## GOVERNMENT LOSES CASE AGAINST PRINCE RUPERT SHIPYARD LIQUIDATOR

### Premier W.F. Massey of New Zealand Urges Better Naval Defence on Pacific Ocean

VICTORIA, May 6.—Premier Massey of New Zealand who is here from the south on the steamer Niagara, urges the need of stronger naval defence by all the dominions of the Pacific ocean.

Massey said he had no objection to the renewal of the Anglo-Japanese treaty, provided the dominions were allowed to have the right to choose who should become citizens of their countries. He thought a constitution for the British Empire was needed.

The New Zealand premier said New Zealand would not make any attempt to relieve the colony of the mandates given in connection with the government of the Pacific islands, including Samoa. He was very pronounced on this point, dealing with the matter of inter-Imperial trade, Mr. Massey said his country would like to have greater trade with Canada. New Zealand offered a reciprocity law, the adoption of which would tend toward closer relations.

Impasse Arose Over Irish Republic in Discussions Between Rival Leaders

LONDON, May 5.—The hope that yesterday's meeting in Dublin of Sir James Craig, premier designate for Ulster, and De Valera, Irish republican leader, may be a sign of the dawn of peace in Ireland, pervaded the newspaper comment today.

The Evening Standard says it hears that a momentous Irish conference will be held in London during the week end of distinguished Irish prelates and that De Valera and other leading Sinn Feiners are expected to be present.

DUBLIN, May 6.—The conversation between Sir James Craig and De Valera is said in well informed circles to have reached an impasse over the question of the formation of a republic in Ireland.

It is said that in a lengthy appeal De Valera tried to win Sir Craig to the idea of a republic for the whole of Ireland. Sir James replied that no negotiations on such a basis could continue and the interview terminated there.

Many Hopeful Regarding the Outcome of Conference at Dublin.

DUBLIN, May 6.—It is believed the conference of De Valera, leader of the Irish republicans, with the new viceroy and Sir James Craig, the Ulster leader, may result in an agreement of some kind in regard to a new Irish internal policy between the north and the south. It is believed now that all are anxious to find ground for common action before the elections.

Archbishop Du Vernet Urges Closer Co-operation Between the Churches.

VANCOUVER, May 6.—The House of Bishops of the Anglican Church of British Columbia yesterday visited the Presbyterian synod which is in session here and presented to them the Lambeth appeal on Church unity.

Archbishop Du Vernet of Calcutta diocese outlined the purpose of the visit, which it was declared was to make further attempts along the line of closer co-operation between the two churches.

### Winsby Asks Co-operation in Carrying Out Provisions of Moderation Liquor Act

"We want the people to work with us and help make the moderation law a success," said Colonel Winsby at the Rotary Club luncheon yesterday. "The people voted for the law, it is theirs, and we want them to get behind it and help keep the spirit of moderation. If this law fails it is very likely the province will go bone dry, as people call it."

"As soon as the system is under way we intend to go strong on control," the speaker said. "We expect that the municipal police will co-operate in this work but we shall also have men of our own to assist and should it become necessary we shall take over the administration of the act from the municipalities and charge up the cost to them."

#### No Bootlegging

The colonel said he understood that at the present time bootlegging was rampant. It was difficult to tell in which part of the country it was worst. It seemed to be general throughout the province. When the act came into operation it was the intention to get rid of the bootleggers and enforce the law to the utmost.

The board will arrange for delivery of ale and stout and other kinds of beer. In this city they would probably ship it to the central warehouse and distribute from there to the consumers. Some heavy importing had been done recently but very soon all remaining stocks would be sealed. This was the only way they could keep track of them. In the large cities the orders for beer would probably be delivered direct from the brewery, although the orders would be taken at offices provided for that purpose in the same way as for liquors.

#### Plenty of Liquor

"We have a quantity of liquor on hand," declared the speaker, "and there is more on the way so that when we open for business there will be plenty to keep going for some time to come. We shall bring in wine and champagne and sell it at about the same prices that were formerly paid."

"It will be our chief aim to keep the liquor out of public places," continued Col. Winsby. "If liquor were sold over the counter much of it would be consumed on the street and in public places. This we shall try to prevent. The aim will be to try to avoid drunkenness. We want the people to assist us in every possible way."

#### Bone Dry Fallacy

Colonel Winsby went on to say he did not believe any country was really bone dry. No one could say the United States was really bone dry. Prohibition paved the way for the greatest bane of all, the bootlegger. The board was out to make a success of this measure if possible. Many thought they were trying to do the impossible. The whole continent was watching to see if they would make a success of the business. He asked them not to knock because of mistakes. They were bound to make mistakes, but they would be ready to remedy them.

#### Fishermen's Supply

In answer to questions Colonel Winsby said fishermen or others would be able to purchase liquor delivered to their boats as their boats were their homes, in many cases, temporarily at any rate. Those living in hotel rooms could also have liquor sent to them as provided in the Act. There would be a limit to the buying power, but he was not prepared to say what that limit would be. In outlying towns liquor and beer

### ENGINEERS MAKE PLANS OF NEW MILL

H. P. Crowell and J. P. Leland, Technical Construction Engineers Have Arrived.

Two engineers in connection with the Prince Rupert Pulp and Paper Co. arrived last night from Dayton, Ohio, and will make the plans on the spot for the new pulp plant which it is proposed to erect here. They are H. P. Crowell and J. P. Leland, technical construction engineers experienced in this line of work. Mrs. Crowell accompanies Mr. Crowell.

