L. Maitland Makes Application for Writ of Certiori for His Release.

Magistrate McMordie has received notice that Daniel Leachy, through his solicitor, R. L. Maitland, of the law firm of Maitland & Maitland of Vancouver, is making appeal for a writ of certieri setting aside the conviction of nine months for offering to sell and exposing for sale intoxicating liquor. Leachy was one of the accused in the local Duff sensation and pleaded not guilty, putting up a plausible story in the police court of his ignorance of the proceedings.

The appeal is based on the fol-

1. That no legal evidence was adduced as to the guilt of the

2. That there was no evidence that the liquor alleged to have

3. That the information laid included the charge of two of-

4. That the alleged liquor, sale did not take place in the city of Prince Rupert and, therefore, Magistrate McMordie had no jurisdiction.

5. That there was no evidence to support the conviction and, therefore, the magistrate had no jurisdiction.

6. And such other grounds as appeared on the face of the proceedings.

Dominion Government can see no Way of Interfering to Bring Prices Down.

(Special via G. T. P. Telegraphs.) OTTAWA, March 19 .- That the Dominion Government, while anxious to seriously consider any * suggestion that might help the * situation, is practically helpless * in the matter of bringing prices of lumber down, was indicated yesterday afternoon, following a

What Next Regarding The Peace Treaty?

The United States Senate has refused to pass the Peace Treaty. It required a two-thirds majority to carry the measure and there were seven votes short of the required number. That means that the United States is not a party to the treaty, unless they should reconsider their action.

Republicans blame the president for the failure of the measure. They claim that he acted in a high-handed manner. They suggest that, knowing the power of the Republican party in the Senate, Wilson should have taken the leaders of that party into his confidence and consulted with them before committing the country to any line of policy. It was largely because he did not do so that the Senators voted against the treaty. There was the difficulty of the president being leader of the Democratic party, yet having to submit his plans to the Republicans.

Real Difficulty One of Politics.

Perhaps the real difficulty is one of politics. There is a presidential election in sight and the German-Americans have to be placated and the president has to be defeated. Many politicians are willing to sacrifice the well being of the country of the peace of the world for a party victory. We have had the same thing in Canada on more than one occasion. It is not a question of how to serve the country but how to serve the party and get into power and retain it.

Germany is Still In the Limelight.

Germany is still in the limelight. Fortunately the reactionaries have been held back by the flowing tide of democracy in that country. There is a seething sentiment of restlessness, which has been fanned by the recent attempt to capture the Government by revolution. Hundreds of people have been killed and much suffering has resulted for those who are innocent. That is always the case. The innocent suffer and the criminals escape.

It is to be hoped that the failure of the United States to become a party to the Peace Treaty will have no ill effect on the condition in Germany, Turkey and other countries. It seems to indicate that the allies are divided.

New Prohibition Act Interesting.

It will be interesting to note what will be the effect of the new prohibition measure on the country. It is not yet law, but undoubtedly will pass. As it is a government measure, the feeling of the party will have been tested on it before it was submitted. That is one of the methods of party government.

In this prohibitory legislation it has to be remembered that all of it is more or less experimental. Conditions arise as a result of certain action which is often wholly unexpected. In order to overcome these conditions it is often necessary to modify the made to register Edward H. Mortimer, of laws from time to time, to increase their stringency or moderate under a Tax sale Deed from the them in some respects. This is the reason for the present change.

Prepare Now for

Summer Sports. Spring is coming and those who like outdoor sports are preparing for them. It does not mean that all indoor sports are over, for there may be a good deal of bad weather yet. Organization for summer games, however, will now go steadily forward and it looks as if this would be a banner year for sport.

Serious Outbreaks of Influenza all over Canada

"FRUIT-A-TIVES" Brings Vigor and Vitality and Thus Protects Against Disease

There can be no doubt that the situation regarding the spread of Influenza throughout Canada is one of grave concern. It is quite true that the number of cases does not constitute an epidemic such as caused the suffering and sorrow during the terrible days of 1918. Yet there is no disguising the fact that everyone should be on their guard against the

In Montreal alone, from January 20th to February 21st, three thousand, one hundred and twenty-two cases of Influenza and 139 deaths from the disease were reported to the Health Department.

