PRICE FIVE CENTS

TENTATIVE MOVE TO AVERT WAR WITH GERMANY

AS POLICE COMMISSIONER MAYOR OUTLINES HIS POLICY

Official Appointment of Commissioners J. H. Thompson and Ald. Bullock-Webster, Followed by Meeting Yesterday Afternoon --- Mayor as Chairman of Commission, Enunciates Stringent Views Regarding Licensed Premises

At their first meeting for 1912 the new police commissioners certainly found a gratifying report from Chief Vickers awaiting them. The chief had only one very serious case of crime to report, that was the robbing case in which John Rajalen was the victim of Fred Ankers and his friends who were sent down for two and three year sentences for the offense. Amongst the expenses incurred by the police force during the past month appears items totalling some \$90 which is the cost of diving and other operations in connection with the double drowning disaster whereby Captain Tallander and his son were lost from the sunken ship Rosa. It cost \$36 to take Albert south in connection with his case. This was a bargain price, stated the chief. Advantage was taken of the south going of a batch of provincial prisoners and about half the usual cost of sending a prisoner south was saved. The chief reported the total expenses of the

department, including pay roll for twelve months past, was \$12,945, and this will be made the basis of the estimates for this year. Chief Vickers was complimented by the new board. Routine business being transacted, and accounts passed for payment, the Mayor proceeded to make certain remarks about the administration of the police department by the commission in future. He stated that information had reached him that the hotels were lax in adhering to the terms of their licenses and the regarding sale of liquor, particularly on Sundays. As chairman of the commission the Mayor suggested that the chief of police be instructed to be still more strict in administering the law in regard to the sale of liquor to guests in hotels at the regular meal times only on Sundays. Guests may not order meals at all odd times as a pretext for obtaining liquor. The Mayor suggested that the board pass a reso-

lution to this effect, and also insist on the closer pursuit of the elusive blind pig by the police chief. Rev. F. W. Kerr sought and gained admittance to the board session, which was declared an absolutely open meeting, just at the juncture when the Mayor suggested more rigid discipline for the restricted district in regard to the sale of liquor down

EVIDENCE TOO SLIM Alleged New Westminster Bank Robbers May Escape.

(Special to Daily News.)
Victoria, Feb. 9.—Although nothing officially has been received from New York, it is generally believed in the Attorney General's department that the evidence against McNamara and Dean, the men alleged to be the robbers of the Bank of Montreal at New Westminster, is not sufficient to secure extradition. It is thought the Pinkertons have not been able to make out a strong enough case. The third man arrested recently in Chicago in connection with the case has been given his liberty, the Attorney General not considering the evidence strong enough to commence extradition proceedings.

NEW ISOLATION HOSPITAL ON DIGBY ISLAND COMPLETED

All Ready to Receive the Furniture, Which Has Been Purchased and is in Victoria Awaiting Shipment---Proposition That City Might Obtain From Federal Government Temporary Use of Building Pending Construction of One at City's Expense

The new Federal Government isolation hospital which nestles on an unnamed island in one of the bays of Digby Island easily seen from the waterfront, is practically completed with the exception of the furnishing, and the furniture, it is understood, has all been purchased and is now at Victoria ready for shipment. One day during the past week, when a representative of The Daily News visited the island, there were plumbers from

Prince Rupert finishing their work there, and then the building is ready for occupancy and the only additional work in sight, the clearing off of a small portion of the grounds for the completion of the walks, and the making of lawn and flower beds. The government has gone to a large expense and has built a large and handsome and well-equipped hospital for isolation purposes as will ever be needed for many years. It is not expected that it will often be used at all, but the thing is to have it there in case of emergency, and it is constructed on a scale that shows the faith of the Laurier Government in the rapid growth of Prince Rupert and its ultimate importance.

