### RECIPROCITY BOUND TO BE AGAIN THE SHIBBOLETH SOON.

Those who in this constituency fought so valiantly at the last Federal election for reciprocity but were defeated at the polls have every reason to take heart and keep the armor of their invincible arguments bright and handy. From present newspaper indications it is soon again to be the question of the hour, and when it does it will be backed by such a preponderence of public sentiment that it will sweep the whole country and carry with it the Conservative party, still whining its fears of annexation and waving the British flag, into the "demm'd, damp waters" of opposition, as Mantilini would say.

The people of Canada, now that there is no political battle raging and they have time for reflexion, can see what has been Little's NEWS Agency lost; see through the political bogies used to scare them away from a proper consideration of their own and Canada's best interests; sighingly admit they were used as the monkey used the CIGARS :: TOBACCOS :: FRUITS cat wholly to serve the selfish ambitions of politicians hungry for office; scornfully recognizing the inconsistencies, the mean and petty shams and subterfuges used by the Conservative party to effect that object. One of the best instances of all this and more 1836 is to be found in a recent issue of the Toronto Globe, under the heading "Wheat, Politicians and Patriotism." It shows the duplicity and unscrupulousness of the party leaders, and brings home to us "the saddest words of tongue or pen."

The announcement was made yesterday, says the Globe, Capital and Reserve Over \$7,300,000 that the Canadian Pacific Railway had so readjusted its transportation charges on its Soo line as to carry wheat and oats from Saskatchewan to Minneapolis and Duluth at the same rates as to Fort William and Port Arthur. The new rates are now in force. This change, it is said, will aid in saving 25,000,000 bushels of grain now unmarketed and suffering loss in Western Canada.

What a humiliation this must be to those "no trade or truck with the Yankees" politicians who four months ago traveled from Lake Huron to the Atlantic warning loyal Canadians against allowing western grain to be shipped to Minneapolis. At that time the grinding of Canadian wheat in American mills meant annexation. Or if annexation might be shunned, then at the very least the millers of Canada would be ruined by this American competition.

And this wild talk was not the campaign chatter of fifth rate | Prince Rupert Branch -Tory politicians alone. The leader in it, its one effective exponent, was Hon. Clifford Sifton. At Cobourg, even more concretely at St. Mary's, and on his platforms everywhere the former Minister of the Interior made this Minneapolis grain bugaboo the burden of his speeches. He denounced

"the proposal under which the hard wheat of the west will be distributed in the United States through Minneapolis and St. Paul, whose millers will grind it, drive our millers out of the export trade, and confine them

merely to the domestic trade." Mr. Sifton knew then, but he did not tell his hearers, that the millers of Minneapolis and St. Paul are free to import unlimited quantities of Canadian wheat and grind it in bond for export trade, and receive in rebates from their Govrnment 99 per cent. of what they paid in duty. American millers are free to use Canadian hard wheat in competition with Canadian millers in the export trade, but the high American duty which the trade agreement would have wiped out prevents Canadian farmers from competing with American farmers in the domestie flour UNION S.S. COMPANY OF B.C., Ltd trade of th United States. Mr. Sifton concealed those facts from the electors. Now the people in the west and in the east are finding them out for themselves, and are finding out also how these interested campaigners humbugged those who trusted them. Mr. Sifton said more: he predicted, to the damage of the prosperity of Canada, "that one hundred millions of bushels of wheat will be diverted from Canadian railways and go south from Manitoba and Saskatchewan through the United States." Prince Rupert every Sunday What have we now? One of the Canadian railways that fought the Liberal Government as vehemently as Mr. Sifton himself lowers its rates on its American line in order to carry within the next three months 25,000,000 bushels of grain from Western Canada to Minneapolis. On the Board of Directors of that railway is Sir William Van Horne, who, in terms not used in polite society, announced his antagonism to the larger markets policy, Northbound, leaves Vancouand also Sir Edmund Osler, who in September last warned West! Toronto electors that such a trade arrangement would make an- Steerage Fare exation inevitable in a generation. These are the very men The "Camosun" is the only steame o now lower the rates on their American railway for purposes that four months ago language could not adequately condemn.

# MR. REAL LOIAIL MAN CAN YOU TAKE A HINT?

The following is a sample of a kind of letter The Daily News frequently receives. This one is from a man in Alberta

Dear Mr. Editor:

Me and some friends of mine would like to buy a few city lots in Prince Rupert, but we don't know anyone at present in Prince Rupert, so we have written to ask if you would be kind enough to send me on your daily paper, as I am told it advertises the most city lots and property for sale in Prince Rupert, for which I send you on some stamps. Hoping you will oblige us, and apologizing for the trouble.

Yours respectfully,

THE DAILY NEWS has the biggest circulation of any paper in the district. It is all bona fide circulation too. It enters the homes of real estate investors in every leading city in Canada as well as England and the United States.
