MINIMUM WAGE WAS DISCUSSED AT NATIONAL CONFERENCE BY LABORITES AND CAPITALISTS

McCutcheon says Willing to Work Long Hours to Feed the People, but Not to Produce Dividends for Employers. Exportable Surplus Not Desired by Labor

(Special to The News via G. T. P. Telegraphs.)
 Ottawa, Sept. 18.—Minimum wages and the right to organize as discussed by the National Industrial Conference yesterday brought out some sharp differences of opinion, although the manufacturers conceded the justice of the minimum wage for union and miners.
 The recommendation of the Royal Commission on industrial relations for bettering the conditions, which have been supported by the labor group, have been roughly handled at times by their opponents and the resolution on the shortening of the hours of labor went to the committee with both sides apparently unmoved.
 R. C. McCutcheon of Winnipeg got closer to the substance of the labor argument when he asked for what purpose labor was being asked to submit to long hours. If it was to supply people with the essentials of life, a long day might be justified, but if it were for the purpose of having labor produce an exportable surplus of commodities, it could not from the labor standpoint be justified at all. The opinion was expressed that McCutcheon's very strikes at the root of the problem as the ordinary laborer sees it. He is willing to work for the good and welfare of the country but not to preserve profits and dividends of the employing class.

LOCAL MEMBER DISCUSSES THE PEACE TREATY

**Col. C. W. Peck Tells House
 Commons Why They Should
 Vote for Resolution.**

**LOGIZES THE LATE
 SIR WILFRID LAURIE!**

When debating the resolution regarding the Treaty of Peace in the House of Commons, Lieut.-Col. C. W. Peck, V. C., member for the district, said:
 "Mr. Speaker, I rise with a deep sense of gratitude in this hour, because I have been spared in the vicissitudes of the war to come back to the parliament of my country, the country I love so dearly, and take part in its deliberations on the treaty of peace and the covenant of the League of Nations.
 If there was one thing that pressed me during the whole of the war, it was the thought that passed from stage to stage from victory to victory, leaving behind us that long swath of carnage, the finest men God ever put breath into, it was the thought that was expressed by the thinking man that it did not matter whether his poor life, the lives of a hundred or a thousand men were spared, so long as the great rampant power of Germany was crushed; and the world was once more restored to peace.
 I had hoped that this debate would have an elevated tone and that the gentlemen who took part in it—I am not reflecting on any one in particular—would drop their party politics, realizing that they were dealing with one of the most important questions that ever came before this Parliament and before the world. So you will understand my feeling, Sir, if I speak in this House with some emotion.
Not Controversial.
 I shall endeavor in my remarks to eliminate everything of a controversial nature."

MINE IS BONDED BY GUS SIEFERT

Yesterday afternoon a very important deal was completed here when the mineral properties of J. J. Connors and Mr. McNeil in Stewart were bonded by Gus Siefert. Mr. Siefert is representing St. Louis capital and is very much pleased with the outlook of the district. He anticipates great doings up north by next year. The group which has just been sold includes eight claims and they are only six miles from the head of steel.

controversial politics. I want to say one thing, however, in justice to a great man. I was a follower and a great admirer of the late Sir Wilfrid Laurier, the great leader of the Liberal party. He was one of the statesmen in our country, if ever there was one, who stood for Canada's autonomy."

Members—Hear, hear.
 "I am very much obliged for these cheers," Colonel Peck continued, "but I want to say that that great statesman is scarcely cold in his grave before his followers come here and scoff at a government who carry out that ideal he stood for during his whole career. If that revered leader was in his seat here, while he might criticize some features of the treaty, one thing he would not criticize is that our ministers and plenipotentiaries went to that conference and insisted that this nation should have full representation as an autonomous power, and take its full share and independent action in the deliberations of the conference. My only apology for rising is that I have hoped and lived for this very hour."

