GERMANY ADMITS REVERSES

The Western Front --- CONSIDERABLE AREA IS CONQUERED ALREADY AS ALLIES INVADE GERMANY

Three Hundred and Fifty Square Miles Taken Along 125 Mile Front — Enemy Airplanes Brought Down

PARIS, September 11.— Three hundred and fifty square miles of German soil has fallen into possession of the allies since fighting began on the western front, it was stated last night. The average depth of the conquered territory is three miles along a 125-mile front between the Moselle and the Rhine Rivers. At some points the penetration has been as deep as ten miles. Light and heavy motorized units have cleared the way for the infantry with artillery giving effective barrage. The French consolidated their new positions, using the enemy defence works against the enemy.

POLAND'S FIGHT IS JUST ONE

Consideration Tells British People
Of His Nation In Regard
To Great Struggle

LONDON, September 11.— The ambassador to London on Sunday night gave a radio address to the people of Great Britain, saying that, since Germany had invaded Poland last week, the war had been invaded by the forces on several fronts and had been continuously mobbed by practically the whole German air force. The Poles, although greatly outnumbered, had bravely resisted this highly mechanized force and their resistance had not been broken. The ministers said the nations supporting Poland because they never had been such a clear-cut aggression against a small nation. At the same time Poland was a non-aggression pact with Germany. The German propaganda machine repeated again and again stories of atrocities on the part of the Poles. These were all unproved lies. The Polish people have to defend their right to live as free men, the Ambassador said. Poland was the first nation to defy Hitler and she was bearing the brunt of the attack. The time was now to come when German aggression would be resisted. The attack on Poland was the signal for the free nations of the world to get together and repel the aggressor.

MEXICO CITY, Sept. 11.—Strong representations are being made to President Cardenas urging him to open up Mexico's neutrality laws so that metals and primary necessities may be sold to warring nations on a cash and carry basis. BRUSSELS, Sept. 11.—Representatives of eight neutral nations in the present war are meeting here today in an endeavour to frame a common policy to safeguard themselves from the conflict and insure, if possible, against their becoming involved. Acts of violation of the neutrality of Belgium and Holland have caused the early conference. The delegates are jurists and economists and the nations represented are Belgium, Holland, Norway, Sweden, Denmark, Finland, Switzerland and Luxembourg.

BACKS UP PRESIDENT

WENATCHEE, Washington, Sept. 11.—Speaking here yesterday while on his way to Seattle to attend a Republican party conference, Senator Robert Taft of Ohio, prominently mentioned as a candidate for the Republican presidential nomination, declares that entry of United States into the European war would mark the end of democracy. He expected this country would be able to keep out of the war. Agreeing with President Franklin D. Roosevelt, Taft urged repeal of the arms embargo under the neutrality act and the adoption of a cash and carry selling basis.

Canada's War Declaration Is Formally Made Sunday

OTTAWA, September 11: (CP)—Following adoption late Saturday by first the Senate and then the House of Commons of the Speech from the Throne, Canada yesterday formally declared war upon Germany, thus lining up actively with the United Kingdom and other parts of the British Commonwealth of Nations. The declaration of war is effective as from September 10.

At 1:10 p.m. (9:10 a.m. Pacific Standard Time) the Prime Minister's office sent to the Canadian Press a copy of the special edition of the Canada Gazette containing the proclamation. Naval, military and air force authorities throughout the Dominion were at once advised.

Thus Canada, exercising her rights and responsibilities as an independent nation, has cast in her lot with the British and French against German aggression and has become a self-declared belligerent for the first time in the history of the Dominion.

All doubt and speculation about Canadian status ended yesterday when, little over thirteen hours after Parliament had given almost unanimous approval to the Speech from the Throne, the special edition of the Canada Gazette proclaimed the state of war between Canada and the Reich.

Parliament is still in session to consider special war measures and is today proceeding with the serious business of providing the sinews of war.

Hon. J. L. Ilsley, minister of national revenue, told the Canadian Press a few minutes before the House started its session this afternoon that a wartime budget would be brought down tomorrow.

The Prime Minister said in the House that a bill creating a ministry of munitions and supply would be introduced.

Types and numbers of machines are kept a close secret but, if the speeding up is maintained, by September's end Canada will have approximately 150 first line fighting, bombing and other machines on hand. According to a dispatch from Warsaw Polish Staff Captain Vacciac Piliński, in a Warsaw broadcast, said Polish anti-aircraft batteries had brought down fifteen German bombers. Last night German tanks in droves attacked but were driven off, he said.

The Polish radio station at Lwow declared that, after four days of bloody fighting, the Polish army had forced German invaders to retreat from some of the Warsaw suburbs. The Lwow station, about 220 miles southeast of Warsaw, said that German planes were bombing the heart of Warsaw but did not estimate the casualties. A Warsaw broadcast earlier indicated that the Poles were still holding the capital's defence lines. Meantime in Moscow the Soviet press regarded as improbable further effective resistance by the Poles against German forces.

