Federal Parliament Now Prorogued

Public Inquiry Into Disaster To Sub Session At Ottawa Is Now Ended; Unique In Several Respects

Water In Torpedo Tube Was Cause Of Naval Catastrophe

Premier Chamberlain Makes Statement in British House of Commons in Regard to Affair—Sabotage in Both Thetis and Squalus Disablings Suggested

LONDON, June 5: (CP)—There will be a full public investigation of the sinking of the submarine Thetis with a loss of ninety-nine lives, it was announced in the House of Commons today by Prime Minister Neville Chamberlain. The Prime Minister said that two forward compartments were flooded through a torpedo tube when the submarine met with an accident while carrying out acceptance trials. The investigation will begin as soon as the craft has been brought to the surface which may be from five to ten days. The vessel is at present resting on an even keel in 130 feet of water in Liverpool Bay. The discovery yesterday that one more man was on board brought the death list up to ninety-nine in the worst disaster in submarine history. Premier Chamberlain said that, even after the submarine was located, sixteen hours was lost as a result of slipping off of a wire hooked around the hull. This tore off the marking buoy. The Prime Minister said that the submarine carried almost double the ordinary crew but this did not overload the craft but did contribute to the accident. Before the Prime Minister spoke R. S. Johnson, managing director of Cammell, Laird Ltd., builders of the Thetis, announced that the original cause of trouble was water in the forward torpedo tube. A secret inquiry by the Admiralty has already been conducted. It has been said that had divers been sent down fifteen hours earlier all on board might have been saved. The tide has delayed the work of raising the Thetis. A naval expert said that the current was so strong no effort could have saved the crew. Lack of precautions in the test was claimed. Newspapers have been demanding a full inquiry. Sabotage Possibility? NEW YORK, June 5: (CP)—Possibility that sabotage caused the disabling of both the British submarine Thetis and the United States submarine Squalus is suggested editorially by the Daily News.

WASHINGTON ROYAL HOME

Red Brick Mansion to be Gay for Coming Visit

WASHINGTON, June 5: (CP)—Home to King George and Queen Elizabeth when they visit the United States next week will be a massive red brick mansion two miles from the White House. As guests of the United States government, the royal couple will live at the White House during their stay in Washington but, if they themselves entertain, it will be done at the British embassy. The Embassy, built in 1930, is no Buckingham Palace. It is a nice big house with a ballroom, master bedrooms and a dining table that seats 36. Chief of its attractions is a rolling green lawn, flanked with beautiful rose gardens. There Ambassador Sir Ronald Lindsay and his wife give their famous spring garden parties. For official affairs such as Their Majesties might give, servants don the livery of state—white stockings, red plush knee breeches, dark blue coats with silver braid frogs and shoulder knots. Usually the embassy servants wear personal livery of the ambassador—dark blue coats with red facings. If there is an embassy garden party during Their Majesties' visit to Washington the wide piazza overlooking the garden will be the centre of things. Sir Ronald and Lady Lindsay usually receive there. Low steps descend the terraced walks of black slate set into concrete onto the lawn where refreshments are served under tents of white and red canvas. There are rose gardens at either side. Borders are flowering shrubs—forsythia, lilac, rose of Sharon, mock orange. At one side of the lawn there is a small blue swimming pool and beside it a tennis court. The impending visit has set off a polite scramble by Capital society for invitations to those functions which will be presided over by Their Majesties.

HITLER IS SUSPICIOUS

Still Talking About Encirclement—Daladier Says France Ready

LONDON, June 5:—Chancellor Adolf Hitler charged in Berlin yesterday that the British and French aim now and before the world war was the encirclement of Germany but a quarter of a million veterans cheered when he proclaimed that German defence measures now have been radically changed. He said that the Reich was ready.

As if in reply to Hitler Premier Edouard Daladier said in Paris at a National Socialist party meeting that France favored collaboration. He warned, however, that his country was now fit to resist any attempt to dominate Europe. He also said that there was every reason to hope the negotiations with Russia would succeed.

In London the Hitler speech was taken as evidence that there was no reason to lessen defence measures. They are, in fact, being speeded up and, during the summer and early fall, Britain will mobilize more than 800,000 men.

The Chicago Cubs crept up into a tie for third place with the Pittsburgh Pirates by winning from the Phillies while the Pirates were splitting a double bill with the Brooklyn Dodgers. New York Yankees continued their winning ways by downing Detroit Tigers yesterday and their margin of leadership is now eight-and-a-half games over the second place Boston Red Sox who split a double bill with Cleveland Indians. On Saturday the Yankees made ten hits to beat Cleveland three to two. As a result of weekend play Chicago White Sox are now in third place ahead of the Indians. Philadelphia Athletics took a pair from the St. Louis Browns Saturday and split with Chicago White Sox yesterday and have advanced from seventh place to the leadership of the second division.