If the outbreak had come at the beginning of the winter instead of the end, we might reasonably feel that the very cold weather would check the spread of the disease. But coming as it has, at the end of the winter, there is grave fear that an epidemic may occur. For spring, with its slush and rain under foot, its dampness and chill, its constant changing from cold to warm and back again, is a prolific source of coughs and colds, pleurisy and

pneumonia. The best protection, in fact, the only safeguard against the 'Flu, is, GOOD HEALTH.

Those who are not as well and strong as they should be; those who are underweight; those who are "run-down" through overwork or sickness; should build up at once. What they need is a Blood-purifier, a body-builder, a strength-giver, like "Fruit-a-tives", the wonderful fruit medicine.

"Fruit - a - tives" regulates the kidneys and bowels, causing these organs to eliminate waste regularly and naturally as nature intended. "Fruit-a-tives" keeps the skin active, and insures an abundant supply of pure, rich blood. "Fruit-a-tives" tones up and strengthens the organs of digestion, sharpens the appetite, brings restful sleep and renews the vitality of the nervous system. "Fruit-a-tives" contains everything that an ideal tonic should have; to purify the blood, to build up strength and vigor, and to regulate the eliminating organs, so that the whole system would be in the best possible condition to resist disease.

Now is the time to build up your health and strength, not only as a precaution against the ravages of Influenza, but also to protect you against "spring fever" and the inevitable reaction which comes with the appearance of warmer weather. Get a box of "Fruit-a-tives" today and let this fruit medicine keep you

"Fruit-a-tives" is sold by all dealers at 50c a box, 6 boxes for \$2.50, trial size 25c, or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

Sir,-I am directed to acknowledge receipt of your letter of the 17th inst. on the subject of Canadian patent No. 162632, granted to you on the 18th May, 1915, for a "Water Heater" and in reply to inform you that this patent was not made subject to the conditions of Section 44 of the Patent Act, (compulsory licence system) and is governed by Section 38 of the said Act, an extract from which I beg to enclose herewith.

I am also to inform you that the fee for the second six years term has not yet been paid, but it does not come due until the 18th May, 1921. The required amount is \$20.00 and a covering letter referring to the patent by date and number, and stating the purpose for which the remittance is made is all that will be necessary.

I have the honour to be,

Your obedient servant, (Signed) W. J. LYNCH,

Chief of the Patent Office.

Harry Hanson, Esq., 139 Second Avenue, Prince Rupert, B. C.

With regard to the above letter, I wish to say that as I have complied with section and paragraph 38 of the Patent Act, and therefore do not come under Section 44 of the said Act, and as I am equipped and willing to install, make and sell said "Water Heater" to any and everybody, I therefore according to law can, and hereby do withdraw

the privileges of others making these water heaters. I am willing to negotiate for an agency to make my water heater, with anyone willing to pay the royalty of \$2.00 on each one installed on the distinct understanding that a year's guarantee goes with it.

Sport Briefs

Having nothing to say, as usual, about fight matters, Tex Rickard, rumored dark horse in the race after the Dempsey - Carpentier fight, is back in New York after a western trip and a jaunt to the Pacific coast. "Yes, I did see Kearns and Dempsey, but it was a social call I made. My trip to California was a pleasure trip to the west," he said. Gossip in New York has it that Rickard has the fight cinched but is withholding announcement until the charges against Dempsey have been heard.

The flu has just about ceased to be a topic of interest, having apparently abated after having done its worst, but, with its passing, another, though less serious, epidemic has started to take hold on a very large percentage of the local population. It is an epidemic which recurs every spring and, as soon as the grip of winter pegins to loosen and old King Sol begins to reassert his power. this epidemic begins to get in its work, and those who are seized with it take it regularly every year while every year it may safely be said that some new subjects come under its power-As hinted, the epidemic is not often very dangerous and seldom fatal, it is merely the spring fishing fever, what ... cks the devotees of the rod in most cases just as soon as the sunny weather, such as Prince Rupertites have been enjoying recently, revivifies the germ in their blood which impels them to go a-fishing.
