IS USING PATIENCE

Chamberlain's Blood Boiled At Results to British People

LONDON, Aug. 5.—In his speech before the House of Commons yesterday Prime Minister Neville Chamberlain said some of the things that were happening to British people in North China made his blood boil but he had to remember the number of British citizens in various parts of the Orient, many of whom could not be protected in case of war. He was endeavouring to consider the situation with patience and forbearance, ever considering that there might be more serious matters closer home.

In Tokyo the suggestion of Premier Chamberlain that it might be necessary to send the fleet to the Orient was taken with mixed feelings. Some Japanese officials felt that all Britain might do would be to send a few ships as a gesture. Others were inclined to take the warning more seriously although there was general agreement that Great Britain would not risk sending many ships away from Europe in view of the situation there.

PUBLIC MEN IN CANADA

The Toronto Star says it is well that certain facts should be stated and at intervals restated with respect to the public men of Canada; those in the administration itself, and those who serve as private members of the federal Parliament "are above the average of Canadian citizenship in intelligence and ability. Another fact is that many of them would have done better for themselves by staying out of politics. A third fact is that most of them serve their constituencies and their country with conscientious zeal, and that the average of honesty is high. They represent all classes of people, and are themselves of all classes—a desirable feature of democratic government. Those who rise to the top are Canadians of conspicuous ability.

The fact is that public life is not the profitable thing some fancy it. The members are fair marks for every canvasser at Ottawa and are all expected to contribute liberally to this and that in their own constituencies. It is a pity that they should be brought into contempt as they have been. Insofar as the criticisms launched against them may lead the people of Canada to take a greater interest in public affairs, the result is good. But if the impression is created that democracy is a failure and its servants unworthy of public confidence, great harm may result. As a matter of fact, Canada is well served by men who average

high in both capacity and character."

We should like to add to the statement of the Star that what is true of public men in public life at Ottawa is just as true of public life in Victoria, in Toronto, in Regina or in any of the provincial capitals and also in the city councils. The very fact that they are chosen by people who know them in their own communities indicates that they are outstanding people in their communities. They are at least as honest as the average and probably have more ability. And, in saying this, it is not because the parties in power are in most cases of the Liberal persuasion. This is not a reference to parties. Dr. R. J. Manion and the leaders of the other groups are included. As a rule they are honest and have good intentions, no matter what we may think of their policies.

PHILPOTT'S IDEA

Elmore Philpott of Victoria, who lectured before the Women's Canadian Club in Prince Rupert not long ago, does not like the pro-German influences in this country. He says "the time to stop all such activities is at the beginning. There should be ruthless deportations of all unassimilated Germans who are directly or indirectly promoting the Nazi cause in Canada. There should be amendments to the naturalization act to withdraw citizenship from aliens who make themselves the tools of anti-British institutions."

Cincinnati Well Out in Front For National Flag—Won 22 and Lost Seven Games in July

CINCINNATI, Aug. 5: (AP)—A National League pennant for Cincinnati appears almost "in the bag" today as the Reds look at the record and figure they can pick up 500 ball from here on and still land more than a good chance at the play-off.

And if there was a club among seven capable of holding the current pace-setters to that low mark, it didn't show in the July averages.

Despite absence from the line-up, most of the month of Ival Goodman, their extra-base-slugging outfielder, Bill McKechnie's men went through July at a 759 clip, winning twenty-two and losing only seven games to boost their margin eight full games and their standing forty-four points to a ninety-game average of .667.

The only team that approached them in effectiveness was Pittsburgh and the Pirates had to be content with nineteen wins and eleven losses, an average of .633.

Last year's champions, the Chicago Cubs, incidentally, played only .483 ball from July 1.

The Rhinelanders have it figured out this way as they look ahead to remaining games:

An even break would give them a season's percentage of .597 on ninety-two games won and sixty-two lost, the identical figure by which the St. Louis Cardinals and Cubs won pennants in 1930 and 1936, respectively.

H. Huthinson, engineer for the Canadian Fishing Co., arrived in the city on the Princess Adelaide yesterday afternoon from Vancouver, being on his way to Carlisle cannery on the Skeena River.