Suggestion for City Council

It suggests the thought that as the city is much concerned as to where to find a permanent site for an isolation hospital for city use, the difficulty might be solved by an application to Ottawa for the temporary use of this in-

stitution, which would serve all the purpose and relieve the city of a large expense. Whether the government would favorably consider such a request remains to be seen, but it seems worth the trouble of applying on a chance it might; for then no leading citizen could register the same plaint when he said that "My son was dragged from his bed at midnight and flung into the middle of a fifteen acre field with nothing but a canvass tent to cover him." Here the patients would be surrounded by all the home comforts and the resources of medical and surgical science, with a Nature's beauty spot in which to ramble during the period of convalescence.

Tiny Garden of Eden.

Not a glimpse of the hospital building can be seen from the harbor, it being screened by huge spruce and other coniferous trees, some of which measure six feet in diameter. There are natural paths through this bit of

NEW REGULATIONS FOR TIMBER LEASES

Bulky Forestry Bill Read in the Legislature—It Provides For New Department Under Which Timber Lands Will be Advertised and Licences to Cut Will be Granted by Tender—Some Other New Features

(Special to Daily News.)
Victoria, Feb. 9.—The short session of the House yesterday afternoon was taken up wholly in the reading of the bulky Forests Act in committee of the whole. The House adjourned early on account of the Government caucus and its appointments with deputations, and also to allow the private bills committee to hold an evening session to meet a Vancouver civic deputation.

pretation it sets forth that a timber leasehold shall mean lands included in timber leases granted after the 31st of December, 1879, showing that all present leases come under the proposed bill in addition to lands included in any timber lease hereafter granted. The issuance of these new leases is to be under entirely different regulations than were the old ones. The land comprised within the license to cut and remove timber is to be surveyed and cruised by the Government, and is then to be advertised in the Gazette and not less than three newspapers in the district of said land, and tenders asked for the license, the bidders to state the price offered and the number of years desired for the removal of the timber, copies of

all plans, surveys, field notes, cruises and classifications to be open for inspection and examination by intending purchasers. The bill creates a provincial forestry board consisting of a chief forester and not less than five foresters and other officials, who shall be appointed by the Lieutenant Governor in council, the function of which board is to ensure the carrying into effect and the enforcement of the provisions of the new act.

Canadian Forestry Association.

(Special to Daily News.)
Ottawa, Feb. 9.—At the final session yesterday of the Canadian Forestry Association's annual meeting John Hendry was elected president and Hon. W. R. Ross territorial vice president.

BRITAIN'S WAR MINISTER HURRIED OFF TO GERMANY

LEAVES IMMEDIATELY AFTER INTERVIEW WITH KING
GEORGE AND MINISTER FOR FOREIGN AFFAIRS—FOREIGN OFFICE MAKES STATEMENT AS TO OBJECT.

(Special to Daily News.)
London, Feb. 9.—With regard to the sudden departure of Viscount Haldane, minister of war, to Berlin last night, after an interview with the King and Sir Edward Grey, the Foreign Office this morning makes an official statement. It was supposed the object of his journey had a direct bearing on the strained relations occasioned by the popular indignation in England over the conviction and sentence of Bertrand

Stewart at Leipsic as an English spy. The statement of the Foreign Office is that Viscount Haldane, as president of the Royal Commission on University Education, has gone to Berlin to investigate scientific education in German universities, but as he is well known to many leading people in Germany he doubtless will have general conversation on the political situation and the relations between the two governments.

NOT A SINGLE HEAD BROKEN NOT A SAD FUNERAL NOTE

HOME RULERS ALLOWED TO HOLD THEIR MEETING IN BELFAST AND LISTEN TO ADDRESSES BY CHURCHILL AND REDMOND.

Belfast, Feb. 9.—Not even a head broken here yesterday in connection with the Home Rule meeting addressed by Right Hon. Winston Churchill and John Redmond. After speaking, Churchill left on a special train two hours before scheduled time in order to avoid any possible demonstration against him. Crowds last night paraded the streets until a late hour, but there were no disturbances. The troops be held there over Sunday.

SONS OF ENGLAND NOTICE

OPENED AT LAST

Equitable Vaults in New York After Great Fire

(Special to Daily News.)
New York, Feb. 9.—The security of the Life Assurance Company were opened today for the first time since the fire that destroyed the society's building. The vaults contain securities and papers representing \$282,000,000, all of which are intact and unharmed. The company states that no papers representing investments or assets were destroyed by the fire.