### POWER OF PERSONALITY

Often in our national life we see the power of personality in swaying multitudes. Many of our political leaders have had wonderful personalities. There was that splendid old father of Confederation, Sir John A. Macdonald, and he was followed by that wonderful French Canadian, Sir Wilfrid Laurier. Both rose to power through their personalities. Now we find it exemplified in the King and Queen whose personalities have captured the people of Canada during their present trip. It is a wonderful power. We saw it in Europe first in the rise of Mussolini as a leading European statesman and then came Hitler, with a tremendous personality, much as many of us dislike it. We find it to a considerable extent in DeValera in Ireland and, according to political writers, Neville Chamberlain has it although in a totally different way. Any man to be a great leader must possess an outstanding personality.

### \$30 EVERY THURSDAY

Since the Townsend pension plan has been dropped the people of the state of California have worked themselves up into a state of something approaching mass hysteria over a proposal to pay every citizen \$30 every Thursday. So powerful has become the movement that Governor Olsen has promised to call a special election in order that citizens may express themselves in regard to the proposal. Where the thirty dollars is to come from nobody seems to know but, evidently, many of the people of the state seem to think they will get it.

### ALL ARE SELFISH

It is not only of recent years that people of all democratic countries have voted for what they consider will benefit themselves. For ages people have done that but there has been confusion of ideas as to what is good for people. Various 'isms have been propounded and people have supported them but only in a moderate way. It remained for the province of Alberta to leave the beaten track and vote for social credit because the people were promised a regular bonus. Needless to say they did not get it. Then there was a scheme in the United States known as the Townsend plan which promised to provide large pensions to retired workers after a certain age. It flopped because men behind it were dishonest. The very latest seems to be the Thirty Dollars Every Thursday scheme under which no person will get less than thirty dollars a week if the state can get the money to pay that amount.

We suggest that all the incomes in the country including the income of the banks would not pay all the people of the country thirty dollars a week for life. We have not worked this out ourselves but the statement seems reasonable. We have to distinguish between wealth and income. Wealth is mostly potential wealth and is not available for distribution until it is converted into income. It is income that pays the weekly wage. To say that a person is a millionaire indicates that he controls a million dollars in potential wealth from which he may derive a possible income of thirty to fifty thousand dollars a year. But even that is a large income and only a privileged few are able to secure it. In spending that amount a number of other persons live comfortably so that the amount actually used by the man himself is very small.

## SOFTBALL STUFFING

Best brand of Senior League softball to date this season was dished up at the Gyro Park Friday night when Grotto defeated Three Two by a score of four to one in one fixture while Lipsett's took the measure of Acropolis Hill in the other. The former game was a battle royal and enough feeling was worked up to make it good and snappy. Grotto scored twice in the third inning and once each in the fourth and fifth. Three Two's sole tally came in the seventh and last stanza.

Teams were:  
Grotto—Howe 2b., Roma lf., Hatchford 1b., Santerbane 3b., Gillis cf., M. Montesano rf., Yager p., Morgan c., Simundsen ss.  
Three Two—Beynon ss., Hutchings rf., Irish 3b., Gurvich c., Dominato 1b., Mah 2b., Campbell lf., A. Murray cf., Parlett p.

Although beaten 10 to 7 by the fast moving Lipset outfit, Acropolis youngsters showed further improvement and, given a little more practice and experience, there is reason to believe that the mountaineers will be in there fighting with the best of them before the season is much further advanced. The scoring went three for Lipsett's in the first inning, one in the third, fourth and sixth each and four in the seventh. Acropolis scored three each in the first and second and one in the sixth.

Teams:  
Lipsett's—Smith rf., Lambie cf., Windle 3b., Lindsay p., Naylor ss., Scott 1b., Stone lf., Tobey c., Johnson 2b.

Acropolis—O'Neill c., Magnet p., Bird 1b., Gillis 2b., Schaeffer ss., Schaeffer 3b., Schaeffer lf., Clark cf., Mentenko rf.

Grotto, the only unbeaten team so far this season in the softball league, is pitted against Moose tonight with Lipsett's taking on Three Two who tasted the dust for the first time on Friday night. The standing to date is as follows:

	W	L	Pct.
Grotto	3	0	1000
Three Two	2	1	.667
Lipsett's	2	1	.667
Moose	1	2	.333

## HAT TRICK TWO TIMES

Simundsen Distinguishes Himself In High School League

Two games were played on Saturday afternoon in the Booth Memorial High School inter-house football league between teams representing Alpha and Beta houses. In the junior game Beta won by a score of six to two. Beta also won the senior game five to two.