Similarly on the Pacific Coast considerable work is in hand at Patricia Bay on Vancouver Island and at Allford Bay on Queen Charlotte Islands.

Throughout Canada, from Halifax to Vancouver, there is a long line of emergency landing fields. These were begun by the previous administration, back in 1932, as unemployment relief projects and they have gradually been developed. "SHOULDER TO SHOULDER"

"Canada stands shoulder to shoulder with Britain in this war." There is no mistaking these words. Prime Minister Mackenzie King, who has been in close touch with the British through the British High Commissioner for the past year or two and has shared all the jittery moments of which we have known little, is fully convinced that the British cause is right and just. He knows the inside story and, on his advice, Canada has declared war.

HITLER WANTS PEACE

Hitler, after making a drive into Poland and killing a large number of the people of that country, sinking the Athenia and setting nation against nation, would like to make peace on the basis of keeping all he has conquered. He also would keep Danzig and the Polish corridor.

While we do not know the mind of the people of Poland or of Great Britain and France except what her official spokesmen have said, we feel sure that this war will be continued until Hitlerism is destroyed. It is too late to talk peace. The time for that was before the war started.

STILL RALLYING

Canadians in this part of Canada continue to join the local defence units steadily. The ranks are filling up but still there is room for more. If anything untoward should happen on this coast all the men will be needed. Just now they are getting necessary training in defence work and are being organized so that they may carry out their duties in the best possible manner.

CROXFORD IS WINNER

Takes Tip Top Tailors Model Yacht Trophy

The Prince Rupert Model Yacht club on Sunday sailed off the final race for the Tip Top Tailors' Trophy which now becomes the property of A. J. Croxford for a year.

The race itself was run off in good time but, owing to other calls, only four of the seven boats were sailed. There was little to choose on the first leg of the race with S. Hingston, A. J. Croxford and H. Gawthorn all close together. On the second leg Hingston established a substantial lead and Gawthorn rounded the second buoy ahead of Croxford. Hingston increased his lead on the home run but for some reason picked up and did not finish. Gawthorn crossed the line first and was followed by Croxford with Lamb not far behind.

As a result of the race A. J. Croxford wins the Tip Top Tailors' trophy and holds it for a year. S. Hingston is second, H. Gawthorn is third.

It is planned to hold a social evening on Friday of this week in the Canadian Legion clubroom when trophies for the year will be presented to the winners.

LODZ FALLS TO GERMANS?

BERLIN, September 11.—Lodz, Poland's second largest city, was claimed last night in German quarters to have been occupied. Warsaw was being quickly encircled, it was stated. Lublin, temporary capital following evacuation of Warsaw by the Polish government is reported to have been found untenable by foreign diplomatic representatives.

Although the victim of forty air raids during the day and fighting fiercely against German armies the city of Warsaw is still holding out. Last evening the Germans made a fierce raid with tanks and got within the suburbs of the city but were repulsed and the tanks captured. It is also claimed by the Poles that fifteen airplanes have been shot down by Polish anti-aircraft guns.

Polish reports last night said that the great mass of the Polish army had not yet been placed in action and that its morale was excellent.

Radio broadcasts, believed to have originated in Germany but spoken in Polish and placed on the same wave length as Warsaw, described what purported to be the entrance of Warsaw by the Germans.

Continued rapid advances, with heavy losses by the Poles, are reported in official German communiques.

Vice-chancellor Herman Goering says the conquest of Poland can be hoped for by September 14. Chancellor Hitler is reported to have made a flight over the Polish battlefields yesterday.

SEARING ITALIAN FLAME-THROWER GIVES HINT OF POSSIBLE FIGHTING

A preview of what is in store for enemies of Italy in a possible future war is this searing flame thrower with which most all of Italy's newest army tanks are equipped. The flame throwers are not new, having been used by Italy during the conquest of Ethiopia. This photograph was taken at Sicily, Italy, during preparations for war manoeuvres. The weapon serves a two-fold purpose, providing a smoke screen that hides the advancing tanks and literally consuming everything that stands in its path.

CANADA'S AIRMEN WERE SENT EARLY

(Continued from Page One)

like a duck to water. During the Great War men like Air Marshal Bishop, V.C., Colonel Barker, Colishaw, MacLaren, Mulka, and others created a tradition in the old Royal Flying Corps and Royal Naval Air Service which set up a mark for future generations to shoot at.

Canadians outnumbered men from the other Dominions in the war-time R.F.C., and at one time made up more than 40 per cent of its personnel. It was a Canadian who shot down Germany's No. 1 ace, Baron Manfred von Richthofen, whose squadron second-in-command was Lieutenant, now Marshal, Goering. Germany's present No. 2 Nazi took over when Richthofen was killed.