BREACH OF HEALTH ACT

Two Persons Charged in Police Court This Morning.

Two cases of violation of the City Health bylaw came up this morning before Magistrate McMullin. Those charged were H. B. MacDonald of the Dominion Hotel and Morris Katura, owner of the double deck row of cabins on Fraser street. Evidence was given in both cases by the sanitary inspector and other witnesses to the effect that there was an accumulation of rubbish about both premises. Magistrate McMullin adjourned the cases until 2 p. m. today.

THE WEATHER.

Twenty-four hours ending 5 a. m., February 9: Bar., 29.387; max. temp., 48.0; min. temp., 36.0.

A SANITATION ULTIMATUM

City Sanitary Inspector McFarlane Issues Warning to Citizens Regarding the Accumulation of Rubbish About Premises.

"I wish to impress upon the mind of every individual of this city that the health regulations must be closely observed. "Any person who refuses or neglects beyond a reasonable time to carry into effect the instructions given by the Health department must suffer the penalty of the law. "It is not my desire to be other than fair and reasonable in the discharging of my duties, but the time has come when every precaution must be taken to keep the city in a perfectly healthy state.

"L. C. M'FARLANE, "Sanitary Inspector."

AUSTRALIAN WINS

Defeats the English Champion in Billiard Test

Amid a remarkable scene of enthusiasm George Gray, the champion of Australia, beat H. W. Stevenson, the English champion, in the second "test" match at St. George's Hall, Liverpool, and having also won the first game played in London, the Australian became the winner of the "test" game and \$2,500. At the finish of the game Gray was also presented with Burroughs & Watt's cheque, \$300, for the highest break, 839. The final scores were: Gray 18,000; Stevenson 17,229.

Best room in town at the Savoy.

SUPERIOR FREEZING UP.

Greatest of the Great Lakes Almost Entirely Covered With Ice

Duluth, Minn., Feb. 9.—Lake Superior is believed to be freezing over its entire area. If so, it will be the first time in the memory of the white man.

The ice field is now so great that open water can be seen from only a few points on either shore. With February's fame as an ice making month, there is great reason for believing the entire surface will become solid. Lake Superior is 420 miles long and 167 miles wide and its depth is 900 feet. It is the largest body of fresh water in the world.

Pantorium Pioneer Cleaners. Phone 4.

IS APPOINTED TIMBER EXPERT

Capt. McCoskrie of Prince Rupert is Now in Hazelton District Doing Forestry Inspection for the Provincial Government.

Captain Edward McCoskrie, veteran navigator and timberman, whose long experience on the North Pacific coast is utilized by the Provincial Government, has been appointed timber inspector for Queen Charlotte and Skeena districts. He is at present visiting the Hazelton section for the purpose of preparing for the new forestry bureau a report on the logging and tie making industries. He is now engaged in inspecting the saw mills of the district and looking into timber conditions generally.

Captain McCoskrie states that steps are to be taken to regulate the cutting of wood for fuel. In the past wood cutters have taken thousands of cords from government and private lands without the payment of any royalty. From now on this will not be allowed, but the regulations of the department will be enforced and the rights of land owners respected.

WOMAN SUES CITY

Damages for Vaccination by Montreal's City Physician

Montreal, Feb. 8.—Mrs. Marie Boillard, in a suit started against the city of Montreal for \$10,000, alleges that her seven-year-old son has lost the use of his left arm as a result of vaccination performed upon his arm by one of the city physicians in accordance with the compulsory vaccination law.

SALE OF CITY LOTS

Auction Gathered Big Crowd in the Empress Theatre.

The announcement of a sale of lots by auction brought together a large crowd at the Empress Theatre last night, the length of the list probably having something to do with the interest manifested in the sale. Frank Ellis, who made such a successful sale of the lots in Section 2, was the auctioneer, and the bidding was at times spirited. The lots offered were principally on the east side of McBride street.

St. Andrew's Society.

