Of course it is.  
"When you have made a mistake, admit it. Admit it fully and promptly without trying to find excuses. If anything, let your self-criticism be excessively severe."

② "Such an attitude takes the wind out of the other fellow's sails. You leave him with nothing to say because you have said it all yourself.  
"The chances are he will then take a generous, forgiving attitude and try to minimize your mistake."

③ "There is an old proverb which says: 'By fighting you never get enough, but by yielding you get more than you expected.'  
"That technique not only produces astonishing results, but it is actually more satisfying than trying to defend a hopeless position."

④ "So, when you are right, try to win people tactfully to your way of thinking. But when you are wrong—and that will be often enough—admit the fact at once.  
"Any fool can argue that black is white—and lots of fools do. But it takes a real man to say: 'I made a mistake.'"

L. W. Patmore K. C., who has been attending sessions of the International Fisheries Commission at Seattle and visiting in Vancouver and Victoria, returned to the city from the south on the Princess Adelaide yesterday afternoon.

## ASS'N 21 YEARS OLD

Special Meeting of Prince Rupert Teachers—Australian Visitor Is Speaker

A well attended meeting of the Prince Rupert Teachers' Association was held last evening in King Edward High School to mark the celebration of the twenty-first anniversary of the establishment of the British Columbia Teachers' Federation. At the same time in Vancouver, this occasion was being observed in the Hotel Vancouver by an anniversary dinner followed by a program broadcast over the provincial network of the Canadian Broadcasting Commission.

During the business hour there was a discussion of resolutions to be forwarded to the Easter convention. This was followed by a consideration of Education Week which will be observed throughout Canada during the first week in February.

Following the business meeting, a very interesting and informative address on "Australia" was given by C. C. Kuchel, who has been sent by the Australian government to investigate experimental Fisheries abroad. Besides such geographical facts as size, climate and natural resources, Mr. Kuchel gave much information about the great variety of trees and fauna, showing that Australia is the oldest existing land surface. Instances of the low mentality and strange customs of the natives proved very interesting. He closed his address by describing his home town, Adelaide.

Refreshments were then served and a social period followed.

### Today's Weather

(Government Telegrams)

Triple Island—Showery, cloudy east-southeast wind, sixteen miles per hour; light chop.

## Twenty-Five Years Ago

January 115, 1913

Nearly a thousand persons attended T. D. Pattullo's mayoralty campaign meeting in the Auditorium on Sixth Avenue. F. H. Mobley was chairman. Mr. Pattullo was the principal speaker but S. M. Newton, his opponent for the mayoralty, was also accorded the privilege of speaking. Other speakers were G. R. Naden, A. H. Allison, John Dybhavn, Douglas Sutherland, G. W. Nickerson, Thomas Waitland, L. Bullock-Webster, Hamilton Douglas and William Tibbald, all candidates for the aldermanic board.

The trawler Triumph, bound for Milford Bay, was commissioned by postmaster R. L. McIntosh to take mail to Masset which the steamer Ince Albert failed to pick up.

A young Japanese has been killed at Naden Harbor, Queen Charlotte Islands, by falling into the hold of the steamer Gray.

### Terrace Church Holds Meeting

Minister Invited By Congregation To Remain Another Year

TERRACE, Jan. 15.—The congregation of Knox United Church held its annual meeting on Tuesday evening. The meeting was well attended and reports from the various departments showed that the church was on a good working basis. Words of appreciation were ex-

pressed to the minister and his wife for the work accomplished and an invitation was extended to them to remain at Knox United another year.

Following the business a social hour was enjoyed. During the evening selections were rendered by the junior choir and a reading entitled "Carloads of Goodwill" was given by Mrs. Ivan Frank. A reading written by Edna Jacques told of the joyful reception of the carloads of fruit and vegetables sent from British Columbia recently to Saskatchewan.

## Waterfront Whiffs

C.N.R. Yacht Club Float Sinks, Endangering Craft—Returning From Fisheries Research Board Meeting—Revert to Natural Ice

Due to the collapse of a dolphin, the float of the Canadian National Recreation Association Yacht Club just west of the government wharf upset late Thursday afternoon and was almost completely submerged. Three gas-boats moored at the float were moved without damage to a more secure place. A couple of skiffs lying on the float dropped into the water and partly filled. The necessary repairs will be made before next season and meantime wreckage has been removed.

Dr. Neal Carter, director of the Prince Rupert Fisheries Experimental Station, is expected back towards the middle of next week from Ottawa where he attended the annual meeting of the Fisheries Research Board. John Dybhavn is also expected back soon from attending the same meeting.