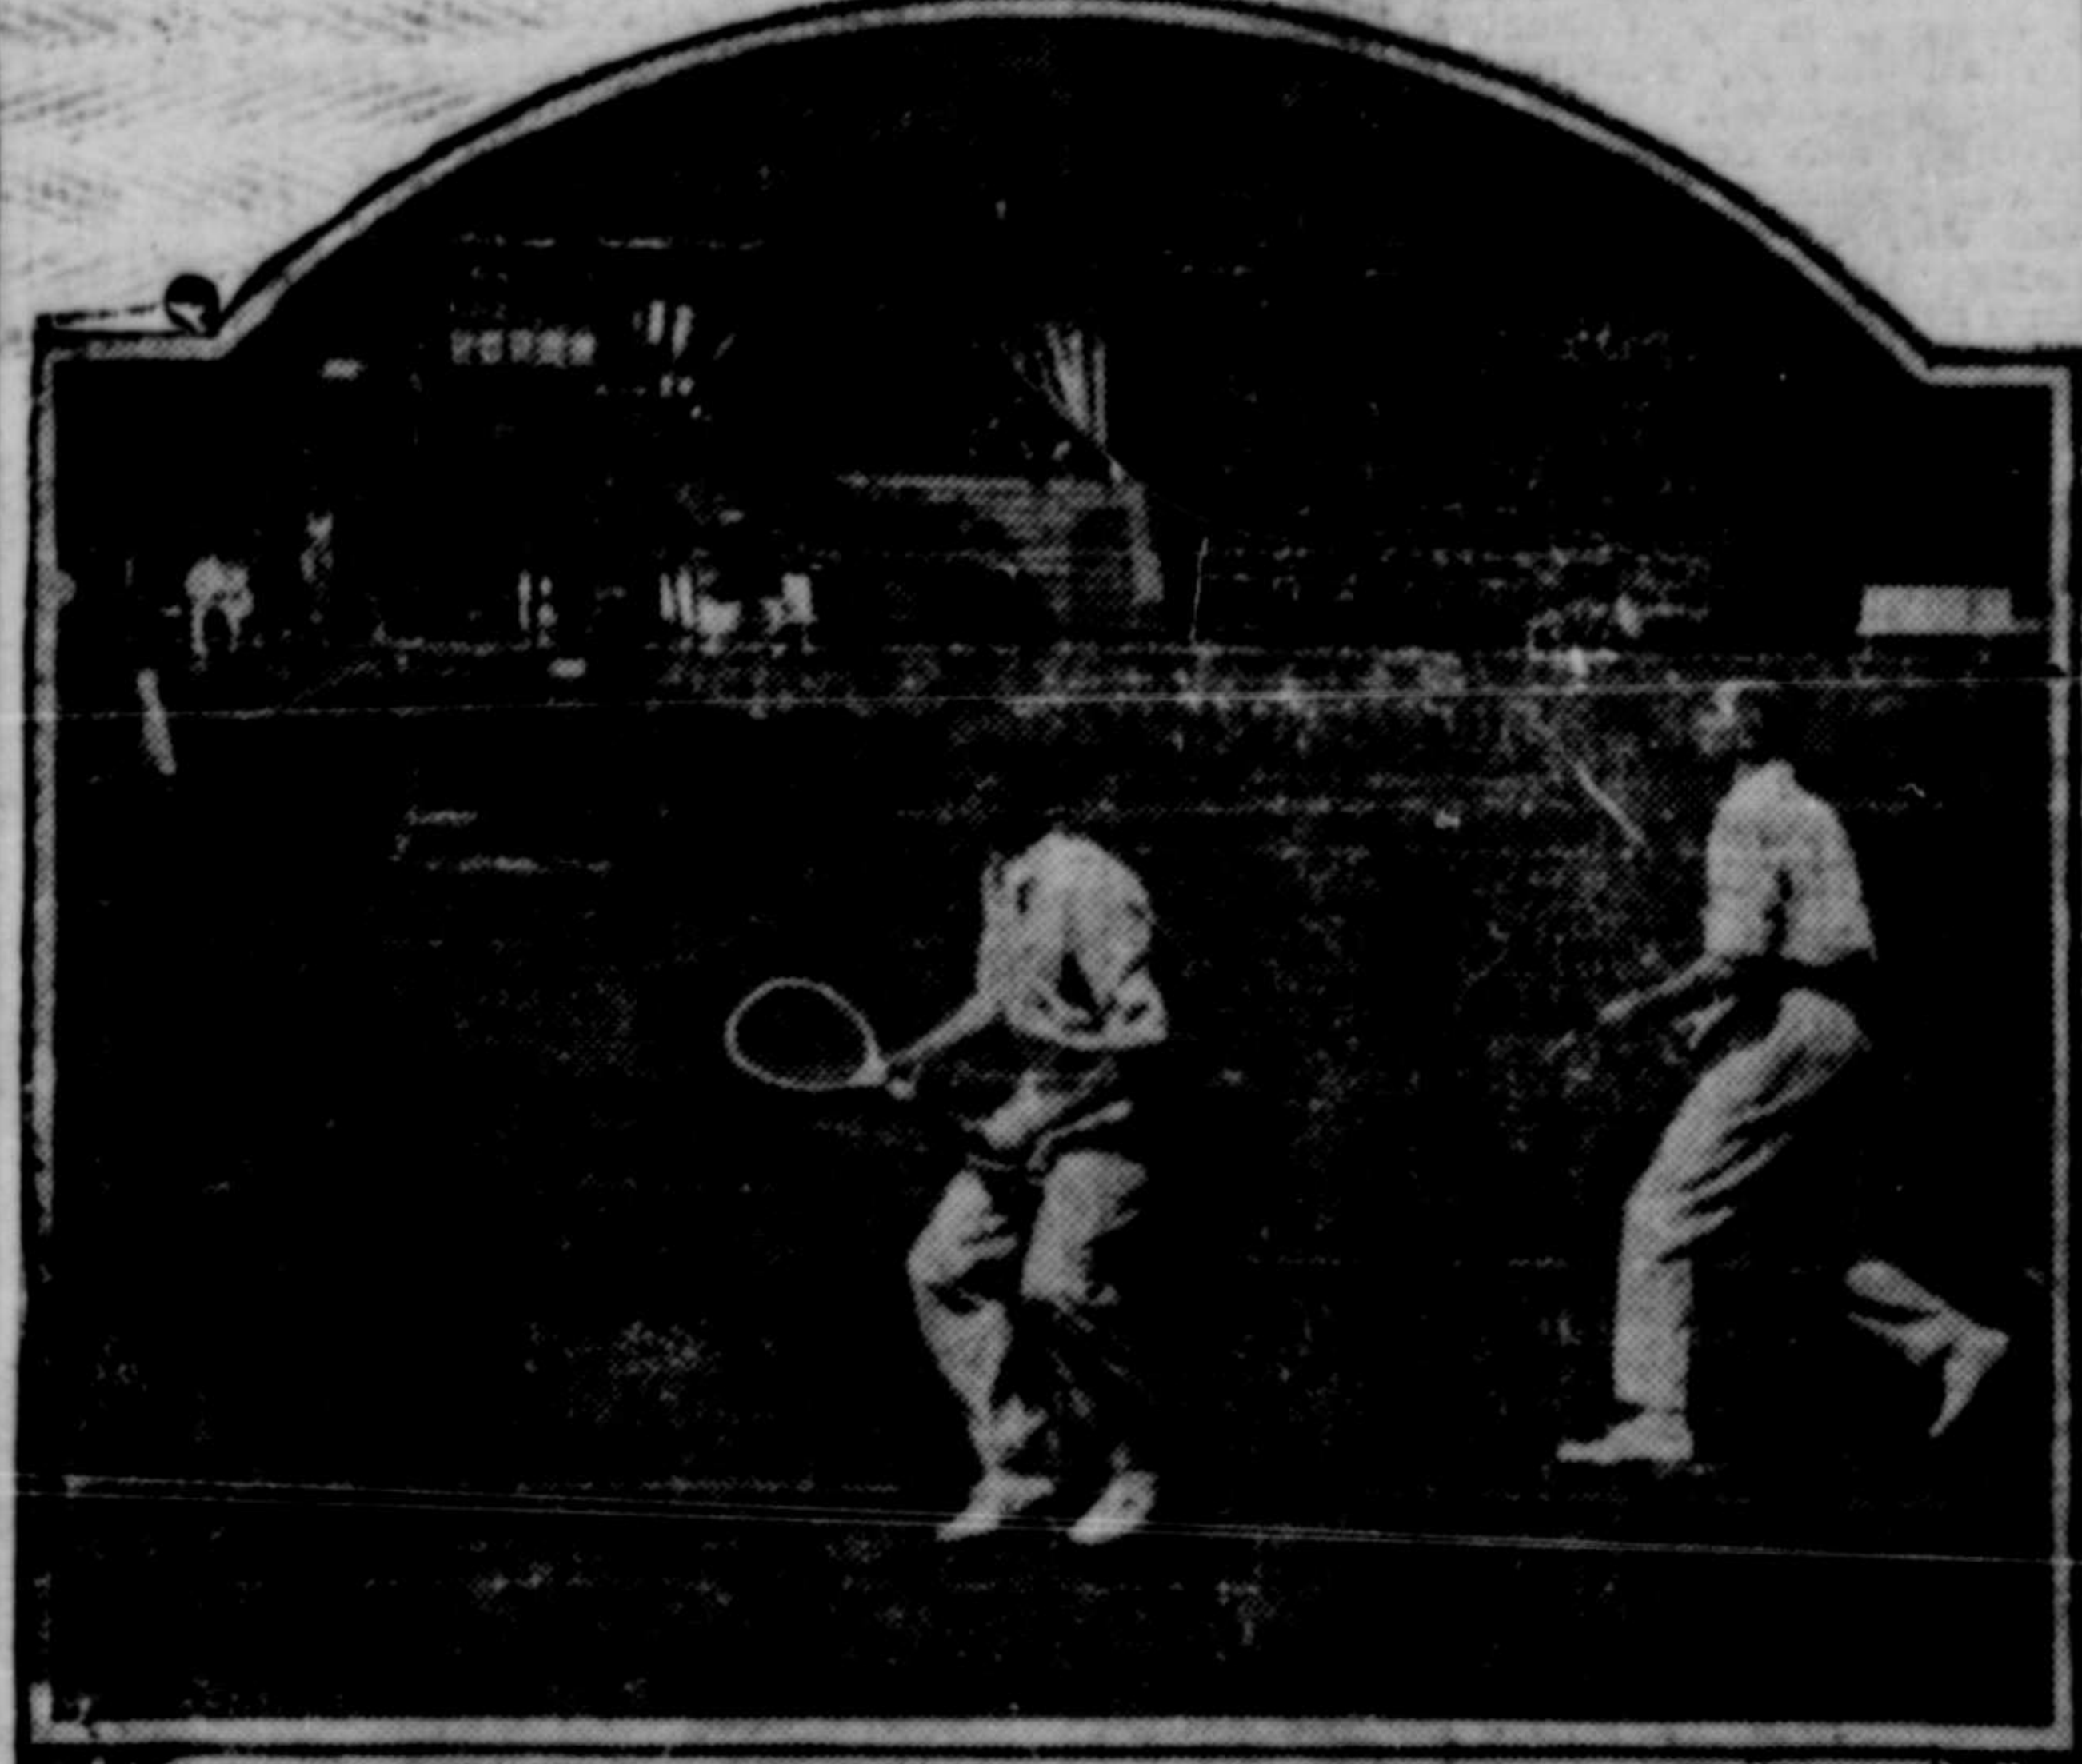

Praise for Beland.
 "In my opinion the plenipotentiaries we sent over to Europe on everything they possibly could, along the line of the progress of autonomy and independent action. They could have done nothing more unless we were to become an independent state, and if honorable gentlemen think that we should become that, they should say so. I do not think so. I think we are very well as we are, not that I partake in any of the crown colony ideas that have been expressed by honorable gentlemen opposite.
 "Before I sit down I want to refer for a moment to the speech that was made the other day in the course of this debate by the honorable minister for Beauce (Continued on Page Three.)

AUSTRALIANS TRIUMPH ON TENNIS COURTS

NORMAN BROOKES (WITH CAP) and GERALD PATTERSON OF AUSTRALIA

Major Norman E. Brookes and Gerald Patterson, tennis players extraordinary from far off Australia, defeated the American national champions, William Tilden and Vincent Richards, in a closely fought contest at Langwood, where the tournament drew three thousand spectators from Boston and the surrounding country.

THOUSANDS HOMELESS IN TEXAS AS RESULT OF BIG HURRICANE: FOOD SHORTAGE

(Special to The News via G. T. P. Telegraphs.)
 Corpus Christi, Texas, Sept. 18.—The list of dead from Sunday's hurricane is around the three hundred mark. The heavy rain is continuously hampering the work of clearing the debris, thus increasing the sufferings of the thousands of homeless. All attempts at identification of the bodies have been abandoned because of the conditions. Burial parties along the shores of Nueces Bay are hurrying the corpses to the nearby towns for interment.