SPORT CHAT

Four players, to be named later, together with an unannounced sum which must be plenty, go to Louisville in the deal that will make 19-year old Harold Reese a Brooklyn shortstop next spring. The Chicago Cubs offered \$35,000 and three players now with the club. Leland Stanford MacPhail, general manager of the Dodgers, says: "Pea Wee Reese has a chance to be a better shortstop than anyone in the majors today."

Phil Edwards, British Guianan runner for Canada at the Los Angeles Olympics seven years ago today, pushed the 1,500-metre field to record time as he himself set the early pace and finished third to Luigi Beccali of Italy. Edwards was voted Canada's greatest athlete in 1936 when he was a point-winner in the Olympics.

Harold S. Vanderbilt's Ranger won its fourth straight victory over T. O. M. Sopwith's Endeavour II at Newport, Rhode Island, two years ago today. It was Great Britain's sixteenth bid for the America's Cup which has remained in the United States since 1851.

World Series Between New York and Cincinnati Will Not Be Runaway This Year

YANKS HAVE ARMOR KINK

NEW YORK, August 5:—Baseball's bookworms who study the records come up with a startling discovery that may be of more than passing interest.

They discover a kink in the New York Yankees armor.

Figures have been dragged out to show the Yankees are not enjoying the big innings that formerly marked their games as they crushed opponents in a power-house march to the American League title in recent years.

That seems due, in part, the experts say to the fact that there are three cylinders in the Yankee motor that are missing too often.

Frankie Crosetti, the lead-off man, is having trouble staying above the 200 mark and it seems opposition pitchers can also have a sigh of relief when Tommy Henrich and Babe Dahlgren are up. So the concentrated power of the Yankees is slumping and only twice in the last 200 innings of play have they been able to manage four runs in an inning.

Combine that flaw—if that's what it could be called—in the Yankee attack with the current superheated performance of the Reds and it begins to look as though the world series will hardly be in the runaway class.

Million Pound Halibut Week—Shipping Clamshell Again to Seattle From Dundas and Zayas Island—Four Coastal Passenger Liners in Port Yesterday

The week following the closing of Area No. 2 to halibut fishing has seen most of the vessels of the Prince Rupert fleet tying up. Quite a number of the boats, however, expect to be going out again shortly, some for black cod and incidental halibut fishing in Area No. 2 and others for halibut fishing in Area No. 3 which is still open. There is uncertainty as to how many vessels will go out for black cod fishing. The rush back to port of final catches of the season from Area No. 2 resulted in exceptionally heavy landings at Prince Rupert during the week following the closure, the total being practically one million pounds or, to be exact, 99,300 pounds for the period. Of this total 419,700 pounds was from forty-five Canadian vessels and 578,300 pounds from twenty-five American bottoms including a number of the larger boats of the Seattle fleet. Landings for the season up to and including yesterday had reached an aggregate of 11,571,200 pounds as compared with 9,360,750 pounds at a corresponding date last year. The Canadian total was 5,408,900 pounds in comparison with 4,469,150 pounds a year ago and the American aggregate 6,162,300 pounds as against 4,401,400 pounds. Despite the continued heavy landings of fish, prices remained steady. The top bid of the week for Canadian fish was 7.4c and 5c received by the Johanna for 14,000 pounds and the low 6c and 5c which several boats were paid. For American fish the high price of the week was 8.1c and 5.5c paid the Reliance I. and Tordenskjold for 15,000 and 29,000 pounds respectively and the low 7.5c and 5.5c which might be said to have been the generally prevailing price.

To make arrangements for further large shipments of clamshell from Dundas and Zayas Islands to Seattle, W. A. Waterman of Seattle is in the city and has been making trips back and forth to the two islands. Last year some 4900 tons of shell was shipped and this year there will be a similar amount if not more. The shell is shipped to Seattle in large scows.

The Campbell Church charter yacht Caroline arrived in port at 7:30 Friday morning after an Alaska cruise with a party which disembarked from the vessel here to proceed East by rail. Another party is coming here from the East to join the Caroline for a northern cruise. Campbell Church Jr., owner of the Caroline, arrived yesterday morning on the Princess Alice from Seattle.

Having been delayed by cannery freights in the Skeena River, Union steamer Cardena, Capt. Boden, did not arrive in port until 12:30 noon today from the south, sailing early this afternoon on her return to Vancouver and waypoints.

Coastwise Steamship & Barge Co. freighter Amur is now expected to arrive here early next week to load the assay plant of the Consolidated Mining & Smelting Co. which is being moved from here to Trail. The Amur left Anyox last night for Stewart where she will load ore for Tacoma.