After having used artificial ice for the past two years, the Booth Fisheries Co. is reverting to the use of natural ice for use in connection with its extensive fresh fish shipments from Prince Rupert. Ice will again be taken by the company from Lake Kathlyn near Smithers and Charles Wilson of Lake Kathlyn has been given a three-year contract calling for the supply of about 2500 tons of ice each year. The Booth Fisheries maintains three large ice houses at Lake Kathlyn, each with a capacity of some 1250 tons. Mr. Wilson also supplies the Canadian National Railways with ice at various divisional points along the Prince Rupert line, the ice being used for re-loading of fish-laden express refrigerator cars and for other purposes.

Annual overhaul of the steamer Prince Rupert is now under way at the Prince Rupert dry dock. The vessel is at present lying alongside the dry dock pier and will later go on the pontoons for hull work.

William Ballantyne has taken over duty as chief engineer of the steamer Prince John on the Queen Charlotte Island route, relieving George Davidson.

After having been in town since the Christmas and New Year season, Harry Scott will leave aboard his gasboat Lila tomorrow or Monday on his return to his hand-lugger operations at Douglas Channel.

Herbert Doolan, John Haldane and William Lincoln are returning today on their boat Lucy D. to their homes at Kincolth after having come here to see Herbert Doolan who is a patient in the Prince Rupert General Hospital.

C. M. Thomas and D. W. Wilson officials of the Nootka Packing Co., arrived in the city on the Princess Adelaide yesterday afternoon from Vancouver and sailed on the Prince John last night to visit the company's salmon cannery at Massett.

Thomas Anderson, superintendent of the Tucks Inlet reduction plant, returns to the city on the Princess Adelaide yesterday afternoon from Vancouver and Seattle where he spent the Christmas and New Year vacation season. The plant is about to be reopened for the production of fish meal from herring.

#### KEEPS IN CONDITION

HAYES, Kent, Eng., Jan. 15: (CP)—Sydney C. Wooderson, world mile record holder, was first home for Blackheath Harriers in their 7½ mile cross-country race against Ranelagh Harriers. He was timed in 45 minutes, 31 seconds.

#### REFEREE UPHOLD

BELLEK, Northern Ire. Jan. 15:—Action of a referee in striking a soccer player who threatened to hit him during a game recently was upheld by Magistrate Dickie at Bellek petty sessions.

#### IMPROVED FINANCIAL CONDITION

(Continued from Page One)

The Workmen's Compensation Board and municipalities, reduction of accounts by the Workmen's Compensation Board and a move to have the spread of contagion by Indians checked.

The question of whether the board should continue to hold property on Overlook Street obtained some years ago as a possible building site came up at the meeting but decision was deferred. The property is assessed at \$1500 involving \$75 per year in taxes.

The report of the Fire Chief stated that usual monthly inspection had been made. From a fire protection standpoint the general condition of the hospital was all that could be desired. The premises were clean and tidy and alarm systems were in order.

The house committee, through Frank Dibb, chairman, reported that, during the month, only a few minor repairs had been made.

The report of the finance committee, W. H. Brown, chairman, showed that there had been 1533 hospital days in December at a cost per hospital day of \$3.08. Disbursements for the month had amounted to \$4722.91.

#### To Purchase Bedding

It was left to the house committee to go into the matter of purchasing new bedding and mattresses for which a fund of \$1000 was appropriated during the past year and which had not yet been used.

Miss Jean Harrison R.N., lady superintendent, reported the hospital quite busy at this time. Miss Harrison acknowledged Christmas donations from Cambrai Chapter and Queen Mary Chapter, Imperial Order, Daughters of the Empire, P. Burns Co. Ltd., Bulkley, Market, Sterling Market, Chriss Mill Bakery, Rupert Bakery, Thomas McMeekin, Rupert Butchers, S. C. Thompson, Order of the Eastern Star, Boy Scouts and Women's Auxiliary.

Reporting for the Women's Auxiliary, Mrs. H. L. Landry referred to the forthcoming revival of the hospital ball from which it was hoped at least \$100 would be realized. G. P. Tinker, chairman of the board, was asked to act as master of ceremonies for the ball and accepted. Mrs. Landry also reported that the Christian Youth Society was putting on a play for the benefit of the Auxiliary.

Those present at last night's meeting were G. P. Tinker, chairman, W. M. Brown, G. V. Wilkinson, Frank Dibb and Mrs. H. L. Landry, directors; H. W. Birch, managing secretary, and Miss Jean Harrison R.N., lady superintendent.

#### CONDITION UNCHANGED

VICTORIA, Jan. 15: (CP)—The condition of Mr. Justice McPhillips, who collapsed on Wednesday afternoon, is reported from his hospital to be unchanged.