The rain which fell to the east of Corpus Christi is threatening to stop the relief trains hurrying here over the San Antonio and Arkansas Railway. The food situation, serious from the outset, took an acute turn with the arrival of several hundred refugees from the surrounding country.

Apparently uninjured during the voyage over the storm-swept bay in a small wooden box, a baby was rescued. A relief party saw the box floating shoreward and waded out, thus rescuing the child.

LLOYD GEORGE GIVES ADVICE

Suggests That Having Overcome Big Obstacles They Should Not Quake Before Small Obstacles.

(Special via G. T. P. Telegraphs.)
 London, Sept. 18.—Premier Lloyd George spoke before the International Brotherhood Congress but, as expected, did not touch upon the many important questions in which the nation is vitally concerned.
 The Premier was given an enthusiastic reception. "The spirit of comradeship and co-operation," said he, "can effect desired changes. The spirit of deep sympathy with suffering brotherhood, of valor exhibited during the war. Having overcome gigantic obstacles don't let us quarrel or quake before smaller obstacles."

The only fishing boat in this morning is the Ruth with 5.5 king salmon, 100 whites, 20 cohoes and 300 ling cod.

STARVE FIUME IS THE ORDER

Insurgent Forces Who Seized Town are to be Cut off From Supplies.

Geneva, Sept. 18.—The Jugo Slavs have cut off all supplies from Fiume, which is threatened with starvation. There is little food in the town now and it will be unobtainable unless sent in by the sea.

London, Sept. 18.—It is understood that the Italian Government intends to institute a blockade of Fiume to starve out the insurgent forces who seized the place under command of Gabriel D'Annunzio.

Rome, Sept. 18.—Gabriele D'Annunzio's forces have occupied a fortified line around Fiume, according to a dispatch to the Idea Nazionale. D'Annunzio is now in control of all the strategic points. Representatives of the Fiume National Council are reported to have seized all food stocks.

LARGE ATTENDANCE AT FAIR YESTERDAY

This is the big day when everybody goes and when everything is at its best; Many fine exhibits.

With a paid attendance of 750 and with an equal number of those holding season tickets in attendance, the first day of the fair may be said to be a success in spite of the boisterous elements. And the best of it was that the visitors generally were well pleased with what they saw.

Today will be the big day, for tomorrow the exhibition proper will close at four in order to make room for the basketball at 8 and the masquerade dance afterwards. The second day is the day when everybody goes. It is a social as well as an educational event. Everything is now in place and the exhibits are at their best.

Most of the judging was done yesterday and there was keen competition in most of the classes. The flowers and fruit and vegetables, the cooking exhibits and the display of grasses and grain were subjects of remark by everyone.

The bands of course were much appreciated. No ordinary layman can differentiate between two musical organizations that are as good as the two large Indian bands that played at the Fair yesterday. They will be judged on their merits this afternoon at four o'clock.

Industrial Exhibits.
 Of the industrial exhibits probably the largest amount of interest was taken in the pottery making by Mr. Ebring of Vanarsdole. A crowd surrounded his booth all afternoon and evening and he showed them how the potters' wheel was used, practically the same wheel that was used by one Egyptian thousands of years ago. So well pleased were the people with the work that they bought practically everything that was in the stall.

The Delco light and power was shown by Pattinson & Ling and the big searchlight was much in evidence. The exhibit showed a complete system of generating and storing electrical energy and of using it for pumping and other purposes. The pump shown in operation was the sort of thing that it is proposed to install in the new school for fire protection purposes. This plant appeals particularly to the farmer.

Welding.
 Oxo-Acetylene welding was shown in operation by Akerberg-Thomson and also the new long line hauler which the firm has perfected and patented and which is manufactured right in Prince Rupert. Everything for the fisherman or for the launch was seen in this stall.

Parkin & Ward displayed their electrical apparatus and some of the work that electricity will do such as running electric washers, sewing machines, and other things. A sewing machine was in operation and Mrs. Director, the well known corsetiere, was busy giving practical demonstrations of her work.

The Prince Rupert Music Store had a fine piano player showing just how this instrument works and what wonderful musical results may be obtained from it. He also had a display of Starr gramophones.

The drydock people showed their foundry work, the whole process being clearly demonstrated for the education of the public. It made an interesting showing.