For Beta in the junior game Simundsen scored three goals. Pierce 2 and M. Holkestad 1. Cleone and Lee scored one each for Alpha. As Alpha had already won the second half of the league this game makes no difference in the league standing. Alpha will meet Beta, the winner of the first half next Saturday in the final play-off to decide the winner of the league. This game should be worth watching as the juniors have much improved and play a nice brand of football.

In the senior game Simundsen playing for the senior eleven again got three goals. M. Holkestad and H. Holkestad scored one each. Scorers for Alpha were Husoy 1 and Hodgson 1. Beta has still a chance to win the second half of the league and earn the right to meet Gamma, the winner of the first half in a final play-off.

### Local Swiss Read Of Hitler Threat Against Country

Local Swiss residents read in the latest newspapers from Berne, published about three weeks ago, that Chancellor Hitler of Germany demanded that all surplus food stuffs produced in the country be sent to Germany in exchange for raw material. Failure to comply with the demand, the Fuehrer suggested, would mean that his long arm would reach out to Berne. The Swiss newspapers suggested it was too bad Hitler's tongue was not long enough to reach out to that country.

### CAREER OF DESPERADO

"Jesse James" Is Current Feature  
Offering at Capitol Theatre

The wild career of the most ro-  
mantic outlaw in the history of  
America is depicted on the screen  
in "Jesse James" which comes to  
the Capitol Theatre here for the  
first half of this week with Ty-  
rone Power in the title role and a  
cast which is headed by such stars  
as Tyrone Power, Henry Fonda,  
Nancy Kelly and Randolph Scott.

The picture shows accurately  
how Jesse and his equally notori-  
ous brother, Frank, played by Fon-  
da, began their career of crime  
as a direct result of the murder  
of their mother by an unscrupu-  
lous railroad hireling. Jesse shoots  
the murderer and, swearing to  
avenge his mother's death, goes  
from raid to raid with an ever-  
increasing price upon his head.  
Then comes love and Nancy Kel-  
ly gives up a life of ease to share  
the reckless career of the hunted  
outlaw and to bear his son alone  
in the hills. Continuing, the film  
delineates the reckless deeds of  
the cold and ruthless desperado  
until his betrayal and death at  
the hands of the "dirty, little  
coward" of song and story who  
sold him out to the law.

The picture is all in technicolor.

### Whifflets From The Waterfront

The fine new fisheries patrol boat  
Kitimat, which has been assigned  
to northern districts, arrived in  
Prince Rupert yesterday from the  
south and tied up at the Armour  
floats where she was a centre of in-  
terest. The Kitimat, 87 feet long  
and diesel powered, was recently  
built at Vancouver to replace the  
patrol steamer Givenchy. The ves-  
sel is equipped with a 180 h.p. Viv-  
ian engine. Her speed is something  
over ten knots per hour. She is  
sturdily built and comfortably ap-  
pointed. In command of Capt. L.  
Sheppard, the Kitimat sails tonight  
for Queen Charlotte Islands.

Each with large passenger lists,  
three coastal liners were in port

Yukon for the season. In all there  
were 185 passengers on the Louise,  
five disembarking at this port and  
fifteen going north from here  
aboard her.

### NEW ROAD TO COAST

Terrace Hears Proposal To Reach  
Coast at Kitimat—Dr. Morrison  
Speaks

TERRACE, June 5.—The Board  
of Trade of Terrace held its  
monthly meeting at Terrace Hotel  
Thursday last with a very good  
attendance of members and visi-  
tors and guest speaker Dr. Hugh  
Morrison, inspector of schools. Dr.  
Morrison spoke upon the topic  
"Our Obligation to Democracy."  
Beginning with an outline of the  
origins of the democratic principle  
he urged a more general apprecia-  
tion of the advantages of that  
principle in the administration of  
the affairs of the nation and  
stressed the obvious fact that the  
opposite principle, which was  
totalitarianism, would be distaste-  
ful when it became necessary to  
submit to muzzled expression in  
our opinions and in the press.

Harry King, president, occupied  
the chair and thanked Dr. Morri-  
son for his address.  
A letter from Stewart Board of  
Trade was read, advocating a new  
route for the much needed high-  
way to the coast. Gordon Kerr,  
who spoke for the automobile com-  
mittee, outlined a suggested route  
which would continue the present  
road from Terrace toward the hot  
spring at Lakelse Lake and on to  
Kitimat. From Kitimat it could  
follow the north shore of Douglas  
Channel and use a fairly low pass  
to the Ectall River and thence to  
Port Essington. From Essington a  
ferry could connect with a road