The regular meeting of the St. Andrew's Society will be held this evening in the Carpenters' Hall at 8 o'clock.

SUPPLYING CASE

Stevio Saranovich Charged with Giving Indian Girls Hooch.

A complicated case of alleged liquor supplying came up before Magistrate McMullin this morning. Accused, Stevio Saranovich, was charged with supplying liquor to Jane Wells and Margaret Johnston, Indian girls, in his cabin on Second avenue. Evidence was given by Indian Agent Perry and Constable Adams. Accused in his own defense stated that he had no liquor, had not bought whisky for months and had not been in his cabin at the time charged. The case is adjourned until tomorrow.

For row boats and launches telephone 320 green. Davis boat house.

PRINCE RUPERT TWENTY MINUTES AGO

Two adjourned cases of alleged contravention of the Public Health bylaw are being heard before Magistrate McMullin in the police court. Sanitary Inspector McFarlane issues an ultimatum to the citizens regarding observance of the sanitary regulations. Rain comes again with joyous sound to drench the dry and thirsty ground. Mayor Newton mentions that the main item of business before Council tonight will be the City Engineer's report on his consultations south. The "Man in the Street" predicts that there won't be enough chairs at the city hall tonight for everybody to sit down.

Convention of Liberals!

A convention of British Columbia Liberals will be held at O'Brien's Hall, Hastings street, Vancouver, on February 29th, 1912. Upon purchasing a first-class ticket to Vancouver via C. P. R. and obtaining at the time of purchase from the ticket agent a standard certificate, and upon the signing of this certificate by the Secretary of the Convention, the holder will be entitled to a return ticket at one-third the usual fare.

DAILY EDITION.

FRIDAY, FEB. 9

NATURAL RESOURCES SHOULD BE RETAINED.

At a dinner given in Chicago recently Thomas Alva Edison gave out the following pregnant prophecy:

"Within a comparatively short time coal will be virtually unknown as an article of common usage. It will become more of a curiosity, stored in vast power houses, its energy will be thereby disseminated.

"As the electric motor has but one movement—rotary—the time is coming when the electric motor will move the world. In a few years all of the railroad terminals of this country will be electrified. The main lines of railroad systems in mountain regions where there is water will also be electrified, and ultimately all lines of railroads will be propelled by this motive power.

"The time is not far distant when all traction vehicles will be operated by electricity."

Mr. Edison might have said further that most of the electric energy of the future will be obtained, not from the consumption of coal, but from the development of waterpowers.

They who own the waterpowers twenty years hence will own the world—which is why long-headed capitalists are making plans everywhere in Canada to secure control of our rivers. The stupendous scheme, outlined in a recent issue of the Manitoba Free Press, by which a group of speculators propose to secure the entire waterpower of the St. Lawrence in its ninety-foot fall from Lake St. Francis to Lake St. Louis, thereby developing one million horsepower at an estimated outlay of \$100,000,000, is the most striking evidence of what is going on in the minds of the captains of capital.

In this regard the lengthy bill considered by the Provincial Legislature last night for the better conservation and preservation of standing timber and the regulation of commerce in the products of the forests may be a step in the right direction.

Australian Government Curing Drink Habit Adopts Famous NEAL CURE
Sending Sunshine and Happiness Into Hundreds of Darkened Homes Instead of Inflicting Fines or Prison Cells Upon Her Unfortunate Citizens
The government of South Australia has set an example worthy of imitation by the other nations of the world. Owing to the extent, enormity and the awful consequences of the drink habit, they have for years past been investigating its cause, effect, treatment and possible cure.
In the year 1910 Rev. A. C. Rankine, commissioned by that government, visited the United States, and after a thorough investigation of drink habit treatments, returned to his government last September and gave a detailed and lengthy report recommending the adoption of the NEAL THREE-DAY DRINK HABIT CURE. The government of South Australia adopted his report, and established the cure in a large government sanitarium, where those addicted to the drink habit are treated at government expense, instead of being fined or sent to prison cells.
During the first ninety days 182 persons so affected were perfectly cured by the Neal treatment at government expense and restored to citizenship. In addition to this, reports show that more than double that number availed themselves of the Neal treatment in private sanitariums in Australia.
Scientific research and investigation of the centuries has recently culminated in the establishment of the fact that the drink habit, so called, is caused by the poison of alcohol stored up in the system by the long continued or excessive use of alcoholic liquors, and that the man or woman thus afflicted is as much in need of and must have medical help as if suffering from typhoid fever or other serious ailment. Dr. Neal has solved this problem. He has not only demonstrated the above, but he has found the drug which antidotes this poison, and, combining same with other well-known neutralizing and eliminating drugs, he has originated the Neal treatment, which in thousands of cases, has perfected absolute and satisfactory cures in the short space of time of only three days.
The Vancouver Neal Institute is one of the many that is carrying on the good work, and grateful patients every day attest to the efficiency of the Neal treatment.
If in need of help yourself or if you have a friend who is losing his strength, write for booklet giving full information.