Wonderful Carving.
 A war veteran in the person of Alex Yule showed some of his own handiwork in the form of carvings from whale's teeth. The many interesting and wonderful things made from this ivory is most astounding. Since being wounded he is making his living from this former hobby.

Gust Selvin's inlaid work was the centre of attraction to a good many. It showed most painstaking and artistic effort.

Of the straight trade exhibits that of Fuller's Grocery, where there was a fine display of tea, coffee, butter and L. M. F. eggs, as well as extracts, was very pre-

tentious and artistically displayed.
 The Family Shoe Store had a display of their fine shoes, so well known that they scarcely need to be exhibited.
 W. G. Barrie showed a suite of rooms furnished that excited such favorable comment.
 The Robin Hood Flour and Lipton's teas were shown in separate booths and demonstrations of their use given.

N. W. ROWELL DEFENDS HIS OWN CONDUCT

Says He Did Not Slander the Roman Catholics of Quebec and Had Only Praise for Those Who Fought.

(Special via G. T. P. Telegraphs.)
 Ottawa, Sept. 18.—The debate on the address continued yesterday in the House of Commons. The final stage was marked by the reply of Hon. N. W. Rowell to the famous charges made against him in the House by Hon. Charles Murphy, eighteen months ago.
 Rowell declared that the charges were untrue. He denied he had ever received a cent for acting as leader of the Ontario position and asserted that he had accepted the position at a financial loss. It was a falsehood so that he had taken part in a conspiracy to supplant Sir Wilfrid Laurier. He declared further that he had not slandered the Roman Catholic Church in Quebec, but had nothing but praise for the members of the Roman Catholic Church who had gone to the front and served faithfully in the trenches.

SEVERAL CASES IN POLICE COURT

One Vagrant, One Forfeited Ball and an Indian Dismissed.

In the police court this morning before Magistrate McMordie, Nels Johnson was sentenced to thirty days for vagrancy. This is not his first offense. He has been frequently before the court, owing to his strong liking for absences.

Fred Linquist forfeited \$20 bail money in the court today. He was out on a charge of drunkenness and failed to appear as required.

A. Collison, an Indian who was brought to the lock-up by Dominion Constable Watkinson, appeared on the charge of being drunk. The case was dismissed as evidence was brought to show that the native was sleeping from other effects than that of drink. The evidence stated that he was not in any drunken stupor.

BIRTH

There was born to Mr. and Mrs. Lawrence G. B. Davis, of 424 Dunsuir Street, at the Prince Rupert General Hospital on Sept. 8, a daughter.

expansion. It means that the freedom and independence of the people of Belgium have been restored and guaranteed. It means that great France, lying for half a century in hourly dread of the iron heel of ruthless invasion, is now free to develop her great national wealth and power and to pursue the destiny which is hers in the arts and sciences by nature of her country and the temper of her people. It means that the lost provinces of Italy have been restored and it means that the Balkan nations will be a great independent influence in European affairs. It means that the century old struggle of the Serbians, Croats and Slovaks and Hungarians for nationhood has reached its goal.

Right and Justice.
 It means that Poland is now restored as a nation, proving that there is a spirit of right and justice in this world that will overturn the designs of potentates, no matter how careful, who will interfere with the holy cause of a devoted people.

It means that ancient Greece is re-established in a greatness far beyond the dreams of those poets and philosophers who have left an influence on the classic world that is not dead and will never die. It means that cruel Germany, the most cruel, designing and ambitious power that ever threatened the liberty of the world, is humbled to her knees and will never again be able to threaten the foundations of the world. It means that the power of Germany, who arrogantly threatened the liberties of the world and of every man sitting here is unquestionably broken, and I can not sympathize with the honorable gentleman who has such wonderful sympathy for Germany.

If he had suffered as we did, God knows if he had suffered under that tremendous fire of artillery and had endured the treatment which was meted to our prisoners, he would not have that wonderful sympathy. What does this treaty signify? It means that the arrogant and malicious house of Hapsburg which has for ages plotted against the peace of Europe and the liberties of its own people, is swept from its throne. It means that the shallow ambitions of Bulgaria have been curbed for good and all. It means that malignant power, which has for so many ages disgraced civilization is now banished from Europe. It means that Mr. Gladstone is vindicated and the throne of Solomon is still in the desert sands of Arabia.