The idea of making the plans here is to adapt them to the site on which the building is to be erected. Everything will be considered in order to secure efficiency and economy.

Mr. Barrows, the hydraulic engineer who is coming to investigate the possibilities of putting in a water power in connection with the plant, is expected to arrive Sunday night.

### C.P.R. GETS BIG GERMAN STEAMERS

LONDON, May 6.—The Canadian Pacific Railway Co. has purchased two big steamers which formerly belonged to Germany, the Kaiserin Augusta Victoria, 25,000 tons, and Prinz Frederick Wilhelm, 17,000 tons.

MONTREAL, May 6.—The steamers purchased by the C.P.R. will be renamed. The Kaiserin Augusta will be the Empress of Scotland and the Prinz Frederick, the Empress of China. They will go on the Pacific run between Vancouver and Hong Kong, calling at Japanese and Chinese ports.

### REGINA PRINTERS GO OUT ON STRIKE BUT LEADER PRINTS TODAY

In regard to checking bootlegging, there would be no fines, but imprisonment would be the penalty.

### Creditors Win Out vs. Government in Shipyard Case

VICTORIA, May 6.—The Court of Appeals this morning dismissed the appeal of the Dominion Government against the ruling of Mr. Justice Murphy in the case of Rex versus Hodges. By this decision the creditors of the Prince Rupert Drydock & Engineering Co. remain in possession of the materials and fittings in the yard valued altogether at \$213,000. In addition to this Liquidator Hodges will have power to rent the plant and sell it after the ships have been completed. In this way the creditors are amply protected and Hodges thinks they will receive one hundred cents on the dollar when everything is settled up.

The ships on which the government held a lien go to the Government.

### Ten Refrigerators Short for Fish Arrivals Which Offered for Sale Today

There is a shortage of no less than ten refrigerators cars at the fish exchange today for the arrivals listed for sale at this port. There were but four cars available this morning and these are being filled with fish already bought. This afternoon the bidders are handling 225,000 pounds of halibut for which there are no cars. This quantity of fish represents the catches of 22 boats, many of which, it is expected, will be forced out of the port on account of the deplorable condition of affairs that is prevailing and for the past few days has been steadily becoming worse.

#### Sold Today.

The following were the sales this morning:

Teton, 16,000, and Lilian, 6,000, to the Booth Fisheries Canadian Co. at 12c and 5c.

Bethune, 10,000; Tramp, 8,000, and Gaygeon, 6,000, sold to the Booth Fisheries Canadian Co. at 11.8c and 5c.

# Leg that Wouldn't Heal

"Ever since a boy of fourteen," writes Mr. John Redmond, of West Flintridge, Que., "I had trouble with a bad leg. I used many remedies. Though some appeared to heal the ulcer for a while, it always broke out again as bad as ever. This last time I suffered continuously for nine years, and the old remedies had absolutely no effect."

"The limb was in an awful state when someone advised me to get Zam-Buk right away. I had only used this herbal healer a few days when I began to see great improvement. So I continued the treatment, for even Zam-Buk needed time to have complete effect. However, I am glad to tell you that it was only by the aid of Zam-Buk that the leg was eventually thoroughly healed. Never again of the ulcer since."

### RUTH ROLAND STAR IN "RUTH OF THE ROCKIES"

New Serial Opens Tonight at the  
Empress Full of Mystery  
and Adventure.

A new serial opens tonight at the Empress Theatre, "Ruth of the Rockies," with Ruth Roland as the star. The story is a highly dramatic blending of mystery and adventure. It deals with a young woman who unwittingly becomes the very centre of a plot by a band of crooks to gain possession of a collection of jewels smuggled into the country. She is made the aid of a secret service agent and receives assistance from a mysterious character who has a way of coming to the rescue in the most spectacular fashion, using an aeroplane to save her on occasions.

Miss Roland has lost none of her skill in the dramatic moments and she surpasses her previous performances in point of being daring and energetic in the thrill stunts.

**"KISMET"** WONDERFUL  
PICTURE OF THE EAST

Film Story at Westholme Tonight  
has Otis Skinner in Leading  
Role

A Magic City; a city of silver and golden domes, of mosques and minarets gleaming in sunlight, sunset and moonlight; bazaars swarming with life and dizzy with color; palaces and harems straight from the Arab of Imagination, and dungeons such as childhood bending over the "Arabian Nights" never pictured; these are some of the scenes pictured in the film story of "Kismet" at the Westholme Theatre tonight with Otis Skinner, the famous actor, in the leading role.

Over three hundred craftsmen labored day and night and wrought a modern miracle. Two months from the day the first nail was driven, the first shovel of sand upturned, there stood ready for the director, "Bagdad," complete in every detail, a new record in motion picture production.

The accomplishment of this enormous task was possible however only through the efficiency of the various departments employed. Little shacks to house the workers were built right on the studio grounds. There were day and night shifts, and no man left the "lot" until the last board was nailed and the last brick laid. "Kismet," aside from the beauty of its story, and its sterling star, will find a niche for itself in the hall of fame by reason of its wonder of construction, if for nothing else.
