TALKING OF AIR ROUTES!

Halford Wilson of Vancouver Admits Prince Rupert Should Have Service

The advantage of a direct route from Vancouver via Ashcroft, Prince George, Hazelton, Meziadin Lake, Telegraph Creek, Atlin and Whitehorse for the handling of the Yukon air mail was strongly adl vocated by Ald. Halford D. Wil-Ison, youthful Vancouver alderman who was a visitor in the city at Wilson. Ald. Wilson is especially interested in aerial matters since he is president of the British Coland Mrs. Wilson came north on the Prince George and made the round trip to Anyox and Stewart transferring Saturday evening to the Prince Charles to return home on that steamer via Queen Charlotte Islands.

In advocating the Prince George-Telegraph Creek route for the Yuukon air mail in preference to the present branch line which Corp. George H. Clark, M.C., and operates from Vancouver to Fort Mrs. Clark and family will sail on St. John where it connects with the Catala tomorrow afternoon for the United Air Transport service The big bare-headed, round- Courtenay, Vancouver Island, to from Edmonton, Ald. HIGHWAY PROBLEM

DAILY EDITION

We were glad to hear from H. G. Perry, member of the Legislature for Fort George, that he supports the field still in their minds, the heads! building of the highway into Prince Rupert. He also says of the Legion, with the full support that the people along the highway even south of Prince of hundreds of thousands of their George realize it would be a great thing for the whole members, are confident they will country to have Prince Rupert opened out by highway through the interior.

Mr. Perry says that the Dominion Government recogmr. Perry says that the Dominion Government recog-nizes this as a main arterial highway and should pay half pert are J. S. Wilson, zone repre-sentative for Northern British Colthe cost of the work. The next thing for us to do is to umbia, who left Saturday aftercarry on the campaign in the south to interest them in noon on the Princess Alice, and D. hirty-ninth green Saturday to win shewa Inlet and other Moresby Islthe building of the road and show them that it is to the C. Schubert and G. J. Dawes, who the Canadian amateur golf cham- and logging points on official busibenefit of the whole province to have it carried out. Any are already in the south. government that undertakes this work will have to have the support of the whole province.

We shall have to admit that the roads in the south need paying and some of them need it badly. We must also admit that highways there are used a great deal more than in the north and they have the first call on the highway funds of the province. Very soon, however, the highways there will be in good shape and all they will! require is a reasonable maintenance fund. Then we ask that attention be given to the north, not in the way of providing a meal ticket for a few unemployed, desirable as that is, but in the way of getting our highway connected up with the outside.

At the rate of a mile a year it will take eighty years to make the connection. This will not do. There must be one or two big contracts let to complete the whole work within a reasonable time so that people now alive may look forward in the expectation of taking a ride over the road to Terrace and on to the south when desired.

It is our opinion that Premier Pattullo is the most able man we have in the province and he is the man best capable of tackling this big job and carrying it through. However, if he does this, he will have to receive the backing of every part of the province so everything we can do to spread the gospel to the south is so much in favor of the highway. We have no sympathy at all with those men who see in this highway an opportunity for political intrigue. If the highway is not built when the present! government goes out of power, we shall take the same stand with the next administration if it is a capable one. We have now a capable administration led by a man who is doing things and getting them done. Let us back him and also urge that the work proceed at the earliest possible opportunity. Let us bring every possible pressure to bear on every possible occasion. We have waited twenty-five years and have not yet started. The time is coming, and that soon, when the force of public opinion! will be such that the work will have to be done.

If you have something to sell, a classified advertisement in this paper will soon let you know if there is a buyer in the city.

Off To Attend

Employment of Veterans is Still An Important Problem

To attend the provincial convention of the Canadian Legion of the British Empire Service League to be held in Vancouver August 4-6 Jack Preece, president of the local branch of the Canadian Legion, i leaving on the Prince Rupert this afternoon.

The convention will occupy three es on full days and much of the time 12 will have to be taken up with the so consideration of the unemployment of employable ex-service men. This still forms the chief problem of the Canadian Legion. In spite of war time promises that the country would see that they were well .02 looked after when they returned to 25 the land for which they were fighting, there are many thousands of service men unemployed and many in dire need of the simplest necessities of life. It is for their less; fortunate comrades that the Legion is making a decided stand, both in the Dominion and local field.

With their war time experience of what united action and coof of what united action and cobe able to force a hesitant government to carry out their war time

GAMEBIRD PROPAGATION

Prio rto 1934 the Game Department operated itsown farm near Victoria for the purpose of raising pheasants and other game birds for release in different sections of the Province. Since 1934, however, operations of this farm have been considerably curtailed and a policy of encouraging local residents to raise pheasants for sale to the Department has been put into effect. This policy has resulted in a decided increase in the total number of pheasants liberated each year, as follows:

1933	2,906	1934	6,139
1935	6,795	1936	. 9,539
1937	AND AND THE STATE OF	140.4	12.306

In 1938 to date, 3,329 pheasants have been liberated and within the next month a large number of healthy and strong young birds will be purchased and liberated in different sections of the Province; these liberations continuing until the 15th of September.

WAKE UP YOUR

And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of Houid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. your stomach. You get constipated. Harmful poisons go into the body, and you feel sour, sunk and the world looks punk.

A mere bowel movement doesn't always get at the cause. You need something that works on the liver as well. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up". Harmless and gentle, they make the bile flow freely. They do the work of calomel but have no calomel or mercury in them. Ask for Carter's Little Liver Pills by name ! Stubbornly refuse anything else. 25c.

Co.'s power cruiser Cancolim, Capt William Thomas, is tied up at the floats of the Armour Salvage Co. in the course of a cruise to cannery points. The vessel arrived in port Saturday afternoon from the Skeena River.

The coast freighter Salvor, Capt Albert Georgeson, was in port over the week-end with coal cargo from Vancouver Island.