Happiness and Prosperity.
 It means that if we prosecute the designs of those men whose serene and benevolent wisdom caused this, the world will be filled with happiness and prosperity. It means that the great powerful and liberty-loving nations of the world are going to throw out the life line to the weak and perishing, those people who are now sunk in misery and ignorance and degradation. It means that the vision is to be realized of Him, who nearly two thousand years ago, on calvary, endured for mankind and sent forth his last message of pity and love.

It means that that tremendous humanity, those millions of men in Asia and Africa and other parts of the world, will enjoy that civil and religious freedom which you and I and all of us enjoy. We who are sent here by the esteem and affection of our fellow-countrymen are going to put our shoulders together and burst open the doors of arbitrary power and let in the great flood of God's sunlight that will warm and revive the great struggling masses.

It means that the rough places of the earth are going to be made smooth; that instead of briar shall come up myrtle tree; the land will resound to the sounds of peace and gladness, the people will come to their Zion with joy everlasting, and sorrow and sighing shall flee away.

The valiant colonel was greeted with a regular tornado of applause in which the opposition joined as he resumed his seat.

STRIKE THREAT AND WARNINGS AT CONFERENCE

Labor Delegates Disclaim Intention to Force Class Legislation But Stand by Shorter Hours.

(Special via G. T. P. Telegraphs.)
Ottawa, Sept. 18.—Threat of strikes and a new warning from labor to employers was issued at the meeting of the Industrial Conference yesterday. J. S. McKinnon thought that labor had gone too far in using the term "conscription of wealth" and the eight-hour day in all the industries.
The labor delegates disclaimed any attempt to force class legislation in regard to industry, but they said they would continue to stand by the principle of shorter hours. The speeding up of labor in order to earn profits, either on land or water, was not legitimate.

COUGHLANS TO BUILD DOCK AND STEAMERS

No More Government Vessels But Big Ships on Their Own Account to be Laid Down.

(Special via G. T. P. Telegraphs.)
Vancouver, Sept. 17.—M. M. Coughlans' shipyards are to build a large graving dock on Burrard Inlet, according to a dispatch from Ottawa. The Company will not build any more ships for the Government but will proceed with the construction of nine thousand and ten thousand ton vessels on their own account.

URGE DISCUSSION ON THE COST OF LIVING

Would Ask Country to Endorse Definite Plan at Forthcoming Elections.

(Special via G. T. P. Telegraphs.)
Ottawa, Sept. 18.—J. H. Burnham in urging Parliament to discuss the cost of living asked that scientific methods be applied in Canada. He suggested that a commission be appointed to formulate a definite plan to place before the country at the general elections.

WALLACE REID TONIGHT IN "THE DUB"

(Special via G. T. P. Telegraphs.)
There is a total change of program tonight at the Westholme Theatre and there will be a continuous performance until 11 o'clock tonight. "The Dub" is said to be an excellent play that will appeal to everyone. It is a real holiday film and one that should be seen by everyone.

LEVIATHAN DOCKED

Quebec, Sept. 17.—The Leviathan docked here with 1,283 passengers, 284 soldiers and 200 dependents.