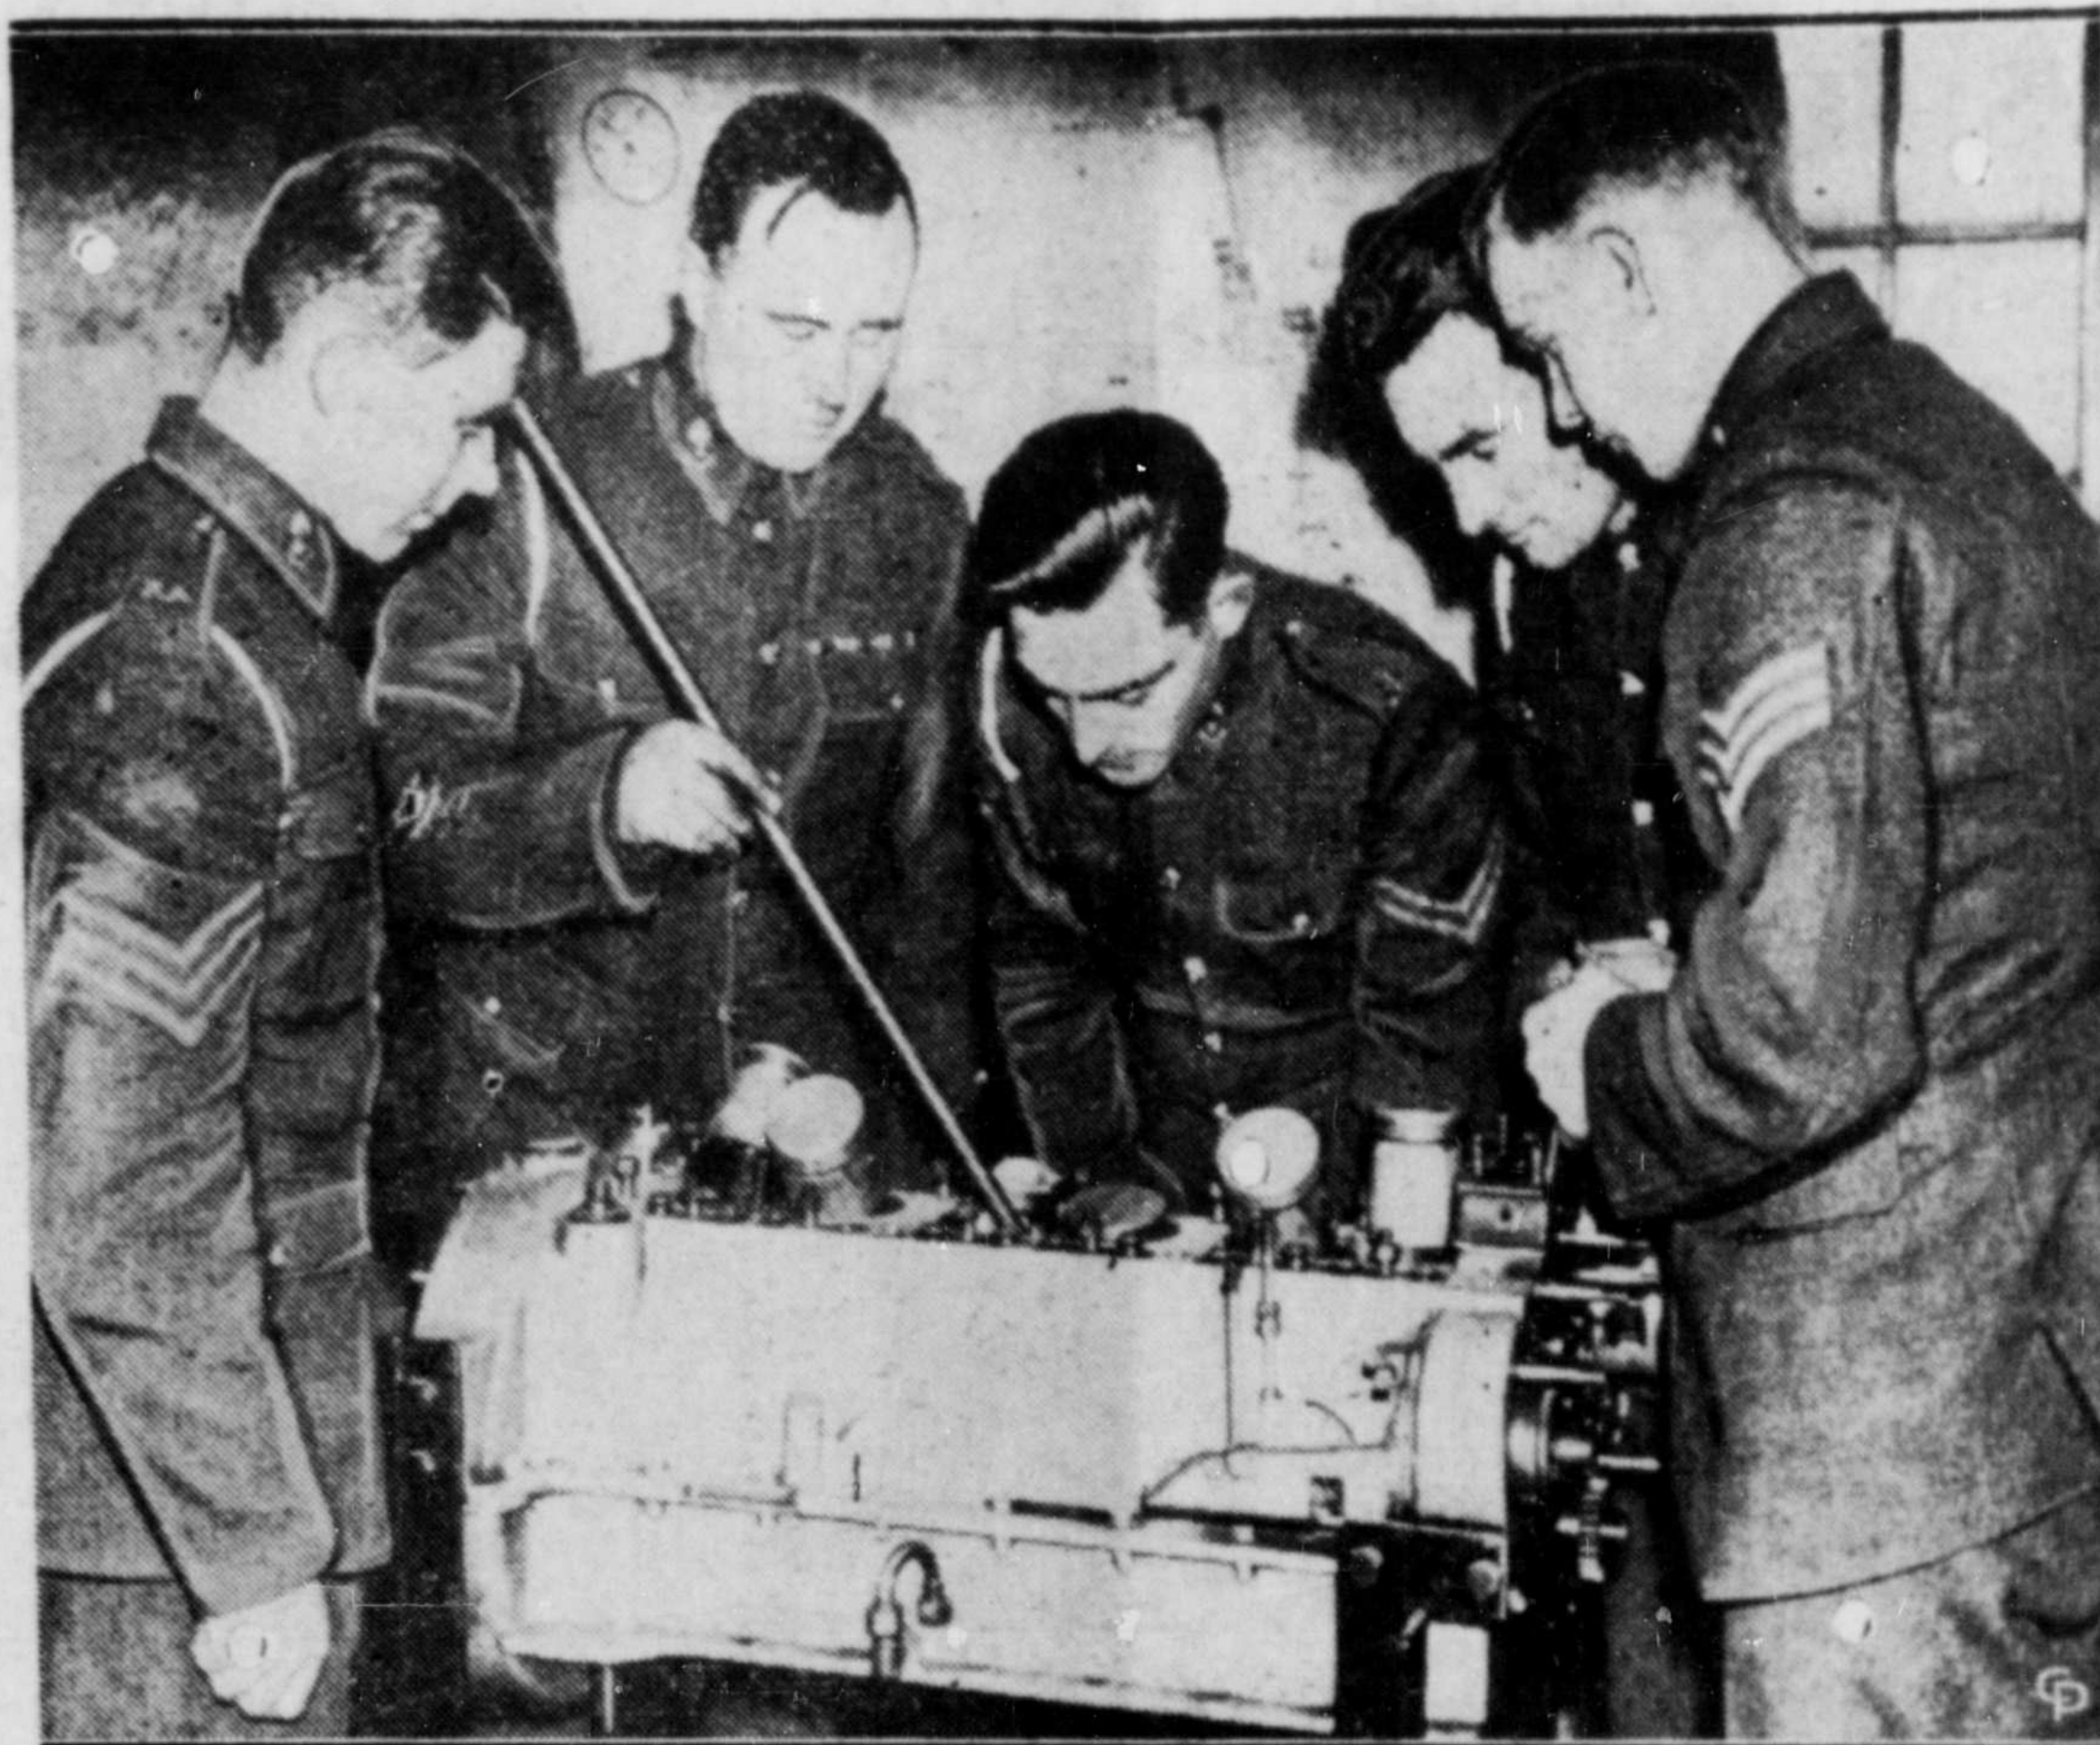

The second annual model yacht race for the David Todd handicap trophy will be run tomorrow afternoon weather permitting. This race was won last year by the Tallisman owned by A. J. Croxford. Entries to date are: Saracen (scratch) Invader (three minutes start), Ivanhoe (three minutes start), Rupertia (three minutes start), Sheila (three minutes start), Vagrant (three minutes start), Tyee (three minutes start), Annie J. (three minutes start), Saucy Lass (five minutes start), Mary Annie (five minutes start). In addition to the above race, subject to sufficient entries, the sailing boat race which was postponed on Regatta Day owing to lack of wind, will also be held following the model yacht race. There will also be the challenge race between Paul Armour's "Hi-Ho" and Dan Wick's "Hi-Ho" both of whom are in doubt as to which is the fastest speed boat.

Mr. and Mrs. C. V. Evitt left last night on the Confidence for a week-end trip to Snug Harbor. They had on board a party consisting of Mr. and Mrs. Roy Nichols and Patricia and Mrs. Blackstock and Sheila.