NEW ISOLATION HOSPITAL AT DIGBY

(Continued from Page 1.)

wild wood, and but very little work would make it of a sylvan loveliness that would cast into the shade any bit in the famed Stanley Park of Vancouver. The dropping of the needles and cones of the firs for years untold has formed into a soft and springy carpet of green, through which many wild blooming plants push their way, and on the Dodge Cove side is a beautiful grove of crab apple which in the early spring is full of blossoms and redolent of delicate perfume.

Clams and Wild Fowl.
 The entrance to the hospital is by way of Dodge Cove, the island back of the grove and clump of big trees being a drear gravel bank, and it is in this open space the site for the hospital was chosen. So that the buildings are entirely sheltered from ocean storms and yet open to the sunshine gleaming from the dimpling waves on either hand. Altogether the island is but eight hundred feet long by four hundred wide, the gravel bank being largely composed of clam shells and there is said to be any number of clams for the digging. Water fowl of all kinds and in large numbers congregate in the little bays.

"American" Eagle Poaching.
 On a rock seen only at low tide at the entrance to the cove three eagles were perched fishing for herring. One was of the baldhead variety, and the next fellow, on whose bronzed neck and breast the sunshine shimmered and glistened, was strongly suspected of being what is proudly called by our neighbors an American eagle. For not only American eagles but many Americans also are prone to fish in these waters when there are no guns or Canadian gunboats about.

Has a Stately Effect.
 The hospital is built in the form of an L and is sixty-four feet on its west elevation and fifty-six feet on the north. It is two storeys with attic, the sky lines being broken by dormer windows and overhanging eaves, and there is also a commodious basement, with rooms for storage, the heater, laundry and other purposes. The whole is of reinforced concrete, the first storey being of natural stone color and the upper part of the building of a deep, rich green. On the west, south and east sides a wide veranda runs around, under which are the basement windows. There are two entrances to the building, the one fronting Dodge Cove having two broad flights of concrete steps with balustrades of the same material, and the one on the east a single flight. At the side of this is a smaller entrance and hall for the nurses and servants.

Three Separate Wards.
 Entering by the larger door on this side of the left of the wide hall is a commodious dining room for nurses and staff, with kitchen and pantry en suite. On the other side is the operating room, evidently one of the most modern character. Seated at the table the operator can turn on hot or cold water merely by pressure of the knee against a lever on one side or the other, and other modern appliances will doubtless find their way here by the time the furnishing is completed.

There are three wards, each of which will accommodate from ten to twelve persons, with a separate bath room and toilet separate. This is so that each ward may be totally isolated from the other when necessary; but there is a nurses' room so arranged that it has a large window giving upon each of the three wards and there will be nothing to obstruct the view.

Three Private Wards.
 By a wide stairway, with finely turned newel posts and balustrade, the next floor is reached. Here are three private wards, each fitted with its own linen closet, bath and toilet and every possible convenience. Each can be entered from the outside or from the inside without any connection with the rest of the building, as there are three separate

entrances to this floor. Above this the attic is divided into pretty rooms for the nurses and help.

Lawns and Broad Walks.