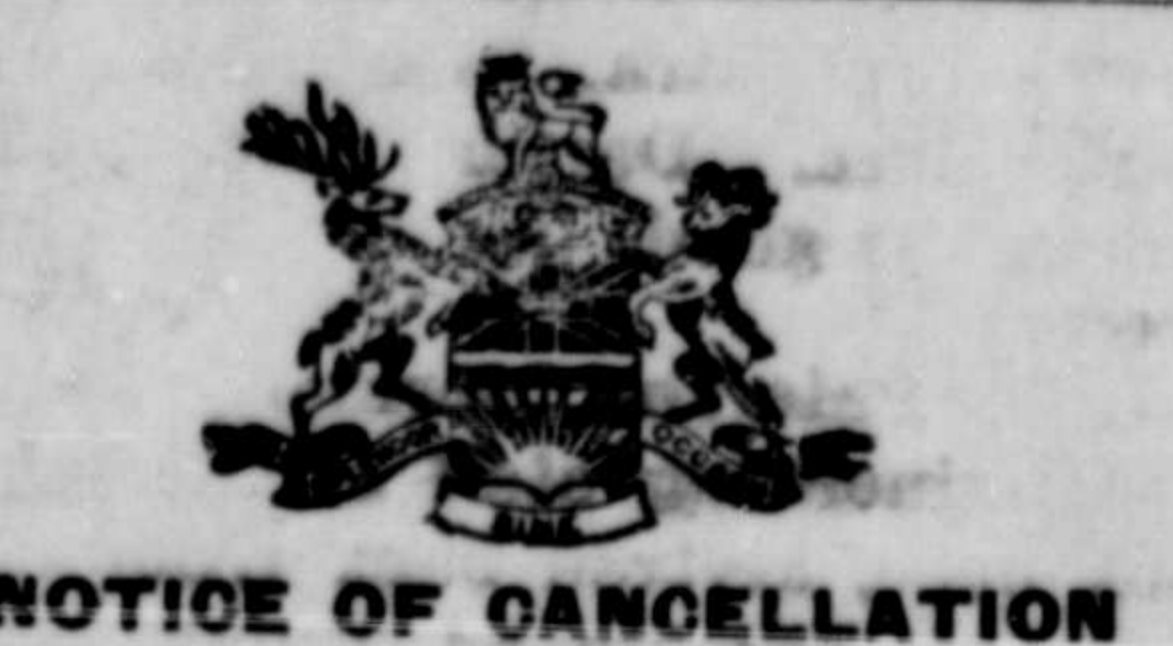

The police have received many complaints that there are parties about the city who are holding out some dead sure propositions to the Indians and are rapidly relieving them of their spare cash. A little talk and they seem to be easily separated from their money on this fine deal and all they have left to show for their funds is a little piece of paper as a receipt with a stranger's name at the bottom.

SPEED BOAT AND THE BALL TEAM REACHED PORT THIS MORNING

This morning the Anyx ball team arrived on the Granby Company's boat, and they expect to play the Prince Rupert nine today. They deny any claim to the championship of Northern B. C., but they have an idea that they may lower the colors of the local men when they meet.

The team brought along a speed boat, one that is reputed to make anything from twenty to fifty miles an hour. Whatever the boat may do they think the boat is a winner. According to rumor it is the fastest thing that has ever invaded these waters.

FRENCH TROOPS FOR ARMENIA

Ten Thousand to be Sent to Join the British in that Country.

(Special by G. T. P. Telegraphs.)

SAVE YOUR SIGHT

EYESIGHT—The most valuable of all the senses—is the most neglected and the least understood. Many suffer from ill, which, upon examination, can be traced directly to defective eyesight.

THE removal of the cause will often restore the delicate and run-down sufferer to robust health. When glasses are properly prescribed, they restore the vision to normal and eliminate all eye strain.

J. V. Paterson, formerly with the engineering staff at the drydock here, arrived back from the south on the Grand Trunk boat yesterday morning.

Members of the Prince Rupert Rowing and Yacht club take notice: The Club is not responsible for boats not properly moored with strong ropes.

At the waterfront this morning near the Rupert Marine an Indian trolling boat was submerged, except for part of the cabin and the masts. The boat had gone dry and tipped over at low tide and then when the waters started to rise it filled rapidly.

The S. S. War Company which has been loading lumber at the boat dock here for the past few days returned to the south this morning. She has been loading the lumber which was left by the Imperial Munitions Board here. Excellent speed was made in the handling of the lumber.

Alex Manson, M. P. P., who has just returned from escorting the Minister of Finance and the Minister of Education through his constituency, says that the visitors were very much impressed with the fine country. They travelled on freight trains and motor cars to Prince George with a side trip to Francois Lake.

Last night in the St. Andrew's Hall an Indian dance was given under the auspices of the Port Simpson orchestra. Many were in attendance and the dancers continued the festivities until late in the evening. When the event was over the streets were crowded with the joy-makers returning to their residences. It is reported that more Indians than ever before are attending the exhibition this year and they all seem to have money to spare.

REPRESS REPUBLICAN MOVE IN IRELAND

(Special via G. T. P. Telegraphs.)

Dublin, Sept. 18.—The authorities are repressing manifestations of republican activities in Ireland. Today the Cork Examiner, one of Ireland's chief daily newspapers, was suppressed. Although opposed to the Sinn Fein the Examiner printed a page prospectus of the republican loan.