BRITAIN'S MODERN SOLDIERS MUST STUDY ENGINEERING

In Britain's highly mechanized army, recruits must study not only the science of war, but the art of making machinery behave. Here are some youthful non-commissioned officers getting that training. A sergeant is instructing men from several artillery units in engine maintenance at a class in the Woolwich Arsenal, London. Incidentally this is one of the first pictures permitted in the famous arsenal since the Great War.

MONDAY IS HOLIDAY

But Not in British Columbia—Only Ontario, Manitoba and Alberta

TORONTO, August 5: (CP)—Equipped with rod and tackle, sun suit, bathing togs and the good old hamper well filled, thousands of city people in Ontario and the Manitoba and Alberta capitals will slip away from big-town worries over the week-end to enjoy their civic gift—a holiday, Monday.

Even the United States doesn't know Civic Holiday. It's an Ontario local custom that has interested other Canadian towns and cities at various times. But outside the older province only Winnipeg and Edmonton are celebrating this year.

Seventy years ago the Toronto city fathers argued that it was a long time between holidays and Ontario summers were hot and tiring. In spite of staid business men's disapproval of such municipal "luxury," the city council declared for a "carefree" day in August. Soon many other cities and towns came into line and closed up businesses the same day as the provincial capital.

Eventually the first Monday in August became traditional as a Civic Holiday in Ontario and now is observed very widely within the province by local proclamations in cities and towns.

Other Provinces
In addition to the August 7 observance in Winnipeg and Edmonton the cities of Regina and Saskatoon give their people a rest on the Wednesday of their Exhibition Week. Calgary pulls down its blinds for a half-day in Stampede Week.

Civic Holiday is not observed in Quebec cities although some French-Canadian municipalities have experimented in this direction in former years. This year there were extra local holidays during the royal visit.

Special local days in various months, commemorating historical events such as the landing of the Loyalists, and Dartmouth Day, are municipal holidays in the Maritime Provinces but the August civic holiday is not a feature. Neither have the cities of British Columbia adopted the idea.

The last Dominion holiday was Dominion Day, July 1. The next will be Labor Day, September 4.

Man in the Moon

What a summer, what a summer! How I like it!

Jake says he lives in Prince Rupert just because the summers are cool and he finds everyone kicking because they are not hot.

"The man next door has just borrowed the garden roller."

"Then I suppose we'd better tell the Joneses so's they'll know where it is."

"It doesn't belong to the Joneses, they got it from the Harrisses."

"Then we'd better tell the Robinsons."

"Could you give me a job, sir?"

Store Manager: "But aren't you the fellow I saw trying to kiss my daughter last night?"

"Er—yes, sir, but I didn't."

"Well, young man, I don't want any failures in my store. Good day."

"I want to grow some trees in my garden. Can you sell me a few seeds?" asked Mrs. Newlywed.

"Certainly, madam," replied the assistant. He fetched her a packet.

"Can you guarantee these?" she asked.

"Yes, madam, we can."

"Will the trees be tall and thick in the trunk?"

"They should be, madam."

"And quite strong at the roots, I suppose?"

"Oh, yes, madam."

"Very well, I'll take a hammock at the same time."

"Service de Luxe" and "Ambush" Being Featured at Capitol Theatre

"Service De Luxe," a comedy starring Constance Bennett, and "Ambush," a suspenseful drama with Gladys Swarthout and Lloyd Nolan comprise a double bill program being presented tonight at the Capitol Theatre.

"Service De Luxe," a fast-moving farce, deals with an exclusively personal service bureau which undertakes almost any assignment from its clients. When a young man comes to New York to sell his patent tractor, Miss Bennett undertakes his management with laughable and complicated situations as the result. Vincent Price, New York Stage star, makes his screen debut in this picture, the cast also including Charles Ruggie, Mischa Auer, Helen Broderick and Joy Hodges.

"Ambush" revolves about the plot of a "perfect bank robbery." Miss Swarthout being precipitated into the hide-out of the bank burglars where she has gone to attempt to rescue her young brother from their grasp. The drama goes on to a thrilling climax. Other members of the cast, besides Miss Swarthout and Lloyd Nolan, are William Henry, William Frawley, Ernest Truex, Broderick Crawford and Rufe Davis.