The next work is the preparation of the ground about the building. Some of this has been done already, but there is about twelve hundred yards of gravel to be removed to bring the gravel bank to the level of the entrances, part of which is to be in lawn and flower beds and the rest in broad walks of crushed white shell that will make the grass look all the greener by force of contrast.

The Quarantine Station.

This isolation hospital is intended to be a mere adjunct to the quarantine station to be erected at the point on Digby Island right across Dodge Cove from it. There is to be constructed a large dock that steamers may lay alongside. From this dock there will be two covered passageways, through one of which the patients from vessels quarantined will be taken to the detention wards, which will be fitted up for medical treatment; and from these wards along the other passageway to a vessel when they are discharged. Only those suffering from the more severe forms of infectious and contagious diseases will be taken across the cove to the isolation hospital. None of the work on the site of the quarantine station and detention sheds has yet been begun.

POLICE COMMISSION

(Continued from Page 1.)

there. He would like to have the sale of liquor in the segregated district entirely prohibited and the prohibition enforced in order that the sale of intoxicants may be confined to the legitimate channels. Many evils, he said, arose from the sale of liquor in Gomox avenue resorts. The Mayor hinted at a possible considering of measures later toward the still closer restriction of the restricted area, perhaps eventually its abolition, though he himself favored the system as being at least preferable to scattered retreats of immorality here and there in the city. Commissioner Bullock-Webster agreed with most of this and expressed the feeling that the existence of a restricted district makes for a more wholesome city in all other districts at least, and a safer place for law abiding women and children to move about in.

Commissioner Thompson simply suggested that the laws as far as they go be strictly enforced. If they are not perfect laws, still let them be as well enforced as possible pending their improvement.

The Mayor went on to refer to the lenience of the police magistrate in regard to fines inflicted on certain offenders. He believed that in most cases of blind piggers, gambling houses, etc., the infliction of a mere \$100 fine or so inclined to make the offenders simply repeat the offense. This made practiced offenders simply allow for the fines and go on offending. Punishment "at a \$500 clip" would end the evil. Frequently Chief Vickers had gone to considerable expense in securing evidence for convictions only to hear a \$100 fine imposed which did not even meet the cost of getting evidence. The Mayor said that if the law did not provide for heavier fines then with the advice of the City Solicitor he would apply to Victoria for improved legislation.

On the question of Sunday pool and billiard playing the Mayor spoke further. He was against this. A bylaw was before the Council against it and would probably become law on Monday night. The question of a square deal to working men who might instance the playing of billiards and pool in wealthy men's clubs while they are debarred from playing on Sundays was touched

on by Alderman Bullock-Webster. The Mayor did not know how the club licenses were administered, but Chief Vickers informed him that they were granted by the Provincial Government, and there was no city jurisdiction over them. In private premises, whether owned by rich or poor, billiard playing is quite admissible any day. After further discussion on this the board adjourned until the 6th of March at 3 p. m.

TRAFFIC SUPT. SOUTH

Mr. and Mrs. A. E. McMaster Leave With Miss McMaster by Rupert

Mr. and Mrs. A. E. McMaster, and Miss L. McMaster left for Vancouver on the ss. Prince Rupert this morning. Mr. and Mrs. McMaster will probably return to Prince Rupert in about ten days. Miss McMaster is going east and her stay away from the city will be more prolonged.

Vernor Smith is Better

The many friends of V. W. Smith will regret to learn that he was confined to his room for several days the past week suffering an attack of quinsy. He is now able to be out again.—Omineca Herald.

KELLY SOLD OUT

Prince Rupert Freighter Disposes of His Hazelton Branch.

While here last week, says the Omineca Herald, Frank Kelly of the Union Transfer Co. of Prince Rupert sold out the Hazelton branch of the business to Ed. McBeth, who has managed it since it was started last summer. Mr. McBeth has a first class outfit in every respect and he will do well in the freight business in this district.

Prince Rupert's leading hotel—Savoy.

