The Anglo-French guarantee to Poland will be followed by similar commitments to other countries which stand in the way of an attempt by Germany to dominate Europe, Prime Minister Neville Chamberlain announced in the House of Gommons today. Although Chamberlain did not specify the countries he had in mind, it was generally expected that Roumania would be the first to be given a guarantee similar to Poland's.

Great Britain's new policy of solidifying the nations opposed to German expansionist aims could not be carried out if the guarantee was confined to Poland, Mr. Chamberlain said.

In the event that Germany had ino aggressive intentions against her neighbors, any agreement to resist her would become inoperative, the Premier said.

#### HOW WE DISAGREE

In a democracy like ours we have the right to think and talk for ourselves. This is one of the greatest blessings. It is worth while defending the various world democracies if only for this one thing. In Canada we all disagree. Some of us have ideas in common and we talk over the ideas with others holding similar views. We may even differ from Mr. Mackens. We may believe it is wrong to fight under any circumstances whatever but people are usually ready to fight for the right to think. We may believe in dictatorships and say so or we may believe in the forcible ov erthrow of the government but we hardly expect to be allowed to say that in public. It is against the law. There Don Budge Wins is always in every country a limit beyond which it is not safe to pass. We have the greatest possible amount of liberty and often we grumble because we have not more. And we have the right to do this.

#### GOVERNMENT TELEGRAPHS

Last week the Government Telegraphs went out of business so far as handling traffic in this city is concerned. It was stated by the department under which it operated that it was intended only as a pioneer system. That means that Prince Rupert is now beyond the pioneer stage and is entering on a period of steady development.

Many people regretted to see the removal of an institution which served the city well for many years. Its incorporation in the Canadian National system may make the local service even more effective than in the past. Wel feel that we can rely upon Prince Rupert being well served.

#### FRIENDLY CRITICISM

We have received a letter of friendly criticism from SERIES IS. F. Miller of the work of the Prince Rupert Horticultural SERIES IS Society. Exception is taken to the method of giving prizes for gardens whose owners employ help and suggesting that this does not help the working class.