Air Force Function

In the event of hostilities, the function of the Air Force would be to attack any hostile craft approaching Canada's shores. With their great bombing range and high speed, the machines now used by the fliers would be able to cruise from 300 to 400 miles out to sea, reconnoitering a vast expanse of ocean.

Torpedo bombers descend almost to the surface of the water, let loose their torpedo and make their getaway. The others follow the orthodox practice of unloading their "eggs" on top of the surface craft.

For submarine reconnaissance aircraft are also useful, since observers at a height are better able to discern the "feather" of a submarine than those on the same level at a distance away from it. Thus reconnaissance and attack would be the functions the airmen would carry out, in addition to dealing with hostile bombers and freighters which might appear.

A useful duty would be scouting over the isolated inlets of Newfoundland and Labrador, which afford concealment for any enemy raiders. Recently the R.C.A.F. carried out a survey of that region, looking for possible landing fields, and, possibly, for places were potential enemy vessels might be able to hide.

Such a survey was executed last year on Anticosti Island and a place selected for an air base.

Christian Principles Will Have To Be Forcefully Applied, Declares Young Speaker

Urged By Pastor At Morning Service In First Presbyterian Church Yesterday

Sacrifice on behalf of God in Christ's example of fortitude rather than for motives of acclaim or material benefit was urged by Rev. H. G. Funston, pastor of First Presbyterian Church, at morning service yesterday. In the making of important decisions in these times of stress, there should be the spiritual consideration, asserted the pastor.

taken this should not be forgotten. The churches had been somewhat abstract in the past. The speaker cited a creed of four essentials—first, serenity of soul; second, abiding by the aim; third, loyalty to the Christian principle of love; fourth, tolerance. There must be a firm belief in the Christian gospel. There must not be a fear of applying beliefs. Sentiments of revenge must be forgotten. More than ever today was toleration needed by the world.

Present conditions were due to a waver of wrong principles, said the speaker. Hope, however, should not be lost. The sun would come out after the storm which would have shown up the things that need fixing.

Sea In Defence Of Netherlands

Hollanders Ready To Open Famous Dikes If Invaded In War

AMSTERDAM, Sept. 11: (CP)—If the Netherlands should be invaded her citizens may resort to a daring collaboration with their old enemy, the sea, in an attempt to hold off the foe.

Military experts say carefully worked out plans for flooding a vital area of this tiny country by opening the dikes are ready in the generals' offices.

The unique part of this "water line defence plan"—as it is called—is that the Hollanders would be fighting not on the dry but on the wet side of the line. They would stay on the inundated area with intercommunication assured, they believe, by certain roads possessing elevation enough to remain above the water level.

The Netherlands hopes, of course, that she can remain neutral as she did on the Great War and she is following a cautious diplomatic policy.

Get a Hollander talking in private, however, and he will tell you how much he fears the possibility of a German invasion now Germany and Great Britain have gone to war.

KISS YOUR TIRED FEELING GOODBYE!

Pepples Many Suffer Low Blood Count—And Don't Know It.
The baffling thing about low blood count is that you can weigh about as much as you ever did—even look healthy and strong, yet you can feel as if you had lead in your legs, dopey, tired and peppy.
Low blood count means you haven't got enough red blood corpuscles. It is their vital job to carry life-giving oxygen from your lungs throughout your body. And just as it takes oxygen to explode gasoline in your car and make the power to turn the wheels, so you must have plenty of oxygen to explode the energy in your body and give you going power.
Get Dr. Williams' Pink Pills today. They are world-famous for the help they give in increasing the number and strength of red corpuscles. Then with your blood count up, you'll feel like bounding up the stairs as if you're floating on air. Ask your druggist for Dr. Williams' Pink Pills today.

HARDYS ARE HERE AGAIN

Another Series Of Popular Family Pictures Showing At Capitol Theatre

Taking the familiar group to Detroit in response to the startling announcement that they have inherited a fortune, "The Hardys Ride High," another of this popular series of family pictures, is being featured for the first half of this week at the Capitol Theatre. The family encounters legal difficulties over the expected fortune. Judge Hardy, facing the opportunity to win the money by a bit of dishonesty, takes the law squarely and the family returns home as poor as ever but quite as honest.

The same cast as in previous pictures appears with several additions. Lewis Stone, Mickey Rooney, Fay Holden, Cecilia Parker, Sara Haden, Ann Rutherford, Polly Benedict and Don Castle are back again while new in the cast are Virginia Grey, Minor Watson, William Orr, Halliwell Hobbes and John King.

An added attraction on this picture program is a special film showing the production of the Vancouver Province newspaper.