Macdonald at Hazelton

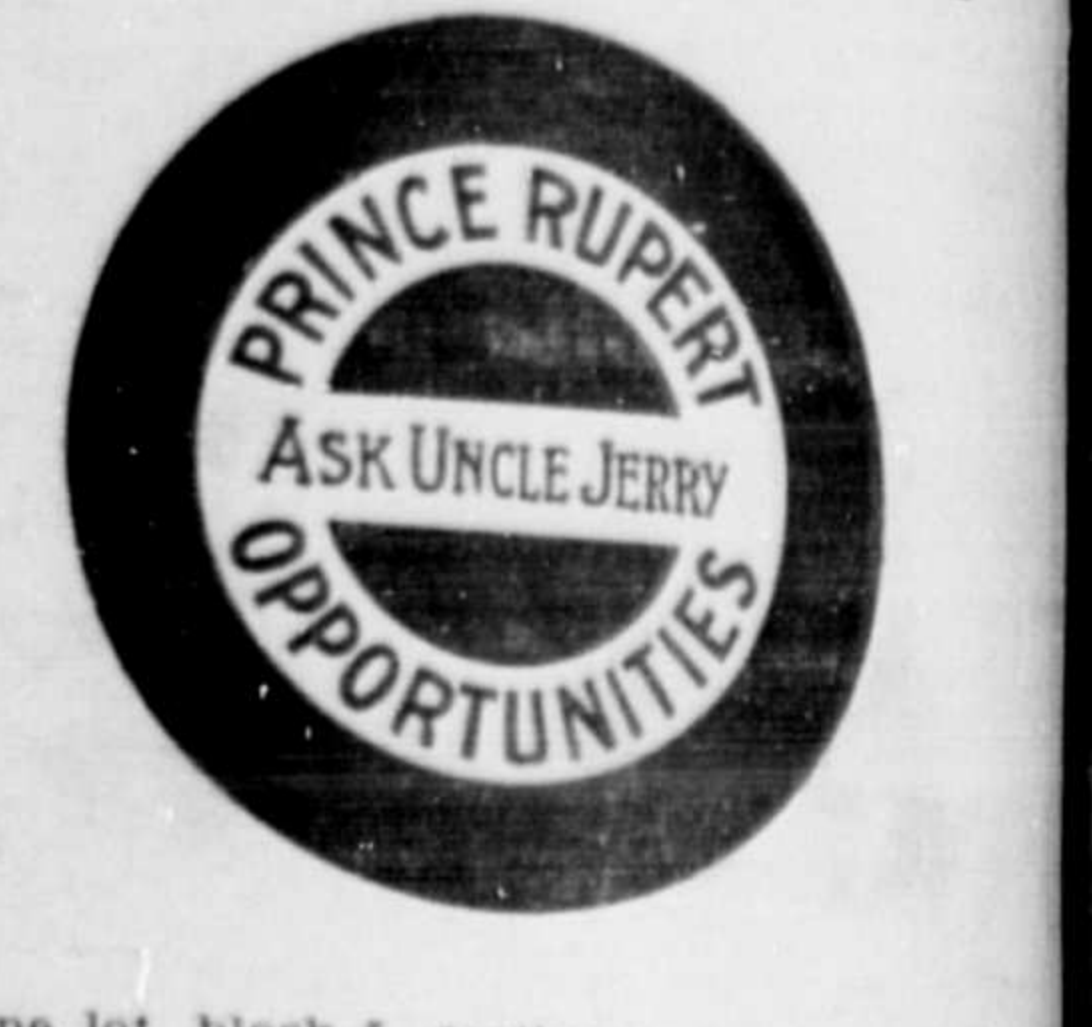

J. F. Macdonald, of Prince Rupert, arrived on Saturday night, and he will remain here for some time, says the Omineca Herald. He has secured a store opposite the Herald office and he is opening up a furniture store. Last fall he did not dispose of his entire stock and for the next few weeks he will dispose of the balance.

TARIFF COMMISSION

Liberal Amendment Voted Down by Big Majority.

(Special to Daily News.)
 Ottawa, Feb. 9.—The two-day debate on the proposed tariff commission ended last night when an amendment offered by the Liberals was defeated by a vote of 104 to 52.
