DAILY EDITION

ABSURD INTERFERENCE

The suggestion that Germany did not approve Prime Minister Chamberiain giving a public address on Britain's foreign policy was an arrogant assumption of authority which that country does not possess. On a previous occasion exception had been taken to the views of British statesmen. This also was beyond the right of one nation in its dealings with another.

Canadian people will be glad to see Prime Minister Chamberlain stiffening his back and letting the world know that the British Empire, while striving for peace, will not be averse to defending its rights.

SITUATION IN CHINA

Japan has come to the danger period in her campaign against China. It is the period where she feels that she has extended herself to the limit and must either consolidate her position or withdraw. She has not been able to consolidate very well because she has lost the ground gained in Hunan province.

While no one can deny the great advantage of controlling the important seaports, that in itself is not sufficient. The moment Japan begins to withdraw from the interior, she begins to lose prestige. If she cannot hold, what she has taken she is showing weakness.

ABERHART WEARY

Many people will agree with Premier Aberhart that it is about time he retired. He has not been an outstanding success. He set out to introduce Social Credit into the province of Alberta but so far has not done so. He has runed the credit of the province temporarily at least and has given nothing to take its place. We see every reason why Mr. Aber hart should resign at once and no good reason why he should continue in office. His constituents, however, may hold different views.

THE LEADERSHIP

In a democratic country we do not quite like to have opposition to a leader spoken of as a conspiracy. There is no reason why any person in the country should not onpose any leader without being accused of plotting. At the present time Right Hon. W. L. Mackenzie King isl Prime Minister of Canada but that does not presuppose that he has any right to look upon the position as a life job. He is kent there by the vote of the neople and is sunposed to converget the whole country. As such any nerlisor has a right to take exception to the manner in which the has carried out his duties. In a country like Germany! Hit stoule be treason to try to replace him buy in Canada it lie just a natural process of government. That is the differmon hot ween a democracy and a dictatorship.

In Prince Rumprf there are a number of Liberals who. do not look upon Mr. King with any enthusiasm because the has not shown that outstanding leadership that they would like to see. He seems to have taken the line of lest resistance. The people who feel that way are not consnirlators. They simply express their natural reactions to the administration.

Royal Cerenfony at Ottawa to Conducted By King

OTTAWA, Dec. 14: (CP)-- In the most pretentious square of this Canadian capital, against a background of the stately government buildings which adorn Parliament Hill, Canada's national Great War memorial will be unveiled next May by King George VI.

particularly for gold, silver, lead MANY SHIPS and zinc. At present the old Silver Standard is the only active property in the district. During the war years, however, the Rocher de. Boule copper mine produced a total of 5,800,000 pounds of copper, 51,000 unces of silver and 3,700 cunces of gold. Little or no prospetting has been done north of Babine River although the geology been confined mainly to the western and southern borders. This work has indicated that the area is worthy of prospecting for placer deposits. In contrast to the Hazelton country, the Manson River area, more especially the western half, is one of the most active mining regions in Northern British Columbia, all of the operations of importance being centred around development of placer deposits. Conderably more than \$1,000,000 expended on such work during the past summer, a large part of it for the construction and improvement depR, 3xrehTiesCship ba-o5cfinci
