WAR LIFE INSURANCE

It is a notable fact that, during the last war, every Canadian life insurance company paid in full death claims whether the insured was killed overseas or died in this country. In Canada there are four million policyholders and it is announced that war conditions will not affect policies. Policies will be honored in accordance with the individual contracts. That is really a gift to the nation.

AN UNHOLY PACT

Right Hon. Winston Churchill, First Lord of the Admiralty in the British cabinet, looks upon the Soviet-Nazi pact as an advantage to the democracies. It has stripped Russian Communism and Nazi anti-Communism of their whole theme, of their credentials, of their means of appealing to the mind and spirit of man. He says that, instead of two senarate prilosophies, the world sees two rival cancesters joining forces, pooling their luck and trying ! to shoot their way out with any loot they can carry through the G-men of civilization.

. Discussing the resemblances and the differences between Naziism and Bolshevism, Churchill compares them with the North and South Poles. "If you woke up in the morning at either you would not know which it was."

NO DANGER HERE

There is no reason for Prince Rupert people to feel iitter over the possible presence of a German submarine in the neighborhood. The work of a submarine is to try to sink enemy ships. It does not attack land bases. Also it would not waste a torpedo on anything as small as the Prince John. It might possibly be looking for one of the Empress liners or one of our naval destroyers but fishing graft and such like would be beneath its notice. The cost of sinking them would be too great.
